From

J. F. Price Esquire,
Collector of Chingleput.

To the Secretary to the
Board of Revenue,
Madras.

Sir,

Adverting to para 2 of G. O., Public Works Department, No 483 W, dated 21st February 1884, embodied in the Proceedings of the Board of Revenue, No 839 dated 10th March 1884, I have the honor to submit an estimate prepared by the Executive Engineer, Chingleput Division, for alterations to and improvement of the Record Room of the Sub Collector's Office. The accommodation for records which at present exists there, is not only very cramped but it is also very bad and inconvenient and renders all satisfactory arrangement impossible. The matter is one which has, hitherto, been allowed to lie over for want of funds. These can now be provided and the work which is, in my opinion, ~~very~~ necessary should be carried out.

2. What has to be done cannot, properly, be called a repair. It is practically a new work and I therefore submit the Estimate for sanction.

I have the honor to be,
Sir,
Your Most Obedt. Servt,
Frederick Price
Collector.

I. I certainly myself disapprove of stone in mud foundations and palmyrah rafters for all buildings except those of third-rate importance. In fact in a Cutcherry of this class I think we ought always have pucka walls throughout. S.E. however approves of the ~~app~~ proposals & sanction may therefore be accorded.—

Dated the 18th May/85

From the Secy to Govt – Rev. Dept.

NOTE OF REMARKS.

1. The accompanying plan and estimate provide for the improvement of the record rooms of the Sub Collector's office at Chingleput.— The estimate amounts to Rs. 1655.

2. It is proposed to convert the four existing record rooms with the open yard and verandah lying between them into three long rooms – a center room, 28½ ft. × 11¼ ft., and two side rooms each 28½ ft × 8 ft. Each side room opens into the center room by three archways, each of 6½ ft. span.— The masonry for foundation is to be stone-in-mud; for the superstructure brick-in-mortar.— The roofing of the record rooms is to consist of flat and pan

B.W.

tiles on teakwood reepers and palmyrah couples. – Subject to approval, the comparative importance of the building appears to call for the substitution of mortar for 'mud' in the foundation of the new work, and also for the adoption of teakwood couples in preference to the palmyrah provided for the roof – The increase in cost cannot be looked on as prohibitive.

3. It may be remarked that the "front verandah" of the main building for which "re-roofing" is provided is not shown in either cross section C.D. or G.H.

4. The estimate has been countersigned by the Acting Collector of the District.
