GOVERNMENT OF MADRAS.

PUBLIC WORKS DEPARTMENT.

Buildings and Roads.
Civil Works.

Read—the following papers :—

From Major J. L. L. MORANT, R.E., Officiating Consulting Architect to the Government of Madras, to the Chief Engineer, Public Works Department, dated Chepâk, 21st November 1883, No. 1070.

In accordance with the instructions contained in G.O., No. 3313 W., dated 15th December 1882, I have the honor to submit a set of plans and estimates for a new ophthalmic hospital to be constructed at Madras.

1 Detail measurements.
1 Specification and abstract estimate.
1 Duplicate abstract.
3 Tracings.

2. These plans have been prepared from sketches and instructions left by Mr. Chisholm when he proceeded on furlough. The delay in completing them has been caused by other more urgent requirements.

3. The total estimate, amounting to Rs. 1,36,910, provides for the following works :—

1. Central block to contain a surgery, operating theatre, ophthalmoscopic room, &c.
2. A block to contain twenty native males on the basement, and eight European males on the upper floor, with a separate room for civil or military superior patients with lavatories and water closets.
3. A similar block for females.
4. Ward to accommodate native military patients.
5. Dispensary, out-patient's consulting and waiting rooms.
6. Kitchen for Europeans and natives.
7. Latrine for native males.
8. Do. do. females.
9. Gatekeeper's lodge.
10. Apothecary's quarters.
11. Hospital assistant's quarters.
12. Out offices for medical subordinates.
13. Compound-wall, raising and levelling ground, &c.
14. Red-hills water-supply.

4. The plans have been signed by the Surgeon-General.

Memorandum from Colonel J. SHAW-STEWART, R.E., Secretary to Government, Public Works Department, to the Surgeon-General with the Government of Madras (with papers in original), dated Madras, 12th December 1883, No. 2479 C.—Through the Public Department.

The Government are of opinion that, with the many pressing calls for public offices elsewhere, they would not be justified in making such a large grant as Rs. 1,36,910 for the construction of a new ophthalmic hospital at Madras, the latrines of which alone are estimated to cost upwards of Rs. 6,000. It is observed that provision is made to accommodate between sixty and seventy in-patients. This appears to be in excess of requirements, inasmuch as most patients come for advice only and carry out the treatment at home, comparatively few cases being retained for treatment in the hospital. It is noticed that the plans have been approved by the Surgeon-General, but, in view of the estimated cost, that officer will now report whether the accommodation provided might not be curtailed.

No. 2475, Public.

Forwarded, with the plans, to the Surgeon-General with the Government of Madras.

(Signed) J. D. REES,
Acting Under Secretary.

18th December 1883.

From W. R. CORNISH, Esq., F.R.C.S., C.I.E., Surgeon-General with the Government of Madras, to the Secretary to Government, Public Works Department, dated Madras, 1st February 1884, No. 52.—Through the Public Department.

I have the honor, with reference to your memorandum, No. 2479 C., of 12th December 1883 (forwarded under endorsement of the Public Department, No. 2475 of the 18th idem), to report that I have been in communication with the Government Architect and Surgeon-Major Drake-Brockman on the subject of reducing the estimates for the proposed ophthalmic hospital.

2. In regard to the objections taken to the extent of accommodation provided in the plans, I have to remark that I do not consider it to be in excess of probable requirements. The Madras Ophthalmic Hospital is the only institution of its kind in the whole presidency, and as facilities of travel increase, it will be more largely resorted to by the inhabitants of the mofussil, especially those who have to undergo operations on the eye. Government are not correctly informed as to the nature of the cases received as in-patients. A great many of the cases are those suffering from loss of sight and for whom operative interference is necessary, and such cases must of necessity be detained in hospital, and kept under constant observation during the period of treatment. About seven hundred operations were performed by Doctor Drake-Brockman in 1883. A case of cataract after operation can rarely be discharged under three weeks or a month, and, as the average weekly operations, of this nature, are from 8 to 10, provision for cataract cases alone will absorb from 30 to 40 beds.

3. It is necessary to make provision for the ophthalmic cases of the native army, this being the only institution in the presidency which deals with such cases. We have, however, for the present to bring down the estimates, omitted the special ward for native military patients.

