Chepák, 2^d Novemb 1885.

From

THE SUPERINTENDING ENGINEER,

V CIRCLE,

To

THE

Chief Engineer
P. W. Deptt.

SIR,

Enclosures.

I have the honor to submit
the following for your favorable
consideration.

2. T. Appatharay Mudaliar
Third Class Storekeeper on Rs 15
in the Bangalore Sub Division
was nominated to that appoint-
ment in March 1882 having
previously served six years
in the Department. He has
always performed his duties
to the satisfaction of the Officers
under whom he has been em-
ployed as shown by the Certi-
ficates

Certificates in his possession
and I can myself testify
to his diligence, carefulness and
attention to duties during the
time he has served under
me since August 1881. But
his not having passed the
test for appointments of
Salaries of Rupees 20 and
above forms a bar to his
being rewarded for his good
service by promotion which I
consider he is well deserving
of.

3. With a view that where
there is an opportunity he
may be enabled to obtain
promotion, I recommend
strongly as a special case
his exemption from examina-
tion for appointments of
Storekeeper up to the first
class.

The nature of his duties in the
Presidency.

Presidency Division does not
actually require any knowledge
of Geography, Map drawing
History, Mathematics &c
as laid down for the test
for appointments of Rupees 20
& upwards and this man's
age and antecedents are such
that he cannot possibly re-
quire such knowledge now.

I have the honor to be
Sir
Yours Most Obedt Servt

Reformatory.

Deciding, after full consideration, to establish
the — in the jail buildings at Chingleput, the Civil
Surgeon of the district, with a special allowance of
300 rupees a-month, being the Superintendent.

With order

26TH SEPTEMBER 1885, No. 2609, JUDICIAL.

GOVERNMENT OF MADRAS.

JUDICIAL DEPARTMENT.

READ—again the following paper :—

G.O., dated 17th August 1885, Mis. No. 2128, Judicial.

Read—the following letter from H. R. GRIMES, Esq., Inspector-General of Jails, to the Chief Secretary to Government, dated Coimbatore, 18th July 1885, No. 199 :—

* * * *

6. In regard to the suggestion of the Superintendent of Prisons for the Town of Madras to postpone expenditure in connection with the reformatory, which suggestion was embodied in the précis submitted with my letter to Government, dated 2nd June 1885, No. 159, and on which the Government in its order in the Financial department, dated 9th June 1885, No. 933, remitted to the Judicial department for consideration and disposal, I would strongly urge that the settlement of the reformatory question should be no longer delayed, but that a commencement should be made in its construction as soon as possible. As directed in the Order of Government, dated 26th June 1885, No. 1688, Judicial, the committee therein appointed met on the 13th July 1885 and considered the relative advantages of the site already purchased for the reformatory on a plot of open land near Guindy on the right bank of Adyar, and a site on the Government Farm property suggested by the Hon. H. Goodrich. The committee were unanimous in their opinion that a site on the Government Farm property was far more desirable in every way to the site already purchased near Guindy, and they selected about 60 acres of the Government Farm property adjoining Homes' Gardens, in which the Collector of Chingleput's office is located, as the most suitable site for the reformatory. The committee's report has, I believe, been already submitted to Government.

7. The question now to be decided is whether funds are available for the erection of the necessary buildings for the reformatory school. In the event of there not being funds, I beg to submit a suggestion of the Hon. Mr. Goodrich's for the consideration of the Government, viz., that the buildings recently used as the district jail in the Chingleput fort are very well suited for the reformatory, and that the Civil Surgeon of Chingleput, who has at present very light work, might have charge of the reformatory in addition to his other duties.

8. Personally I do not advocate Mr. Goodrich's suggestion, as I think the reformatory should be near Madras where it would be easier inspected by official visitors. At the same time there are obvious advantages, from a financial point of view, to the carrying out of Mr. Goodrich's suggestion.

* * * *

Order—dated 17th August 1885, Mis. No. 2128, Judicial.

The Inspector-General of Jails will be informed that the Government will not require him to effect any of the savings suggested in his letter.

2. Separate orders will be passed regarding the proposed location of the reformatory.

(True Extract.)

(Signed) E. F. WEBSTER,
Chief Secretary.

To the Inspector-General of Jails.

READ—also the following papers:—

From the Acting Magistrate of the Chingleput district, dated Saidápet, 29th June 1885, No. 162.

From the Committee appointed under G.O., Judicial department, dated 26th June 1885, No. 1688.

ABSTRACT.—Reporting upon the proposed sites for the reformatory.

From the Inspector-General of Jails, dated Salem, 31st July 1885, No. 210.

From H. R. GRIMES, Esq., Inspector-General of Jails, to the Chief Secretary to Government, dated Ootacamund, 9th September 1885, No. 241.

In continuation of my letter, dated Salem, 31st July 1885, No. 210, I have the honor to submit the following remarks on the suggestions of the Honorable Mr. Goodrich, the Acting Magistrate of the Chingleput district, regarding the disposal of the buildings lately used as a district jail at Chingleput.

Six plans.

