GOVERNMENT OF MADRAS.

FINANCIAL DEPARTMENT.

Read—the following paper :—

Proceedings of the Board of Revenue, dated 31st March 1885, No. 1060.

Abstract.—Submitting to Government report on the operations of local funds constituted under Madras Act IV of 1871, for the year 1883-84.

Order—dated 13th July 1885, No. 453 L.F., Financial.

The above report of the Board of Revenue on the operations of local funds under Act IV of 1871, for the year 1883-84, is so full and clear that there is little need of remarks from Government. The report was only received on the 16th of May last, or seven months after the date prescribed by Government. The delay, however, is accounted for chiefly by the late submission of the circle reports, none of which were received on the due date, while those from Madanapalle, Chicacole, Chatrapur and Vizagapatam were received in the fourth month after they were due, and the last report from Ellore was received only on the 18th October last or three days after the date prescribed for the submission of the Board's General report. This is very unsatisfactory. The Government will themselves in future review these reports, and they hope that all Presidents will do their utmost to secure their punctual submission.

2. The action of the Board of Revenue in treating loans and investments as transactions under the service heads is approved, and the Accountant-General is requested to adopt this course in preparing the accounts to be rendered by him for the year 1884-85.

3. The number of Local Fund circles administered under the Act was the same as in the preceding year, viz., 30.

4. The assets, expenditure and balance of the year are compared below with those of 1882-83 :—

	Assets.	Expenditure.	Balance.
	Rs.	Rs.	Rs.
1882-83	85,55,686	60,79,711	24,75,975
1883-84	83,93,964	60,99,019	22,94,945

5. The opening balance adopted in this report differs from the closing balance reported for 1882-83 by Rs. 97,214, and the difference is explained to be the result of adding to the opening balance Rs. 2,68,555, the amount of loans and investments, and of deducting therefrom Rs. 1,71,341, being advances, &c., which were excluded from the accounts of the previous year.

	Rs.
1882-83	24,75,975
1883-84	25,73,189
Difference ..	97,214

6. Excluding the contributions between circles and debt accounts, the actual receipts of the year amounted to Rs. 58,09,515 against Rs. 55,59,526 in 1882-83,

and the increase appears chiefly under Provincial grants, Land-cess and Tolls. The receipts from the main sources of revenue are compared below with those of the previous year :—

	1882-83.	1883-84.
	RS.	RS.
Provincial grants—		
For roads and other public works	1,13,474	1,47,000
For schools	6,184	13,021
For general purposes	28,100	13,220
Pound fund	33,791	33,611
Ferry rents	1,45,419	1,43,597
Fishery rents	92,781	97,878
Land-cess	42,15,171	43,57,425
Tolls	3,86,662	4,41,317
School fees	36,862	44,785
Endowments, &c.—		
Schools	3,600	8,075
Hospitals and dispensaries	16,958	29,497
Choultries	2,34,891	2,29,314
Markets	56,876	62,023
Private contributions for works	44,247	38,545
Avenues	36,333	45,678

7. The grants from Provincial funds exceeded those of the preceding year by Rs. 25,483 ; but if the sum of Rs. 25,394 refunded in 1882-83 to the Tinnevelly Circle board is excluded from this head, as being an item of miscellaneous revenue, the excess comes to Rs. 50,877, which was mainly due to the enhanced grants made to the Nílgiri circle for the maintenance of communications generally, including the remetalling of the road from Ootacamund to Gúdalúr. The income from Pound fund and Ferry rents was almost the same as in the preceding year, while that from Fishery rents shows an increase of Rs. 5,097, which is stated to be due to the realization of the arrears of previous years and to the larger rentals obtained during the year under report.

8. For want of funds the rate of land-cess in the Kurnool and Madura circles was raised from 9 pies to 1 anna in the rupee of the assessment. Thus the 9-pie rate obtained only in the Godávari and Kistna districts. The cess collections in the year under review aggregated Rs. 43,57,425 or 75 per cent. of the total revenue against Rs. 42,15,171 in the previous year, the increase being chiefly due to the vigorous measures adopted by Collectors in the collection of the revenue. In 21 circles the collections were better and in six worse than in the preceding year. It is satisfactory to observe that the total collections were 83 per cent. of the demand against 78 per cent. in the previous year, the arrear and current collections being respectively 75 and 84 per cent. of the demand against 65 and 82 per cent. in 1882-83. The collections in the Dindigul, Malabar, Negapatam and Shermádevi circles were very good, while those in Bellary, Cuddapah, Madanapalle, Nellore and Nílgiris were not satisfactory. The Anantapur and Madura circles which were very backward in 1882-83, however, show an improvement. Rs. 1,10,443 are reported to have been written off the accounts as irrecoverable, the largest sums remitted being in South Arcot, Bellary and Coimbatore. In the first and the last named circles Rs. 14,917 and Rs. 27,297 respectively were written off the accounts. In Bellary Rs. 24,451 were remitted, partly owing to the death or insolvency of the ryots, and partly owing to certain service inams having been left waste on account of attachment for arrears, &c. The outstanding arrears at the close of the year aggregated Rs. 7,86,565, of which Rs. 5,34,620 are stated to have been since collected up to 31st October 1884, and Rs. 74,689 remitted as irrecoverable, and the balance left on the above date was only Rs. 1,77,256. The income from tolls amounted to Rs. 4,41,317 or 8 per cent. of the total revenue against Rs. 3,86,662 in 1882-83, the increase being ascribed chiefly to the opening of new toll-gates, the transfer of some of the gates to better localities and the greater competition among bidders for the lease of the gates. Of the former amount, Rs. 1,04,585 or about 24 per cent. were contributed by municipalities, Rs. 66,152 or 15 per cent. were collected from the gates directly managed by the circle boards, and the balance or 61 per cent.

from those leased out to contractors. The fees collected in Local Fund schools amounted to Rs. 44,785 against Rs. 36,862 in the previous year, and the increase is explained chiefly by the opening of new schools and the adoption of the new scale of fees.

9. The total receipts on account of endowed institutions amounted to Rs. 3,28,909 against Rs. 3,12,325 in 1882-83, the increase of Rs. 16,584 being the net result of an increase of Rs. 22,161 under Schools, Hospitals and Markets and a decrease of Rs. 5,577 under Choultries. The increase of Rs. 12,539 under Hospitals and Dispensaries was due to the receipt of the arrears of the previous year and of contributions in aid of new dispensaries proposed to be opened, and the increase of Rs. 5,147 in the case of markets was due to the extension of the fee system to additional markets, while the decrease under Choultries was chiefly due to the poor outturn of the chuttram lands in Tanjore. Rs. 38,545 were contributed by private individuals against Rs. 44,247 in 1882-83. Of the former amount Rs. 16,171 were paid on account of public works, and the remainder, Rs. 22,374, for sanitary purposes against Rs. 24,959 and 19,288 respectively in the previous year. Avenue rents and clippings, &c., brought in Rs. 45,678 against Rs. 36,333 in 1882-83, the increase being ascribed to the larger number of trees cut down and sold, and to the keener competition for the purchase of the avenue produce.

10. The total expenditure, excluding contributions between circles and debt accounts, was Rs. 60,88,417 against Rs. 60,74,772 in 1882-83, but if the contributions paid to Provincial funds in adjustment of the famine debt are excluded from both the years, the outlay in the year under review exceeds that of the preceding year by Rs. 3,61,419, owing to the larger outlay on public works and to the inclusion in the accounts of 1883-84 of Rs. 1,80,000 invested in Government securities and of Rs. 15,405 repaid on account of loans, while similar items amounting to Rs. 1,63,900 and Rs. 15,067 respectively were not included in the expenditure under service heads in the previous year. The chief items of expenditure are compared below with those of the previous year :—

	1882-83.	1883-84.
	RS.	RS.
New Works—		
Communications	7,16,518	7,37,189
Buildings	75,036	77,316
Miscellaneous Public Improvements	48,358	40,271
Repairs—		
Communications	21,35,865	22,40,783
Buildings	55,366	50,680
Miscellaneous Public Improvements	1,15,776	1,15,389
Public Works department Supervision, Local Fund Engineering establishment and Contingencies	5,43,746	5,57,976
Interest and repayment of loans	12,645	27,367
Famine debt	4,10,238	62,464
Miscellaneous	78,767	2,59,119
Total Public Works ..	41,92,315	41,68,554
Education	6,61,280	6,92,919
Hospitals and dispensaries	2,76,815	2,78,539
Vaccination	1,34,075	1,32,929
Sanitary establishment, &c.	2,78,618	2,53,087
Markets	11,712	14,171
Choultries	1,88,397	1,78,827
Miscellaneous	1,44,608	1,79,317
Supervision and management	1,74,902	1,70,040

11. The total expenditure on communications, both New Works and Repairs, was Rs. 29,77,972 against Rs. 28,52,383 in the preceding year. It is satisfactory to note that the outlay on communications was 84 per cent. of the allotments against 80 per

cent. in 1882-83, though in four circles, viz., Cocanada, Ellore, Malabar and Tinnevelly, it was less than 75 per cent. of the grant. The cause of the short outlay in these cases is satisfactorily explained in the report. The total length of roads, exclusive of village roads, was 21,018 miles, of which 18,624 miles were maintained during the year against 18,218 miles in the previous year, besides 256 miles of new roads completed and 325 miles in progress. The state of the roads in all the circles excepting South Arcot, Masulipatam and Dindigul is reported to have been generally good; it was unsatisfactory in the excepted circles, owing to the inadequacy of the means at the disposal of the Local Fund boards. In addition to the above, 140 miles of village roads were newly constructed at a cost of Rs. 51,035 and 2,422 miles of old road were repaired at a cost of Rs. 1,68,594. As in the preceding year, separate Engineering establishments for supervising Local Fund works were employed in all the circles. In 28 circles the works were carried out under the supervision of officers of the Engineer and Assistant Engineer grades, while in the remaining two circles of Anantapur and Chicacole they were under supervisors. The cost of these establishments including contingencies amounted to Rs. 5,32,590 against Rs. 5,15,070 in 1882-83, and was 16 per cent. of the outlay on works executed by them against 17 per cent. in the preceding year, and against the maximum rate of 20 per cent. prescribed in G.O., dated 24th April 1884, No. 878. In Anantapur, Cuddapah, Madanapalle, Chatrapur, Masulipatam, Malabar and Nellore, however, the maximum rate has been exceeded owing chiefly to the short expenditure incurred on works. The total number of markets rose from 181 to 219, and that of other endowed institutions from 257 to 271. The total expenditure on endowed institutions was Rupees 3,54,324 against Rs. 3,22,010, the increase being due to the investment of Rs. 12,600 under the Moyan fund in Malabar, and to larger sums being spent on the repair of endowed choultries and dispensaries. Under the General fund Rs. 2,09,445 were spent on the construction and repair of buildings and tanks and wells, and on the plantation and maintenance of avenues against Rs. 2,39,266 in 1882-83. The works so undertaken during the year under review are enumerated in paragraph 40 of the Board's report.

12. The total expenditure on educational operations amounted to Rs. 6,80,319 against Rs. 6,61,280 in the preceding year, the increase being the net result of increases under Training schools, Middle-class schools and Elementary Combined system schools and of a decrease under Result grants. The cost of training schools rose from Rs. 36,865 to Rs. 53,078 as 29 schools of this kind were maintained against 24 in the preceding year. The number of pupils trained in these schools was 674, of whom 539 appeared for, and 349 passed, the Special Upper Primary examination against 419 and 312 respectively in 1882-83. The cost of training each passed student was Rs. 138 against Rs. 118 in the previous year, the increase being ascribed chiefly to the smaller proportion of successful students. The elementary schools in the several circles remained under the supervision of deputy inspectors and inspecting schoolmasters. The deputy inspectors with a few exceptions were borne on the Provincial list, the Local Fund boards concerned contributing lump sums to Provincial funds towards their pay and allowances. There were 117 inspecting schoolmasters wholly maintained from local funds against 122 in the previous year.

13. The following table gives the particulars of the several Local Fund schools :—

Description of schools.	Number of schools.		Attendance.		Total cost.		Net cost.		Average cost of educating each pupil.	
	1882-83.	1883-84.	1882-83.	1883-84.	1882-83.	1883-84.	1882-83.	1883-84.	1882-83.	1883-84.
					RS.	RS.	RS.	RS.	RS. A. P.	RS. A. P.
Middle schools ..	49	62	2,981	3,714	39,990	46,845	24,741	27,196	8 4 10	7 5 2
Primary schools—										
Salary system ..	294	284	10,947	9,303	65,248	66,187	60,872	59,893	5 8 11	6 7 0
Combined system..	1,487	1,488	44,726	46,007	1,69,065	1,87,462	1,45,789	1,58,546	3 4 1	3 7 2
Total ..	1,830	1,834	58,654	59,024	2,74,303	3,00,494	2,31,402	2,45,635	3 15 1	4 2 7

It is observed from the above statement that though the number of schools remained nearly the same as in the preceding year, there was an increase in their attendance and a decrease in the cost of educating each pupil in the Middle schools. The cause of the increase in the cost of teaching each pupil in the Primary schools is however not explained. In addition to the above, an expenditure of Rs. 1,417 is shown as salary grant payments to 16 private schools attended by 498 pupils against Rs. 14,343, shown as having been paid on this account in the previous year. The decrease in the outlay under this head is explained by the fact that the stipends of teachers in the combined system schools in Malabar were shown as salary grants to private schools in 1882-83. Rs. 2,23,447 were paid as results grants to 8,954 schools with an attendance of 152,447 pupils against Rs. 2,41,573 paid to 8,385 schools attended by 163,036 children in the previous year, and the large falling off in the expenditure under this head is explained in paragraph 47 of the report.

14. In addition to the 190 dispensaries which remained at the close of 1882-83, 15 new dispensaries were established during the year under review, and one which was temporarily closed in the previous year was reopened in another locality, the total number at the end of 1883-84 being thus 206. Of these, 19 were maintained from the endowments attached to them, while 18 were kept up from the surplus proceeds of the endowments attached to certain chuttrams in the Tanjore and Tinnevelly districts. The total cost of all the dispensaries was Rs. 2,78,539 against Rs. 2,76,815 in the preceding year. The total number of patients treated in these institutions and of those treated by the extra medical practitioners in Nellore, by the itinerating hospital assistant in Ellore and by the hospital assistants attached to the Head Assistant Collectors' offices in Godávari and Tinnevelly were 10,770 in-patients and 969,021 out-patients against 12,619 and 885,932 respectively in the preceding year. It is satisfactory to note that the large increase in the number of out-patients is ascribed to the additional dispensaries opened during the year and to the growing popularity of these institutions. The action of some of the boards in restricting by rule the classes of persons entitled to relief as in-patients is in the opinion of Government unwise. The total number of midwives employed in the several circles was 82, and the number of labor cases attended to by them was 2,267 against 2,061 cases attended by 84 midwives in 1882-83. Their total cost including that of training midwifery pupils was Rs. 7,307. Besides the midwifery school at Tanjore, which was temporarily closed as no candidates could be induced to join it, there were three medical schools established by the Local Fund boards at Tanjore, Madura and Nellore for training students to be employed by them as hospital assistants, and an account of the working of these schools will be found in paragraph 48 of the report.

15. There were 44 deputy inspectors of vaccination and 606 vaccinators employed on vaccine operations against 38 of the former and 593 of the latter in the preceding year. The work done by them and its cost per successful operation are compared below with those of 1882-83 :—

Years.	Number of persons vaccinated.	Number of successful cases.	Percentage of successful cases to total number vaccinated.	Cost per successful case.
				RS. A. P.
1882-83 ..	567,540	531,672	94	0 4 0
1883-84 ..	606,664	566,264	93	0 3 9

The Government agree with the Board in considering that though the operations of the year show an advance over those of the preceding year they are very far from being what they ought to be, as the number of persons protected from small-pox during the year is shown to be only 67 per cent. of the number of births. The results were, as pointed out by the Board, very backward in South Arcot, Cuddapah, Madanapalle, Chicacole, Chatrapur, Cocanada, Ellore, Salem and Vizagapatam, in which less than 50 per cent.

of the children born were successfully vaccinated. The attention of the Presidents concerned has been already drawn to this. The Government hope that they have taken the necessary steps to ensure better results in future. The cost per successful case is still very high in Nílgiris, Madanapalle, Cuddapah, Ellore and Bellary. In Nílgiris this is due to the peculiar physical features of the country and to the sparseness of population; but in the other circles it is probably capable of much reduction.

16. Excluding the sum of Rs. 29,818 expended on sanitary works under Grant I, the outlay on sanitation under Grant III was Rs. 2,62,297 against Rs. 2,78,618 in 1882-83, and was incurred for the following purposes:—

	Rs.
1. Improvement of water-supply	52,739
2. Do. of village-site	15,724
3. Conservancy of towns and villages	1,56,161
4. Fairs and festivals	9,208
5. Miscellaneous	28,465
Total ..	2,62,297

The Government note that 83 per cent. of the total allotments sanctioned for the purpose was utilized during the year under review against 80 per cent. in 1882-83. Much greater improvement is possible, and there is no reason why at least 95 per cent. of these allotments should not be judiciously spent in every year. Including the expenditure under Grant I, the total outlay on this account was, as in the preceding year, 12·6 per cent. of the General Fund assets against the proportion of 12·5 per cent. prescribed in G.O., Public department, dated 30th December 1882, No. 1652.

