13TH MAY 1885, No. 1135 W., PUBLIC WORKS.

GOVERNMENT OF MADRAS.

PUBLIC WORKS DEPARTMENT.

General.
Establishment.

READ—the following papers :—

From Colonel J. BEATTY, R.E., Superintending Engineer, IV Circle, to the Chief Engineer, Public Works Department, dated Coonoor, 1st May 1885, No. 166 E.W. (through the Chief Engineer for Irrigation).

I have the honor to forward, herewith, a report from the Executive Engineer, Coimbatore, regarding arrangements for the conversion of the Barur project division into a sub-division of Coimbatore, and to request permission to retain the services of the present office establishment (with the exception of the accountant who may be transferred by the Examiner for duty elsewhere) for the present official year.

ENCLOSURE.

From Captain D. McN. CAMPBELL, R.E., Executive Engineer, Coimbatore Division, to the Superintending Engineer, IV Circle, dated 30th April 1885, No. 765.

With reference to your endorsement No. 172, dated 22nd April 1885, on G.O., No. 553 W. of 22nd April, I have the honor to inform you that I do not think any member of the Barur division office can be dispensed with except, perhaps, the accountant.

2. The Barur project being classed as a Productive Public Work, a somewhat elaborate system of accounts has to be maintained, and, as those parts of the project which give the most trouble and accounts, viz., the masonry works, are just about commencing, the office labor will be greater than it has hitherto been, and it must further be remembered that the grant for this year is Rs. 98,000 against Rs. 55,265 for last year and Rs. 5,725 for the year before; and that most of this will have to be expended on a large number of scattered works.

3. I do not think it has been found that the present office establishment is excessive, and consequently there can be no reason why it should be reduced when the work is to be increased as shown above. My only reason for dispensing with the accountant is that I do not think it would be advisable to have two accountants in the same office preparing the accounts for one division.

4. The Barur office establishment consists of an accountant, four clerks and two draftsmen. The head clerk assisted by two others will not be too much to keep the sub-division accounts, check all bills, measurements, &c., and keep all correspondence; the fourth clerk will be required to work in the division office and assist the present Coimbatore accountant in compiling the extra accounts required. Two draftsmen are, I consider, necessary, as many working drawings will have to be made and probably revised estimates now and again. It must be borne in mind that, in addition to the project works, there are the works in the Krishnagiri and Hosur taluks to be attended to, and that in the latter there is the Remount Depot at Hosur, which gives a considerable amount of work in the way of petty repairs; there is also a good deal of correspondence connected with it.

5. There are at present two messengers and three ascars attached to the division, and I do not think it advisable to dispense with any of them, as Barur is such an out-of-the-way place that it is necessary that there should be more ascars than in an ordinary sub-division.

6. As regards the carrying out of the works, I think that Mr. Assistant Engineer Marjori-banks with two overseers for the project works and one for Hosur and Krishnagiri may be sufficient.

From Colonel J. BEATTY, R.E., Superintending Engineer, IV Circle, to the Chief Engineer, Public Works Department, dated Coimbatore, 4th May 1885, No. 170 E.W.

With reference to my letter No. 166 E.W., of 1st instant, and G.O., No. ^{353 W.}_A of 22nd ultimo, I have the honor to inform you that Mr. Assistant Engineer Marjoribanks is now *en route* to Barur to take charge of the new sub-division; the formation of which I propose should date from 15th instant.

2. I have informed the Examiner with a view to the accountant being transferred elsewhere, and the other four clerks and two draftsmen will be retained pending your orders on my letter above mentioned.

No. 54 E.W.

Forwarded to the Chief Engineer, Public Works Department, for favorable consideration.

OOTACAMUND,
4th May 1885.

(Signed) J. O. HASTED, Colonel, R.E.,
Chief Engineer for Irrigation.

ORDER—dated 13th May 1885, No. 1135 W., Public Works.

The proposals of the Superintending Engineer, IV Circle, are approved.

2. A report should be submitted at the close of the current official year as to the necessity for continuing the office establishment at its present strength.

Superintending Engineer, IV Circle.

(Signed) G. V. HOLLY, Captain, R.E.,
Executive Engineer.

Office note from the Examiner, Public Works Accounts, dated 6th March 1885, No. 886.

The entries in column "present scale" of proposition statement have been checked and found correct. The word "supervisor" must be inserted for "superintendent on Rs. 150," and the establishment of 1 clerk, IV class, 3rd grade, at Rs. 20, and 1 lascar at Rs. 6 per mensem, sanctioned for him in G.O., No. 279, of 6th February 1885, has been omitted from the statement.

ORDER—dated 17th March 1885, No. 648 W., Public Works.

The temporary establishment proposed for the Barar project division during 1885-86 is sanctioned. The proposition statement has been recast, and shows an increase of Rs. 20 per mensem over the existing sanction.

2. The necessary funds will be provided in the final issue of the Provincial budget for 1885-86.

3. This sanction has been registered as Provincial No. 92 W. of 1884-85, and classified as Establishment, Temporary.

late Barrow Division
during the present
year, with the excep-
tion of the accountant.

The Chief Engineer
P. W. D.

No. 765. Executive Engineer's Office
Combinator 30 April 1885

From,

The Executive Engineer
Combinator Division

To,

The Superintending Engineer
4th Circle

Combinator

Sir,

With reference to your
Endorsement No 172 dated 22nd
April 1885 on L. O. No 953^d of
22nd April, I have the honor
to inform you that I do
not think any member of
the Barrow Division office
can be dispensed with except
perhaps the Accountant.

2. The Barrow Project, being
classed as a productive Public
work a somewhat elaborate
system of accounts have to be

maintained, and as those parts of the Project which give the most trouble and accounts viz:- the masonry works are just about commencing, the office labor will be greater than it has hitherto been, and it must further be remembered that the grant for this year is Rs 98,000 against Rs 55,265 for last year, and Requirs 5,725 for the year before; and that most of this will have to be expended on a large number of scattered works.

3 I do not think it has been found that the present office establishment is excessive, and consequently there can be no reason why it should be reduced when the work

is to be increased as shown above. My only reason for dispensing with the accountant is that I do not think it would be advisable to have two accountants in the same office preparing the accounts for one Division.

4. The Baroor Office Establishment consists of an accountant, 4 Clerks and 2 Draftsmen. The Head Clerk assisted by 2 others will not be too much to keep the Sub Division Accounts, check all bills, measurements, &c, and keep all correspondence; the fourth Clerk will be required to work in the Division Office and assist the ^{present} Comptroller.

Accountant in compiling
the extra accounts required.
Two Draftsmen are I consider
necessary as many
working drawings will have
to be made and probably
revised estimates now and
again. It must be

borne in mind that in
addition to the Project works,
there are the works in the
Kishmaghery and Mosur
Salags to be attended to,
and that in the latter
there is the Remount Depot
at Mosur, which gives a
considerable amount of
work in the way of petty
repairs, there is also a
good deal of correspondence
connected with it.

5. There are at present
2 messengers and 3 Lascars

attached to the Division
and I do not think it
advisable to dispense with
any of them, as Baroor
is such ^{at} out-of-the-way place
that it is necessary that
there should be more Lascars
than in an ordinary Sub
Division.

6. As regards the carry-
ing out of the works I think
that the Assistant Engi-
neer Majoribanks with
2 Overseers for the Project
works, and one for Mosur
and Kishmaghery may be sufficient.

I have the honor to be
Sir,

Yours most Obedient