One demi-official letter from District Magistrate, Chingleput.

2. Mr. Goodrich suggests that the South Indian Railway Company might wish to acquire a part of them, viz., the district jail wards, which are situated at the point where the South Indian Railway enters the fort; that the late jailer's house would be a much better situated travellers' bungalow than the existing one; and that the only building of the old jail which would be required to be retained is the jail hospital, which (better than any other block of the buildings) will supply the accommodation needed for under-trial prisoners; he further suggests that tenders be invited for bids for all the other buildings as they will deteriorate in value, if left uncared for.

3. From a personal inspection of all the buildings on the 19th ultimo I found them in excellent repair, and, as previously suggested to me in a demi-official letter from Mr. Goodrich, which I now enclose for the information of the Government, I think the whole of the buildings might be utilized temporarily for the reformatory school until such time as Government is in a position financially to allot funds for the reformatory school on the site recently selected by the committee (convened in G.O., dated 26th June 1885, No. 1688) on the Government Farm at Saidápet.

4. If these suggestions meet with the approval of the Government, I propose the old district jail, which consists of two quadrangles surrounded by wards capable to contain one hundred boys, should be fitted up with cubicles and be used as dormitories; that the old Mahal should be set apart for under-trial and subsidiary jail prisoners; it is capable of containing thirty-eight prisoners, and at the time of my visit there were only three subsidiary jail prisoners and one lunatic in it. The Mahal is situated in an enclosure apart from the other buildings, and has attached to it all the necessary out-

houses, &c., for the subsidiary jail prisoners. Adjoining the Mahal, and to the left of it as you enter the fort, is a large court-yard with sheds around it which were used as kitchens for the district jail. I would propose that these sheds be adapted for school-rooms and workshops for the reformatory, for which they are well suited; from this court-yard is the entrance to the old jail hospital, also situated in a separate enclosure. The hospital consists of three large well-ventilated wards with verandah in front and behind them, a dispensary and all necessary out-houses. Immediately to the right of the hospital are the Hospital Assistants' quarters—the whole well adapted as the hospital for the reformatory.

5. I would recommend that the late jailer's house be put into thorough order; it is a very substantial, well-built building, and that it should be the quarters for the Superintendent, who, as suggested by Mr. Goodrich, should be the Civil Surgeon, and to whom, I consider, a special allowance of Rs. 300 per mensem should be given.

6. The only additional buildings that will be required are quarters for the head master, deputy master, and peons; these, if possible, should be erected in the fort, contiguous to the other buildings, if sites are available. There is a sufficient extent of garden close to the old district jail wards and the jailer's house to employ the boys on.

7. By utilizing these buildings, which, if sold, will only fetch a small sum, and which are all in excellent repair, the reformatory could soon be established.

8. I am aware that the committee on reformatory schools in their report, dated 26th October 1882, No. 296, expressed their opinion that reformatory schools should be, as much as possible, disconnected from jail management; that they should not be attached to jails, and should have as little as possible in common with jails; moreover, that the reformatory should be located in the vicinity of the presidency town. However, in now suggesting that the reformatory should be established in what was once an old jail, beyond the associations attached to the buildings, there is no reason why the expressions of the committee should not be as well carried out at Chingleput as on the Government Farm site. As to the locality, Chingleput is within such easy reach of the presidency town by rail, the committee of visitors could, without much additional difficulty, inspect the reformatory there as at Saidápet.

9. I would, however, beg to impress on the Government that it is not my intention to recommend the reformatory should be permanently established at Chingleput. I wish to see it commenced and have therefore made these suggestions, and I hope eventually and at no distant period to see it established on the site on the Government Farm.

* * * *

12. I forward a rough plan showing the situations of all the buildings in the fort at Chingleput, on which I have marked the propositions in regard to the reformatory buildings. I also forward detailed old plans of the various buildings, and request they may all be returned to me when no longer required.

ORDER—dated 26th September 1885, No. 2609, Judicial.

The Governor in Council, after a full consideration of the foregoing papers, considers that the reformatory should be established in the Chingleput district jail buildings.

2. The Public Works department, in communication with the Inspector-General of Jails, will be requested to prepare the necessary plans and estimates for the additional buildings absolutely necessary.

3. The Government approve the proposal that the Superintendent of the Reformatory should be the Civil Surgeon of the district, with a special allowance of Rs. 300 per mensem. The sanction of the Government of India to this arrangement will be applied for.

4. The Collector of the Chingleput district will submit proposals for the disposal of the recently acquired site near Guindy. It should be ascertained whether it is required for any public purpose by Government departments.

Budget Estimate of Botanical
Gardens and Parks

for 1886-87, reviewed.

2 copies to Govt.

READ—also the following letter from M. A. LAWSON, Esq., Director, Government Gardens and Parks, &c., Nilgiris, to the Secretary to Government, Revenue Department, dated Ootacamund, 24th September 1885, No. 250 :—

I have the honor to point out a clerical error in the explanatory note on the budget estimate of the Botanical Gardens, Nilgiris, for 1886-87 in paragraph 4, for “against an allotment of Rs. 24,229” read “against an allotment of Rs. 23,450-8-0,” and for “a saving over the year’s allotment of Rs. 1,612-5-4” read “a saving over the year’s allotment of Rs. 833-13-4.”

