ORDER—dated 29th May 1885, No. 1253 W., Public Works.

In the resolution embodied in the proceedings above quoted, the Government of India point out the necessity for curtailing expenditure from Provincial funds, and a report is called for showing what reductions of grants are possible.

2. The statement annexed to these proceedings, compiled from reports received from Superintending Engineers, shows that, out of the allotments provided in the budget for new works, a sum of Rs. 2,91,053 is available for surrender. This statement will be communicated to the Financial Department, and, until receipt of further orders, Superintending Engineers will see that no expenditure is incurred on the works detailed therein.

3. The reserve with Government for incomplete and minor works, and for unforeseen contingencies, amounts to the comparatively small sum of Rs. 1,18,930; and the amount reserved for repairs is Rs. 2,24,175. It is not probable that any surrender will be feasible under the above heads; but should any reduction be found possible, a further report will be made to the Financial Department.
