Letter, No. C. 3331, dated 26th October 1883, from Secretary to Government, North-Western Provinces and Oudh, Public Works Department.

Public Works Department letter, No. 20 A.G., dated 17th January 1884, to Secretary to Government, North-Western Provinces and Oudh, Public Works Department.

Resolution.—The procedure at present in force, under which the sanction to an annual repair estimate expires at the close of the official year, has been represented as causing inconvenience to the executive branch of the department; involving, as it frequently does, the preparation of two estimates and two completion reports instead of one for each work. In the case of estimates for collection of metal, and maintenance estimates generally, it would no doubt be convenient to allow them to remain current during the working season instead of lapsing in the middle of it. On the other hand, there is much in favor of the present system so far as it concerns the allotment of funds, and the regulation of gross expenditure, and any change in the present procedure would, in all probability, cause considerable inconvenience, in the first instance, to Superintending Engineers. The Government of India will, however, be glad to consider any proposal which would tend to relieve Executive Engineers of office work, without impairing financial control, and in this view the opinions of Local Governments and Administrations are invited whether any change in the direction suggested with regard to the preparation of maintenance estimates is desirable, and how far the Code rules on this subject are susceptible of improvement.

Order.—Ordered that the foregoing be communicated to the Local Governments and Administrations noted in the margin for information and guidance.

The Governments of Madras, Bombay, Bengal, the North-Western Provinces and Oudh, and the Punjab, in the Public Works Department.
The Chief Commissioners of the Central Provinces, British Burmah, Assam, and Coorg.
The Resident at Hyderabad.
The Agents to the Governor-General for Central India, Rajputana, and Beluchistan.
The Inspector-General of Military Works.

(Signed) W. S. TREVOR, Colonel, R.E.,
Secretary to the Government of India.

ORDER—dated 4th April 1884, No. 921 W., Public Works.

Ordered that the following letter be sent to the Government of India :—

PUBLIC WORKS DEPARTMENT.

General.
Account.

Letter—from

Colonel J. SHAW-STEWART, R.E.,
Secretary to the Government of Madras,
Public Works Department,

To

The SECRETARY to the GOVERNMENT of INDIA,
Public Works Department.

Sir,

I am directed to acknowledge the receipt of the resolution of the Government of India, No. 103 A.G., dated 14th March 1884, in which the opinions of Local Governments, are invited on the procedure under which the sanction to an annual repair estimate expires at the close of the official year.

2. In reply, I am to state that this question had already engaged the attention of the Madras Government; the inconvenience now found to exist in other parts of India having long been felt in this Presidency. The preparation of two estimates and two completion reports for the same work is now in great measure avoided by allowing repair estimates to remain current for three months after the end of the official year, *i.e.*, till the 1st July following.

3. The rules on the subject will be found in paragraphs 1149 and 1150 of the Madras Public Works Code, to which I am to invite attention.

I have the honor to be,
Sir,
Your most obedient servant,

Major, R.E.,
Under Secy. to Govt., P.W.D.

C.A.W. —

(1) Can we not now post two of the B.C.E. students of C.E. College to tempy: Sub-Engineerships in place of Sub-Engineer Mahadeva Iyer (posted to Tank Divn.) and of Sub-Engineer Cormac (supposing latter to be promoted tempy: to Asst. Engr.)?

(2) What rule is there against posting permanently to grades of Sub-Engineers or Supervisors passed L.C.E. & B.C.E. students of the College? —

C.S.
24-3-84

To D.W.

I do not think that Mahadeva Iyer's posting to the Tank System creates a vacancy on the permanent Establishment of Upper Subordinates. An appointment in his place would, I am inclined to think, be inadmissible. Sub Engineer Cormac's nomination to the Temporary Engg. Establishment will require the sanction of the Govt. of India. Should this be obtained, only a substantive *pro tem* appointment or promotion would be admissible in his place. 921/22

(2) The Code Rules seem to contemplate that Students from the C E College shall first undergo a practical training before being permanently posted to the Dept. but I can quote no rule which would preclude the Govt. from appointing a B.C.E. or L.C.E. to the Upper Subordinate grades if they desired to make such an appointment. The Govt. of India have however expressed an opinion that it is not desirable to make direct appointments to the higher grades of the Upper Subordinate Estabt. as supersession of juniors would thereby be caused.

R.S. 24.3.84

Clo: 1649 921-922

Mr. Sagson is employed in the B Project Dn. This is not one of the Temporary Divisions. To meet the requirements of the Govt. of India, it will now apparently be necessary to distribute the existing staff of Temporary Engineers among the Temporary Charges (sanctioned or proposed to the G. of I) Such posting may, I think, be nominal and need not affect actual employment; but it will have to be quoted in all correspondence with the G. of I.

On receiving back the complete file on the subject of Temporary Engineers, with the *précis* written thereon yesterday, I shall endeavour to effect an adjustment. It would perhaps be

well to obtain G. of I.
approval to the arrange-
ments.

The practice does n
accord with the theory
laid down by India
in their Resolution printed
with G.O. $\frac{1438W}{4}$ d/ 9th
June 1882.

R.S. 921-22

25-3-84.

Yes – it will be well to tell off each of the temp. Engineers now, employed to a specific temp: sanctd. post. When this is done same can be reported to India for approval. They have recognised, I think, that a temp. Engineer may hold the place temporarily vacated by an officer posted to sanctd. temp. berths on account of his peculiar qualifications for same. C.A.S.

No 2667 Sale 921 921-22

Is there any apparent objection to the tools being issued as proposed by the Collector; — subject to the conditions laid down in para 8 of Circular dated 6-12-83 No. 2453. C.

921-22?

To W

It is certain that Govt. will have to buy tools to be kept in stock for Famine purposes. In these circumstances it would not perhaps be consistent to sell any.

R.S.

I do not think it advisable to accede to the Collector's proposals.

921-22
10

Looking to probable requirements in connection with the proposed railway & other matters, the land should certainly be retained by Govt. for the present at least.

Revenue

With that object, which is the proper Dept. to hold possession of the land, — the Revenue, or the P. W.?

I am inclined to think the former.

Draft disposal in accordance with correct usage.