2. The sum of Rs. 23,450-8-0 has been thus arrived at—

	RS.	A.	P.
Budget allotment for 1884-85—vide G.O., No. 1337, dated 27th October 1883	21,499	8	0
Additional grant for cooly lines—G.O., No. 1848, of 5th May 1884	1,879	0	0
Additional grant for Sim’s Park watchman—G.O., No. 843, of 14th July 1884	72	0	0
Total	23,450	8	0

ORDER—dated 20th October 1885, No. 1173, Revenue.

Miscellaneous.

With the first of the papers read above, the Director of Government Cinchona Plantations, Parks and Gardens,

Nilgiris, submits the budget estimate of the Botanical Gardens and Parks for 1886-87 and the revised estimates for the current year.

2. *Actuals of 1884-85.*—The receipts for 1884-85 amounted to Rs. 2,078, falling short of the budget and revised estimates by Rs. 2,222. The decrease is said to be the effect of a fall in the demand for plants and seeds. It is observed from the annual report that a large number of plants were distributed gratis during the year. The receipts from the sale of jalap tubers and the supply of drugs to the Medical Department were also much below the estimate.

3. The charges of 1884-85 were Rs. 22,616 against a grant for the year of Rs. 23,450 as taken by the Director. This figure is arrived at by adding to the amount of the estimate sanctioned in G.O., No. 1337, dated 27th October 1883, the allotments made in G.Os., 5th May 1884, No. 1848, and 14th July 1885, No. 843. It is observed that these additional grants were not duly provided for, as they ought to have been, in the revised estimates for the year submitted by the Director subsequent to the date of these sanctions, and approved in G.O., 5th November 1884, No. 1211. The Director’s attention is drawn to the omission. The bulk of the difference between the actual expenditure and the allotment for the year occurs under “Library,” only a small sum of Rs. 43 having been expended against a provision of Rs. 1,200.

4. *Revised Estimates.*—The revised estimate of receipts and charges for the current year is the same as the budget estimate, the receipts being Rs. 2,850 and the charges Rs. 24,229.

5. The receipts during the first five months of 1885-86 amounted to as much as Rs. 1,749-2-9, but the Director’s estimate will not be altered, as he has presumably framed it with reference to existing circumstances. The revised estimate of charges is also approved.

6. *Budget Estimates for 1886-87.*—The receipts for 1886-87 are estimated at the same figure as the estimate for the current year, viz., Rs. 2,850. The estimate is approved.

7. The charges are estimated at Rs. 22,129, or Rs. 2,100 less than the budget and revised estimates of the current year. The estimate does not differ from the revised estimate of the current year except under the following heads:—

	RS.
(1) Regrassing of slopes, gravelling of walks, &c., and the formation of a kitchen garden	1,050
(2) Upkeep of Crewe and Ottley Hall estates	500
(3) Bridle-road in Sim's Park	650

These works, for which provision is made in the current year's budget, are expected to be finished before the end of the year, and during the next year an expenditure is proposed of a sum of Rs. 500 for the upkeep of the kitchen garden and a similar sum for that of the Crewe and Ottley Hall estates. This provision is approved as well as the provision of Rs. 100 for gravelling the new road in Sim's Park.

8. The Director has submitted in a separate letter proposals for increase of pay to the clerk, overseer and apprentice on his establishment, amounting to Rs. 720 per annum. Pending sanction of this proposal, provision will be made on this account in the budget.

9. The budget estimates of receipts and charges, as thus approved by Government, are as follows:—

	RS.
Receipts	2,850
Charges	22,850

The Director also submits an estimate, amounting to Rs. 2,500, for the upkeep of the Government House Gardens. This will be transferred as usual for disposal in the Financial Department.

20TH OCTOBER 1885, No. 1173, REVENUE.

GOVERNMENT OF MADRAS.
REVENUE DEPARTMENT.

READ—the following letter from M. A. LAWSON, Esq., Director of Government Gardens and Parks, &c., Nilgiris, to the Secretary to Government, Revenue Department, dated Ootacamund, 15th September 1885, No. 237:—

With reference to G.O., No. 4517, dated the 26th August 1885, Revenue, communicating G.O., No. 1174, dated the 10th August 1885, Financial, I have the honor to forward the budget estimates of the Government Botanical Gardens and Parks in my charge for the year 1886-87.

ENCLOSURES.

EXPLANATORY NOTE ON THE BUDGET OF THE GOVERNMENT GARDENS AND PARKS, NILGIRIS, FOR 1886-87.

Actuals for 1884-85—Receipts.—The actuals amounted to Rs. 2,077-12-1 against the budget estimate of Rs. 4,300 and against an average of the last three years of Rs. 2,910-11-3. This has been Rs. 2,222-3-11 below the budget estimate for the year, and the decrease was principally due to the falling off in the receipts of the sale of plants, seeds, &c., in the Barliyar and Ootacamund Gardens on account of a less demand for these.

