GOVERNMENT OF MADRAS.

PUBLIC WORKS DEPARTMENT.

General.
Establishment.

Read—the following papers :—

From Lieutenant-Colonel P. MONTGOMERIE, R.E., Superintending Engineer, Tank Maintenance Scheme, to the Chief Engineer for Irrigation, dated Chepâk, 28th January 1884, No. 121 T.

With reference to paragraph 2 of G.O., No. 11 I., dated 7th January 1884, I have the honor to request you will be so good as to obtain the sanction of Government to the temporary subordinate and office establishments required for next year as specified in the accompanying list.

I propose to raise the salary of the second clerk of my office from Rs. 50, 3rd class, 3rd grade, to Rs. 80, 3rd class, 1st grade, per mensem. I think this increase of pay is necessary as the work in the office is much increased. I may also add that even with the proposed increase he will draw less salary than the second clerks of other Superintending Engineers' offices, viz., Rs. 100 to 120.

I also propose to have an additional clerk on a salary of Rs. 30 to 40, 4th class, 2nd grade, both of which I request you will be so good as to sanction.

No. 20 E.W.

Endorsement on the above.

Forwarded to the Chief Engineer, Public Works Department, with a recommendation that the temporary upper subordinate and office establishments required for the Tank Maintenance Scheme for 1884-85, may be sanctioned.

2. The proposed scale of establishment involves an excess of Rs. 824 over the amount provided in the budget estimates for 1884-85, but this excess may be met by reappropriation in due course.

Camp Borbarasinghi, (Signed) J. O. HASTED, Colonel, R.E.,
12th February 1884. Acting Chief Engineer for Irrigation.

To the Chief Engineer, Public Works Department.

No. 347 T.

The scale of establishments has been drawn up in the prescribed form.

Chepâk, (Signed) P. MONTGOMERIE, Lieut-Col., R.E.,
3rd March 1884. Suptg. Engr., Tank Maintenance Scheme.

No. 429 T., Public Works.

As requested the statement of the proposed establishment is herewith submitted in the revised form.

(Signed) A. S. RUSSELL,
17th March 1884. *for* Suptg. Engr., Tank Maintenance Scheme.

Office note from the Examiner of Public Works Accounts, dated 25th March 1884, No. 1294.

Order—dated 1st April 1884, No. 882 W., Public Works.

The tabular statement showing the proposed changes in the establishments of the Tank Maintenance Scheme, is sanctioned. It will, however, be understood that Executive establishments cannot be entertained except under the rules specially applicable to those establishments.

2. The members of the office establishment being only temporary, are on fixed pay, and are not entitled to increments. The statement has been revised in this respect.

3. This sanction has been registered as Provincial No. 1 W. of 1884-85 and classified as Establishment, Temporary.

Read—the following papers:—

From Lieutenant-Colonel P. MONTGOMERIE, R.E., Superintending Engineer, Tank Maintenance Scheme, to the Chief Engineer for Irrigation, dated Chepauk, 17th November 1883, No. 518 T.

With reference to paragraph 2 of G.O., No. 1700 W., dated 16th June 1883, I have the honor to request that sanction may be obtained for the retention of the following temporary engineer establishment, viz.:—

	RS.
2 Executive Engineers	650 each.
1 Assistant Engineer	450
1 Sub-Engineer	300

and that sanction may also be obtained for the entertainment of the following engineer establishment required for No. 2 Tank division:—

	RS.
1 Executive Engineer	650
1 Assistant Engineer	450
1 Sub-Engineer	300

No. 144 I.

Submitted to Government with a recommendation that the sanction of the Government of India to the temporary establishment required for the Tank divisions next official year may be obtained.

2. As the establishment for the division at present employed is still incomplete, and much remains to be done to place the work on a proper footing, it is suggested that Colonel Montgomerie should continue in charge of the divisions for another year, and that the Government of India should be requested to renew the sanction conveyed in their letter, No. 459 G., dated 19th March 1883, to the appointment of a Superintendent of Works, with the understanding that this appointment will be in lieu of that of one of the two Executive Engineers sanctioned in Government of India letter, No. 741 G., dated 21st May 1883.

Chepauk,
4th December 1883.

Letter—from

Colonel J. O. HASTED, R.E.,
Acting Joint Secretary to the Government of Madras,
Public Works Department,
Irrigation Branch,

To

The SECRETARY to the GOVERNMENT of INDIA,
Public Works Department,
(Irrigation.)

