For repairs of buildings and roads, the classification of the Budget Estimate should be strictly followed, one estimate only being framed for each Budget entry, and if a further estimate is required, it should be supplemental to the first; by this means, as the Work Abstracts follow the estimates, the Register of Works, the Schedule of Expenditure, the Books of the Central Office will show by one entry the entire outlay on repairs to each work for the whole year, which is not the case when several estimates are sanctioned for the repairs of one work in the course of the year.

Memorandum

Enrollment of the L.E. IV Circle No 34
d/26th January 1884

As it would appear that the Coimbatore Divn Office has more estimates on hand than can be worked off within a reasonable time by the regular establishment, the Suptg Engineer is authorised to entertain two additional draftsmen, as a temporary measure, should he consider them necessary.

2. It is important that the plans and estimates of urgently needed buildings should not be delayed, and the Suptg Engineer is requested to see that avoidable delay does not occur.

The Coimbatore Division office seem to have more estimates on hand than they can get through. It would perhaps be well to authorize the entertainment of a temporary draftsman or two. Buildings are being deferred which might be completed a year or so earlier perhaps if a few hundred rupees are now spent on draftsmen.

L.S.
30.1.84.

I agree - S.E. may be authorized to employ a temp. draftsman, even if he thinks it desirable, in order to expedite these estimates.