2. *Regular Estimate for 1885-86—Receipts.*—This has been fixed at the same figure as that for the budget estimate for this year (G.O., No. 1211, of 5th November 1884), as no great change for the better can be relied upon for the sale of plants at present.

3. *Budget Estimate for 1886-87—Receipts.*—The same details for this have been set down as was done in regular estimate for 1885-86, as it is anticipated that about the same amount will be realised.

4. *Actuals for 1884-85—Charges.*—These aggregated Rs. 22,616-10-8 against an allotment of Rs. 24,229 and an average for the past three years of Rs. 23,857-5-7, thus showing a saving over the year's allotment of Rs. 1,612-5-4. This saving was due chiefly to only Rs. 42-15-3 out of Rs. 1,200 being spent upon the library.

5. *Regular Estimate for 1885-86—Charges.*—This has been fixed at Rs. 24,229, being the same as that sanctioned by Government for the current official year in G.Os., Nos. 1211 and 1348, dated 5th November and 5th December 1884, as I do not see my way to surrendering any money out of the allotments, without allowing the various works now in progress in the several gardens and parks falling into their former state of disrepair.

6. A sum of Rs. 650 has been provided for making a bridle-road and a bridge through the shola at Sim's Park to Wellington—vide G.O., No. 437, dated 15th April 1885. The whole of this will be spent before the end of the present year.

7. *Budget Estimate for 1886-87—Charges.*—This has been set down at Rs. 22,129, being Rs. 2,100 less than the regular estimate for the current official year; this reduction is due to less expenditure being anticipated under the following heads:—

	RS.
(a) Regrassing of slopes, gravelling of walks, formation of a kitchen garden, and clearing of ravine, &c.	1,050
(b) Upkeep of Crewe and Ottley Hall estates	500
(c) Making a bridle-road, &c., in Sim's Park, Coonoor	650
(d) Less extra sum provided for metalling the new road in Sim's Park	2,200
	100
Total	2,100

8. The first saving is due to the regrassing of slopes, formation of a kitchen garden, &c., having been either completed or which will be completed before the end of the year, and to the sum of Rs. 500 only being required during the year for the upkeep of the kitchen garden.

9. *Crewe and Ottley Hall Estates, Rs. 500.*—This saving is due to its being anticipated that the planting and fencing of the Crewe and Ottley Hall estates will be completed during the present year, after which the lesser sum of Rs. 500 will be sufficient for their upkeep.

10. *Making a Bridle-road and Bridge, Rs. 650.*—As this work will have been finished in the current official year, no further allotment on its account is wanted, and hence the saving of this sum over the regular estimate for 1885-86.

11. *Gravelling the new Road in Sim's Park.*—A sum of Rs. 100 has been provided under this head for the upkeep of the new road at Sim's Park to meet gravelling and other charges.

12. *Upper Norwood.*—The actuals for the year 1884-85 were Rs. 1,958-1-11 against an allotment of Rs. 2,000 (G.O., No. 1337, of 27th October 1883), thus showing a saving of Rs. 41-14-1.

13. *Regular Estimate for 1885-86.*—This has been set down at Rs. 3,000, being the same as that sanctioned for the current official year (G.O., No. 2796, dated 4th December 1884, communicated under endorsement No. 5656, of 12th December 1884, Revenue), as it is anticipated that the same amount will be required.

14. *Budget Estimate for 1886-87.*—This has been set down at Rs. 2,500, being Rs. 500 less than the regular estimate for the current official year. This is owing to most of the more important works having been finished during this year.

15. In accordance with paragraph 2 of G.O., No. 1174, dated 10th August 1885, the budget estimate has been revised in form so as to exhibit the average expenditure for the last three years.

GOVERNMENT OF MADRAS.

REVENUE DEPARTMENT.

READ—the following letter from M. A. LAWSON, Esq., Director of Government Gardens and Parks, &c., Nilgiris, to the Secretary to Government, Revenue Department, dated Ootacamund, 15th September 1885, No. 237 :—

With reference to G.O., No. 4517, dated the 26th August 1885, Revenue, communicating G.O., No. 1174, dated the 10th August 1885, Financial, I have the honor to forward the budget estimates of the Government Botanical Gardens and Parks in my charge for the year 1886-87.

ENCLOSURES.

EXPLANATORY NOTE ON THE BUDGET OF THE GOVERNMENT GARDENS AND PARKS, NILGIRIS, FOR 1886-87.

Actuals for 1884-85—Receipts.—The actuals amounted to Rs. 2,077-12-1 against the budget estimate of Rs. 4,300 and against an average of the last three years of Rs. 2,910-11-3. This has been Rs. 2,222-3-11 below the budget estimate for the year, and the decrease was principally due to the falling off in the receipts of the sale of plants, seeds, &c., in the Barliyár and Ootacamund Gardens on account of a less demand for these.

2. *Regular Estimate for 1885-86—Receipts.*—This has been fixed at the same figure as that for the budget estimate for this year (G.O., No. 1211, of 5th November 1884), as no great change for the better can be relied upon for the sale of plants at present.