17. During the year under review there were 329 choultries maintained by the Local Fund boards against 319 in the previous year. Of the former, 198 had endowments attached to them, and in 57 of these endowed choultries, 2,163,938 travellers are stated to have been fed at a cost of Rs. 68,513 against 2,159,718 persons fed at a cost of Rs. 78,207 in 1882-83, the decrease in the cost of feeding being ascribed chiefly to the fall in the prices of provisions. In addition to these 22,349 and 10,950 paupers were fed respectively in the Arcot and Kurnool lungerkhanas, 50 blind persons were allowed a monthly pension of Rs. 3-8-0 each from the funds of the Tirukurangudi chuttram in the Tinnevelly circle, and 15 such persons received Rs. 2-8-0 each per mensem from the funds of the Kuttalam choultry in the Shermádevi circle. There were 236 bungalows used by 8,054 travellers against 243 bungalows used by 6,845 travellers in the previous year. The amount of fees collected from these persons in 1883-84 was Rs. 11,422 against Rs. 24,043 spent on their maintenance. The Government are of opinion that the rates of fees levied in these bungalows should be raised wherever possible, in view to their being made more self-supporting.

18. The total amount contributed by the several Local Fund boards to Municipalities and to Missionary and other bodies for medical and sanitary purposes, as detailed in paragraph 53 of the Board's report, was Rs. 82,170 against Rs. 81,847 in 1882-83.

19. The total charges of administration, including contingencies, was Rs. 1,70,040 or 2·8 per cent. of the total expenditure and 2·9 per cent. of the actual receipts.

20. The average incidence of taxation under Act IV of 1871, per head of the population censused in 1881, was Annas 2-9 or Annas 2-6, according as tolls are included or excluded, against Annas 2-7 and Annas 2-5 respectively in the preceding year, the increase being due to enhanced collections under Land-cess and Tolls. The incidence of the total Local Fund revenue was Annas 3-4 per head or 2 pies more than in 1882-83.

21. The constitution of the several Local Fund boards remained nearly the same as in 1882-83. The number of meetings held in the year averaged 13 per circle, with an attendance of 4 officials and 5 non-officials out of a total of 12 and 14 respectively on each board. The Government are pleased to hear that the non-official members of

local boards are taking greater interest in matters connected with the administration of local funds, and the excellent services of Mr. Kottaiswami Tévar, the non-official vice-president of the Madura Circle board, are noted with much satisfaction.

Local Fund Report.

Reviewing the Board's report on the operations of Local funds, consititued under Madras Act IV of 1871, for the year 1883-84.

Withdrawn

GOVERNMENT OF MADRAS.

FINANCIAL DEPARTMENT.

READ—the following paper :—

Proceedings of the Board of Revenue, dated 31st March 1885, No. 1060.

ABSTRACT.—Submitting to Government report on the operations of local funds constituted under Madras Act IV of 1871, for the year 1883-84.

ORDER—dated 13th July 1885, No. 453 L.F., Financial.

The above report of the Board of Revenue on the operations of local funds under Act IV of 1871, for the year 1883-84, is so full and clear that there is little need of remarks from Government. The report was only received on the 16th of May last, or seven months after the date prescribed by Government. The delay, however, is accounted for chiefly by the late submission of the circle reports, none of which were received on the due date, while those from Madanapalle, Chicacole, Chatrapur and Vizagapatam were received in the fourth month after they were due, and the last report from Ellore was received only on the 18th October last or three days after the date prescribed for the submission of the Board's General report. This is very unsatisfactory. The Government will themselves in future review these reports, and they hope that all Presidents will do their utmost to secure their punctual submission.

2. The action of the Board of Revenue in treating loans and investments as transactions under the service heads is approved, and the Accountant-General is requested to adopt this course in preparing the accounts to be rendered by him for the year 1884-85.

3. The number of Local Fund circles administered under the Act was the same as in the preceding year, viz., 30.

4. The assets, expenditure and balance of the year are compared below with those of 1882-83 :—

	Assets.	Expenditure.	Balance.
	RS.	RS.	RS.
1882-83	85,55,686	60,79,711	24,75,975
1883-84	83,93,964	60,99,019	22,94,945

5. The opening balance adopted in this report differs from the closing balance reported for 1882-83 by Rs. 97,214, and the difference is explained to be the result of adding to the opening balance Rs. 2,68,555, the amount of loans and investments, and of deducting therefrom Rs. 1,71,341, being advances, &c., which were excluded from the accounts of the previous year.

	RS.
1882-83	24,75,975
1883-84	25,73,189
Difference ..	97,214

6. Excluding the contributions between circles and debt accounts, the actual receipts of the year amounted to Rs. 58,09,515 against Rs. 55,59,526 in 1882-83,

and the increase appears chiefly under Provincial grants, Land-cess and Tolls. The receipts from the main sources of revenue are compared below with those of the previous year :—

	1882-83.	1883-84.
	Rs.	Rs.
Provincial grants—		
For roads and other public works	1,13,474	1,47,000
For schools	6,184	13,021
For general purposes	28,100	13,220
Pound fund	33,791	33,611
Ferry rents	1,45,419	1,43,597
Fishery rents	92,781	97,878
Land-cess	42,15,171	43,57,425
Tolls	3,86,662	4,41,317
School fees	36,862	44,785
Endowments, &c.—		
Schools	3,600	8,075
Hospitals and dispensaries	16,958	29,497
Choultries	2,34,891	2,29,314
Markets	56,876	62,023
Private contributions for works	44,247	38,545
Avenues	36,333	45,678

7. The grants from Provincial funds exceeded those of the preceding year by Rs. 25,483 ; but if the sum of Rs. 25,394 refunded in 1882-83 to the Tinnevelly Circle board is excluded from this head, as being an item of miscellaneous revenue, the excess comes to Rs. 50,877, which was mainly due to the enhanced grants made to the Nílgiri circle for the maintenance of communications generally, including the remetalling of the road from Ootacamund to Gúdalúr. The income from Pound fund and Ferry rents was almost the same as in the preceding year, while that from Fishery rents shows an increase of Rs. 5,097, which is stated to be due to the realization of the arrears of previous years and to the larger rentals obtained during the year under report.

8. For want of funds the rate of land-cess in the Kurnool and Madura circles was raised from 9 pies to 1 anna in the rupee of the assessment. Thus the 9-pie rate obtained only in the Godávari and Kistna districts. The cess collections in the year under review aggregated Rs. 43,57,425 or 75 per cent. of the total revenue against Rs. 42,15,171 in the previous year, the increase being chiefly due to the vigorous measures adopted by Collectors in the collection of the revenue. In 21 circles the collections were better and in six worse than in the preceding year. It is satisfactory to observe that the total collections were 83 per cent. of the demand against 78 per cent. in the previous year, the arrear and current collections being respectively 75 and 84 per cent. of the demand against 65 and 82 per cent. in 1882-83. The collections in the Dindigul, Malabar, Negapatam and Shermádevi circles were very good, while those in Bellary, Cuddapah, Madanapalle, Nellore and Nílgiris were not satisfactory. The Anantapur and Madura circles which were very backward in 1882-83, however, show an improvement. Rs. 1,10,443 are reported to have been written off the accounts as irrecoverable, the largest sums remitted being in South Arcot, Bellary and Coimbatore. In the first and the last named circles Rs. 14,917 and Rs. 27,297 respectively were written off the accounts. In Bellary Rs. 24,451 were remitted, partly owing to the death or insolvency of the ryots, and partly owing to certain service inams having been left waste on account of attachment for arrears, &c. The outstanding arrears at the close of the year aggregated Rs. 7,86,565, of which Rs. 5,34,620 are stated to have been since collected up to 31st October 1884, and Rs. 74,689 remitted as irrecoverable, and the balance left on the above date was only Rs. 1,77,256. The income from tolls amounted to Rs. 4,41,317 or 8 per cent. of the total revenue against Rs. 3,86,662 in 1882-83, the increase being ascribed chiefly to the opening of new toll-gates, the transfer of some of the gates to better localities and the greater competition among bidders for the lease of the gates. Of the former amount, Rs. 1,04,585 or about 24 per cent. were contributed by municipalities, Rs. 66,152 or 15 per cent. were collected from the gates directly managed by the circle boards, and the balance or 61 per cent.

from those leased out to contractors. The fees collected in Local Fund schools amounted to Rs. 44,785 against Rs. 36,862 in the previous year, and the increase is explained chiefly by the opening of new schools and the adoption of the new scale of fees.

9. The total receipts on account of endowed institutions amounted to Rs. 3,28,909 against Rs. 3,12,325 in 1882-83, the increase of Rs. 16,584 being the net result of an increase of Rs. 22,161 under Schools, Hospitals and Markets and a decrease of Rs. 5,577 under Choultries. The increase of Rs. 12,539 under Hospitals and Dispensaries was due to the receipt of the arrears of the previous year and of contributions in aid of new dispensaries proposed to be opened, and the increase of Rs. 5,147 in the case of markets was due to the extension of the fee system to additional markets, while the decrease under Choultries was chiefly due to the poor outturn of the chuttram lands in Tanjore. Rs. 38,545 were contributed by private individuals against Rs. 44,247 in 1882-83. Of the former amount Rs. 16,171 were paid on account of public works, and the remainder, Rs. 22,374, for sanitary purposes against Rs. 24,959 and 19,288 respectively in the previous year. Avenue rents and clippings, &c., brought in Rs. 45,678 against Rs. 36,333 in 1882-83, the increase being ascribed to the larger number of trees cut down and sold, and to the keener competition for the purchase of the avenue produce.

10. The total expenditure, excluding contributions between circles and debt accounts, was Rs. 60,88,417 against Rs. 60,74,772 in 1882-83, but if the contributions paid to Provincial funds in adjustment of the famine debt are excluded from both the years, the outlay in the year under review exceeds that of the preceding year by Rs. 3,61,419, owing to the larger outlay on public works and to the inclusion in the accounts of 1883-84 of Rs. 1,80,000 invested in Government securities and of Rs. 15,405 repaid on account of loans, while similar items amounting to Rs. 1,63,900 and Rs. 15,067 respectively were not included in the expenditure under service heads in the previous year. The chief items of expenditure are compared below with those of the previous year :—

	1882-83.	1883-84.
	Rs.	Rs.
New Works—		
Communications	7,16,518	7,37,189
Buildings	75,036	77,316
Miscellaneous Public Improvements	48,358	40,271
Repairs—		
Communications	21,35,865	22,40,783
Buildings	55,366	50,680
Miscellaneous Public Improvements	1,15,776	1,15,389
Public Works department Supervision, Local Fund Engineering establishment and Contingencies	5,43,746	5,57,976
Interest and repayment of loans	12,645	27,367
Famine debt	4,10,238	62,464
Miscellaneous	78,767	2,59,119
Total Public Works ..	41,92,315	41,68,554
Education	6,61,280	6,92,919
Hospitals and dispensaries	2,76,815	2,78,539
Vaccination	1,34,075	1,32,929
Sanitary establishment, &c.	2,78,618	2,53,087
Markets	11,712	14,171
Choultries	1,88,397	1,78,827
Miscellaneous	1,44,608	1,79,317
Supervision and management	1,74,902	1,70,040

11. The total expenditure on communications, both New Works and Repairs, was Rs. 29,77,972 against Rs. 28,52,383 in the preceding year. It is satisfactory to note that the outlay on communications was 84 per cent. of the allotments against 80 per

cent. in 1882-83, though in four circles, viz., Cocanada, Ellore, Malabar and Tinnevelly, it was less than 75 per cent. of the grant. The cause of the short outlay in these cases is satisfactorily explained in the report. The total length of roads, exclusive of village roads, was 21,018 miles, of which 18,624 miles were maintained during the year against 18,218 miles in the previous year, besides 256 miles of new roads completed and 325 miles in progress. The state of the roads in all the circles excepting South Arcot, Masulipatam and Dindigul is reported to have been generally good; it was unsatisfactory in the excepted circles, owing to the inadequacy of the means at the disposal of the Local Fund boards. In addition to the above, 140 miles of village roads were newly constructed at a cost of Rs. 51,035 and 2,422 miles of old road were repaired at a cost of Rs. 1,68,594. As in the preceding year, separate Engineering establishments for supervising Local Fund works were employed in all the circles. In 28 circles the works were carried out under the supervision of officers of the Engineer and Assistant Engineer grades, while in the remaining two circles of Anantapur and Chicacole they were under supervisors. The cost of these establishments including contingencies amounted to Rs. 5,32,590 against Rs. 5,15,070 in 1882-83, and was 16 per cent. of the outlay on works executed by them against 17 per cent. in the preceding year, and against the maximum rate of 20 per cent. prescribed in G.O., dated 24th April 1884, No. 878. In Anantapur, Cuddapah, Madanapalle, Chatrapur, Masulipatam, Malabar and Nellore, however, the maximum rate has been exceeded owing chiefly to the short expenditure incurred on works. The total number of markets rose from 181 to 219, and that of other endowed institutions from 257 to 271. The total expenditure on endowed institutions was Rupees 3,54,324 against Rs. 3,22,010, the increase being due to the investment of Rs. 12,600 under the Moyan fund in Malabar, and to larger sums being spent on the repair of endowed choultries and dispensaries. Under the General fund Rs. 2,09,445 were spent on the construction and repair of buildings and tanks and wells, and on the plantation and maintenance of avenues against Rs. 2,39,266 in 1882-83. The works so undertaken during the year under review are enumerated in paragraph 40 of the Board's report.

12. The total expenditure on educational operations amounted to Rs. 6,80,319 against Rs. 6,61,280 in the preceding year, the increase being the net result of increases under Training schools, Middle-class schools and Elementary Combined system schools and of a decrease under Result grants. The cost of training schools rose from Rs. 36,865 to Rs. 53,078 as 29 schools of this kind were maintained against 24 in the preceding year. The number of pupils trained in these schools was 674, of whom 539 appeared for, and 349 passed, the Special Upper Primary examination against 419 and 312 respectively in 1882-83. The cost of training each passed student was Rs. 138 against Rs. 118 in the previous year, the increase being ascribed chiefly to the smaller proportion of successful students. The elementary schools in the several circles remained under the supervision of deputy inspectors and inspecting schoolmasters. The deputy inspectors with a few exceptions were borne on the Provincial list, the Local Fund boards concerned contributing lump sums to Provincial funds towards their pay and allowances. There were 117 inspecting schoolmasters wholly maintained from local funds against 122 in the previous year.

13. The following table gives the particulars of the several Local Fund schools :—

Description of schools.	Number of schools.		Attendance.		Total cost.		Net cost.		Average cost of educating each pupil.	
	1882-83.	1883-84.	1882-83.	1883-84.	1882-83.	1883-84.	1882-83.	1883-84.	1882-83.	1883-84.
					Rs.	Rs.	Rs.	Rs.	Rs. A. P.	Rs. A. P.
Middle schools ..	49	62	2,981	3,714	39,990	46,845	24,741	27,196	8 4 10	7 5 2
Primary schools—										
Salary system ..	294	284	10,947	9,303	65,248	66,187	60,872	59,893	5 8 11	6 7 0
Combined system..	1,487	1,488	44,726	46,007	1,69,065	1,87,462	1,45,789	1,58,546	3 4 1	3 7 2
Total ..	1,830	1,834	58,654	59,024	2,74,303	3,00,494	2,31,402	2,45,635	3 15 1	4 2 7

It is observed from the above statement that though the number of schools remained nearly the same as in the preceding year, there was an increase in their attendance and a decrease in the cost of educating each pupil in the Middle schools. The cause of the increase in the cost of teaching each pupil in the Primary schools is however not explained. In addition to the above, an expenditure of Rs. 1,417 is shown as salary grant payments to 16 private schools attended by 498 pupils against Rs. 14,343, shown as having been paid on this account in the previous year. The decrease in the outlay under this head is explained by the fact that the stipends of teachers in the combined system schools in Malabar were shown as salary grants to private schools in 1882-83. Rs. 2,23,447 were paid as results grants to 8,954 schools with an attendance of 152,447 pupils against Rs. 2,41,573 paid to 8,385 schools attended by 163,036 children in the previous year, and the large falling off in the expenditure under this head is explained in paragraph 47 of the report.

14. In addition to the 190 dispensaries which remained at the close of 1882-83, 15 new dispensaries were established during the year under review, and one which was temporarily closed in the previous year was reopened in another locality, the total number at the end of 1883-84 being thus 206. Of these, 19 were maintained from the endowments attached to them, while 18 were kept up from the surplus proceeds of the endowments attached to certain chuttrams in the Tanjore and Tinnevelly districts. The total cost of all the dispensaries was Rs. 2,78,539 against Rs. 2,76,815 in the preceding year. The total number of patients treated in these institutions and of those treated by the extra medical practitioners in Nellore, by the itinerating hospital assistant in Ellore and by the hospital assistants attached to the Head Assistant Collectors' offices in Godávari and Tinnevelly were 10,770 in-patients and 969,021 out-patients against 12,619 and 885,932 respectively in the preceding year. It is satisfactory to note that the large increase in the number of out-patients is ascribed to the additional dispensaries opened during the year and to the growing popularity of these institutions. The action of some of the boards in restricting by rule the classes of persons entitled to relief as in-patients is in the opinion of Government unwise. The total number of midwives employed in the several circles was 82, and the number of labor cases attended to by them was 2,267 against 2,061 cases attended by 84 midwives in 1882-83. Their total cost including that of training midwifery pupils was Rs. 7,307. Besides the midwifery school at Tanjore, which was temporarily closed as no candidates could be induced to join it, there were three medical schools established by the Local Fund boards at Tanjore, Madura and Nellore for training students to be employed by them as hospital assistants, and an account of the working of these schools will be found in paragraph 48 of the report.

