No. 232 T.N.

REPORT by the Superintending Engineer, VI Circle, on the estimate for constructing a Sub-Registrar's office at Sātānkulam, Tenkarai taluk, Tinnevely district, Rs. 2,080.

The estimate is called for in G.O., No. 526 W., dated 26th February 1884, and is prepared in accordance with the standard design, No. 21 (terraced building), approved of in G.O., No. 120 W., dated 14th January 1882.

2. The site selected is the village-site and belongs to Government (*vide* remarks in the compensation statement attached). No compensation for land is therefore allowed in the estimate. The soil is said to be loam and decayed rock is found 4 feet below the surface of the ground ; the foundation allowed in the estimate, viz., 1 foot concrete and $3\frac{1}{2}$ feet masonry, is considered sufficient.

3. No deviation is made from the standard design except the flooring, which is proposed to be of concrete in Portland cement, instead of square bricks. The record-room door to be of imitation venetian and panel. Weather-boards are provided over the windows of the office room.

4. The rates are fair and the estimate is forwarded to the Inspector-General of Registration for submission to Government in the Judicial Department (*vide* paragraph 1168 A, of the Public Works Code).

5. The work should be completed within nine months from the date of sanction and allotment of funds.
