There has been some misunderstanding on this matter.

I asked Major Smith to have an estimate prepared, saying that the small amount necessary might possibly be spared towards the end of the official year, — but it was never intended by me that the work should be undertaken in anticipation of funds being available.

W

Apparently this is the same work as that given as item (24) in the re-appropriation statement.

For orders whether it may be sanctioned, as funds can be provided.