3. *Budget Estimate for 1886-87—Receipts.*—The same details for this have been set down as was done in regular estimate for 1885-86, as it is anticipated that about the same amount will be realised.

4. *Actuals for 1884-85—Charges.*—These aggregated Rs. 22,616-10-8 against an allotment of Rs. 24,229 and an average for the past three years of Rs. 23,857-5-7, thus showing a saving over the year's allotment of Rs. 1,612-5-4. This saving was due chiefly to only Rs. 42-15-3 out of Rs. 1,200 being spent upon the library.

5. *Regular Estimate for 1885-86—Charges.*—This has been fixed at Rs. 24,229, being the same as that sanctioned by Government for the current official year in G.Os., Nos. 1211 and 1348, dated 5th November and 5th December 1884, as I do not see my way to surrendering any money out of the allotments, without allowing the various works now in progress in the several gardens and parks falling into their former state of disrepair.

6. A sum of Rs. 650 has been provided for making a bridle-road and a bridge through the shola at Sim's Park to Wellington—*vide* G.O., No. 437, dated 15th April 1885. The whole of this will be spent before the end of the present year.

7. *Budget Estimate for 1886-87—Charges.*—This has been set down at Rs. 22,129, being Rs. 2,100 less than the regular estimate for the current official year; this reduction is due to less expenditure being anticipated under the following heads :—

	RS.
(a) Regrassing of slopes, gravelling of walks, formation of a kitchen garden, and clearing of ravine, &c.	1,050
(b) Upkeep of Crewe and Ottley Hall estates	500
(c) Making a bridle-road, &c., in Sim's Park, Coonoor	650
	2,200
(d) Less extra sum provided for metalling the new road in Sim's Park	100
Total	2,100

8. The first saving is due to the regrassing of slopes, formation of a kitchen garden, &c., having been either completed or which will be completed before the end of the year, and to the sum of Rs. 500 only being required during the year for the upkeep of the kitchen garden.

9. *Crewe and Ottley Hall Estates, Rs. 500.*—This saving is due to its being anticipated that the planting and fencing of the Crewe and Ottley Hall estates will be completed during the present year, after which the lesser sum of Rs. 500 will be sufficient for their upkeep.

10. *Making a Bridle-road and Bridge, Rs. 650.*—As this work will have been finished in the current official year, no further allotment on its account is wanted, and hence the saving of this sum over the regular estimate for 1885-86.

11. *Gravelling the new Road in Sim's Park.*—A sum of Rs. 100 has been provided under this head for the upkeep of the new road at Sim's Park to meet gravelling and other charges.

12. *Upper Norwood.*—The actuals for the year 1884-85 were Rs. 1,958-1-11 against an allotment of Rs. 2,000 (G.O., No. 1337, of 27th October 1883), thus showing a saving of Rs. 41-14-1.

13. *Regular Estimate for 1885-86.*—This has been set down at Rs. 3,000, being the same as that sanctioned for the current official year (G.O., No. 2796, dated 4th December 1884, communicated under endorsement No. 5656, of 12th December 1884, Revenue), as it is anticipated that the same amount will be required.

14. *Budget Estimate for 1886-87.*—This has been set down at Rs. 2,500, being Rs. 500 less than the regular estimate for the current official year. This is owing to most of the more important works having been finished during this year.

15. In accordance with paragraph 2 of G.O., No. 1174, dated 10th August 1885, the budget estimate has been revised in form so as to exhibit the average expenditure for the last three years.

READ—also the following letter from M. A. LAWSON, Esq., Director, Government Gardens and Parks, &c., Nilgiris, to the Secretary to Government, Revenue Department, dated Ootacamund, 24th September 1885, No. 250 :—

I have the honor to point out a clerical error in the explanatory note on the budget estimate of the Botanical Gardens, Nilgiris, for 1886-87 in paragraph 4, for “against an allotment of Rs. 24,229” read “against an allotment of Rs. 23,450-8-0,” and for “a saving over the year’s allotment of Rs. 1,612-5-4” read “a saving over the year’s allotment of Rs. 833-13-4.”

2. The sum of Rs. 23,450-8-0 has been thus arrived at—

	RS.	A.	P.
Budget allotment for 1884-85—vide G.O., No. 1337, dated 27th October 1883	21,499	8	0
Additional grant for cooly lines—G.O., No. 1848, of 5th May 1884	1,879	0	0
Additional grant for Sim’s Park watchman—G.O., No. 843, of 14th July 1884	72	0	0
Total	23,450	8	0

ORDER—dated 20th October 1885, No. 1173, Revenue.

Miscellaneous.

With the first of the papers read above, the Director of Government Cinchona Plantations, Parks and Gardens, Nilgiris, submits the budget estimate of the Botanical Gardens and Parks for 1886-87 and the revised estimates for the current year.