15. There were 44 deputy inspectors of vaccination and 606 vaccinators employed on vaccine operations against 38 of the former and 593 of the latter in the preceding year. The work done by them and its cost per successful operation are compared below with those of 1882-83 :—

Years.	Number of persons vaccinated.	Number of successful cases.	Percentage of successful cases to total number vaccinated.	Cost per successful case.
				Rs. A. P.
1882-83 ..	567,540	531,672	94	0 4 0
1883-84 ..	606,664	566,264	93	0 3 9

The Government agree with the Board in considering that though the operations of the year show an advance over those of the preceding year they are very far from being what they ought to be, as the number of persons protected from small-pox during the year is shown to be only 67 per cent. of the number of births. The results were, as pointed out by the Board, very backward in South Arcot, Cuddapah, Madanapalle, Chicacole, Chatrapur, Cocanada, Ellore, Salem and Vizagapatam, in which less than 50 per cent.

of the children born were successfully vaccinated. The attention of the Presidents concerned has been already drawn to this. The Government hope that they have taken the necessary steps to ensure better results in future. The cost per successful case is still very high in Nílgiris, Madanapalle, Cuddapah, Ellore and Bellary. In Nílgiris this is due to the peculiar physical features of the country and to the sparseness of population; but in the other circles it is probably capable of much reduction.

16. Excluding the sum of Rs. 29,818 expended on sanitary works under Grant I, the outlay on sanitation under Grant III was Rs. 2,62,297 against Rs. 2,78,618 in 1882-83, and was incurred for the following purposes:—

	Rs.
1. Improvement of water-supply	52,739
2. Do. of village-site	15,724
3. Conservancy of towns and villages	1,56,161
4. Fairs and festivals	9,208
5. Miscellaneous	28,465
Total ..	2,62,297

The Government note that 83 per cent. of the total allotments sanctioned for the purpose was utilized during the year under review against 80 per cent. in 1882-83. Much greater improvement is possible, and there is no reason why at least 95 per cent. of these allotments should not be judiciously spent in every year. Including the expenditure under Grant I, the total outlay on this account was, as in the preceding year, 12·6 per cent. of the General Fund assets against the proportion of 12·5 per cent. prescribed in G.O., Public department, dated 30th December 1882, No. 1652.

17. During the year under review there were 329 choultries maintained by the Local Fund boards against 319 in the previous year. Of the former, 198 had endowments attached to them, and in 57 of these endowed choultries, 2,163,938 travellers are stated to have been fed at a cost of Rs. 68,513 against 2,159,718 persons fed at a cost of Rs. 78,207 in 1882-83, the decrease in the cost of feeding being ascribed chiefly to the fall in the prices of provisions. In addition to these 22,349 and 10,950 paupers were fed respectively in the Arcot and Kurnool lungerkhanas, 50 blind persons were allowed a monthly pension of Rs. 3-8-0 each from the funds of the Tirukurangudi chuttram in the Tinnevelly circle, and 15 such persons received Rs. 2-8-0 each per mensem from the funds of the Kuttalam choultry in the Shermádevi circle. There were 236 bungalows used by 8,054 travellers against 243 bungalows used by 6,845 travellers in the previous year. The amount of fees collected from these persons in 1883-84 was Rs. 11,422 against Rs. 24,043 spent on their maintenance. The Government are of opinion that the rates of fees levied in these bungalows should be raised wherever possible, in view to their being made more self-supporting.

18. The total amount contributed by the several Local Fund boards to Municipalities and to Missionary and other bodies for medical and sanitary purposes, as detailed in paragraph 53 of the Board's report, was Rs. 82,170 against Rs. 81,847 in 1882-83.

19. The total charges of administration, including contingencies, was Rs. 1,70,040 or 2·8 per cent. of the total expenditure and 2·9 per cent. of the actual receipts.

20. The average incidence of taxation under Act IV of 1871, per head of the population censused in 1881, was Annas 2-9 or Annas 2-6, according as tolls are included or excluded, against Annas 2-7 and Annas 2-5 respectively in the preceding year, the increase being due to enhanced collections under Land-cess and Tolls. The incidence of the total Local Fund revenue was Annas 3-4 per head or 2 pies more than in 1882-83.

21. The constitution of the several Local Fund boards remained nearly the same as in 1882-83. The number of meetings held in the year averaged 13 per circle, with an attendance of 4 officials and 5 non-officials out of a total of 12 and 14 respectively on each board. The Government are pleased to hear that the non-official members of

local boards are taking greater interest in matters connected with the administration of local funds, and the excellent services of Mr. Kottaiswami Tévar, the non-official vice-president of the Madura Circle board, are noted with much satisfaction.

Resolution—dated 31st March 1885, No. 1060.

The Board resolve to submit to Government their report for 1883-84 on the operations of the Local Funds constituted under Madras Act IV of 1871, with the following appendices :—

Appendix I.—Statement showing the Local Fund Receipts.
Appendix II.—Statement showing the Local Fund Expenditure.
Appendix III.—Statement showing the receipts of the Road Fund.

Appendix IV.—Statement showing the expenditure under the Road Fund.
Appendix V.—Statement showing the receipts of the Endowment Fund.
Appendix VI.—Statement showing the expenditure under the Endowment Fund.
Appendix VII.—Statement showing the receipts of the General Fund.
Appendix VIII.—Statement showing the expenditure under the General Fund.
Appendix IX.—Statement showing the progress of all important new works.

2. *Circle Reports.*—The circle reports have been reviewed and submitted to Government in the Board's Proceedings read again at the head of these Proceedings. None of the reports, however, were received in this office within the prescribed date, viz., 1st June 1884; twelve were received in the first month, ten in the second month, three, from Cocanada, Masulipatam and Guntúr, in the third month, and four, from Madanapalle, Chicacole, Chatrapur and Vizagapatam, in the fourth month, after the due date, while the report from Ellore was only received on the 18th October 1884, or three days after the date fixed for the submission of the Board's General Report to Government. As many of the reports failed to furnish in full the information required for the preparation of the General Report, the omissions had to be supplied after reference to the districts. Meanwhile, the budgets for 1885-86 were received, all of which have been reviewed by the Board and submitted to Government.

3. *Accounts.*—In paragraphs 2 and 6 of G.O., dated 26th September 1883, No. 2154, on the Board's General Report for 1881-82, the Government remarked that the report should deal only with the *bond fide* receipts and charges of the year, and directed that the debt heads should be omitted from the report for 1882-83. The accounts originally submitted by the Accountant-General for the latter year were accordingly revised by him, but in doing so, he eliminated not only the figures relating to advances, Engineer's cheques, &c., but also investments and loans, which are distinct in character from debt-head transactions. In submitting the report for 1882-83, the Board expressed the opinion that investments and loans should not be excluded from the accounts. In this opinion the Government concurred—*vide* paragraph 2 of their Order, dated 10th July 1884, No. 1533—and the Accountant-General's explanation regarding this point submitted to Government with Board's Proceedings, dated 9th June 1884, No. 1959, was merely recorded by them with reference to the Government Order quoted above—*vide* G.O., dated 17th July 1884, Mis. No. 1620, Financial Department. The statements submitted by the Accountant-General for 1883-84, which appear as Appendices I to VIII of this report, show not only the transactions under the service heads, but also those relating to loans, investments, advances, &c., which are given separately under "Debt Heads." But in adopting these figures for the report, the Board have treated loans and investments as transactions under the service heads.

4. *Local Fund Circles.*—The number of Local Fund Circles continued to be thirty, as in the preceding year.

5. *General Taxation.*—The following statement shows the extent and population of each circle according to the census of 1881, and the incidence of taxation under Act IV of 1871 and of the total Local Fund revenue per head of the population:—

Districts.	Circles.	Area in Square Miles.	Population according to the Census of 1881.	Income from Taxation.			Total Local Fund Receipts.	Incidence of Taxation excluding Tolls.		Incidence of Taxation including Tolls.		Average Incidence of the Total Local Fund Receipts.

	Average ..	..	..	..	..	..	..	0 2 5	0 2 6	0 2 7	0 2 9	0 3 4

The average incidence of taxation under Act IV of 1871 per head of the population is As. 2-9 or As. 2-6, according as tolls are included or excluded, against As. 2-7 and As. 2-5, respectively, in the preceding year; the increase is explained by the enhanced collections under Land-cess and Tolls. The incidence of the total Local Fund revenue is As. 3-4 against As. 3-2 per head in the preceding year. The very high rate of Rs. 2-5-10 in the Nílgiris is due to the sparsity and peculiar circumstances of the population.

6. *Financial Position.*—The subjoined statement shows the financial position of the several Local Fund circles:—

* Includes Rs. 7,106, Contributions between Circles.

The total expenditure of the year exceeded the receipts by more than Rs. 2,75,000, which was met from the opening balance. The funds of all the circles, except Chatrapur, closed with credit balances. In Chatrapur, there was a deficit of Rs. 3,450, owing to short collections under Land-cess and Tolls and to the comparatively large expenditure on public works. This deficit should have been made good from Provincial Funds as required by Section 32, Chapter 68, of the Civil Account Code, and the transactions of the circle closed with a *nil* balance; but this course has apparently been considered unnecessary in consequence of the amalgamation, in the beginning of the current year, of the Chatrapur and Chicacole Circles, the latter of which had a large credit balance whence to cover the deficit.

7. *Comparative Statement of Receipts and Charges.*—The following statement shows the several items of receipt and expenditure, compared with the estimate of the year, including subsequent grants, and with the actuals of the previous year:—

8. *Appendix I, Opening Balance.*—The opening balance adopted in the statement appended to the preceding paragraph has been arrived at as shown below :—

		Rs.
Accumulated surplus or deficit at the beginning of the year		24,75,975
Add balance under Debt Heads—		
(1) Loans (Deducted from the opening balance in the accounts of 1882-83)	Rs. 2,68,555	
(2) Other debt heads (advances, &c.) ... —	1,71,341	
		97,214
Total ...		25,73,189

The difference between this amount and the closing balance of Rs. 25,64,667, shown in column 9 of the statement printed at paragraph 6 of the Board's general report for 1882-83, is ascribed to certain adjustments made by the Accountant-General, as explained in his letter recorded in Board's Proceedings, dated 24th September 1884, No. 4807, Routine Series, read above. Compared with the estimate of Rs. 19,69,310, the actual balance shows a net increase of Rs. 6,03,879, resulting from a gross increase of Rs. 7,55,207 in nineteen circles, and a gross decrease of Rs. 1,51,328 in eleven circles. The large increase in South Arcot, Bellary, Coimbatore, Cocanada, Tanjore, Negapatam and Tinnevelly is explained chiefly by the short expenditure on Public Works in 1882-83, while the decrease, which occurs mainly in Ellore, is ascribed to the excess expenditure on Public Works in that year. The actual opening balance is distributed among the minor funds as follows :—

	Rs.
Road Fund	16,76,605
Endowment Fund	3,01,085
General Fund	5,95,499
Total ...	25,73,189

9. *Receipts.*—The receipts of the year amounted to Rs. 58,09,515, excluding contributions between the circles and debt accounts, and exceeded the estimate of Rs. 55,19,090 by Rs. 2,90,425, and the actuals of the preceding year, viz., Rs. 55,59,526, by Rs. 2,49,989. The increase occurs under almost all the heads, that under Land-cess and Tolls alone being about a lakh and a quater and half a lakh, respectively, above the estimate, and about a lakh and a half and half a lakh, respectively, above the actuals of 1882-83. The receipts are distributed among the minor funds as follows :—

	Rs.
Road Fund	37,63,013
Endowment Fund	3,32,473
General Fund	17,14,029
Total ...	58,09,515

The chief items of revenue are land-cess, tolls and choultry receipts, and the proportion they bear to the total income is compared below with the preceding year's ratios :—

—	Receipts.		Percentage to total.	
	1882-83.	1883-84.	1882-83.	1883-84.
	Rs.	Rs.		
Land-cess	42,15,171	43,57,425	76	75
Tolls	3,86,662	4,41,317	7	8
Choultry Receipts	2,34,891	2,29,314	4	4
Contribution from Canal and Ferry Fund ...	1,24,312	1,20,800	2	2
Other Items	5,98,490	6,60,659	11	11
Total ...	55,59,526	58,09,515	100	100

10. *Provincial Contributions.*—The contributions received from Provincial Funds amounted to Rs. 1,73,241 for the undermentioned purposes :—

	Rs.
For Roads	1,47,000
„ Schools	13,021
„ General purposes	13,220
Total ...	1,73,241

The grant for roads was given to the South Canara, Cuddapah and Nílgiri Circles. For South Canara, Rs. 25,000 were sanctioned in G.O., Financial Department, dated 13th August 1883, Mis. No. 1736, for the upkeep of the main lines of communication with Coorg and Mysore. For Cuddapah, Rs. 5,000 were sanctioned in G.O., Financial Department, dated 13th June 1883, No. 1186, to supplement the Road Fund, which was in need of help, and Rs. 1,17,000 were granted to the Nílgiri Circle for communications generally, including the remetalling of the road from Ootacamund to Gúdalur, *vide* G.Os., dated 11th May 1883, No. 841, Financial Department, 29th May 1883, No. 1068, Financial Department and 23rd July 1883, No. 2016 W.

Rupees 13,021 were sanctioned under the Grant-in-aid Code by the Director of Public Instruction for the undermentioned purposes in Anantapur, Chittoor, Vellore, South Arcot, Bellary, South Canara, Coimbatore, Cuddapah, Cocanada, Ellore, Masulipatam, Guntúr, Malabar, Nellore, Salem and Trichinopoly :—

	Rs.
Local Fund Normal Schools	3,329
Middle Class Schools	4,500
Lower Class Salary System Schools	219
Lower Class Combined System Schools	4,973
Total ...	13,021

The decrease of Rs. 6,769 under this head as compared with the estimate is ascribed mainly to the non-adjustment of some of the grants earned within the year and to the opening of certain middle class schools late in the year, in consequence of which salary grants were paid to them only for a portion of the year. The above sum, however, falls short of that given in the Accountant-General's statement by Rs. 3,419, which should have been shown under "Receipts from Endowments, &c.," being the balance in favor of the Yeomiah School at Arcot in the Vellore Circle, transferred to the Circle Board under the sanction conveyed in G.O., Financial Department, dated 31st January 1884, Mis. No. 222.

Rupees 5,500 were granted to the South Canara and Nílgiri Circles to supplement the General Funds, *vide* G.Os., Financial Department, dated 24th April 1883, No. 823, and 29th November 1883, No. 2705, and the Madanapalle Circle had a grant of Rs. 5,000 to wipe off the General Fund deficit and to meet the expenditure on certain objects debitable to that fund, *vide* G.O., Financial Department, dated 20th April 1883, No. 810. In addition to these Rs. 80 were granted in G.O., Financial Department, dated 10th January 1883, Mis. No. 48 to the Madura Circle, as the proportion of the cost of European medicines for treating the Police sick at Ramnad and Rs. 2,640 were paid under G.O., Financial Department, dated 5th October 1882, Mis. No. 1401, towards the upkeep of the Rajah-Mirasidar Hospital at Tanjore. The total amount of these grants for medical purposes differs from that given in Appendix I by Rs. 2,066, being the amount contributed from the Arcot Lungerkhana Fund under G.O., dated 4th December 1872, No. 1688, Financial Department, which, as in the previous years, has been shown under the proper head of "Receipts from Endowments, &c.," in the comparative statement given in paragraph 6, *supra*.

11. *Pound Fund Contribution.*—The surplus of the Pound Fund transferred to Local Funds was Rs. 33,611, which is almost identical with the previous year's contribution and calls for no remark.

12. *Canal and Ferry Fund Contribution.*—The amount transferred to Local Funds from the surplus of the collections at the ferries in the five districts noted in the margin, to which the Canal and Ferry Act I of 1870 had been extended, was Rs. 1,20,800 against an estimate of Rs. 1,03,200 and Rs. 1,24,312 the actuals of 1882-83. The major portion of this amount was contributed by Malabar, the sum paid being Rs. 84,709 against an estimate of Rs. 67,800 and Rs. 80,491, the actuals of 1882-83. The increase is attributed to competition among bidders for the lease of the ferries. The contribution from Trichinopoly also shows an increase of Rs. 2,575 over the estimate, which is explained by the collection of a larger proportion of the arrears of previous years, while that from South Canara shows a decrease of about Rs. 1,400 owing to the bids for the triennial lease of the ferries, which commenced from 1st April 1883, having been much lower than those for the previous lease. In the two remaining districts the estimated contribution was fully realized.

South Canara.
Kistna.
Malabar.
Tanjore.
Trichinopoly.

13. *Fish Rents.*—The receipts from fish rents amounted to Rs. 97,878 against an estimate of Rs. 81,980 and Rs. 92,781 realized in 1882-83. The increase over the estimate is generally ascribed to the realization of the arrears of previous years and to the larger rentals obtained during the year under report. Of the total income under this head, Rs. 93,142 were collected by the Revenue Department and Rs. 4,736 by the Public Works Department. As observed in the report for 1882-83, the fisheries of Irrigation Works, where a conservancy establishment was maintained by the Public Works Department, continued to be rented out by that department, the proceeds being credited to Local Funds, while in other cases they were leased out by the Revenue Department.

14. *Road-cess.*—In paragraph 14 of the report for 1882-83 it was stated that the recoverable arrears of Rs. 3 under this head in Trichinopoly were realized in the year under report ; but the Collector has since reported that the amount has been erroneously included in the collections under Land-cess.

