READ—the following paper:—

From G. HAMNETT, Esq., C.I.E., Inspector-General of Registration, to the Chief Secretary to Government, dated Madras, 31st July 1885, G. No. 3032.

In Judicial No. 873, dated the 3rd April 1884, the Government sanctioned the opening of an office at Manjeshwar, in South Canara, by taking 47 villages from the sub-districts of Kásaragod and Vittal, subject to report after a year's experience of its working.

2. The year's experience, from 1st May 1884 to 30th April 1885, shows that between the new and the two old sub-districts there has been an increase of 538 registrations and of Rs. 2,055 in receipts, equivalent to 19 and 36 per cent., respectively. Optional registration advanced by 195 registrations or 23 per cent.

3. The new office

4. The sub-registrar writes—

"The establishment of the office is regarded by the public as a great boon, as a long and tedious journey was formerly necessary for the purpose of resorting to the registration offices at Vittal and Kásaragod. * *. The people eagerly avail themselves of the facilities for registration afforded to them by the opening of the office, and nothing can be a better proof of the appreciation felt by the public than that old transactions, which had been allowed to be on verbal terms, were reduced to writing after the establishment of the office and registered."

DOWLAISHWARAM, 14th August 1885.
Desp 15th

SIR,

With reference to G.O. No. 1911 W. dated 6th August 1884, sanctioning a house for the Superintending Engineer 1st Circle at Dowlaishweram, estimated to Cost Rs 17,300, I have the honor to inform you that, as the out houses and stabling attached to the present Executive Engineer's temporary house, will not be suitable or available, it will be necessary to Construct new out-houses for the Superintending Engineer.

(2.) These additions will Cause the present estimate to be exceeded and the rent will Consequently be some what higher than that proposed by me in my letter

No. 907/G.D. dated 1st July 1884. Personally I would not object to a slight increase in rent for necessary accommodation; but in providing accommodation for the Superintending Engineer at this station, I feel bound to Consider my successors in office.

(3.)

(3.) The Estimate submitted by me was for the most part drawn up at rates prevailing in the Delta, which allow 20 per Cent for workshop Charges for all woodwork and Considerably more than that for stone work, provided from the Dowlaishweram Quarries. Both of these institutions are a necessity for the Delta Works: but it seems hardly fair that the Superintending Engineer should have to pay interest on these some what high Charges, when accommodation is provided for him at Dowlaishweram, where he is obliged to reside and this seems all the more hard as since the workshop rates were fixed, the price of timber has fallen some 20 per Cent.

4. With your permission, I would therefore suggest that all work and materials supplied for the new residences for the Superintending and Executive Engineers at Dowlaishweram and by the workshops and by the Quarries, may be supplied at the actual Cost minus the ordinary percentages. This would involve no loss or extra Charge to either of these Institutions which have been employed in the Construction of these buildings merely as a matter of Convenience by the Executive Engineer.

5. If you see no objections to my proposals, I have no doubt

that revised Estimates including all the necessary out houses can be prepared nearly at the sanctioned amounts.

I have the honor to be

No provision was made in the original Estimate for out houses. The estimate was 17.300/- and at 7½ percent it would give a rental of Rs: 106/- per annum.

Revised Estimate is not submitted as it is necessary to first dispose of the suggestion made in para 4 of this letter.
