No. 85.

ORDER—dated 13th November 1882, No. 2984 W., Public Works.

The letters quoted above are replies to paragraph 2 of G.O., No. 2471 W., dated 23rd September 1882, requesting the opinions of Superintending Engineers as to the maximum weight of tents and number of horses to be carried by rail at the expense of Government by officers travelling on duty.

2. After consideration of the several recommendations made, the Right Honorable the Governor in Council resolves to prescribe the following as maximum weights of camp equipage :—

	LBS.
Superintending Engineers	2,000
Executive Engineers	1,500
Assistant Engineers	1,000
Upper Subordinates	750

3. Officers of the Engineer Establishment will be allowed to take two horses by rail and Upper Subordinates one horse.

4. These orders are not intended to relax the rules in force as to conveyance of tents and horses by rail. They simply prescribe maximum limits within which charges, otherwise admissible, may be passed by Superintending Engineers and the Chief Engineer.

READ—the following paper :—

Office Note from the Examiner of Public Works Accounts, dated Madras, 11th September 1882, No. 474.

With reference to G.O., No. 2100 W., dated 16th August 1882, I have the honor to bring to your notice, for the information of Government, that from July 1881 to July 1882 (inclusive) special sanctions have been obtained from Government for carriage of tents and horses belonging to the Superintending Engineer, Sixth Circle, for sums aggregating Rs. 543-8-0. The several amounts vary from Rs. 9-13-0 to Rs. 101-4-0 and have been submitted for sanction every month except April 1882.

2. It is, I think, a matter which requires the notice of Government, inasmuch as it can scarcely be intended by the Code rules that such charges should recur month after month; were it so, the circumstances would hardly be so *special* as to necessitate the required "special sanction of the Government," Code, paragraph 580, Standing Order No. 66 of 1882.

No. 184.

ORDER—dated 23rd September 1882, No. 2471 W., Public Works.

The Government do not consider any modification of the principle of the Code rule necessary. They resolve, however, to delegate their special powers of sanction to Superintending Engineers in the case of tents and horses of officers subordinate to them, and to the Chief Engineer of the Department in respect to those of Superintending Engineers.

2. It is now requisite that the maximum weight of tents and number of horses to be carried by officers of each class should be prescribed. Superintending Engineers will, as early as practicable, submit their views on these points.

This ending seems
hard. Please let
me know if it
seems correct.

An officer is supposed
to join his appointment,
at his own expense, on
return from leave. There
way of getting

over the difficulty, and
that is by posting him
to the Presidency, and
then making a transfer
at the public expense;
but this is not done
in ordinary cases.