2. *Actuals of 1884-85.*—The receipts for 1884-85 amounted to Rs. 2,078, falling short of the budget and revised estimates by Rs. 2,222. The decrease is said to be the effect of a fall in the demand for plants and seeds. It is observed from the annual report that a large number of plants were distributed gratis during the year. The receipts from the sale of jalap tubers and the supply of drugs to the Medical Department were also much below the estimate.

3. The charges of 1884-85 were Rs. 22,616 against a grant for the year of Rs. 23,450 as taken by the Director. This figure is arrived at by adding to the amount of the estimate sanctioned in G.O., No. 1337, dated 27th October 1883, the allotments made in G.Os., 5th May 1884, No. 1848, and 14th July 1885, No. 843. It is observed that these additional grants were not duly provided for, as they ought to have been, in the revised estimates for the year submitted by the Director subsequent to the date of these sanctions, and approved in G.O., 5th November 1884, No. 1211. The Director’s attention is drawn to the omission. The bulk of the difference between the actual expenditure and the allotment for the year occurs under “Library,” only a small sum of Rs. 43 having been expended against a provision of Rs. 1,200.

4. *Revised Estimates.*—The revised estimate of receipts and charges for the current year is the same as the budget estimate, the receipts being Rs. 2,850 and the charges Rs. 24,229.

5. The receipts during the first five months of 1885-86 amounted to as much as Rs. 1,749-2-9, but the Director’s estimate will not be altered, as he has presumably framed it with reference to existing circumstances. The revised estimate of charges is also approved.

6. *Budget Estimates for 1886-87.*—The receipts for 1886-87 are estimated at the same figure as the estimate for the current year, viz., Rs. 2,850. The estimate is approved.

7. The charges are estimated at Rs. 22,129, or Rs. 2,100 less than the budget and revised estimates of the current year. The estimate does not differ from the revised estimate of the current year except under the following heads:—

	RS.
(1) Regrassing of slopes, gravelling of walks, &c., and the formation of a kitchen garden	1,050
(2) Upkeep of Crewe and Ottley Hall estates	500
(3) Bridle-road in Sim's Park	650

These works, for which provision is made in the current year's budget, are expected to be finished before the end of the year, and during the next year an expenditure is proposed of a sum of Rs. 500 for the upkeep of the kitchen garden and a similar sum for that of the Crewe and Ottley Hall estates. This provision is approved as well as the provision of Rs. 100 for gravelling the new road in Sim's Park.

8. The Director has submitted in a separate letter proposals for increase of pay to the clerk, overseer and apprentice on his establishment, amounting to Rs. 720 per annum. Pending sanction of this proposal, provision will be made on this account in the budget.

9. The budget estimates of receipts and charges, as thus approved by Government, are as follows:—

	RS.
Receipts	2,850
Charges	22,850

The Director also submits an estimate, amounting to Rs. 2,500, for the upkeep of the Government House Gardens. This will be transferred as usual for disposal in the Financial Department.

Budget Estimate of Botanical
Gardens and Parks, Nilgiris

for 1885-86, reviewed.

With order

10. There is a discrepancy, which should be explained, between the details of the receipts and charges for 1883-84 as given in the statement of estimates for 1885-86, and the totals of the actuals for five and seven months respectively as given in the revised (formerly known as "regular") estimates for 1883-84 and 1884-85. In the case of the charges the discrepancy is considerable and extends to the totals as well as to the details. There is also a further discrepancy between either set of figures and the details as given in the statements appended to the annual report for 1883-84. Care should be taken in future to secure perfect agreement throughout.

11. The Director also submits an estimate, amounting to Rs. 3,000, for the upkeep and improvement of the Government House Gardens. This will be transferred as usual for disposal in the Financial Department.

(True Extract.)

(Signed) H. E. STOKES,
Secretary to Government.

 „ Public Works Department.

Exd. W. J. Lewis.

whole expenditure on account of the Curator's travelling allowance, to the Government Botanical Gardens and Parks. So far as regards the Curator, the suggested allotment is open to no objection, but with reference to the principle laid down in the Resolution of the Government of India read in G.O., 2nd August 1883, No. 1638, Financial, the proposal to divide the allowances of the Director between two heads of account cannot be approved. The provision will accordingly be reduced to Rs. 500, which will probably suffice to meet the charges on account of the travelling allowances of the Curator and Herbarium Assistant. The Director states that the allotment under this head "is also to provide for the sending out of coolies and bandies for the collection and transportation of living plants." Such charges, however, should not be debited to "travelling allowance" but to "contingencies." The same remark applies to "charges connected with the conveyance of presses and other botanical materials," which the Director mentions as provided for by the proposed allotment of Rs. 200 for "travelling allowance of Herbarium Assistant."

6. The increase under temporary establishment is due partly to the necessity for reforming, at a cost of about Rs. 2,000, the grounds through which the new road to Government House has been cut, and partly to the need which has arisen for the services of a carpenter and blacksmith for the repair of the numerous mowing and other machines purchased for the gardens. The proposed permanent entertainment of a carpenter and blacksmith for such a purpose appears to require further explanation. The Director could probably get the repairs done by private labor or by the Public Works Department as required from time to time at much less cost. The provision is therefore disallowed. Under item (f) a lump sum of Rs. 2,050 is provided, but the total amount required for the purposes named, according to the details given in the Director's letter, is only Rs. 1,550 as shown in the margin.

