8th June 1885, No. 1327 W., Public Works.

GOVERNMENT OF MADRAS.

PUBLIC WORKS DEPARTMENT.

General.
Establishment.

Read—the following papers:—

From Lieutenant-Colonel H. R. MEAD, R.E., Superintending Engineer, VI Circle, to the Chief Engineer for Irrigation, dated Kodaikanal, 5th May 1885, No. 195 T.J.

With reference to G.O., No. 389 I., dated 22nd April 1885, directing me to arrange for the transfer of the Vedarniem canal to the charge of the Executive Engineer, Negapatam division, I have the honor to point out that extra establishment will be required to enable him to carry on properly the work of maintenance; and I therefore request that you will obtain the early sanction of Government for the entertainment of—

			RS.
1	Temporary	overseer, 2nd class	80
1	Do.	clerk	15
1	Do.	lascar	6

for employment on the canal maintenance. Besides this establishment, other petty establishment will be required; but this, I suppose, can be charged for from the maintenance and sanctioned by local authority.

2. As soon as the above establishment is sanctioned and entertained, I propose that the canal shall be taken over. It is useless my attempting to do so before, as the Negapatam division, as you are aware, suffered seriously during the rains in October, November, and December. It is now in charge of Mr. Assistant Engineer Foord (the Executive Engineer, Mr. Wilks, being on privilege leave), who has, in the heavy repairs now in progress, more work than he can properly supervise.

3. In G.O., No. 883 I., dated 1st October 1884, an estimate for putting the canal in thorough order was ordered. I regret to say that, owing to the serious breaches, &c., that have occurred in the Negapatam division, little or nothing has been done towards its preparation.

4. At present the canal is being repaired and cleared by the Salt department on an estimate sanctioned by the Board of Revenue. This work I do not propose to take over; it is better in every way that it should be completed by the Salt department, who have begun and, I believe, executed a great portion of the work.

5. I will address you further as regards the estimate called for, of probable receipts from traffic, and expenditure for maintenance, and also with regard to applicability of the navigation rules to the canal. Before doing so, it is necessary for me to make references to the Salt Commissioner and Collector. I fear there will be some delay in this; but I would propose, as soon as the establishment asked for is sanctioned, that the canal should be taken over (the work of the repairs now in progress remaining under charge of the Salt department until completion), that I should be allowed a small grant for maintenance, and that all boats should be allowed, as now, free on the canal until the question of licenses is settled. This last will be difficult, and the canal runs partly in three rivers that are open to the sea, and are, and, I suppose, will remain, free for boats to ply on without licenses.

No. 58 E.W.

Forwarded to the Chief Engineer, Public Works Department, with a recommendation that the temporary establishment applied for may be sanctioned, as it is absolutely necessary to look after the Vedarniem canal, which has, in G.O., No. 389 I., dated 2nd April 1885, been ordered to be transferred to the Public Works Department.

2. It will be seen from paragraph 1 of the letter from the Commissioner of Salt and Abkari Revenue, communicated with proceedings of Madras Government, No. 2282, Revenue, dated 4th May 1885, that arrangements have been made for the stoppage of the repairs to the canal which were commenced by the Salt department. Government, in the Revenue Department, may be requested to arrange for the repairs being taken up again and completed by the Salt department.

3. The Superintending Engineer has been informed that immediately after the transfer of the canal to the Public Works Department a license fee of 1 rupee per ton should, as directed in G.O., No 389 I., of 22nd April 1885, be collected from every boat plying on the canal, and that the navigation rules in force on the Buckingham canal, which are printed with G.O., No. 261 I., dated 21st March 1883, should be introduced.

Ootacamund,
27th May 1885.

(Signed) W. B. deWinton,
for Chief Engineer for Irrigation.

Order—dated 8th June 1885, No. 1327 W., Public Works.

The entertainment of the temporary establishment * required in the Negapatam division, for duty in connection with the Vedarniem canal, is sanctioned.

2. The overseer will be nominated by the Chief Engineer, Public Works Department.

* 1 Overseer	on Rs	80	per mensem.
1 Clerk	on „	15	„
1 Lascar	on „	6	„

3. This sanction has been registered as Provincial No. 21 W. of 1885-86, and classified as Establishment, Temporary.

4. The subject of paragraph 2 of the note by the Chief Engineer for Irrigation will be referred to the Revenue Department for consideration.

From,
The Supdg. Engineer
6th Circle.

To,
The Chief Engineer
for Irrigation.

Sir,

With reference to G.O. No. 389 I dated 22nd April 1885. directing me to arrange for the transfer of the Vedarniem canal to the charge of the Executive Engineer Negapatam Division, I have the honor to point out that extra establishment will be required to enable him to carry on properly the work of maintenance and I therefore request that you will obtain the early sanction of Government for the entertainment of

1 Temporary Overseer 2nd Class. Rs. 80.
1 — Do. — Clerk —— „ 15
1 — Do. — Lascar —— „ 6

for employment on the canal maintenance.

Besides

Besides this Establishment, other petty Establishment will be required but this I suppose can be charged for from the maintenance and sanctioned by local authority.

2. As soon as the above Establishment is sanctioned and entertained, I propose that the canal shall be taken over; it is useless my attempting to do so before as the Negapatam Division as you are aware suffered seriously during the rains in October November and December; it is now in charge of Mr Assistant Engineer Foord (the Executive Engineer Mr Wilks being on Privilege leave) who has in the heavy repairs now in progress, more work than he can properly supervise.

3. In G.O. No 883 I dated 1st October 1884 an Estimate for putting the canal in thorough order was ordered; I regret to say that owing to the serious breaches &c that have occurred in the Negapatam Division little or nothing has been done towards its preparation.

4. At present the canal is being repaired and cleared by the Salt Department on an Estimate sanctioned by the Board of Revenue; this work I do not propose to take over; it is better in every way that it should be completed by the Salt Department who have begun and I believe executed a great portion of the work.

5. I will address you further as regards the Estimate called for, of probable receipts from traffic and expenditure for maintenance and also with regard to applicability of the navigation rules to the canal; before doing so, it is necessary for me to make references to the Salt Commissioner and Collector; I fear there will be some delay in this but I would propose as soon as the Establishment asked for is sanctioned that the canal

should be taken over (the work of the repairs now in progress remaining under charge of the Salt Department until completion) that I should be allowed a small grant for maintenance and that all boats should be allowed as now free on the canal until the question of licenses is settled: this last will be difficult and the canal runs partly in 3 Rivers that are open to the sea and are and I suppose will remain, free for boats to ply on without licenses.

Note.

1327/8

In the accompanying endorsement by the Chief Engineer for Irrigation it is stated that the temporary establishment applied for, by the Supdg. Engr. II Circle, is absolutely necessary to look after the Vedarniem Canal.

Although all proposals for increases of establishment should be narrowly scrutinised under the restrictive orders, yet in cases of special necessity, the Govt. of India lays no objection.

Submitted for orders whether the present application can be sanctioned.