15. *Land-cess.*—For want of funds the rate of land-cess in the Kurnool and Madura Circles was raised from 9 pies to 1 anna in the rupee of the assessment ; thus the 9 pies rate was levied only in the Godávari and Kistna Districts. The total cess collections, according to the statements received from the Accountant-General, amounted to Rs. 43,57,425 against an estimate of Rs. 42,39,300 and Rs. 42,15,171 realized in 1882-83. The increase of Rs. 1,18,125 over the estimate is the result of a gross increase of Rs. 2,46,053 in nineteen circles and a gross decrease of Rs. 1,27,928 in eleven circles. The increase is large in Chingleput, Cocanada, Guntúr, Madura, Trichinopoly, Tinnevelly and Masulipatam. In the first five circles the increase is explained by the enhanced collections, both under arrears and current, consequent on the vigorous measures adopted by Collectors. In Tinnevelly, it is partly attributed to the prompt collection of arrears and partly to the increase in the demand caused by the extended cultivation of the second crop, while in Masulipatam it is explained by the realization of the cess due by the Núzvíd Estate from Faslis 1289 to 1291, which remained uncollected owing to the pending partition of the estate. The decrease is large in Chittoor, South Arcot, Cuddapah, Chatrapur and Nellore, and is ascribed generally to decrease in the arrear demand caused by the larger collections in 1882-83 and to slackness in the current collections.

The following statement shows the demand, collection and balance of the cess and the rates at which it was levied in the several circles :—

Districts.	Circles.	Rate of Land-cess.	DEMAND.			COLLECTION.			BALANCE.			Percentage of Collection to Demand.
			Arrears.	Current.	Total.	Arrears.	Current.	Total.	Arrears.	Current.	Total.

20. Trichinopoly ..	Vizagapatam ..	0 1 0	49,329	1,37,787	1,87,116	45,742	97,919	1,43,661	2,345	1,242	39,868	41,110	78
21. Vizagapatam ..		0 1 0	49,063	2,05,367	2,54,430	29,205	1,73,711	2,02,917	3	19,854	31,656	51,510	80
	Total ..	..	10,77,957	41,52,882	52,30,839	7,52,384	35,82,773	43,35,157	1,10,443	2,15,599	5,70,966	7,86,565	83

The arrear demand, according to the above statement, was Rs. 10,77,957 against Rs. 10,81,796, the balance shown in the corresponding statement printed in paragraph 15 of the preceding year's report. The difference is explained by the adjustment, during the year under report, of the difference between the approximate demand for 1882-83 entered in the accounts of that year and the actual demand ascertained after jamabandi. The current demand amounted to Rs. 41,52,882 against Rs. 39,47,406 in the preceding year. The increase of Rs. 2,05,476 has resulted from a gross increase of Rs. 2,57,603 in twenty circles, and a gross decrease of Rs. 52,127 in ten circles, as shown in the margin. The decrease is not large except in Nellore, where the demand fell off from Rs. 2,39,115 to Rs. 2,12,852, the decrease being chiefly due to the adoption of the actual demand of 1882-83, ascertained after jamabandi. The increase is large in Bellary, Chingleput, Cocanada, Masulipatam, Kurnool, Madura, Dindigul and Tanjore. In Bellary, Cocanada and Tanjore, no explanation has been furnished. In Chingleput the increase is ascribed to the adjustment, in the year under report, of the difference between the approximate and the actual demands of 1882-83, and of the demand on certain inam lands for 1881-82. The increase in Masulipatam is explained by the inclusion of the hitherto unsettled (but now settled) demand of the Núzvíd Estate for Faslis 1289 to 1291, while that in Kurnool, Madura and Dindigul is accounted for by the raising of the land-cess from nine pies to one anna in the rupee of the assessment. The total demand, both arrears and current, amounted to Rs. 52,30,839, of which Rs. 43,35,157 were collected within the year. This sum, however, differs from the amount given in the preceding paragraph by Rs. 22,268, which is explained by the fact that the Accountant-General's statements show the actual collections including those made in advance for the next year, while the demand, collection and balance statements show only the collections relating to the year under report, including the advance collections made in the previous year. It is satisfactory to observe that the total collections were 83 per cent. of the demand against 78 per cent. in the previous year, the arrear and current collections being, respectively, 75 and 84 per cent. of the demand against 65 and 82 per cent. in 1882-83. The collections in Dindigul, Malabar, Negapatam and Shermádevi ran as high as 96, 99, 99 and 94 per cent., respectively, of the demand; on the other hand in Bellary, Cuddapah, Madanapalle, Nellore and Nílgiris, they were very backward, being, respectively, 62, 68, 66, 67 and 68 per cent. of the demand. The attention of the Collectors concerned has already been drawn to this matter in Board's Proceedings, dated 27th June 1884, No. 2230, and the Board trust that better results will be attained in 1884-85. Of the arrears, Rs. 1,10,443 were written off the accounts as irrecoverable, the largest sums remitted being in South Arcot, Bellary and Coimbatore. The circumstances under which Rs. 27,297 were written off the accounts in Coimbatore have been already explained in paragraph 15 of the preceding year's report. In South Arcot the remissions amounted to Rs. 14,917, being a portion of the cess due on lands whose revenue was written off the accounts in Fasli 1293 to the extent of Rs. 2,58,242 under G.Os., Revenue Department, dated 12th December 1883, No. 1556 and 19th April 1884, No. 507. In Bellary Rs. 24,451 were remitted partly owing to the death or insolvency of the ryots and partly owing to certain service inams having been left waste on account of attachment for arrears, &c.

Out of Rs. 7,86,565 outstanding at the close of the year, Rs. 5,34,620 have been since collected up to 31st October 1884 and Rs. 74,689 remitted as irrecoverable. The remaining balance of Rs. 1,77,256 does not extend beyond 1875-76 in any of the circles except Salem and Kistna, where the arrears run so far back as the year 1871-72. In Salem, these old arrears have since been ordered to be written off the accounts and the Collector of Kistna has also promised to submit an application for the remission of the irrecoverable arrears. The attention of Collectors has been frequently called to this matter and the Board trust that immediate action will be taken to realize the whole recoverable arrear and to write off the remainder before the close of the current year.

* The three gates at Polláchi being at one place are considered as one gate.
† The three gates at Cumbum being at one place are considered as one gate.
‡ The four gates at Pálkonda being at one place are considered as one gate.

The income from tolls was derived, as in last year, from all the circles excepting Cuddapah, Madanapalle, Cocanada and Shermádevi. There were 137 toll gates against 114 at the end of 1882-83, the increase being due to the following causes :—

(1) In Anantapur three gates were established at Gooty, Penukonda, and Kalyándrúg under the sanction conveyed in G.O., dated 26th September 1883, Mis. No. 2150, Financial Department.

(2) In Chatrapur there were ten gates in 1882-83, but their situation having been found to be ill-adapted for the prevention of evasion of toll-payment, eight of them were abolished and five new ones at Injili, Ichápur, Báruva, Karakori and Gopálpur were established under G.O., dated 3rd September 1883, Mis. No. 1936, Financial Department.

(3) In 1882-83 there were four toll-bars in Kurnool, all at Cumbum, but in the year under report the gate at Chinna-Cumbum was abolished and a new one was opened experimentally at Dibuguntla under G.O., dated 28th May 1883, No. 1046, Financial Department.

(4) Four new toll-gates were established on ghát roads in Dindigul with reference to G.O., dated 27th December 1882, No. 2051, Financial Department.

(5) In Hosúr, owing to the evasion practised by the cartmen on the Dharmapuri-Mórappúr road, an additional toll-gate was opened at Settikarai, three miles from Dharmapuri, under G.O., dated 26th September 1883, Mis. No. 2617, Financial Department.

(6) Up to 1882-83 there was only one Local Fund toll-gate on the Sátúr bridge in Tinnevelly, and the Municipalities in the circle contributed a portion of their toll collections to the Local Fund Board, but in the year under report the Local Fund Board represented that, as the existing arrrangement did not afford them a fair return for the expenditure incurred by them in maintaining the trunk roads passing through the towns of Palamcottah and Tinnevelly, they should be permitted to establish their own toll-bars, on condition of agreeing to contribute to the Municipalities concerned an amount equal to the income hitherto derived by them. Sanction was accordingly given to abolish the Municipal toll-gates and to establish seventeen Local Fund toll-gates instead to intercept principally the traffic *en route* to the Railway Stations—*vide* G.O., dated 18th January 1883, Mis. No. 99, Financial Department, and Gazette Notification, dated 17th April 1883.

(7) In Malabar two new gates, one near the Iritty Ferry and the other at the Tippanaud River, were established under G.Os., dated 23rd January 1883, Mis. No. 139-A, Financial Department, and 20th August 1883, Mis. No. 1823, and a third one at the Orumanayar Dam was established in accordance with the proposal made in the budget for the year; but no information is given in explanation of the abolition of the three gates at Murat, Kudali and Korapoya bridges, which were in existence in 1882-83.

Some of the existing toll-bars were removed to more convenient localities as shown in the margin, owing to the evasion practised by cartmen at the original sites. The South Arcot Local Fund Board proposed to re-establish the toll-gates in the late Vriddháchalam Circle, which were abolished in the preceding year, but as the sites selected were all on the frontiers of the district, the proposal was disallowed with reference to the principle enunciated in G.O., dated 27th July 1880, No. 1453, Financial Department.

	From	*To*
Chingleput ...	Numbul and 2nd furlong 19th mile near Vandalúr.	Madaravoyal and 1st furlong 19th mile on the S. T. Road.

Tinnevelly ..	North of Vannarapettai...	South of Vannarapettai...
Malabar ...	Nilambúr Karampoya ...	Kondutti.

The revenue from tolls amounted to Rs. 4,41,317 against an estimate of Rs. 3,86,140 and Rs. 3,86,662 realized in 1882-83. The increase of Rs. 55,177 over the estimate was the result of a gross increase of Rs. 71,838 in nineteen circles and a gross decrease of Rs. 16,661 in seven circles. The decrease is small and calls for no remark, while the increase is mainly due to the following causes :—

(1) The opening of new toll-gates;

(2) Transfer of some of the toll-bars to better localities; and

(3) Greater competition among bidders for the lease of the toll-gates.

Of the total amount credited under this head, Rs. 3,36,732 were realized from the Local Fund toll-gates and the remainder, Rs. 1,04,585, was contributed by Municipalities on account of the Local Fund share of the tolls collected by them.

17. *School Fees.*—The fees collected in Local Fund schools amounted to Rs. 44,785 against an estimate of Rs. 37,190 and Rs. 36,862 realized in 1882-83. The increase is explained by (1) the adoption of the new scale of fees, (2) the levy of fees for the first time in certain circles, (3) the punctual collection of fees, (4) the increased attendance in some schools, and (5) the opening of new schools.

18. *Contribution from Municipalities.*—The amount contributed by Municipalities, exclusive of that on account of tolls, was Rs. 4,993 against an estimate of Rs. 4,760. The following are the purposes for which the contributions were received :—

	Rs.
(1) Public Works	500
(2) Educational Inspection	1,004
(3) Schools	678
(4) Dispensaries...	2,670
(5) Vaccination	141
Total ...	4,993

19. *Educational Receipts.*—The miscellaneous receipts of educational institutions amounted to Rs. 8,075, derived from the following sources :—

	Rs.
(1) Income from Endowments	1,895
(2) Contribution by Private Individuals	930
(3) Miscellaneous	5,250
Total ...	8,075

The first item comprised the receipts of the endowment attached to the Ponnur school (not Kattampudi, as reported in the previous year) in Guntúr, consisting of certain tope inams transferred to the Local Fund Board for the encouragement of education under G.Os., dated 29th September 1876, No. 1392, and 10th April 1878, No. 567, Revenue Department, together with those of the Female Normal School at Calicut in Malabar, maintained from the Moyan Endowment Fund, made over to the Local Fund Board for the encouragement of female education. The contributions by private individuals for schools were received in Chittoor and Vizagapatam. The miscellaneous receipts include a sum of Rs. 3,419, being the balance in favor of the Yeomjah School at Arcot in the Vellore Circle, transferred to the Local Fund Board, as stated in paragraph 10, *supra*.

20. *Hospital and Dispensary Receipts.*—The income under this head amounted to Rs. 29,497, from the following sources, against an estimate of Rs. 13,290 and Rs. 16,958 realized in 1882-83. The increase, which occurs mainly under contributions

by private bodies, was caused by the receipt of the arrears of the previous year and of contributions in aid of new dispensaries proposed to be opened :—

	Rs.
(1) Interest on Government Securities...	9,038
(2) Income from other Endowments	2,243
(3) Sale of Medicines	1,091
(4) Contribution by Private Individuals	14,984
(5) Miscellaneous	2,141
Total ...	29,497

21. *Choultry Receipts.*—The receipts of endowed choultries amounted to Rs. 2,29,314 or Rs. 4,594 more than the estimate of the year and Rs. 5,577 less than the actuals of 1882-83. As in previous years the bulk of the income under this head is in the Tanjore Circle. The increase, as compared with the estimate, has resulted from a gross increase of Rs. 17,811 in sixteen circles and a gross decrease of Rs. 13,217 in six circles. The variations, except in Tanjore, Tinnevelly and Shermádevi, call for no remark. In Tanjore, the actual collections fell short of the estimate by Rs. 12,077 owing to the poor outturn of the cultivation of the chattram lands, consequent on the untimely rains and a blight from which the rice crop suffered, while in Tinnevelly and Shermádevi the actual receipts exceeded the estimates by Rs. 2,068 and Rs. 12,620, respectively, owing in the former case to the increased rents obtained for the lands and to the collection of arrears, and in the latter case to the larger yield of the lands attached to the chattrams and to the receipt of the sum of Rs. 6,842, being the balance at credit of the Kuttalam Choultry, transferred to the Local Fund Board under the general sanction conveyed in G.O., dated 26th April 1881, No. 736, Financial Department.

22. *Market Rents.*—The receipts under this head amounted to Rs. 62,023 against an estimate of Rs. 63,320 and Rs. 56,876 realized in 1882-83. The increase is explained by the extension of the fee system to additional markets.

23. *Miscellaneous Endowments.*—The receipts under this head amounted to Rs. 4,188, derived from the following sources :—

	Rs.
(1) Interest on the Promissory Notes invested from the Surplus Pagoda Fund in the Chingleput, Salem and Hosúr Circles ...	2,712
(2) Interest on the Promissory Notes in favor of Petrus Uscan's Charity Fund in the Chingleput Circle	422
(3) Interest on the amount invested in favor of the Price Vaccination Fund in the Hosúr Circle	427
(4) Receipts of the Taylorpettah Fund in the Ellore Circle ...	627
Total ...	4,188

The difference of Rs. 6,389 between the above sum and that shown in the Accountant-General's statement is owing to the inclusion, under this head, of items 3 and 4, which have been shown by the Accountant-General under Hospital Receipts and Bungalow Fees, respectively, and to the transfer to miscellaneous receipts of Rs. 7,443 shown by the Accountant-General under this head, being the interest realized on the Government Promissory Notes invested in favor of the Railway Guarantee Fund in the Tanjore and Negapatam Circles.

24. *Miscellaneous Receipts.*—The total miscellaneous receipts amounted to Rs. 2,02,368 against an estimate of Rs. 1,40,110 and Rs. 1,99,730, the actuals of 1882-83. The more important items are compared below with those of the preceding year :—

	1882-83. Rs.	1883-84. Rs.
(*a*) Bungalow Fees	9,133	11,423
(*b*) Avenue Rents	36,333	45,678
(*c*) Rents of Ferries to which the Canal and Ferry Fund Act has not been extended	21,107	22,797
(*d*) Interest on Arrears	15,028	19,749
(*e*) Private Contributions	44,247	38,545

The increase under (*a*) is explained by the higher rates of fees levied in the bungalows and by the larger number of travellers who halted in them; that under (*b*) is ascribed to the larger number of trees cut down and sold, and to the keen competition for the purchase of the avenue produce; and that under (*c*) to the higher bids obtained for the lease of the ferries and to the collection of arrears. Of the amount shown under Private contributions, Rs. 16,171 were received on account of Public Works and the remainder, Rs. 22,374, for sanitary purposes against Rs. 24,959 and Rs. 19,288, respectively, in 1882-83. The amount of contributions received for sanitary purposes shows satisfactory improvement.

25. *Expenditure—Appendix II.*—The total expenditure, excluding contributions between the circles and debt accounts, was Rs. 60,88,417 against an estimate of Rs. 69,65,189 and Rs. 60,74,772, the actual outlay in 1882-83. The decrease, as compared with the estimate, occurs mainly under Grant I, and is explained by the short outlay on communications, both New Works and Repairs. The increase over the outlay of the previous year is small, but if the contributions paid to Provincial Funds in adjustment of the famine debt are omitted from both years, the expenditure of the year under review exceeds that of the preceding year by Rs. 3,61,419, owing to the larger outlay on Public Works in 1883-84, and to the fact that the expenditure in this year includes a sum of Rs. 1,80,800 invested in Government securities, and Rs. 15,405, being the re-payment of loans, while similar items, amounting to Rs. 1,63,900 and 15,067, respectively, in the previous year, were not included in the expenditure under Service heads. The total expenditure is distributed among the several grants and minor funds as follows :—

Grants.	Funds.	Amount.	Total.	Percentage of Outlay under each Grant to Total Expenditure.	
				1883-84.	1882-83.
		Rs.	Rs.		
Grant I—Works including Supervision and Tools and Plant	Road Fund	38,35,064

			Total ..	39,48,594	39,67,108
			Deduct Appropriation from the General Fund	..	12,000
			Expenditure ..	39,48,594	39,55,108
			Balance ..	14,93,619	15,23,899
Grand Total ..	54,42,213	54,79,007	Grand Total ..	54,42,213	54,79,007

The total assets of this fund amounted to Rs. 54,39,618, against Rs. 54,91,007 in 1882-83. Excluding, however, the opening balances, the actual receipts of the year—Rs. 37,63,013—exceeded those of the previous year by Rs. 1,33,721. The increase occurs under Grants from Provincial Funds, Land-cess and Tolls. There is, however, a decrease of Rs. 32,651 under Special Funds, which is explained by the transfer of a larger portion of the contributions from Pound Funds and Fishery Rents to the General Fund, in consideration of the depressed condition of that fund in some of the circles. The expenditure amounted to Rs. 39,47,670, or nearly the same amount as in 1882-83.