Sir,

In forwarding, herewith, a copy of Proceedings of Madras Government, No. 11 I., dated 7th January 1884, I am directed to request that sanction for the temporary establishment required for the Tank Maintenance Scheme may be renewed for another year. The present sanction is for a Superintendent of Works, two Executive Engineers, one Assistant Engineer and one Sub-Engineer, and I am to say that, as the work has not yet fairly been started, the re-appointment of the Superintendent of Works is considered essential, but that it is proposed he should take the place of one of the Executive Engineers, thus reducing the establishment already sanctioned by an Executive Engineer.

2. I am also to request that a fresh sanction may be accorded to the temporary establishment, noted in the margin, required for the No. 2 Tank division, which will be formed from the 1st March next in accordance with the scheme approved in your letter, No. 40 I., dated 26th January 1883.

	RS.
1 Executive Engineer	650
1 Assistant Engineer	450
1 Sub-Engineer	300

I have the honor to be,
Sir,
Your most obedient servant,

(Signed) J. O. HASTED, Colonel, R.E.,

Read—the following papers :—

From Lieutenant-Colonel P. MONTGOMERIE, R.E., Superintending Engineer, Tank Maintenance Scheme, to the Chief Engineer for Irrigation, dated Madura, 23rd November 1883, No. 525.

I have the honor to submit, for the sanction of Government, an estimate, amounting to Rs. 2,300, for a survey establishment for three months, from the 1st January 1884 until the end of the current official year, to carry out preliminary operations in the Madras catchment basin, which, I understand, you are desirous to have taken up by the No. 2 Tank division as soon as it is organized.

And I have to request you will be so good as to inform me if I may arrange for the appointment, from 1st April next (pending approval of the Chief Engineer), of the proposed establishment of supervisors and overseers for No. 2 Tank division.

Office note from the Examiner, Public Works Accounts, dated 20th December 1883, No. 1015.

Order—dated 7th January 1884, No. 13 I., Public Works.

Under the provisions of paragraphs 194 and 278 C of the Public Works Code, the estimate for the survey establishment required for executing the preliminary operations in connection with the Madras catchment basin should be classed as a minor original work, and can, therefore, be sanctioned by the Superintending Engineer himself.

2. The Superintending Engineer is authorised to make the preliminary arrangements for the upper subordinate establishment required from 1st ~~April~~ next, in anticipation of the sanction by the Government of India, to the formation of a second Tank division, which has been applied for in G.O., No. 11 I., dated 7th January 1884.

Stating that the — for carrying out preliminary operations in the Madras catchment basin can be sanctioned by the Superintending Engineer himself, and authorising him to arrange for the upper subordinate establishment for a second Tank division.

21st February 1884, No. 472 W., Public Works.

GOVERNMENT OF MADRAS.

PUBLIC WORKS DEPARTMENT.

General.
Establishment.

Read—the following letter from G. H. W. WALKER, Esq., Officiating Under Secretary to the Government of India, Public Works Department (General), to the Secretary to the Government of Madras, Public Works Department, dated Fort William, 11th February 1884, No. 195 G. :—

	RS.
Local allowance for Superintendent of Works	100
1 Temporary Engineer	650
1 Do.	450
1 Sub-Engineer	300

I am directed to acknowledge the receipt of your No. 12 I., dated 7th January 1884, applying for renewal of sanction to the establishment noted in the margin for the Tank Maintenance Scheme, and asking for further sanction to three temporary engineers on the same rate of pay for a second division.

2. I am to remind you that it was stated in paragraph 5 of your No. 3273 W., dated 11th December 1882, that the additional Superintending Engineer, who was ultimately provided for the scheme by means of the local allowance of 100 rupees given to an Executive Engineer acting as Superintendent of Works, would be required probably for one year only. Accordingly the allowance was sanctioned by the Government of India, and confirmed by the Secretary of State, for one year. Before extending this sanction it is necessary that valid reasons for the extension should be given, and I am to request that a statement may be furnished showing the work already done and remaining to be done by Colonel Montgomerie, the officer who is in charge of the scheme.

