

PROCEEDINGS OF THE MADRAS GOVERNMENT.

Read the following Proceedings of
the Board of Revenue dated 5 June 1884 Nos. R. 4900
on letter from the S. Collector of Malabar, dated
16 May 1884, No. 2267.

With reference to para 2 of G.O.
dated 24 April last No. 5114 communicated with
the Board's Proceedings of the 5. Instant No. 3782
Nos., I have the honor to state that the suggestion
is impracticable for many reasons. The building is
in a very dilapidated state and in reporting upon
its condition nearly two years ago Captain
Rawson observed with respect to the roof that
no repairs short of entire renewal would do
any good; secondly even if that portion of the
building which is not shown on the plan
as required for the new offices could be occu-
pied whilst the new structure ^{is} being erected,
it

it would still be necessary to provide accommodation in some other building and this would involve a double Police fund unless the Treasury were also removed; thirdly, the site plan makes no provision for subsidiary buildings and I expect the whole of the site of the present building will be required, not only so, but I am under the impression that the proposed site of the new offices is too near the river which has been encroaching rapidly of recent years at this spot and it may become necessary to set it back. I request that the site plan may be returned to me to enable me to look into this question.

2. As authorized I have directed the Dy. Collector to put in hand the necessary alterations of the warehouse without loss of time and as the monsoon is close at hand and there might be a difficulty in procuring materials in time, I have sanctioned the use of any materials from the old Cutcherry which he may require.

The

The building will then be handed over to the Department Public Works.

Resolution.

Submitted for the information of Govt. with reference to the G. O. quoted by the Collector.

2. The Board request that the site plan asked for in para 1 of the Collector's letter may be sent to him direct.

Order thereon 10th June 1884 No. 2471

The Collector has already been authorised to carry out the arrangements proposed by him if they are found absolutely necessary.

2. The site plan which was forwarded with the G. O. quoted to the Public Works Department has, it is presumed, been transmitted from that Department to the

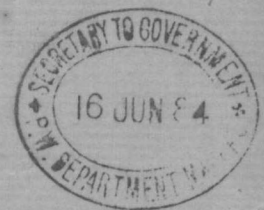

The

The Superintending Engineer. That officer
will be requested in the Public Works Depart.

ment to return it to the Collector.
