

7TH JUNE 1884, No. 236, MARINE.

GOVERNMENT OF MADRAS.
MARINE DEPARTMENT.

READ—the following papers:—

From J. H. TAYLOR, Esq., Lieutenant, R.N.R., Master Attendant, Madras,
to the Chief Secretary to Government, dated Madras, 10th May 1884,
No. 4544.

Administrative department.

I have the honor to state that the arrangements for carrying off rain water in the Custom-house sheds, transferred to the Harbour department, are very defective, a low wall requires to be built round the cistern to prevent waste water from spreading out and damaging goods, and a portion of the road in the Custom-house has to be metalled. The estimated cost of all this is Rs. (561) five hundred and sixty-one as per accompanying estimate, and I solicit the early orders of Government thereto, the amount to be allotted from Port funds, Madras.

From J. H. TAYLOR, Esq., Lieutenant, R.N.R., Master Attendant, Madras,
to the Chief Secretary to Government, dated Madras, 16th May 1884,
No. 4699.

Administrative department.

I have the honor to state that for the transport of cargo from the north side of pier enclosure to the Custom-house a ramp 37 feet x 17 feet is required. The old palisading on the site of the ramp has to be removed and the ground levelled. The roads in the pier enclosure leading to the north and south gates, over which heavy traffic passes, must be metalled with a layer of granite and gravel 6 inches deep. The granite revetment on the road between the pier and Custom-house has an abrupt fall on both the Custom-house side and the Harbour railway lines, and is dangerous to carriage traffic. It is proposed to fill up those places to a proper level. The accompanying estimate provides for carrying out the above at a cost of Rs. (264) two hundred and sixty-four, and I beg to solicit the sanction of Government thereto.

From Colonel W. H. BURTON, R.E., Officiating Superintending Engineer,
V Circle, to the Chief Engineer, Public Works department, dated Chepâk,
27th May 1884, No. 783.

In returning your endorsements, Nos. 162 and 169, dated the 20th and 21st instant, I have the honor to report that the two estimates therewith received can be locally sanctioned, and to request therefore you will be so good as to appropriate Rs. 825 under Port Fund—Repairs, for—

	RS.
(1) Repairing zinc pipes, &c., in the goods shed within the Custom-house at Madras	561
(2) Making a ramp, removing old palisading, and metalling the gateways within the harbour enclosure and granite revetment in front of pier.	264