	RS.
Clearing of ravine	300
Extension of nurseries	300
Forming Herbaceous Botanical Garden	150
Repairing slopes, tanks, &c.	500
Forming kitchen garden	300
Total	1,550

It is presumed that the sum of Rs. 500 required for the services of a carpenter and blacksmith has been counted twice over. The allotment under (f) will accordingly be reduced to Rs. 1,550. The increase of Rs. 100 in the grant for the acclimatization of foreign plants, originally sanctioned in G.O., 5th July 1872,

No. 874, is approved, the expenditure under this head having for several years exceeded the original amount of the grant. The provision of Rs. 169 for municipal assessment is also approved. It is observed that although the expenditure under "Contingencies" in connection with the Ootacamund Gardens amounted in 1883-84 to Rs. 2,526 and in each of the two preceding years to close upon Rs. 2,000, the provision in the budget now under review is only Rs. 1,000. The amount will, however, remain unaltered, pending any further communication the Director may wish to make, as it is gathered from the report for 1883-84 that several charges have hitherto been debited under this head, which will in future be otherwise provided for.

7. The provision of Rs. 108 for the entertainment of a watchman for the shola recently added to Sim's Park, Coonoor, is approved; but with regard to the proposed bridle road and bridge through the park, it is observed that the further information called for in G.O., 14th July 1884, No. 843, has not yet been received. Pending the submission of the required explanation no expenditure should be incurred on this account, but meanwhile the allotment will be allowed to remain.

8. The budget estimates, as approved and passed, will thus stand as follows:—

	RS.
Receipts	2,850
Charges	23,229

9. In his administration report for the year 1883-84, the Director stated that propositions for the future management and ornamentation of the Crewe Hall Estate and adjoining grounds would be made in his budget estimate for 1885-86. The present estimate, however, contains no provision on this account, and the omission, which was doubtless accidental, should now be supplied.

OOTACAMUND,
15th September 1884.

(Signed) M. A. LAWSON,
Director.

ORDER—dated 5th November 1884, No. 1211, Revenue.

Miscellaneous.

With the foregoing letter the Director of Government Cinchona Plantations, Botanical Gardens and Parks, Nilgiris,

submits the budget estimates of the Botanical Gardens and Parks for 1885-86, and the revised estimates for 1884-85.

2. The revised estimate of receipts and charges for the current year is the same as the budget estimate, the receipts and charges being respectively Rs. 4,300 and Rs. 21,500.

3. The receipts for 1885-86 are estimated at Rs. 2,850, or Rs. 1,450 less than the budget and revised estimates for the current year, the actuals of 1883-84 being Rs. 3,104 and the average of the preceding five years Rs. 3,532. The decrease, which occurs chiefly under "sale of Jalap tubers, &c.," from the medicinal gardens, should have been explained.

4. The charges for 1885-86 are estimated at Rs. 25,109, or Rs. 3,609 in excess of the estimate for the current year. This increase is the net result of an increase under some heads of Rs. 6,957 and a decrease under others of Rs. 3,348. The several items of increase are as follows:—

	RS.
(a) Curator's office establishment	60
(b) Travelling allowance of Director and Curator	1,000
(c) Travelling allowance of Herbarium Assistant	200
(d) Fixed establishment, Ootacamund Gardens	120
(e) Temporary establishment do.	2,500
(f) Regrassing slopes, &c., Ootacamund Gardens, and formation of Kitchen garden	2,050
(g) Grant for acclimatization of foreign plants	100
(h) Municipal assessment on buildings	169
(i) Temporary establishment, Sim's Park, Coonoor	108
(j) New bridle road and bridge, Sim's Park, Coonoor	650
Total ..	6,957

5. The increase under items (a) and (d) is due to a proposal to increase the pay of the Curator's clerk and the overseer and apprentice of the Ootacamund Gardens. No sufficient grounds are adduced for the proposed increase, which must therefore be disallowed. Item (b) is a new head of charge. It is explained that hitherto the entire charge on account of the Director's travelling allowance has been debited to the Cinchona Department, a provision of Rs. 2,000 being made for the purpose in the Cinchona budget. It is now proposed to debit a moiety of this charge, as well as the

9. In his administration report for the year 1883-84, the Director stated that propositions for the future management and ornamentation of the Crewe Hall Estate and adjoining grounds would be made in his budget estimate for 1885-86. The present estimate, however, contains no provision on this account, and the omission, which was doubtless accidental, should now be supplied.

5TH NOVEMBER 1884, No. 1211, REVENUE.

GOVERNMENT OF MADRAS.

REVENUE DEPARTMENT.

READ—the following letter from M. A. LAWSON, Esq., Director of Government Cinchona Plantations, &c., Nilgiris, to the Secretary to Government, Revenue Department, dated Ootacamund, 15th September 1884, No. 260 :—

I have the honor to forward herewith my estimate of what will be the cost of maintaining the Government Parks and Gardens on the Nilgiris for the year ending 31st March 1886.