3. In regard to the establishment for the first and second Tanks divisions, I am to say that the Government of India will willingly accord sanction to the entertainment of temporary engineers, within the limit mentioned by you, on the Madras Government submitting the names of competent men; but I am to point out that hitherto no such appointments, requiring the sanction of the Government of India, have been proposed for the Tanks, unless Mr. Wallnut, whose appointment was sanctioned for the Barur tank, is considered to belong to the Tanks division, and it is observed from the last distribution return that the division has been manned by members of the permanent establishment and temporary men for whose appointment the sanction of the Madras Government sufficed. Under these circumstances, the submission of the names of suitable engineers will be awaited, who may be utilised, after sanction, either in the Tanks division itself, or to set permanent officers free for employment in that division.

4. Finally, I am to state that the Government of India desires to impress upon the Government of Madras its preference to the actual improvement of the tanks of even one district, to the mere preparation of schemes in a large number of districts; and I am to request that this may be borne in mind both with regard to the extension of the appointment of Superintendent of Works and the plan of operations for the Tank scheme.

Order—dated 21st February 1884, No. 472 W., Public Works.

Communicated to the Chief Engineer for Irrigation for report on the subject of paragraph 2 of the letter from the Government of India, and for information and guidance as regards paragraph 4.

2. The Government of India will be addressed, with reference to paragraph 3, on receipt of the report now called for.

Letter—from

Colonel R. H. SANKEY, C.B., R.E.,
Secretary to the Government of Madras,
Public Works Department,

To

The SECRETARY to the GOVERNMENT of INDIA,
Public Works Department.

Sir,

In continuation of my letters quoted in the margin, in which the Government of India were requested to sanction additional staff for carrying on the Rushikulya project, and for the new Tank division, I am directed to bring to notice that, owing to the paucity of officers of the regular establishment, due for the most part, as already pointed out, to the insufficient provision for absentees, His Excellency the Governor in Council has, with much regret, been compelled to suspend the work in three out of the four Project divisions provided for in the last re-organization scheme in view chiefly to the preparation of projects suitable for famine relief, the investigations being left in an incomplete state. His Excellency in Council sees, I am to say, no immediate prospect of the resumption of this important work unless the relief already asked for, and the necessity for which was brought prominently under the notice of Colonel Brownlow on the occasion of his recent delegation to this presidency, is sanctioned at an early date by the Government of India.

No. 899 W., dated 20th March 1883.
No. 1134 W., dated 16th April „

2. I am accordingly to urge the very pressing need that exists for early action on the proposals which have already been laid before the Government of India.

I have the honor to be,
Sir,
Your most obedient servant,
(Signed) R. H. SANKEY, Colonel, R.E.,
Secretary to Government, P.W.D.

Letter No. 1212 W d/ April 23. 1883.

16TH JUNE 1883, NO. 1700 W., PUBLIC WORKS.

GOVERNMENT OF MADRAS.

PUBLIC WORKS DEPARTMENT.

General.
Establishment.

READ—the following letter from G. H. W. WALKER, Esq., Officiating Under Secretary to the Government of India, Public Works Department (General), to the Secretary to the Government of Madras, Public Works Department, dated Simla, 21st May 1883, No. 741 G. :—

			RS.	
2 Executive Engineers	...	...	650	each.
1 Assistant Engineer	...	...	450	
1 Sub-Engineer	...	...	300	

In reply to your letters, Nos. 1134 W. and 1212 W., of 16th and 23rd April 1883, I am directed to communicate sanction to the temporary establishment marginally noted, required for dealing systematically with the tank system for the period of one year, and to state that should it become necessary to retain the establishment in question for a longer period, application should be made for renewal of sanction three months before the expiry of the present sanction.

2. As regards the appointment of a Superintending Engineer for this work, I am to remind you that a Superintendent of Works, and not a Superintending Engineer, has already been sanctioned by the Government of India in Public Works Department, No. 459 G., of 19th March 1883, and you were informed in Public Works Department letter, No. 502 G., of 4th April 1883, that the local Government was at liberty to employ one of its Superintending Engineers on this duty if it was considered necessary, filling up his place by a Superintendent of Works; no further orders are therefore required on this point.

3. The rest of the temporary establishment to which sanction is asked can be sanctioned by the Madras Government under Public Works Code, I, 88.

4. As regards appointment of officers to fill these posts, I am to refer you to paragraph 2 of Public Works Department letter, No. 742 G., of 21st May 1883, and to add that the present sanction must not be taken as affecting the question of the strength of the permanent establishment which is being separately considered.

