Military Works.

READ—the following letter from Brigadier-General R. C. STEWART, Quartermaster-General, to the Secretary to Government, Military Department, dated Ootacamund, 31st July 1885, No. 1770 B:—

In forwarding, for the information of Government, a copy of a circular* issued under the orders of the Commander-in-Chief, providing for the construction of latrines to lines of native regiments by regimental labor, I am desired to request that intimation may be given to the Public Works Department that the project, for construction by that department, of three latrines for native infantry lines at Vizianagrum sanctioned in proceedings of Government, No. 3184, dated 12th June 1885, may be considered as abandoned.

ENCLOSURE.

From Brigadier-General R. C. STEWART, Quartermaster-General, to General Officers Commanding Divisions and Districts, dated Ootacamund, 23rd June 1885, Circular No. 1402 B.

Estimates for latrines for lines of native troops being frequently submitted for the sanction of the Commander-in-Chief, General officers commanding divisions and districts are informed that His Excellency considers such erections subsidiary to lines; they should therefore invariably be built by the labor of the men of regiments, exactly in the same way as the lines themselves, and within the agency of the Public Works Department.

When practicable the funds for the provision of the necessary materials are to be supplied by cantonment committees, but when cantonment funds will not admit of the expenditure, or in stations where there are no cantonment committees, General officers commanding should make the requisite grants from the minor works allotment at their disposal, the amount being either paid in cash, or material being supplied in kind by the Executive Engineer to the officer commanding the regiment concerned.
