Public Works Department .

No.732 C dated 9th. April 1885 .

MEMORANDUM

Letter from the Superintendent of Stationery No. 1599 dated 27th. March 1885.

I have the honor to enquire whether it will be possible for you to increase in the offices under your control, the use of Badami Royal 25 and 20lb which is manufactured at the Bally Mills and if so to what extent, and in substitution of what paper. The Superintendent of Stationery at Calcutta states that almost all the forms are printed on this paper. You are aware that Government are anxious to substitute as much of the country paper as possible in lieu of paper received from England.

I send herewith 4 sample sheets of each of the papers.

Communicated to Officers of the Public Works Department for report.

(By Order)

GOVERNMENT OF MADRAS.

FINANCIAL DEPARTMENT.

Read—the following paper:—

From M.R.Ry. P. CHENTSAL RAO, PUNTULU GARU, Superintendent of Stationery, to the Chief Secretary to Government, dated Madras, 27th March 1885, No. 1599.

I have the honor to enquire whether it will be possible for you to increase, in the offices under your control, the use of Badami Royal, 25 and 20 lb., which is manufactured at the Bally Mills, and if so to what extent, and in substitution of what paper. The Superintendent of Stationery at Calcutta states that almost all the forms are printed on this paper. You are aware that Government are anxious to substitute as much of the country paper as possible in lieu of paper received from England.

2. I send, herewith, four sample sheets of each of the papers.

Order—dated 18th May 1885, No. 869, Financial.

Communicated to departments of the Secretariat.

2. The paper appears suitable for office use, and should be substituted largely for the more expensive kinds at present employed for forms and routine papers in all Government offices throughout the Presidency.

Sir,

With reference to your memo No. 732C dated 9th April 1885. I have the honor to inform you that I consider Badami paper 25 lbs may be used for Statements & printing forms of Reminders and other ordinary forms such as forwarding dockets &c.

Badami paper 20 lbs might be used for rough Drafts.

I do not consider that either paper is fit for documents that have to be kept for future reference or record.

Should the above be accepted, there will be saving in the quantity of Royal and Foolscap paper, machine made and in double and single pot papers that are now issued.

I have the honor to be

Sir,

With reference to your Memo No. 732 C. of the 9th April, forwarding a sample of Country made Paper called "Badami", I have the honor to state, that the paper would seem to be somewhat brittle and its Color is objectionable.

2 I have consulted the Executive Engineers, Kistna Eastern and Nellore Divisions regarding it, and beg to state, that in order to give it a fair trial, I will take $\frac{1}{8}$ of the quantity indented for under French Foolscap for this Circle.

SIR,

With reference to yo No. 732 C, dated 9th April 1885, I have the honor to state that as far as I can judge the Badami Royal is not a description of paper that I could recommend to be substit for any English manufactured paper of that size - It might be used instead of French foolsca or the heavier description Viz: 25 lb might with advantage be substituted for the Country Chellum if not comparatively too costly. The latter paper which is used for covers being thin and spongy is not suitable for even that purpose, when it has to be sent by post.