ORDER—dated 16th June 1883, No. 1700 W., Public Works.

Communicated to officers concerned.

2. The Superintending Engineer will at the proper time report on the subject of paragraph 1 of the foregoing letter.

3. The question of the provision of the necessary Engineer Establishment for the project will be dealt with separately.

16th April 1883, No. 1133 W., Public Works.

GOVERNMENT OF MADRAS.

PUBLIC WORKS DEPARTMENT.

Read—the following papers :—

From Lieutenant-Colonel P. MONTGOMERIE, R.E., in special charge of Tank Divisions, to the Chief Engineer for Irrigation, dated Chepâk, 30th March 1883, No. 3.

With reference to G.O., No. 743 W., dated 7th March 1883, appointing me for special duty in your office in connection with the work of the new Tank divisions authorized in Proceedings of Madras Government, No. 143 I., dated 12th February 1883, I have the honor to submit a statement of the establishment required to make up one Tank division, costing Rs. 32,000 per annum, as proposed in your note* on minor irrigation works, dated 27th November 1882, and to request permission to appoint, temporarily, from the 1st April 1883, the draughtsmen and office establishments included therein, to enable me to put in hand the preparatory work required in connection with the professional investigations on which the Tank divisions have to be employed.

2. As you are aware, there is a vast quantity of information in the Revenue Survey office, connected with the districts in which these operations will be carried out, although unfortunately this information has not been arranged altogether in a manner suitable for our purpose. There is also a good deal of data with reference to the grouping of the minor irrigation works generally, in a more or less disconnected form, available in your office, and perhaps also in some of the district offices. And I need hardly point out that the more completely this information is utilized, preparatory to the field work in the districts being taken up, the less will be the delay in completing the professional investigation which is the fundamental work required in the practical treatment of the minor irrigation works of the presidency.

3. I propose carrying out these professional investigations somewhat on the system followed for the Mysore tank scheme, but the same detail will not be necessary if the information in the Revenue Survey office can be utilized. The detailed instructions for a systematic prosecution of these investigations will be forwarded to you, in due course, for approval; they will be based on the Irrigation circulars which have, from time to time, been issued from your office. And I am in hopes of being able to embody, in a more comprehensive manner, the substance of these circulars with other hydraulic data in the form of a Manual, for the use and guidance of the tank divisions or for the conservancy establishment that may supersede them in the future. This, however, must take time.

4. From the tenor of your remarks, in your note above referred to, it would appear that it is proposed to utilize the new Tank divisions not only in the work of investigation, estimating and registering, but also in the actual execution and supervision of work at the same time. If this be the intention, I would venture respectfully to point out that these absolutely necessary and essential investigations will

---

* Also a statement of the special establishment to be attached to your office, Rs. 33,600.

never be completed within a definite period: for it is very certain that, before the period of fifty-five years, which you allow will be necessary to complete the work, has elapsed, famines, wars and other distracting influences must be reckoned upon, and the collapse of the operations will be as complete as that of the Mysore scheme apparently was under the pressure of the last famine. Whereas, on the contrary, if the investigation and estimating is in an advanced state, the mere accident of a famine must advance rather than retard any scheme for actually carrying out the work.

5. Without asking you, therefore, to commit yourself to any scheme for the actual maintenance and repair of the minor irrigation works of the Madras presidency, which must necessarily be more of a revenue than a professional question, and which will depend, in a great measure, on the intentions of Government, with reference to the revival of Kudimaramut, the enforcement of an Irrigation Act, and the extent to which the Revenue Department will be required to carry out all necessary unskilled labor, by means of the cultivators themselves, I would most strongly recommend that, in the treatment of the subject generally, the principle of carrying out the professional investigations separately and distinctly from the actual execution of the work be strictly followed, at least for some time to come. Should this principle meet with approval, I shall attend to this portion of the scheme with the view to insuring the systematic examination and record of all the minor irrigation works thoughout the presidency within a definite period.