4. On consultation we have been able to recommend, without any deviation from the general plan of the buildings, the following reductions in the estimates:—

	RS.
Omit all covered passages	17,840
Omit native military ward	3,050
Reducing size of latrines	2,000
Pointing the brickwork with mortar instead of cement	1,450
Omit porch	1,500
Omit dispensary and out-patient's room	9,652
Omit hospital assistant's quarters	2,132
Omit gatekeeper's lodge	972
Lowering kitchen roof	600
Total ...	39,196

5. The cost now being brought within a lakh of rupees (97,714) I trust Government may be able to sanction the building at an early date. My reason for advising a new building was that Government have for years past been paying very heavily for rented accommodation; that the present buildings are old, and necessitating constant and yearly increasing outlay for repairs, and as these charges have to be paid by Government in addition to rent, it is on the whole cheaper to provide a new building than to maintain the old one on the present terms of rental. A suitable site of Government land has been reserved expressively for this hospital, and I venture to hope that a reconsideration of the question will eventuate in Government sanctioning the plans and estimates and appropriating money for the execution of the work.

OFFICE OF SURGEON GENERAL
WITH GOVT: OF MADRAS.
2? DEC 83

Sir,

I have the honor, in compliance with your Office Memo, No. and date as per margin, to submit the Statement therein called for shewing the Average daily No. of In-patients, Male and Female for the past five years, and in doing so, to point out that our numbers, on any one day, have far exceeded the "average" on several occasions when the want of more accommodation was much felt.

No. 6531 d/20th Inst.

On looking carefully over the records, I find that the highest number of Males was 35 and of Females, 22, during the period under review, and on such occasions, and indeed, whenever the number of Males exceeds 20 in Hospital, a verandah has to be utilized for the accommodation of patients.

I

I may mention, further, that patients, coming, in many instances from great distances, have to be turned away weekly on account of the limited space, especially for Native Civil Males. Nor, are we less incommoded on the Native Military side, for here, Sir, as you are aware, accommodation is so limited that a Circular order from your Office renders it incumbent on Medical Officers to ascertain if space is available before a Sepoy can be sent down to the Eye Infirmary.

4 In view of the foregoing facts, not to speak of the increasing popularity of this Institution, it were superfluous for me to add, in conclusion, that, if more accommodation were provided, more sicks could be treated, and, I am sure, it would be against the wishes of Government to, in any way, to cripple the benefits or narrow the sphere of usefulness of the only Ophthalmic Hospl. in the Residency, by reducing the accommodation provided for in the Estimate after the most careful deliberation.

I have the honor to be
Sir
Your most obedt Servant

OFFICE OF SURGEON GENERAL WITH GOVT. OF MADRAS
DEC 83

SIR,

I have the honor, in returning the Plan and Estimate of the new Ophthalmic Hospital Madras, to make the following suggestions with reference to the Medical Subordinates' Quarters and Out-offices and trust they will meet with your approval and support:—

1st That the Hospital Assistant's Quarters be shifted from their present position (in proximity to the Apothecary's residence) to the spot marked ⁑ about 50' from the Native Military Ward, and that the Out-offices for this Sub-ordinate be built at the spot marked * on the plan.

2d That the Apothecary's Quarters be advanced inwards from their present position to the spot marked ⁂ on the Southern side and the out-offices to the spot marked × about 50' distant against the Southern boundary wall.

These alterations have seemed to me necessary for the following reasons;

a. The separation of the Hosp^l Assist Quarters from the side of the Apothecary's and placing them in the new position indicated, will permit of a better supervision over the Hospl. premises, one half being under view of each Subordinate, on the Northern and Southern side.

b. The separation of the residences, appears further necessary to my mind in order to keep the European and Native elements distinct.

c. The

the position of the Combined Out-offices as marked on the plan indicates a distance of 300' from the Subordinates Quarters, a distance which is not only unnecessary but practically, inconvenient in every way to the residents.

I have the honor to be
Sir
Your most obedient Servant

NOTE OF REMARKS.

1. Accompanying is the reply of the Surgeon Genl. with the Madras Govt., to W's memo No. 2473 C of the 12th Dec/83, with reference to the construction of a new Ophthalmic Hospital at Madras

2. In answer to W's inquiry as to whether the hospital accommodation might not be curtailed – thereby reducing the amount estimated – the Surgeon Genl. writes:–

"In consultation we [Surg. Genl. and C.A.] have been able to recommend, without any deviation from the general plan of the buildings, the following reductions in the estimates

Omit all covered passages Drs. – Rs. 17,840

"Omit Native Military Ward ✓
— Rs 3,050

Reducing size of Latrines ✓
— Rs 2,000

Pointing the brickwork with mortar instead of cement
— Rs 1,450 ✓

Omit Porch — Rs. 1,500 ✓

Omit Dispensary and Out ✓ -patients room — Rs. 9,652

Omit Hospital Assistant's ✓ quarters — Rs. 2,132

Omit Gatekeeper's Lodge ✓ — Rs. 972 ✓

Lowering Kitchen roof — Rs. 600 ✓

Total Rupees — 39,196".