27. *Communications.*—The following statement shows the allotments sanctioned for roads, and the expenditure actually incurred thereon :—

Districts.	Circles.	Allotments. New Works.	Allotments. Repairs.	Allotments. Total.	Expenditure. New Works.	Expenditure. Repairs.	Expenditure. Total.	Percentage of Expenditure to Allotment.	Percentage of Expenditure on Roads to total Expenditure.

	Total ..	11,25,615	24,35,360	35,60,975	7,37,191	22,40,781	29,77,972	84	49

The total expenditure on Communications was Rs. 29,77,972, or 84 per cent. of the allotments and 49 per cent. of the whole Local Fund expenditure, against 80 and 47 per cent., respectively, in 1882-83. The expenditure in Salem and Hosúr exceeded the sanctioned allotments for new works, while that in Cocanada, Ellore, Malabar and Tinnevelly was less than three-fourths of the grant. In Salem, the excess expenditure was mainly incurred on the construction of the girder bridge over the Vasistanadhi near Thalavassal, for which a revised estimate was sanctioned in G.O., dated 15th September 1883, No. 2604, but no reason has been assigned for exceeding the allotment—*vide* paragraph 5 of the Board's Proceedings, dated 1st August 1884, No 2615. The trifling excess of Re. 1 in Hosúr does not call for special notice. In Cocanada, the short expenditure occurs mainly under new works, on which only 55 per cent. of the sanctioned grant was expended; but the cause of this has not been explained—*vide* paragraph 5 of the Board's Proceedings, dated 23rd September 1884, No. 3317. The short outlay in Ellore is ascribed to the death of the Local Fund Engineer in December 1883 and to the delay in appointing his successor, in consequence of which the execution of works was delayed. In Malabar, the outlay on new works was only 10 per cent. of the allotment, as the construction of six bridges, for which provision was made in the budget, was not undertaken owing to the non-completion of the estimates within the year. The short outlay in Tinnevelly, which occurs mainly under new works, is explained by the impediments to works caused by the heavy monsoon, the late sanction of estimates, the savings effected in works completed and the non-payment for works executed at the end of the year.

Of the total outlay of Rs. 29,77,972 on communications, Rs. 29,50,962 were expended by the Engineering establishments employed by the Local Fund Boards, and the remainder, Rs. 27,010, by the Public Works Department. The latter sum was debited to the South Arcot, Masulipatam, Tanjore, Negapatam, Tinnevelly and

Trichinopoly Circles, in all of which, excepting Masulipatam, it was spent on the construction and maintenance of roads running along channel banks and tank-bunds, which were entrusted to the care of the Public Works Department. In Masulipatam, the individual work on the repair of which Rs. 253 was expended is not specified. Besides the above, Rs. 1,366 were expended on other purposes by the Public Works Department in South Arcot, Cocanada and Trichinopoly. In South Arcot, Rs. 867 are stated to have been debited by the Accountant-General, on the advice of the Examiner of Public Works Accounts; but as this expenditure appears to have been incurred on the construction of a Custom House on the platform of the Railway station at Kandamangalam, it is debitable to Provincial Funds, and the subject is under correspondence with the Accountant-General. In Cocanada, Rs. 447 were spent on sanitary improvements to the town of Dowlaishweram, while the purpose for which the sum of Rs. 52 was spent in Trichinopoly is not specified.

28. *Main Roads.*—The following statement shows the statistics of roads in the several circles :—

* Figures of 1882-83, those for 1883-84 have not yet been received.

The total length of roads, exclusive of village roads, was 21,018 miles, of which 18,624 miles were maintained during the year against 18,218 miles in 1882-83. The state of the roads in all circles was generally good. In South Arcot, Masulipatam and Dindigul, however, the maintenance of the roads is reported to have been unsatisfactory, the means at the disposal of the Local Fund Boards being inadequate.

29. *Village Roads.*—The following statement shows the length of village roads newly made and repaired during the year, and the expenditure incurred thereon :—

Districts.	Circles.	New Works.		Repairs.		Total.		Road Fund Income.	Percentage to Road Fund Income.	Percentage of Outlay on Village Roads to total Outlay under Road Fund.

30. *Public Works Department Supervision Charges.*—Rs. 4,136 were paid to the Public Works Department for the supervision of the works referred to in paragraph 27 *supra*, and Rs. 21,250 for the examination of plans and estimates of important Local Fund works. The former sum is only 15 per cent. of the outlay on works against the prescribed rate of 23 per cent. payable to that department, the decrease being due to exemption of the South Arcot and Tinnevelly circles from this charge on account of the roads running along channel banks and tank bunds, in accordance with G.O., Public Works Department, dated 31st March 1881, No. 234-I, and G.O., Financial Department, dated 11th April 1881, No. 618. The contribution of Rs. 21,250 mentioned above, which is 10 per cent. of the outlay on works the estimates for which were scrutinized by the Public Works Department, was sanctioned in G.O., Public Works Department, dated 6th December 1882, No. 3211-W., and was apportioned by the Accountant-General among the several circles in the manner indicated in G.O., Financial Department, dated 2nd May 1883, No. 867. The further communication promised by the Board in this matter in paragraph 6 of their Proceedings, dated 4th August 1884, No. 2662, will be submitted to Government shortly. As in the previous year, separate Engineering establishments for supervising Local Fund works were employed in all the circles. In twenty-eight circles, the establishments worked under officers of the Engineer and Assistant Engineer grades, while the two remaining circles of Anantapur and Chicacole were under Supervisors. The total cost of these establishments, including contingencies, amounted to Rs. 5,32,590, against Rs. 5,15,070 in 1882-83, and is distributed among the minor funds as follows.

	Rs.
Road Fund	4,88,117
Endowment Fund	9,294
General Fund	35,179
Total ...	5,32,590

The subjoined statement shows the cost of these establishments, including contingencies, and the proportion it bears to the total outlay on works in their charge in the several circles :—

Districts.	Circles.	Total Outlay on Works by the Local Fund Engineering Establishment.	Cost of Local Fund Engineering Establishment.	Percentage of Columns 3 to 2.

20. Trichinopoly ...	Trichinopoly	1,14,076	16,700	15
21. Vizagapatam ...	Vizagapatam	1,18,957	19,376	16
	Total ...	32,33,252	5,32,590	16

The percentage of cost to the outlay on works executed by this agency was 16 against 17 in the preceding year. This is satisfactory, when it is remembered that the rate payable to the Public Works Department for works executed by that department is 23 per cent. and that the maximum rate fixed for the Local Fund Engineering establishments in G.O., Financial Department, dated 24th April 1884, No. 878, is 20 per cent. In Anantapur, Cuddapah, Madanapalle, Chatrapur, Masulipatam, Malabar and Nellore, however, the rate exceeded 20 per cent. The percentage in Malabar, considering the small outlay on works and the peculiar features of this circle, is not excessive. The large percentage in Nellore is ascribed to the short outlay on works caused by the non-completion of estimates for some of the works and by the non-payment of the amount due for certain other works completed within the year ; as regards

the remaining circles, the cause of the comparatively small outlay on public works is ascribed to paucity of funds. The cost of the Toll and Ferry establishments was Rs. 13,071 against Rs. 6,411 in the preceding year ; the increase is attributable to the establishments costing Rs. 6,100 maintained in the Tinnevelly Circle, under the arrangement adverted to in paragraph 16 *supra*.

31. *Tools and Plant.*—The amount spent in the purchase of tools and plant is Rs. 45,337, besides Rs. 267 paid to the Public Works Department for the same purpose. The former sum is 1·4 per cent. of the outlay on works against 1·5 per cent. payable to the Public Works Department. The total outlay under this head is distributed among the minor funds as follows :—

	Rs.
Road Fund	41,515
Endowment Fund	946
General Fund	3,143
Total ...	45,604

32. *Contributions to Provincial Funds.*—Rs. 62,464 were contributed to Provincial Funds in partial adjustment of the sum of Rs. 5,67,000 ordered in G.O., Financial Department, dated 20th December 1882, No. 1993, to be recovered from Local Funds for works executed during the late famine. The total amount paid on this account up to the end of the year under report is Rs. 4,72,702, and the balance of Rs. 94,298 remaining unpaid on the 1st April last was due from the circles noted in the margin. Of this amount, however, Rs. 49,779 are provided for payment in the current year in the circles of Anantapur, Madura, Nellore and Tinnevelly, and the remainder will be paid in the ensuing years. Besides the above, Rs. 10,465 were transferred from Local to Provincial Funds as contributions for the undermentioned purposes : —

	Rs.
Anantapur	8,217
Cuddapah	17,013
Madura	33,972
Nellore	18,757
Salem	9,377
Tinnevelly	6,962
Total ...	94,298

Rs. 5,530 for the construction of the road along the bund of the Chittrachavadi channel in Coimbatore.
Rs. 220 for the construction of the Nekkalakodu under-tunnel in Cocanada.
Rs. 4,715 for raising the left bank of the Támbraparni river above and below the Srívaikuntham anicut in Tinnevelly.

33. *Contributions to Municipalities.*—The amount contributed from Local Funds to Municipalities, &c., for road works in and about the towns was Rs. 19,084 as shown below :—

	Rs.
To the Adóni Municipality in Bellary	160
To the Telicherry, Calicut and Pálghat Municipalities in Malabar, and to the French Government at Mahé	6,120
To the Tuticorin, Palamcottah and Tinnevelly Municipalities (for roads and tolls) in Tinnevelly	9,600
To the Kumbakónam Municipality in Tanjore, as the refund of the amount paid for the repair of the Cauvery bridge	1,304
To the Srírangam and Trichinopoly Municipalities in Trichinopoly ...	1,100
To the Vizagapatam and Anakapalle Municipalities in Vizagapatam	800
Total ...	19,084

34. *Repayment of and Interest on Loans.*—Rs. 15,405 were repaid by the Chingleput and Malabar Circle Boards as instalments of, and Rs. 11,962 as interest on, the loans obtained from Provincial Funds.

The annexed statement shows the purposes for which the loans were raised, and the balance due at the close of 1883-84 :—

Districts.	Circles.	Works.	Amount of Loan.	Amount repaid.	Balance due.
			RS.	RS.	RS.
Chingleput	Chingleput	Construction of the iron girder bridge across the Kortalayár river.	1,99,790	38,604	1,61,186
Malabar	Malabar	Completion of the Támrachéri and Peria Ghât roads.	1,49,000	57,036	91,964

35. *Endowment Fund—Appendices V and VI.*—The subjoined statement shows the receipts and charges of the endowed institutions, including markets, under the management of the several Local Fund Boards, compared with those of the previous year :—

Receipts.	Actuals of		Expenditure.		Actuals of	
	1883-84.	1882-83.			1883-84.	1882-83.

* Exclusive of Rs. 860—Rs. 500 in Chittoor and Rs. 360 in Tanjore—being contributions between circles.

The total assets of the fund, including the opening balance of Rs. 3,01,085 and an appropriation of Rs. 47,615 from the General Fund, amounted to Rs. 6,81,827 and the expenditure was Rs. 3,54,324, leaving a balance of Rs. 3,27,503 at the close of the year. The actual receipts, excluding the opening balance, the appropriation from the General Fund and the debt receipts, show a net increase of Rs. 8,823, resulting from an increase of Rs. 16,852 under interest on Government securities and contributions, &c., and a decrease of Rs. 8,029 under rents and produce of land. The increase under interest, &c., which occurs mainly in Tanjore, is attributable to the additional investments in Government securities made in the previous year from the savings under choultry receipts, while that under contributions, &c., is explained chiefly by the credit taken under this head (1) for the balance of Rs. 3,419 in favor of the Yeomiah School at Arcot, transferred to the management of the Local Fund Board during the year under report ; (2) for the Provincial grant of Rs. 1,002 for the upkeep of the Female Normal School at Calicut ; and (3) for Rs. 4,400 contributed by the Mahant of Tirupati on account of the dispensary at that place. The decrease under rents, &c., has already been explained in paragraph 21 *supra*. The total expenditure was Rs. 32,297 more than in the preceding year. Excluding, however, the investment of Rs. 12,600 under the Moyan Fund in Malabar, the remaining increase of Rs. 19,697, which occurs mainly under public works, is explained by the larger sums spent on the repairs of endowed choultries, dispensaries, &c.

36. The following statement shows the particulars of the endowed institutions :—

There were four endowed schools against three in the previous year. The school at Ponnur in the Guntúr Circle, the Prince of Wales' Medical School at Tanjore, and the Female Normal School at Calicut appeared in the last year's report, and to these has now been added the Yeomiah School at Arcot transferred to the Local Fund Board during the year under report. The number of endowed dispensaries rose from eighteen to nineteen, by the addition of the Saidápet dispensary, which was constituted an endowed institution, during the year under report, by the transfer to it of the Inam lands belonging to the chattram at Nandambakum and to the water-shed at Kodambakum under G.Os., Revenue Department, dated 17th February 1882, No. 551, and 18th December 1882, No. 1448. Under choultries there is an increase of five in the South Arcot, Nellore, Salem, Hosúr and Shermádevi Circles. The Government having in their Order, dated 9th October 1883, No. 1258, assigned lands, assessed at Rs. 60 per annum, as Inam to the choultry at Chinna Salem in South Arcot, it was included under the head of endowed institutions. In Nellore the choultry at Chengalpalem belonging to a native gentleman was made over by him to the Local Fund Board with its endowment in land yielding Rs. 60 per annum. The chattram at Mórappúr in the Salem Circle, which was in course of construction out of the surplus of the old Toppur Chattram Fund in 1882-83, having been completed during the year under report, it was brought under the management of the Local Fund Board and maintained with the Sooramangalam, Jollarpet and Toppur choultries out of the annual allowance of Rs. 1,750 appertaining to the old Toppur chattram, under the instructions contained in G.O., dated 23rd August 1882, Miscellaneous No. 1008. In the Hosúr Circle the choultry newly built by the Circle Board at Mathagiri was included under this head, as an endowment of waste land measuring Acres 45·6, assessed at Rs. 62-1-0, was assigned to it under G.O., Revenue Department, dated 18th February 1882, No. 572. In Shermádevi, the transfer to the Local Fund Board of the choultry at Kuttálam under Board's Proceedings, dated 31st May 1881, No. 944, accounts for the increase. This chattram originally belonged to the ex-zemindar of Chockampati, but owing to his mismanagement it was taken under Government control under Board's Proceedings, dated 24th October 1878, No. 2861, and was subsequently transferred to the Local

Fund Board under the authority quoted above. The number of water-pandals remained the same as in 1882-83. Under tanks there is an increase of seven which occurs in the Guntúr and Tinnevelly Circles. Of the increase of six in the former circle, three are due to the transfer to the Local Fund Board of the endowed tanks at Dintanapad, Visadala and Muktamala, and the cause of the remaining difference has not been explained. In Tinnevelly the pond at Teku Kangarakulam in the Srívilliputur Taluk was transferred to the Local Fund Board during the year under report with reference to G.O., dated 8th May 1883, No. 570. The two langarkhanas shown in the above statement are those at Arcot and Kurnool, which appeared in the last report.

37. The annexed statement shows the number of markets in which fees are collected and the rates of fees :—

At the end of the previous year, the fee-system was in force in 181 markets and it was extended to thirty-eight additional markets during the year under report. The receipts amounted to Rs. 62,023, out of which Rs. 14,171 were spent on establishments and Rs. 24,320 in the improvement of markets against Rs. 11,712 and Rs. 28,472, respectively, in the previous year. The decrease under the latter head is mainly due to the non-utilization of the lump allotment of Rs. 25,000 provided for the construction of sheds, &c., in the Coimbatore Circle, in consequence of the delay in maturing a scheme for utilizing the available balance of some markets in the improvement of others, the receipts of which are insufficient for the purpose. In some circles sheds for the convenience of the market frequenters were erected, new wells were dug and fencing was repaired. In Salem seven such sheds were constructed in the markets at Athiyamputti, Yercaud, Nynamalai, Muttupulli and Vániyambádi, and the site of the Nynamalai market was improved. In Chittoor fences were erected around such of the markets as required them, permanent sheds of a substantial nature were constructed on a uniform plan in several of the more important markets and cattle troughs and gatekeepers' rooms were added in all of them.

38. The following statement shows the amounts invested in Government Securities in favor of Endowed Institutions :—

Districts.	Circles.	Name of the Endowment.	Amount of Investment.	Rate of Interest.	Officer in whose name the Government Security stands.

Charges under Debt Heads	2,555	..
Total Expenditure	18,39,348	18,28,024
Deduct appropriation from the Endowment Fund	2,738	2,148
Net Expenditure	18,36,610	18,25,876
Balance	4,73,822	6,01,011
Grand Total	23,10,432	24,26,887

Excluding the opening balance, the receipts amounted to Rs. 17,14,029 against Rs. 16,18,584 in the previous year. The increase appears mainly under Land-cess and Miscellaneous receipts, the causes of which have been already explained in paragraphs 15 and 26 *supra*. The items included under Miscellaneous receipts are noted in the margin. The charges amounted to Rs. 18,34,055 against Rs. 18,25,876 in 1882-83. It will thus be seen that the charges of the fund in the year under report exceeded its income by Rs. 1,20,026, which was met from the opening balance.