6. The importance and magnitude of these preliminary operations do not appear to be fully realized; and I would venture to draw your attention to the remarks of the late Colonel W. R. Johnson, Superintending Engineer, Mysore, who, in the 6th paragraph of his memorandum of the 14th February 1882, stated: "It may be as well here to give some idea of the amount of preliminary work this scheme entailed. ……… I pointed out that this work would be necessary before the restoration of the tanks could be commenced, and estimated that the establishment charges alone would probably amount to 50 per cent. of the total cost of the work." Captain Woodward, R.E., in his report on the working of the Ceylon Ordinance, dated 22nd August 1874, says with reference to preliminary operations: "The large tank of Bassawakulam ………intended for the irrigation of about 1,000 acres……… The extensive surveys required to ascertain the capabilities of this tank occupied two officers for eight months." And again: "The repairs of the Mahawema Madawachiya, a tank……… to irrigate 300 acres……… The survey occupied one officer nearly five months."

In drawing up the Mysore tank scheme it was estimated that one individual could examine and dispose of 47 tanks in a year, but whether so much was actually accomplished is not clear. If, however, we take 50 minor irrigation works as the most which one individual can dispose of, it will take the entire strength of the six Tank divisions fifteen years to deal with the 50,000 minor irrigation works of Madras.

7. This investigation work is even more necessary for the treatment of the minor irrigation works than the revenue survey is for the settlement of the land revenue, and it must be carried out in as complete and systematic a manner as possible, whatever other arrangements are made for the execution of the work thereafter. And the only possible circumstances under which the carrying out of these investigations might be considered unnecessary would be in the event of the entire abandonment of all the minor irrigation works being decided upon. The abandonment of a few, or even of a considerable number, of them would not lessen the investigation work in the least; for, until the investigations have been carried out, it cannot possibly be decided which tanks may be abandoned.

8. As I understand that it is the wish of Government to commence operations in the Madura district as soon as practicable, I have written to the Superintendent of the Revenue Survey Department to put in hand at once the detailed irrigation maps required for that district, and to complete them so far as information is available in his office; and the Tank divisions, if appointed, will probably be in a position to commence work energetically in about a couple of months' time.

9. There are other localities for which information is much more complete than for Madura, and the collection of these data will also be proceeded with, if the temporary establishment now asked for is allowed. And as soon as I have some office establishment, I shall prepare and submit estimates for the maps to be prepared by the Revenue Survey Department, &c.

(Signed) P. MONTGOMERIE, Lieut.-Col., R.E.,
In Special Charge of Tank Divisions.

No. 26 E.W.

Note by the Acting Chief Engineer for Irrigation.

The list of establishment submitted by Lieutenant-Colonel Montgomerie is recommended for sanction. The scale is the same as laid down in the note submitted to the Honorable Major Baring, and, while the Superintending Engineer and Executive Engineer, with their office establishment, are intended to be temporary, the Tank division will, it is hoped, be made permanent. Permission has been given to the Superintending Engineer to employ temporarily such office establishment and upper subordinates as he requires to start the work, but I have no proposal to make for filling the appointments of Executive and Assistant Engineers, as I am aware that there is not a man whose services can be spared from the permanent staff of the department. At present I should only ask for the Executive Engineer for the Tank division, as the other Executive Engineer is not yet wanted. If officers are not available I can only suggest a reference being made to the Government of India, who may be able to supply them.

2. The arrangements to be made in starting the Tank divisions have been discussed with Lieutenant-Colonel Montgomerie, and his action thus far is approved. I am not prepared at present to lay down any rule regarding the agency by which the works estimated as necessary for the restoration of irrigation works are to be carried out. It has been fully realized that the work of investigation will occupy the special establishment employed for a very long time, and it was intended originally that the work estimated for should be carried out under this establishment. This need not be the invariable rule, but I think that, while the work of investigation is progressing in a district, the requirements of various groups will have been ascertained, and the establishment being on the spot, an upper subordinate can be detached to superintend the carrying out of the required work, which could be examined by one of the officers of the special establishment. It may be that some of the work could well be handed over to the Executive Engineer of the division, in cases where his subordinates were employed on work near at hand, but it must be remembered that at present Executive Engineers are unable to spend their ordinary allotments, and to throw more work on them would be to delay all. In other cases the Revenue Department might be willing to carry out work, and occasionally it may be that earthwork might be entrusted to the villagers themselves, but in these instances the work would have to be laid out and examined by an officer of the special establishment. I think it is advisable first to work out the requirements of a part of the Vigay basin, and then, with the maps and estimates prepared, for Lieutenant-Colonel Montgomerie to bring forward proposals for carrying out the works. The establishment now recommended for appointment will cost Rs. 65,600, and from the balance of the 1½ lakhs available, estimates for surveying, putting down bench mark stones, clearing tank bunds, emergently lengthening escapes, &c., will have to be sanctioned, so that, if, as I hope, a considerable part of the basin has been worked out before the north-east monsoon, there should be no difficulty in expending on the works the remainder of the grant.