3. Should this reduction be effected, the estimated cost of the Hospital will stand = Rs. 136,910 − Rs 39,196 = Rs. 97,714

The Surgeon Genl. gives his opinion as to the inadvisability of any further reduction being effected.

13th Feby/84

Public Works Department, 1883-84.

693/48

Current No. 1750

Letter No. 1578

Dated the 22nd Feby/84

From the Consg Architect to Govt.

NOTE OF REMARKS.

1. With reference to G.'s endorsement No. 4036 of the 19th Feby/84, C. A. submits the accompanying abstract of an estimate for constructing a new Ophthalmic Hospital at Madras. The present estimated cost is Rs. 97,663.

2. In the abstract now submitted the following items do not appear:— Covered passages; Native Military Ward; Porch; Dispensary and Out-patients Room; Hospital Assistant's Quarters; and Gatekeeper's Lodge. And reductions have been effected by lessening the size of the Latrines, and lowering the Kitchen roof; also

by the substitution of ~~mortar~~ CBJ mortar for cement in the pointing of brickwork.

28th Feby/84

12

The Surgeon General has recommended reductions on the original plan which bring it down to Rs. 97,714.

I am not sure that the omission of the Native Military ward, which was to cost Rs. 3050, is wise, judging from Dr Cornish's para 3. of No. 52 of 1st Feby. It, as well as the other buildings so now struck out, can however be added at any time, if found necessary.—

Rs. 97,663 is the exact amount of the latest Estimate prepared by C.A. — C.S.

6-3-84

The papers should now be sent to the Hon: Member with advertence to his remarks dated 8-12-83, — and with brief note for orders, explaining the extent to which the original estimate has now been reduced, & how the reduction has been effected.

~~18~~ 18

To
THE ~~CHIEF~~ SECRETARY TO GOVERNMENT,
Public Works DEPARTMENT,

SIR,

I have the honor, with reference to your Memorandum No. 2479C of 12th December 1883, to report that I have been in communication with the Government Architect and Surgeon Major Drake Brockman on the subject of reducing the estimates for the proposed Ophthalmic Hospital.

forwarded under endorsement of the Pub Dept. No 2745 of the 18th idem.
Enclosures herewith returned.

2 — In regard to the objections taken to the extent of accommodation provided in the plans, I have to remark that I do not consider it to be in excess of probable requirements. The Madras Ophthalmic Hospital is the only institution of its kind in the whole Presidency, and as facilities of travel increase, it will be more largely resorted to by the inhabitants of the Mofussil, especially those who have to undergo operations on the

eye

eye. Government are not correctly informed as to the nature of the cases received as inpatients. A great many of the cases are those suffering from loss of sight and for whom operative interference is necessary, and such cases must of necessity be detained in Hospital, and kept under constant observation during the period of treatment. About 700 operations were performed by Dr Drake-Brockman in 1883. A case of Cataract after operation can rarely be discharged under three weeks or a month, and as the average weekly operations, of this nature are from 8 to 10, provision for Cataract cases alone will absorb from 30 to 40 beds.

3. It is necessary to make provision for the ophthalmic cases of the Native Army, this being the only institution in the Presidency which deals with such cases. We have, however for the present to bring down the estimates, omitted the special ward for Native Military patients.

4. On consultation we have been able to recommend, without any deviation from the general plan of the buildings, the following reductions in

in the estimates

Omit all covered passages	Rupees 17,840.
Omit Native Military Ward	3,050.
Reducing size of latrines	2,000.
Pointing the brickwork with Mortar instead of Cement	1,450.
Omit Porch	1,500.
Omit Dispensary and out-patients room	9652.
Omit Hospital Assistants' quarters	2,132.
Omit Gatekeeper's lodge	972
Lowering kitchen roof	600
Total	Rupees 39,196

5. The cost now being brought within a lakh of rupees (97,714) I trust Government may be able to sanction the building at an early date. My reason for advising a new building was that Government have for years past been paying very heavily for rented accommodation – that the present buildings are old, and necessitating constant and yearly-increasing outlay for repairs – and as these charges have to be paid by Government in

addition

addition to rent, it is on the whole cheaper to provide a new building than to maintain the old one on the present terms of rental. A suitable site of Government land has been reserved expressively for this Hospital, and I venture to hope that a reconsideration of the question will eventuate in Government sanctioning the plans and estimates and appropriating money for the execution of the work.