	Rs.
Fishery Rents	58,502
Pound Fund	13,490
Ferry Rents	8,910
Grass Rents	52
Interest on arrears of Revenue	5,835
Fines and Penalties	8,880
Receipts in aid of superannuation	269
Sale-proceeds of escheated lands	1,294
Total	97,232

40 *Grant I, Public Works.*—The expenditure on public works, amounting to Rs. 2,09,445, was incurred for the following purposes:—

	Rs.
School-houses	11,394
Hospital buildings	39,911
Choultries	21,014
Public bungalows	12,385
Avenues	87,652
Sanitary works	29,818
Inspection, Cholera, &c., sheds	3,187
Local Fund Engineer's Office, &c.	2,449
Miscellaneous	1,635
Total	2,09,445

The subjoined statement shows the number of buildings completed, in progress, and repaired during the year:—

Completed.	In Progress.	Repaired.
13 Dispensaries.	11 Dispensaries.	51 Dispensaries.
1 Midwife's quarters.	17 School-houses.	56 School-houses.

Other minor miscellaneous works.		

41. *Grant II, Education.*—The year under report contrasts favorably with the preceding one in respect of the progress of elementary education, 251,273 * pupils against 223,338 in 1882-83 having received instruction in the schools either wholly maintained or partially aided from Local Funds. The number of children of school-going age being 4,216,480 (on the assumption that they constitute 15 per cent. of the total population), those under tuition were 6 per cent. of that number against 5·3 per cent. in 1882-83. Besides Rs. 11,394 spent under Grant I on the

	Pupils.
* Local Fund Schools	61,358
Grant-in-aid Schools	189,915
Total	251,273

construction and repair of school buildings and Rs. 6,987 expended from the Endowment Fund on account of the Female Normal School at Calicut, the Local Fund School at Ponnur, the Chattram Schools in Tanjore, and the Yeomiah School at Arcot, Rs. 6,73,332 were spent from the General Fund to meet the educational requirements of the year. This expenditure shows an increase of Rs. 15,547 over the actuals of 1882-83, which was caused by the opening of additional Local Fund, Normal and Elementary Schools in certain circles, and by the contributions paid to Provincial Funds towards the pay and allowances of the Deputy Inspectors of Schools, under the arrangement sanctioned in G.O., dated 20th September 1883, No. 617. Including the sum expended from the Endowment Fund, the total cost of education was Rs. 6,80,319, and the following are the purposes for which this amount was spent:—

	Rs.
Educational Inspection	56,899
Elementary Normal Schools	53,078
Middle-class Schools	46,845
Elementary Schools on the Salary System	66,187
Do. on the Combined System	1,87,462
Salary Grants	1,417
Result do.	2,23,447
Purchase and sale of Books	16,726
Contribution to Municipalities for Schools	1,000
Do. to Provincial Funds for Schools	680
Do. do. on account of Deputy Inspectors.	23,263
Miscellaneous Charges	3,315
Total ...	6,80,319

42. *Educational Inspection.*—The educational inspecting agency maintained for the supervision of indigenous primary education consists of Deputy Inspectors and Inspecting Schoolmasters. The former with a few exceptions are now borne on the Provincial list, the Local Fund Boards concerned contributing lump sums to Provincial Funds towards their pay and allowances, with reference to the Government Order quoted above. The number of Inspecting Schoolmasters employed during the year and the work done by them are shown in the annexed statement:—

Districts.	Circles.	Number of Inspecting Schoolmasters.	Number of Villages visited.	Number of Schools visited and prepared for Examination.			
				Local Fund.	Grant-in-aid.	Other.	Total.
1. Anantapur	Anantapur	1	42	..	33	..	33

	Total ..	117	15,018	1,225	9,215	3,538	13,978

The total number of schools visited by the Inspecting Schoolmasters was 13,978. Including the contribution of Rs. 23,263 to Provincial Funds—not Rs. 23,943 as given by the Accountant-General, the difference being due to the inclusion under this head of the contributions paid for the Government schools in Chittoor and Hosúr—the total cost of inspection was Rs. 80,162. Deducting from this sum Rs. 1,004 contributed to Local Funds by Municipalities on account of the services of the Local Fund Inspecting Schoolmasters in supervising Municipal schools, the net cost to Local Funds was Rs. 79,158 or 11·6 per cent. of the total outlay on education, against 11 per cent. in 1882-83. The increase is explained by the enhanced contribution paid to Provincial Funds on account of Deputy Inspectors.

43. *Elementary Normal Schools.*—The subjoined statement contains the statistics of the Elementary Normal schools in the several circles:—

Districts.	Circles.	Names of Towns at which the Schools are located.	Number of Masters.	Number of Stipendiary Students.	Number of other Students.	Number of Pupils in the Practising Class.	Number of Normal Pupils who appeared for the Special Upper Primary Examination.	Number passed.	Receipts. Provincial Grant.	School Fees.	Miscellaneous.	Total.	Total Cost.	Net Expenditure.	Average Cost of educating each Passed Student.

The number of these schools was raised from twenty-four at the end of 1882-83 to twenty-nine during the year under report by the opening of the four new schools at the marginally-noted places and by the transfer of the Government Normal School at Mangalore to the Local Fund Board of South Canara. The schools at Karúr in Coimbatore and at Tiruválúr in Negapatam, sanctioned in G.Os., dated 5th July 1883, No. 1378, and 16th August 1882, No. 954, were not opened; the cause of this has not been explained. The Madanapalle Board sent their pupils to the Cuddapah Normal school paying the stipends themselves, while the Dindigul Board contributed Rs. 1,000 to the Madura Circle towards the cost of training their pupils at the Madura school. In Nílgiris it was originally proposed to send the pupils to the Coimbatore school, but as none could be induced to proceed thither, a separate school at Wellington was ordered to be established in the current year to train the Badaga teachers (*vide* G.O., dated 18th March 1884, Mis. No. 594). The schools at Chittoor, Kurnool, Cuddalore, Ponáni and Krishnagiri were transferred respectively to Arni, Nandyál, Villupuram, Calicut and Hosúr, the change in the case of the first two having been made with the view of giving an opportunity to the schoolmasters in and about the places to which the schools were removed to avail themselves of the advantages of these institutions. The cause of the other transfers was the large falling off in the number of pupils attending the practising departments, owing to the existence of rival schools. It is stated that as the Chicacole Normal school does not occupy a central position, proposals have been made by the Deputy Inspector to remove the school to Tekkali, and that the matter is under the consideration of the Circle Board. The schools at Chingleput and Ellamanchili having been opened towards the end of the year, the results of their working will be exhibited in the next year's report. The number of students trained in the several Normal schools was 674 against 557 in the previous year. Of the former, 539 students appeared for the Special Upper Primary Examination held in December 1883, but only 349 or about 65 per cent. passed, against 75 per cent. in the previous year. Most of them were appointed teachers in Local Fund schools and the others were permitted to join or open grant-in-aid schools. The practising classes of these schools maintained to train the students in the art of teaching were attended by 1,236 pupils against 1,189 in 1882-83. Most of these classes were very poorly attended. The Female Normal school at Calicut, opened in July 1883, contained twenty-seven girls, of whom four appeared for the Special Upper Primary Examination and three passed in the first class. This school had no practising class, but it is reported that proposals are being matured by the Local Board to meet this want in the current year. The net cost of these schools to Local Funds was Rs. 48,100 or Rs. 138 for each passed student, against Rs. 118 in the previous year, the increase being chiefly due to the smaller proportion of successful students in the year under report.

The number of these schools rose from forty-nine in the previous year to sixty-two in the year under review, the net increase of thirteen having resulted from a decrease of three in one circle and a gross increase of sixteen in seven circles. The Elementary Local Fund schools at the marginally-noted places were raised to the middle standard; new schools were opened at Tirutani and Kaveripauk in Chittoor, and the management of the Government schools at Tiruchengód in Salem and Polláchi in Coimbatore was transferred to the Local Fund Boards. Of the ten schools in Malabar in the previous year, that at Kollangode was made over to Rani Velliamma of Venganad, with reference to G.O., dated 16th February 1884, Mis. No. 321, that at Angádipuram was converted into a Primary school, and that at Ponáni was abolished. The working of the Middle Class schools was generally satisfactory. The number of pupils attending these schools was 3,714 against 2,981 in the previous year. Deducting the total receipts from the charges shown in the above statement, the net cost of these schools to Local Funds was Rs. 27,196, which gives an average of Rs. 7-5-2 for each student against Rs. 8-4-10 in 1882-83.

* Since transferred to Government under G.O., dated 27th March 1884, No. 702.

There were 294 schools of this class at the close of the previous year, but this number was reduced to 284 in the year under report, by the changes noted below :—

	Increase. NO.	Decrease. NO.
(1) Opening of new schools in the Bellary, Cuddapah, Ellore and Malabar Circles	6	...
(2) Closing of schools in the Cocanada, Malabar and Madanapalle Circles	...	11
(3) Raising of schools in the Guntúr and Nellore Circles to the middle standard	...	3
(4) Conversion of schools in the South Arcot and Tanjore Circles to the combined system	...	2
Total ...	6	16
Net decrease ...	10	

In Cocanada, nine schools were closed owing to the embarrassed state of the General Fund. The attendance of these schools was 9,303 against 10,947 in the previous year, and their total cost was Rs. 66,187 against Rs. 65,248. Deducting from the former sum Rs. 6,294, being the amount of school-fees, Provincial grants and miscellaneous receipts, the net cost to Local Funds was Rs. 59,893, or Rs. 6-7-0 for each pupil, against Rs. 5-8-11 in 1882-83.

46. *Lower Class Schools maintained on the Combined System.*—The subjoined statement shows the statistics of these schools :—

Districts.	Circles.	Number of Schools. Old.	Number of Schools. New.	Number of Schools. Total.	Attendance.	Expenditure. Receipts. Provincial Grants.	School Fees.	Miscellaneous.	Total.	Total Cost.	Net Cost.	Average Cost per Scholar.

The total number of schools maintained on the combined system was 1,488 against 1,487 in the preceding year, the net increase of one being the result of the variations noted below:—

	Increase.	Decrease.
Chittoor	1	3
Vellore	3	2
South Arcot	4	...
Bellary	2	...
South Canara	15	9
Coimbatore	...	4
Cuddapah	5	...
Cocanada	...	38
Masulipatam	...	4
Kurnool	4	4
Malabar	3	...
Nellore	2	...
Salem	2	3
Hosúr	1	...
Tanjore	26	...
Trichinopoly	...	1
Vizagapatam	1	...
Total ...	69	68
Net Increase ...	1	

These schools were attended by 46,007 pupils against 44,726 in the previous year, and their total cost was Rs. 1,87,462, or Rs. 18,397 more than in 1882-83. Deducting Rs. 28,916 realized from school fees, Provincial grants and miscellaneous sources, the net cost to Local Funds was Rs. 1,58,546, and the average cost of educating each pupil was thus Rs. 3-7-2, against Rs. 3-4-1 in the previous year.

47. *Grant-in-aid Schools.*—The subjoined statement shows the working of the private schools aided from Local Funds in the shape of salary and result grants:—

Districts.	Circles.	Salary. Number of Schools.	Salary. Attendance.	Salary. Amount paid.	Result. Number of Schools examined.	Result. Number presented for Examination.	Result. Amount paid.

	Total ..	16	498	1,417	8,954	152,447	2,23,447

The number of private schools aided from Local Funds by payment of salary grants continued the same as in 1882-83, viz., sixteen. The salary grant hitherto paid to the London Mission School at Gooty, in the Anantapur Circle, was withdrawn, in view to transfer the contribution to the maintenace of the Girls' School in the Anantapur Municipality, but as a Government school has taken the place of this institution, the contribution was not paid. Of the two schools returned in Salem as having been found eligible for a grant in 1882-83, the Trinity Church School at Yercaud

does not appear in the present report; but the cause of this omission has not been explained. In Nílgiris, two more schools at Naduhutti and Kunnerimuku, started by the German Mission at Kótagiri, were admitted for grants. It is satisfactory to observe that the number of private schools supported under the result system is steadily increasing. There were 8,954 schools of this kind against 8,385 in 1882-83, and the number of pupils presented from them for the several standard examinations was 152,147. The expenditure on the aided schools was Rs. 2,24,864, of which Rs. 1,417 were for salary grants and Rs. 2,23,447 for result grants, against Rs. 14,343 and Rs. 2,41,573, respectively, in 1882-83. The large falling off under the former head is due to the stipends of teachers in the combined system schools in Malabar having been shown under the head of Grant-in-aid Schools (salary grants) in 1882-83, while that under result grants is explained by the following causes :—

(1) Results grants earned by the combined system schools in Malabar and shown under Grant-in-aid Schools in 1882-83, being now excluded from this head and shown under Combined System Schools.

(2) Reduction of the rates and stoppage of payments owing to paucity of funds, which is highly unsatisfactory.

(3) Fall in the number of schools actually examined owing to the disappearance of some, and to the non-fulfilment of the conditions laid down in the Grant-in-aid Code by others, &c.

(4) Non-presentation of bills in time to ensure payment being made before the close of the year.

48. *Grant III, Hospitals and Dispensaries.*—There were 190 dispensaries at the end of 1882-83. This number rose to 206 during the year under report by the opening of fifteen new dispensaries and the transfer to Thangachiammapatti of the dispensary at Virupatchi, in the Dindigul Circle, which had been temporarily closed in the previous year owing to the illness of the medical subordinate attached to it. The dispensaries at Chitvél and Uppinangadi, in the Cuddapah and Canara Circles, were removed to Pullumpett and Puthur, respectively, under the sanction conveyed in G.Os., dated 4th October 1882, Mis. No. 1390, and 19th June 1883, No. 1225.

Circles.	*Stations.*
Bellary	Hadagalli.
Chittoor	Kuppam.
South Arcot	Chengam.
Nellore	Udayagiri.
	Atmakúr.
	Kanigiri.

Of the sanctioned dispensaries enumerated in paragraph 49 of the last report, those at the marginally-noted places were not established in the year under review, but were opened in the current year. The dispensary at Siruguppa in Bellary will be opened next year, and the opening of the dispensaries at Perambalúr in Trichinopoly and at Cusbah in Nellore has been deferred for want of funds. Dispensaries at the undermentioned stations have been sanctioned in the current year :—

Circles.	*Stations.*
Anantapur	Hindupur.
North Arcot	Arcot.
Bellary	Kanikal.
Godávari	Viravásaram.
Madura	Ilayángudi.
	Kalikarai.

Of the 206 dispensaries above referred to, nineteen are endowed institutions and eighteen others are maintained from the funds of endowed chattrams in the Tanjore and the Tinnevelly Districts. The increase of one in the number of endowed dispensaries as compared with the previous year is due to the Saidápet Dispensary in Chingleput having been constituted an endowed institution by the transfer to it of the inam lands attached to the chattram at Nandambaukum and the water-pandal at Kodambaukum, as already stated in paragraph 36 *supra*. The total expenditure on dispensaries was Rs. 2,78,539, of which Rs. 16,157 were met from the Endowment Fund and Rs. 2,62,382 from the General Fund, against Rs. 32,142 and Rs. 2,44,673, respectively, in 1882-83.

The following statement shows the number of patients treated at each dispensary :—

Circles.	Dispensaries.	Number of Patients treated in 1883-84. In.	Out.	Total.	Remarks.

In the above statement no entries appear against the dispensaries at Thangachiammapatti and Vallanathi in the Dindigul Circle. It is stated that as the supply of medicines, &c., was not received till the end of the year, the Hospital Assistants in charge of these dispensaries confined their treatment to cases of fever, cholera, &c., using the pills and powders supplied to them from the Dindigul dispensary. Including the 5,264 cases treated by the medical practitioners located at Atmakúr and Udayagiri in Nellore, by the itinerating Hospital Assistant employed in the Ellore Circle, and by the Hospital Assistants attached to the Head Assistant Collector's offices in the Godávari and Tinnevelly Districts, the total number of patients treated during the year was 979,791, of whom 10,770 were in-patients and 969,021 out-patients, against 12,619 and 885,932, respectively, in the previous year. The falling off in the former number is explained by the fact that in certain circles the Local Boards have ruled that only *bonâ fide* paupers in real need of medical aid should be admitted as in-patients lest these institutions should degenerate into poor-houses, while in certain others such patients were not admitted either for want of accommodation or through insufficiency of funds. On the other hand, the additional dispensaries

that were opened during the year and the growing popularity of these institutions have contributed to the large increase in the number of out-patients. The total number of midwives employed in the several circles was 82 against 84 in the previous year, and the charges on their account including the cost of training midwifery pupils, amounted to Rs. 7,307. These midwives are reported to have attended 2,267 labor cases, mostly at the houses of the patients, against 2,061 cases in 1882-83. The midwifery school at Tanjore was temporarily closed in May last as no candidates could be induced to join it. The Medical School at Tanjore, proposed to be established in the name of His Royal Highness the Prince of Wales, was opened in October 1883 and was attended by nine pupils receiving a stipend of Rs. 8 each per mensem. The Nellore Medical School had twenty pupils on its rolls. These students were withdrawn from the school and employed on cholera duty during its prevalence; as their studies were thus interfered with, they were allowed the indulgence of an additional year's tuition at the suggestion of the Zillah Surgeon. Two candidates however passed their examination without availing themselves of this concession, permission to appear for examination, with the promise of another year's trial in case of failure, having been granted in consequence of the scant supply of Medical Subordinates. The students of the Dindigul Medical School are reported to have made fair progress during the year; but the senior class pupils of this school were also employed for a time in attending on cholera patients. The total cost of the maintenance of these Medical Schools was Rs. 8,500.