Ootacamund,
11th April 1883.

PUBLIC WORKS DEPARTMENT.

Letter—from

Colonel R. H. SANKEY, C.B., R.E.,
Secretary to the Government of Madras,
Public Works Department,

To

The SECRETARY to the GOVERNMENT of INDIA,
Public Works Department.

Sir,

Adverting to your letter, No. 40 I., dated 26th January 1883, communicating the approval of the Government of India to the financial programme which has been prepared for dealing with the minor irrigation works of the Madras Presidency, I am now directed to forward, for sanction, a statement showing the scale of special establishment required for dealing systematically with the tank systems. The scale is the same as that laid down in the note by the Chief Engineer for Irrigation, copy of which accompanied my letter, No. 3273 W., dated 11th December 1882. The establishment of the Tank division should, in the opinion of this Government, form an addition to the permanent sanctioned scale, while the Superintending Engineer and the Executive Engineer attached to his office, with their establishment of clerks, are intended to be temporary only. The cost will be met from the grants sanctioned in your letter, No. 40 I., dated 26th January 1883, which are to cover expenditure both under Works and Establishment.

2. As regards the officers required to fill appointments as Executive and Assistant Engineers, I am to invite attention to my letter, No. 1132 W., of this day, in which it is explained that this Government are not in a position to provide suitable incumbents, and to request that the Government of India will, if possible, engage the services of officers with the requisite qualifications.

3. Should the Government of India be pleased to sanction a permanent increase in the strength of the establishment to meet the requirements, I am to express a hope that no transfer of a senior officer be made from another province, as looking to the unduly retarded promotion of the officers in this department and for other reasons His Excellency the Governor in Council would venture strongly to deprecate any such measure.

4. I am to add that the Superintending Engineer has been authorized to at once entertain his office establishment to admit of a commencement being made with the inquiry on which he is to be engaged, and to this proceeding I am to request the confirmation of the Government of India.

I have the honor to be,
Sir,
Your most obedient servant,

Letter No. 1134 Wd/ April 16. 1883

ORDER—dated 27th June 1883, No. 1812 W., Public Works.

Referring to paragraph 3 of Government of India No. 741 G., dated 21st May 1883, printed with G.O., No. 1700 W., of the 16th June 1883, the Superintending Engineer, Tank Maintenance Scheme, is authorised to entertain within the approved scale * the temporary Upper Subordinate and Office Establishments required for the project. Appointments of Upper Subordinates should be reported to the Chief Engineer for confirmation.

* Copy attached.

2. The funds required for the current official year will be appropriated on the exact amount required being intimated in each case.

3. This sanction has been registered as Provincial No. 29 W. of 1883-84 and classified as Establishment, Temporary. It lapses at the end of March 1884.

Returned, the entries in Column "Present Scale" duly checked; the numbers of Office Establishment being only temporary are not on fixed pay and are not entitled to increments.

No. 121 I' 24

OFFICE OF THE SUPG. ENGINEER,
TANK MAINTENANCE SCHEME.
Chepauk, 28th January 1884.

From
THE SUPERINTENDING ENGINEER, 882
TANK MAINTENANCE SCHEME,

To
THE Chief Engineer for Irrigation
Chepauk.

Sir,

With reference to para 2 of G. O. No. 11 W. of 7th January 1884, I have the honor to request you will be so good as to obtain the sanction of Government to the temporary subordinate and Office Establishments required for next year as specified in the accompanying list.

I propose to raise the salary of the 2nd Clerk of my office from Rs 50, IIIrd class 2nd Grade, to Rs 80, III class 1st Grade for reasons, I think, this increase of pay is necessary as the work in the office is much increased. 16 I may also add that even with the proposed increase he will draw less salary than the second clerks of the Superintending Engineers 2 Offices viz

Read 6 [illegible]

I now propose to have an additional Clerk on a salary of Rs. 20 to 40 IV class 2nd grade, both inclusive. I request you will be so good as to sanction.

I have the honour to be
Sir,
Your most obedient Servant,

[illegible]
Lt Col. R.E.
Superintending Engineer
[illegible] Division