The total outlay on medical services, embracing the undermentioned items, was Rs. 4,42,675, or 7·3 per cent. of the total expenditure against 7·4 per cent. in the preceding year:—

	Rs.
1. Hospitals and Dispensaries	2,78,539
2. Medical Practitioners	1,321
3. Contributions to Municipalities for Hospitals	77,370
4. Do. to Mission Dispensaries	5,539
5. Do. to Medical College	26,080
6. Maintenance of Lunatics	13,915
7. Construction and Repair of Hospitals	39,911
Total ...	4,42,675

49. *Vaccination.*—The vaccine staff maintained from Local Funds consisted of 44 Deputy Inspectors and 606 Vaccinators against 38 of the former and 593 of the latter in the previous year. The increase of six in the number of Deputy Inspectors is explained by the entertainment of additional officers of this grade in the Chittoor, Cuddapah, Masulipatam, Guntúr, Nellore, and Salem Circles, under G.O., dated 31st August 1883, No. 1715, Public Department. The expenditure under this head amounted to Rs. 1,32,929 against Rs. 1,34,075 in 1882-83 and bore the same percentage to total charges as in the previous year, viz., 2·2.

The annexed statement shows the strength and working of the staff in each circle:—

Districts.	Circles.	Staff. Deputy Inspectors.	Staff. Vaccinators and Probationers.	Number of Persons vaccinated.	Number of successfull Cases.	Percentage of successfull Cases.	Total Cost.	Cost per successfull Case.

Including the 4,270 cases vaccinated by the Medical Subordinates in charge of dispensaries, the total number of operations performed was 610,934 against 570,005 in 1882-83, and there was a corresponding increase in the number of successful operations; but the results are still much below the mark. Assuming the birth-rate at 30 per mille of the population, the number of births during the year must have been 843,296. Of these only 566,264, or 67 per cent., were protected from small-pox, against 63 per cent. in the preceding year. Taking the individual circles, the Board are glad to note that in South Canara and Kurnool, the number protected from small-pox exceeded the number of births by 40 and 7 per cent., respectively, while in Chingleput and Madura, almost the whole number born were protected. In Anantapur, Bellary, Coimbatore, Dindigul, Nellore, Nîlgiris, Hosûr, Tanjore and Shermâdevi more than 75 per cent. of the children born were successfully vaccinated. In the remaining circles, however, the operations were not satisfactory, particularly in South Arcot, Cuddapah, Madanapalle, Chicacole, Chatrapur, Cocanada, Ellore, Salem and Vizagapatam, where less than 50 per cent. of the children born were protected. The special attention of the Presidents concerned has been called to this matter in the reviews of the Circle reports. The average cost of vaccinating each successful case is As. 3-9 against As. 4 in the preceding year, and varies from As. 2-1 in South Canara to As. 10-2 in Nîlgiris. The cost in the Madanapalle, Cuddapah, Ellore and Bellary Circles also is very high.

50. *Sanitation.*—Excluding the sum of Rs. 29,818 expended on sanitary works under Grant I, the outlay on Sanitation under Grant III was Rs. 2,62,297, incurred for the following purposes :—

	1883-84. Rs	1882-83. Rs.
(1) Improvement of Water-supply	52,739	60,836
(2) Do. of Village-site	15,724	17,600
(3) Conservancy of Towns and Villages	1,56,161	1,61,130
(4) Sanitary arrangements at Fairs and Festivals ...	9,208	7,839
(5) Miscellaneous Sanitary outlay	28,465	31,213
Total ...	2,62,297	2,78,618

The decrease as compared with the previous year, which occurs under all heads except "Sanitary arrangements at fairs and festivals," is explained by (1) the reduction of expenditure owing to the insolvent condition of the General Fund; (2) the short outlay incurred on works for the improvement of water-supply, &c., owing to the fall of untimely rains and the presence of water in the tanks and wells. Subsidiary causes are the late date at which some of the works were undertaken and reduction in the rates at which carts were engaged for removing sweepings, &c.

Conservancy establishments were maintained in 621 towns and villages against 564 towns in the previous year. There were 183 maistries or superintendents, 790 sweepers, 1,535 scavangers and 74 other inferior servants; 246 carts and 47 wheel-barrows were employed in removing the sweepings. These establishments worked under the immediate supervision and control of the Local Revenue officers, except in sixteen towns of the Madura District and in eleven of the Salem District, where they were supervised by local committees, composed of the principal inhabitants and the Revenue officers. The itinerating scavenging establishments employed in the Vizagapatam Circle are reported to have done good work. In the Cuddapah District, the conservancy of twenty towns and villages was given on contract, and the system is stated to have worked well. The President of the Bellary Circle Board reports that local committees have been appointed in the more important towns of the western taluks, and that a greater improvement in sanitation may be expected after the formation of Taluk Boards under the new Act.

The chief items of expenditure included under "Miscellaneous Sanitary Outlay" are cholera charges amounting to Rs. 9,210, construction and repair of latrines, &c., at a cost of Rs. 2,958 and water-pandal charges aggregating Rs. 7,380.

The following statement shows the assets of the General Fund in each circle, the proportion thereof expended on Sanitation under Grant III and the percentage of actual outlay to the allotments :—

Districts.	Circles.	General Fund Assets, 1883-84.	Expenditure. Estimate, 1883-84.	Expenditure. Actuals, 1883-84.	Percentage of Columns 5 to 3.	Percentage of Columns 5 to 4.

20. Trichinopoly	Trichinopoly	81,423	11,316	10,499	13	93
21. Vizagapatam	Vizagapatam	1,10,499	17,450	11,406	10	65
	Total ..	23,15,816	3,15,680	2,62,297	..	..
	Average of 1883-84 ..	..	..	..	11	83
	Average of 1882-83 ..	..	..	..	11	80

The total outlay on sanitation, inclusive of Rs. 29,818 spent under Grant I, was Rs. 2,92,115, or 12·6 per cent. of the General Fund assets, as in the previous year, against the proportion of 12·5 prescribed by Government in their Order, dated 30th December 1882, Nos. 1652, 1652-A, Public. The percentage of outlay to the General Fund assets ranged from 2 in Malabar to 21 in Negapatam. The peculiar natural features of the Malabar, South Canara and Nílgiri Circles render extensive operations either as regards sanitation or water-supply unnecessary. In Cocanada and Ellore the percentage comes to 11 and 12, respectively, if the expenditure under Grant I is taken into account. In Madanapalle and Bellary, the state of the General Fund did not permit of a larger provision being made for this purpose. The small percentage in the Masulipatam, Nellore and Madura Circles is due to non-utilization of the full allotments for the reasons given below. In the four circles of Canara, Chingleput, Madanapalle and Malabar, the actual outlay exceeded the allotments, while in the seven circles named in the margin, it fell short of them by more than 25 per cent. The excess expenditure in Canara was on account of fairs and festivals, that in Chingleput was on works for the improvement of water-supply, that in Madanapalle was caused by the prevalence of cholera, and that in Malabar was incurred on latrines and in the payment of allowances to hospital assistants deputed to alleviate suffering from malarious fevers, &c., which prevailed during the latter part of the year. The short expenditure in Masulipatam is explained by the resolution of the Circle Board not to undertake any work unless the villagers interested paid a contribution towards its cost either in labor or in money; that in Madura is ascribed to a portion of the expenditure having been borne by sanitary associations and private individuals, which was excluded from the circle accounts; that in Tanjore and Negapatam is due to the fall of untimely rains, which prevented the clearing of tanks, &c, and to the non-payment of contributions promised by villagers; while the decrease in Vizagapatam is explained by the fact that village contributions towards the cost of works were made in the shape of labor and materials. The decrease in the two remaining circles has not been explained.

Cocanada.	Tanjore.
Masulipatam.	Negapatam.
Madura.	Vizagapatam.

21. Vizagapatam ..	Vizagapatam ..	3	..	..	..	
	Total ..	329	57	2,163,938	68,513	

The total number of choultries rose from 319 in 1882-83 to 329 in the year under report, the increase of ten being the result of a gross increase of fourteen in twelve circles and a gross decrease of four in three circles. Of the additional choultries, six were newly built in the Vellore, Ellore, Masulipatam, Nílgiri, Salem and Vizagapatam Circles, one was re-opened at Kásaragód in South Canara, two at Sirvél and Chagalmari in Kurnool and one at Chengalpalem in Nellore were taken over from private individuals, two at Toppur and Kuttalum in the Hosúr and Shermádevi Circles, respectively, were transferred from Government management. The President has been called upon to report how the remaining two choultries at Obulum and Kotapaud in Cuddapah were acquired by the Local Fund Board—*vide* paragraph 10 of the Board's Proceedings, dated 6th September 1884, No. 3127. The decrease appears in the Anantapur, Bellary and Tinnevelly Circles. The choultries at Muthodi and Hospet in the Anantapur and Bellary Circles, respectively, were sold by public auction, as the buildings were in a dilapidated condition, while two choultries in the Tinnevelly Circle were re transferred to a private individual to whom they originally belonged. In fifty-seven of the endowed choultries 2,163,938 travellers were fed at a cost of Rs. 68,513 against 2,159,718 persons fed at cost of Rs. 78,207 in the previous year. The decrease in the cost of feeding is explained chiefly by the fall in the price of provisions. In addition to these, 22,34 paupers were fed in the Arcot Lungerkhana at a cost of Rs. 672; 10,950 paupers wer fed in the Kurnool Lungerkhana at a cost of Rs. 360, fifty blind persons were allowe a monthly pension of Rs. 3-8-0 each from the funds of the Tirukurangudi Chattram i the Tinnevelly Circle, and fifteen such persons were paid a monthly pension of Rs. 2-8 each from the funds of the Kuttalam Chattram in the Shermádevi Circle.

52. *Public Bungalows*.—The annexed statement shows the receipts and charg of the public bungalows, maintained by the Local Fund Boards in the sever circles.

Total ..		236	8,054	11,422	10,980	13,063	24,043

The total number of these bungalows was less than that in the preceding year by seven, which is the result of a gross increase of six in five circles and a gross decrease of thirteen in five circles. Of the six additional bungalows, one at Uppinangadi in the South Canara Circle was newly opened, one at Udayagari in the Nellore Circle and one at Rénigunta in the Chittoor Circle were repaired and rendered serviceable, two were store-sheds at Gooty and Guntakal in the Anantapur Circle, transferred to the Local Fund Board under G.O., Revenue Department, dated 28th March 1884, No. 1415, and converted into travellers' bungalows, and one at Kamalápur in the Bellary Circle, presented by the late Collector, Mr. J. H. Master, was taken over by the Local Fund Board under the sanction accorded in G.O., Revenue Department, dated 3rd August 1883, No. 1647. The decrease of thirteen is due to the abandonment of seven bungalows in the Coimbatore Circle and to the sale of another at Nagamangalum in the Trichinopoly Circle by public auction under G.O., dated 31st May 1882, No. 477. Besides these, one at Pudupolium in the same circle was transferred to the Forest Department with reference to G.O., dated 15th October 1883, No. 2344; one at Tyága Drug in the South Arcot Circle was handed over to the Police Department under G.O., dated 28th September 1883, Mis. No. 2177; and one at Nellore and another at Ongole were transferred to the respective Municipalities under G.O., dated 31st January 1884, Mis. No. 231. Eight thousand and fifty-four travellers halted at these bungalows against 6,845 in the previous year, and the fees realized from them amounted to Rs. 11,422 against Rs. 9,133. The total expenditure on the bungalows was Rs. 24,043, of which Rs. 10,980 were spent on repairs of the buildings, and the remainder, Rs. 13,063, on the establishments maintained in them. The bungalow at Paramakudi in the Madura Circle was supplied with furniture during the year under report, and fees were collected from the travellers who halted in it. The Palmanér bungalow in the Chittoor Circle was in need of extensive repairs, but nothing was done for want of funds. The Pykára and Naduvattam bungalows in the Nílgiri Circle were leased out in the beginning of the year, but subsequently, as the contractor failed to fulfil the stipulations of the agreement, the bungalows were entrusted to peons employed by the Local Fund Board. The bungalow at Perikede in the Masulipatam Circle being in a dilapidated condition, the Circle Board propose to replace it

by a small rest-house. In the Chicacole Circle the fees were doubled to meet the cost of the upkeep of the bungalows; but, as the new scale was not introduced till December 1883, no appreciable difference is perceptible in the collections under this head.

53. *Contributions.*—The total amount contributed by the several Local Fund Boards to Municipalities and Missionary and other bodies for medical and sanitary purposes was Rs. 82,170 as shown below :—

54. The annexed statement shows the expenditure under the several main heads compared with the total General Fund expenditure :—

Main Heads.	Expenditure including Buildings.		Percentage of Outlay to Total Expenditure under the General Fund.	
	In 1882-83.	In 1883-84.	In 1882-83.	In 1883-84.
	Rs.	Rs.		
Education	6,69,298	6,84,726	36·6	37
Hospitals and Dispensaries	4,18,298	4,26,518	22·9	23
Sanitation	3,06,250	2,92,115	16·8	17
Vaccination	1,34,075	1,32,919	7·3	7
Avenues	1,05,785	87,652	5·8	5
Bungalows, Choultries, &c.	55,833	53,179	3·1	3
Engineering Establishment, including Contingencies, Tools and Plant, &c.	48,035	42,915	2·6	2
General Management	56,282	60,493	3·1	3
Miscellaneous	32,020	56,094	1·8	3
Total ..	18,25,876	18,36,611	100	100

55. *Grant IV, Miscellaneous.*—The cost of the controlling establishments at the Presidency amounted to Rs. 47,116 against Rs. 52,226 in the preceding year, as detailed below :—

	1882-83.	1883-84.
	Rs.	Rs.
1. Government Secretariat office	4,000	3,558
2. Office of the Board of Revenue	15,773	16,050
3. Accountant-General's office	32,453	27,508
Total ..	52,226	47,116

The District establishments cost Rs. 60,918 against Rs. 57,439 in 1882-83, as particularized below :—

	Rs.
(1) Account Establishments in Collectors' offices	13,668
(2) Local Fund Boards' offices	28,178
(3) District Auditors	19,072
Total ..	60,918

The total charge of administration, including contingencies, was Rs. 1,70,040, or 2·8 per cent. of the total expenditure against 2·9 per cent. in the previous year.

56. *Local Fund Boards.*—The following statement shows the constitution and working of the several Local Fund Boards :—

Districts.	Circles.	Total Number of Members.		Number of Meetings.	Average Attendance.	
		Official.	Non-Official.		Official.	Non-Official.
1. Anantapur	Anantapur	18	23	13	5	10

There were 357 official and 428 non-official members on these Boards against 356 and 413, respectively, in 1882-83. The average number of meetings held was about the same as in the preceding year, viz., thirteen. In the six marginally-noted circles, however, the minimum number of meetings prescribed in Local Fund Rule No. 168 was not held. The average attendance of the official and non-official members was four and five, respectively, as in the previous year. The working of the Circle Boards was on the whole satisfactory, and the non-official members are generally reported to have evinced some interest in the administration of the Local Funds. Mr. Crole, the President of the Local Fund Board at Madura, specially commends the services of the Vice-President, M.R.Ry. P. Kotasawmy Tevar, in the following terms :—

1. Vellore.
2. Chicacole.
3. Fllore.
4. Malabar.
5. Hosúr.
6. Vizagapatam.

"Mr. P. Kotasawmy Tevar, Sub-Division Zemindar of Ramnad, was last February appointed Vice-President of the Madura Board. He is a Zemindar of the ancient Ramnad family, and has, at considerable personal inconvenience, come to reside at Madura, sixty or seventy miles distant from his palace and estate, in order to undertake the duties of the office of Vice-President, in the conduct of which he has already displayed considerable aptitude and very considerable assiduity. He has also been appointed by Government Vice-President of the District Board recently constituted. The enlistment of the landed aristocracy, as represented by this gentleman, in the work of Local Self-Government, is, it is submitted, a hopeful sign of the times."

APPENDIX I.

Board of Revenue,

MADRAS.

Printed May 19th.

Proceedings, 31st March 1885, *No.* 1060.

Submitting to Government Board's report for 1883-84 on the operations of the *Local Funds*

GOVERNMENT OF MADRAS.

FINANCIAL DEPARTMENT.

READ—the following paper :—

Proceedings of the Board of Revenue, dated 31st March 1885, No. 1060.

ABSTRACT.—Submitting to Government report on the operations of local funds constituted under Madras Act IV of 1871, for the year 1883-84.

ORDER—dated 13th July 1885, No. 453 L.F., Financial.

The above report of the Board of Revenue on the operations of local funds under Act IV of 1871, for the year 1883-84, is so full and clear that there is little need of remarks from Government. The report was only received on the 16th of May last, or seven months after the date prescribed by Government. The delay, however, is accounted for chiefly by the late submission of the circle reports, none of which were received on the due date, while those from Madanapalle, Chicacole, Chatrapur and Vizagapatam were received in the fourth month after they were due, and the last report from Ellore was received only on the 18th October last or three days after the date prescribed for the submission of the Board's General report. This is very unsatisfactory. The Government will themselves in future review these reports, and they hope that all Presidents will do their utmost to secure their punctual submission.

2. The action of the Board of Revenue in treating loans and investments as transactions under the service heads is approved, and the Accountant-General is requested to adopt this course in preparing the accounts to be rendered by him for the year 1884-85.

3. The number of Local Fund circles administered under the Act was the same as in the preceding year, viz., 30.

4. The assets, expenditure and balance of the year are compared below with those of 1882-83 :—

	Assets.	Expenditure.	Balance.
	RS.	RS.	RS.
1882-83	85,55,686	60,79,711	24,75,975
1883-84	83,93,964	60,99,019	22,94,945

5. The opening balance adopted in this report differs from the closing balance reported for 1882-83 by Rs. 97,214, and the difference is explained to be the result of adding to the opening balance Rs. 2,68,555, the amount of loans and investments, and of deducting therefrom Rs. 1,71,341, being advances, &c., which were excluded from the accounts of the previous year.

	RS.
1882-83	24,75,975
1883-84	25,73,189
Difference ..	97,214

6. Excluding the contributions between circles and debt accounts, the actual receipts of the year amounted to Rs. 58,09,515 against Rs. 55,59,526 in 1882-83,

and the increase appears chiefly under Provincial grants, Land-cess and Tolls. The receipts from the main sources of revenue are compared below with those of the previous year :—

	1882-83.	1883-84.
	RS.	RS.
Provincial grants—		
For roads and other public works	1,13,474	1,47,000
For schools	6,184	13,021
For general purposes	28,100	13,220
Pound fund	33,791	33,611
Ferry rents	1,45,419	1,43,597
Fishery rents	92,781	97,878
Land-cess	42,15,171	43,57,425
Tolls	3,86,662	4,41,317
School fees	36,862	44,785
Endowments, &c.—		
Schools	3,600	8,075
Hospitals and dispensaries	16,958	29,497
Choultries	2,34,891	2,29,314
Markets	56,876	62,023
Private contributions for works	44,247	38,545
Avenues	36,333	45,678

7. The grants from Provincial funds exceeded those of the preceding year by Rs. 25,483 ; but if the sum of Rs. 25,394 refunded in 1882-83 to the Tinnevelly Circle board is excluded from this head, as being an item of miscellaneous revenue, the excess comes to Rs. 50,877, which was mainly due to the enhanced grants made to the Nílgiri circle for the maintenance of communications generally, including the remetalling of the road from Ootacamund to Gúdalúr. The income from Pound fund and Ferry rents was almost the same as in the preceding year, while that from Fishery rents shows an increase of Rs. 5,097, which is stated to be due to the realization of the arrears of previous years and to the larger rentals obtained during the year under report.

8. For want of funds the rate of land-cess in the Kurnool and Madura circles was raised from 9 pies to 1 anna in the rupee of the assessment. Thus the 9-pie rate obtained only in the Godávari and Kistna districts. The cess collections in the year under review aggregated Rs. 43,57,425 or 75 per cent. of the total revenue against Rs. 42,15,171 in the previous year, the increase being chiefly due to the vigorous measures adopted by Collectors in the collection of the revenue. In 21 circles the collections were better and in six worse than in the preceding year. It is satisfactory to observe that the total collections were 83 per cent. of the demand against 78 per cent. in the previous year, the arrear and current collections being respectively 75 and 84 per cent. of the demand against 65 and 82 per cent. in 1882-83. The collections in the Dindigul, Malabar, Negapatam and Shermádevi circles were very good, while those in Bellary, Cuddapah, Madanapalle, Nellore and Nílgiris were not satisfactory. The Anantapur and Madura circles which were very backward in 1882-83, however, show an improvement. Rs. 1,10,443 are reported to have been written off the accounts as irrecoverable, the largest sums remitted being in South Arcot, Bellary and Coimbatore. In the first and the last named circles Rs. 14,917 and Rs. 27,297 respectively were written off the accounts. In Bellary Rs. 24,451 were remitted, partly owing to the death or insolvency of the ryots, and partly owing to certain service inams having been left waste on account of attachment for arrears, &c. The outstanding arrears at the close of the year aggregated Rs. 7,86,565, of which Rs. 5,34,620 are stated to have been since collected up to 31st October 1884, and Rs. 74,689 remitted as irrecoverable, and the balance left on the above date was only Rs. 1,77,256. The income from tolls amounted to Rs. 4,41,317 or 8 per cent. of the total revenue against Rs. 3,86,662 in 1882-83, the increase being ascribed chiefly to the opening of new toll-gates, the transfer of some of the gates to better localities and the greater competition among bidders for the lease of the gates. Of the former amount, Rs. 1,04,585 or about 24 per cent. were contributed by municipalities, Rs. 66,152 or 15 per cent. were collected from the gates directly managed by the circle boards, and the balance or 61 per cent.

from those leased out to contractors. The fees collected in Local Fund schools amounted to Rs. 44,785 against Rs. 36,862 in the previous year, and the increase is explained chiefly by the opening of new schools and the adoption of the new scale of fees.

9. The total receipts on account of endowed institutions amounted to Rs. 3,28,909 against Rs. 3,12,325 in 1882-83, the increase of Rs. 16,584 being the net result of an increase of Rs. 22,161 under Schools, Hospitals and Markets and a decrease of Rs. 5,577 under Choultries. The increase of Rs. 12,539 under Hospitals and Dispensaries was due to the receipt of the arrears of the previous year and of contributions in aid of new dispensaries proposed to be opened, and the increase of Rs. 5,147 in the case of markets was due to the extension of the fee system to additional markets, while the decrease under Choultries was chiefly due to the poor outturn of the chuttram lands in Tanjore. Rs. 38,545 were contributed by private individuals against Rs. 44,247 in 1882-83. Of the former amount Rs. 16,171 were paid on account of public works, and the remainder, Rs. 22,374, for sanitary purposes against Rs. 24,959 and 19,288 respectively in the previous year. Avenue rents and clippings, &c., brought in Rs. 45,678 against Rs. 36,333 in 1882-83, the increase being ascribed to the larger number of trees cut down and sold, and to the keener competition for the purchase of the avenue produce.

10. The total expenditure, excluding contributions between circles and debt accounts, was Rs. 60,88,417 against Rs. 60,74,772 in 1882-83, but if the contributions paid to Provincial funds in adjustment of the famine debt are excluded from both the years, the outlay in the year under review exceeds that of the preceding year by Rs. 3,61,419, owing to the larger outlay on public works and to the inclusion in the accounts of 1883-84 of Rs. 1,80,000 invested in Government securities and of Rs. 15,405 repaid on account of loans, while similar items amounting to Rs. 1,63,900 and Rs. 15,067 respectively were not included in the expenditure under service heads in the previous year. The chief items of expenditure are compared below with those of the previous year :—

	1882-83.	1883-84.
	RS.	RS.
New Works—		
Communications	7,16,518	7,37,189
Buildings	75,036	77,316
Miscellaneous Public Improvements	48,358	40,271
Repairs—		
Communications	21,35,865	22,40,783
Buildings	55,366	50,680
Miscellaneous Public Improvements	1,15,776	1,15,389
Public Works department Supervision, Local Fund Engineering establishment and Contingencies	5,43,746	5,57,976
Interest and repayment of loans	12,645	27,367
Famine debt	4,10,238	62,464
Miscellaneous	78,767	2,59,119
Total Public Works	41,92,315	41,68,554
Education	6,61,280	6,92,919
Hospitals and dispensaries	2,76,815	2,78,539
Vaccination	1,34,075	1,32,929
Sanitary establishment, &c.	2,78,618	2,53,087
Markets	11,712	14,171
Choultries	1,88,397	1,78,827
Miscellaneous	1,44,608	1,79,317
Supervision and management	1,74,902	1,70,040

11. The total expenditure on communications, both New Works and Repairs, was Rs. 29,77,972 against Rs. 28,52,383 in the preceding year. It is satisfactory to note that the outlay on communications was 84 per cent. of the allotments against 80 per

cent. in 1882-83, though in four circles, viz., Cocanada, Ellore, Malabar and Tinnevelly, it was less than 75 per cent. of the grant. The cause of the short outlay in these cases is satisfactorily explained in the report. The total length of roads, exclusive of village roads, was 21,018 miles, of which 18,624 miles were maintained during the year against 18,218 miles in the previous year, besides 256 miles of new roads completed and 325 miles in progress. The state of the roads in all the circles excepting South Arcot, Masulipatam and Dindigul is reported to have been generally good; it was unsatisfactory in the excepted circles, owing to the inadequacy of the means at the disposal of the Local Fund boards. In addition to the above, 140 miles of village roads were newly constructed at a cost of Rs. 51,035 and 2,422 miles of old road were repaired at a cost of Rs. 1,68,594. As in the preceding year, separate Engineering establishments for supervising Local Fund works were employed in all the circles. In 28 circles the works were carried out under the supervision of officers of the Engineer and Assistant Engineer grades, while in the remaining two circles of Anantapur and Chicacole they were under supervisors. The cost of these establishments including contingencies amounted to Rs. 5,32,590 against Rs. 5,15,070 in 1882-83, and was 16 per cent. of the outlay on works executed by them against 17 per cent. in the preceding year, and against the maximum rate of 20 per cent. prescribed in G.O., dated 24th April 1884, No. 878. In Anantapur, Cuddapah, Madanapalle, Chatrapur, Masulipatam, Malabar and Nellore, however, the maximum rate has been exceeded owing chiefly to the short expenditure incurred on works. The total number of markets rose from 181 to 219, and that of other endowed institutions from 257 to 271. The total expenditure on endowed institutions was Rupees 3,54,324 against Rs. 3,22,010, the increase being due to the investment of Rs. 12,600 under the Moyan fund in Malabar, and to larger sums being spent on the repair of endowed choultries and dispensaries. Under the General fund Rs. 2,09,445 were spent on the construction and repair of buildings and tanks and wells, and on the plantation and maintenance of avenues against Rs. 2,39,266 in 1882-83. The works so undertaken during the year under review are enumerated in paragraph 40 of the Board's report.

12. The total expenditure on educational operations amounted to Rs. 6,80,319 against Rs. 6,61,280 in the preceding year, the increase being the net result of increases under Training schools, Middle-class schools and Elementary Combined system schools and of a decrease under Result grants. The cost of training schools rose from Rs. 36,865 to Rs. 53,078 as 29 schools of this kind were maintained against 24 in the preceding year. The number of pupils trained in these schools was 674, of whom 539 appeared for, and 349 passed, the Special Upper Primary examination against 419 and 312 respectively in 1882-83. The cost of training each passed student was Rs. 138 against Rs. 118 in the previous year, the increase being ascribed chiefly to the smaller proportion of successful students. The elementary schools in the several circles remained under the supervision of deputy inspectors and inspecting schoolmasters. The deputy inspectors with a few exceptions were borne on the Provincial list, the Local Fund boards concerned contributing lump sums to Provincial funds towards their pay and allowances. There were 117 inspecting schoolmasters wholly maintained from local funds against 122 in the previous year.

13. The following table gives the particulars of the several Local Fund schools :—

Description of schools.	Number of schools.		Attendance.		Total cost.		Net cost.		Average cost of educating each pupil.	
	1882-83.	1883-84.	1882-83.	1883-84.	1882-83.	1883-84.	1882-83.	1883-84.	1882-83.	1883-84.
					RS.	RS.	RS.	RS.	RS. A. P.	RS. A. P.
Middle schools ..	49	62	2,981	3,714	39,990	46,845	24,741	27,196	8 4 10	7 5 2
Primary schools—										
Salary system ..	294	284	10,947	9,303	65,248	66,187	60,872	59,893	5 8 11	6 7 0
Combined system..	1,487	1,488	44,726	46,007	1,69,065	1,87,462	1,45,789	1,58,546	3 4 1	3 7 2
Total ..	1,830	1,834	58,654	59,024	2,74,303	3,00,494	2,31,402	2,45,635	3 15 1	4 2 7

It is observed from the above statement that though the number of schools remained nearly the same as in the preceding year, there was an increase in their attendance and a decrease in the cost of educating each pupil in the Middle schools. The cause of the increase in the cost of teaching each pupil in the Primary schools is however not explained. In addition to the above, an expenditure of Rs. 1,417 is shown as salary grant payments to 16 private schools attended by 498 pupils against Rs. 14,343, shown as having been paid on this account in the previous year. The decrease in the outlay under this head is explained by the fact that the stipends of teachers in the combined system schools in Malabar were shown as salary grants to private schools in 1882-83. Rs. 2,23,447 were paid as results grants to 8,954 schools with an attendance of 152,447 pupils against Rs. 2,41,573 paid to 8,385 schools attended by 163,036 children in the previous year, and the large falling off in the expenditure under this head is explained in paragraph 47 of the report.

14. In addition to the 190 dispensaries which remained at the close of 1882-83, 15 new dispensaries were established during the year under review, and one which was temporarily closed in the previous year was reopened in another locality, the total number at the end of 1883-84 being thus 206. Of these, 19 were maintained from the endowments attached to them, while 18 were kept up from the surplus proceeds of the endowments attached to certain chuttrams in the Tanjore and Tinnevelly districts. The total cost of all the dispensaries was Rs. 2,78,539 against Rs. 2,76,815 in the preceding year. The total number of patients treated in these institutions and of those treated by the extra medical practitioners in Nellore, by the itinerating hospital assistant in Ellore and by the hospital assistants attached to the Head Assistant Collectors' offices in Godávari and Tinnevelly were 10,770 in-patients and 969,021 out-patients against 12,619 and 885,932 respectively in the preceding year. It is satisfactory to note that the large increase in the number of out-patients is ascribed to the additional dispensaries opened during the year and to the growing popularity of these institutions. The action of some of the boards in restricting by rule the classes of persons entitled to relief as in-patients is in the opinion of Government unwise. The total number of midwives employed in the several circles was 82, and the number of labor cases attended to by them was 2,267 against 2,061 cases attended by 84 midwives in 1882-83. Their total cost including that of training midwifery pupils was Rs. 7,307. Besides the midwifery school at Tanjore, which was temporarily closed as no candidates could be induced to join it, there were three medical schools established by the Local Fund boards at Tanjore, Madura and Nellore for training students to be employed by them as hospital assistants, and an account of the working of these schools will be found in paragraph 48 of the report.

15. There were 44 deputy inspectors of vaccination and 606 vaccinators employed on vaccine operations against 38 of the former and 593 of the latter in the preceding year. The work done by them and its cost per successful operation are compared below with those of 1882-83 :—

Years.	Number of persons vaccinated.	Number of successful cases.	Percentage of successful cases to total number vaccinated.	Cost per successful case.
				RS. A. P.
1882-83 ..	567,540	531,672	94	0 4 0
1883-84 ..	606,664	566,264	93	0 3 9

The Government agree with the Board in considering that though the operations of the year show an advance over those of the preceding year they are very far from being what they ought to be, as the number of persons protected from small-pox during the year is shown to be only 67 per cent. of the number of births. The results were, as pointed out by the Board, very backward in South Arcot, Cuddapah, Madanapalle, Chicacole, Chatrapur, Cocanada, Ellore, Salem and Vizagapatam, in which less than 50 per cent.

of the children born were successfully vaccinated. The attention of the Presidents concerned has been already drawn to this. The Government hope that they have taken the necessary steps to ensure better results in future. The cost per successful case is still very high in Nílgiris, Madanapalle, Cuddapah, Ellore and Bellary. In Nílgiris this is due to the peculiar physical features of the country and to the sparseness of population; but in the other circles it is probably capable of much reduction.

16. Excluding the sum of Rs. 29,818 expended on sanitary works under Grant I, the outlay on sanitation under Grant III was Rs. 2,62,297 against Rs. 2,78,618 in 1882-83, and was incurred for the following purposes:—

	Rs.
1. Improvement of water-supply	52,739
2. Do. of village-site	15,724
3. Conservancy of towns and villages	1,56,161
4. Fairs and festivals	9,208
5. Miscellaneous	28,465
Total	2,62,297

The Government note that 83 per cent. of the total allotments sanctioned for the purpose was utilized during the year under review against 80 per cent. in 1882-83. Much greater improvement is possible, and there is no reason why at least 95 per cent. of these allotments should not be judiciously spent in every year. Including the expenditure under Grant I, the total outlay on this account was, as in the preceding year, 12·6 per cent. of the General Fund assets against the proportion of 12·5 per cent. prescribed in G.O., Public department, dated 30th December 1882, No. 1652.

17. During the year under review there were 329 choultries maintained by the Local Fund boards against 319 in the previous year. Of the former, 198 had endowments attached to them, and in 57 of these endowed choultries, 2,163,938 travellers are stated to have been fed at a cost of Rs. 68,513 against 2,159,718 persons fed at a cost of Rs. 78,207 in 1882-83, the decrease in the cost of feeding being ascribed chiefly to the fall in the prices of provisions. In addition to these 22,349 and 10,950 paupers were fed respectively in the Arcot and Kurnool lungerkhanas, 50 blind persons were allowed a monthly pension of Rs. 3-8-0 each from the funds of the Tirukurangudi chuttram in the Tinnevelly circle, and 15 such persons received Rs. 2-8-0 each per mensem from the funds of the Kuttalam choultry in the Shermádevi circle. There were 236 bungalows used by 8,054 travellers against 243 bungalows used by 6,845 travellers in the previous year. The amount of fees collected from these persons in 1883-84 was Rs. 11,422 against Rs. 24,043 spent on their maintenance. The Government are of opinion that the rates of fees levied in these bungalows should be raised wherever possible, in view to their being made more self-supporting.

18. The total amount contributed by the several Local Fund boards to Municipalities and to Missionary and other bodies for medical and sanitary purposes, as detailed in paragraph 53 of the Board's report, was Rs. 82,170 against Rs. 81,847 in 1882-83.

19. The total charges of administration, including contingencies, was Rs. 1,70,040 or 2·8 per cent. of the total expenditure and 2·9 per cent. of the actual receipts.

20. The average incidence of taxation under Act IV of 1871, per head of the population censused in 1881, was Annas 2-9 or Annas 2-6, according as tolls are included or excluded, against Annas 2-7 and Annas 2-5 respectively in the preceding year, the increase being due to enhanced collections under Land-cess and Tolls. The incidence of the total Local Fund revenue was Annas 3-4 per head or 2 pies more than in 1882-83.

21. The constitution of the several Local Fund boards remained nearly the same as in 1882-83. The number of meetings held in the year averaged 13 per circle, with an attendance of 4 officials and 5 non-officials out of a total of 12 and 14 respectively on each board. The Government are pleased to hear that the non-official members of

local boards are taking greater interest in matters connected with the administration of local funds, and the excellent services of Mr. Kottaiswami Tévar, the non-official vice-president of the Madura Circle board, are noted with much satisfaction.