The amount I ask for is Rs. 25,109. This is Rs. 3,609-8-0 more than the current year's grant. The reasons why I have to ask for so much are—

- 1st.—The making of the new road, which runs through the gardens to Government House, renders necessary the re-forming a good deal of the ground through which it has been cut, and I estimate that to do this quite satisfactorily will cost about Rs. 2,000.
- 2ndly.—The ravine above the house in which Dr. Mackenzie resides is in a very disorderly condition, and I propose clearing and planting this at a cost of Rs. 300.
- 3rdly.—Owing to the great demand there will be during the next few years for all kinds of trees and shrubs for planting in the several Government establishments in Ootacamund and Coonoor, I ask for Rs. 300 in order that I may extend the present nurseries.
- 4thly.—I desire Rs. 150 for maintaining a small portion of the gardens, which has been set aside for the cultivation of indigenous herbaceous plants.
- 5thly.—As there is an increased demand for garden seeds, I ask for Rs. 600, instead of Rs. 500, under the head of vegetable products. The price realized by the sale of these seeds always does a little more than cover the cost of purchase, so that the extra Rs. 100 will be recouped at the end of the year.
- 6thly.—For repairing the slopes, tanks, &c., in the upper gardens, I ask Rs. 500.
- 7thly.—For the completion and maintenance of the experimental kitchen garden I want Rs. 300. I have been unable as yet to commence this garden, but I hope to have it in working order by the end of the year.
- 8thly.—There are now in the gardens a number of mowing machines and other instruments which are constantly requiring repair. There are also many accidents occurring, which need the almost daily services of a carpenter or blacksmith. For the engagement of these two artizans, I ask for Rs. 500.
- 9thly.—The increase of Rs. 758 to the Sim's Park last year's allotment is for a watchman to look after the new shola and for making a road through it.
- 10thly.—*Travelling allowance, Rs. 1,000.*—This is to provide for the expenses incurred by the Director and Curator in visiting the more distant gardens of Sim's Park and Barliyár. Each of these gardens should be visited at least once a month. This sum is also to provide for the sending out of coolies and bandies for the collection and transportation of living plants. During the past year, and for the present year, these expenses have been defrayed by the Cinchona Department. I now propose that, instead of that department being called upon to pay Rs. 2,000 as heretofore, this sum should be divided, and Rs. 1,000 be paid by the gardens.

11thly.—*Travelling Allowance under Herbarium, Rs. 200.*—This is to pay the travelling expenses of the Assistant Herbarium-keeper when sent on tour for the purpose of collecting specimens, as well as for all charges connected with the conveyance of presses and other botanical materials.

12thly.—The clerk, overseer and apprentice ask for an increase of pay. They have done their work very well during the past year, and I think they deserve the increase they ask for. I propose that they should each be allowed Rs. 5 per mensem extra, that is, Rs. 180 in all.

13thly.—*Upper Norwood.*—I ask for Rs. 1,000 in addition to what was allotted last year for upkeep of these gardens. This garden, which was never properly made, owing to the unfinished state of the house and its surroundings, will, if this sum is granted, be put into thorough order with respect to its lawns, beds and walks. The ground about Lower Norwood will also be made more sightly and the kitchen garden enlarged.

To the Commissary-General.

No. 324. *From Colonel B. H. W. MAGRATH, Commissary-General, to Lieutenant-Colonel A. KENNEY-HERBERT, Officiating Secretary to Government, Military Department; dated Madras, 14th October 1885, No. 4038.*

With reference to para. 2 of Proceedings of Government, No. 1044, Revenue, of the 14th September 1885, forwarded with your docket, No. 5573, of the 8th October 1885, I have the honor to inform you that I shall be only too glad if no change is made in the position of the Commissariat slaughter-houses and if the scheme of transferring them to Guindy is abandoned.

2. Their present position is most convenient in every respect, and I only consented most reluctantly to the transfer in deference to what appeared to be the wishes of Government on the subject.

3. The enclosures of your reference are returned.

No. 325. ORDER THEREON, 28th October 1885, No. 5914.

In supersession of all previous orders on the subject, the Right Honorable the Governor in Council directs that the Commissariat slaughter-houses on the Government Farm at Saidápet shall not be removed therefrom.

2. The Public Works Department will accordingly be informed that the estimate, amounting to Rs. 11,800, sanctioned in Proceedings of Government, O.G., (Military) No. 2904, dated 21st May 1883, No. 1399-W., dated 12th May 1883, for adopting buildings at Guindy to the purpose may now be cancelled.

Calicut 14th April 1882.

From

The Executive Engineer
West-Coast Division.

To

The Superintending Engineer
IV Circle.

Sir,

I have the honor with reference
to Government Order No 2719 of the 2nd
November 1881 to forward a Plan and Estimate
for Rs 1900 prepared by the Assistant Engineer,
South Canara Sub-Division, for opening
a new mouth to the Harbour at Mangalore
with the following remarks, which as "Closing
the mouth of the Goorpur river Estimate
Rs 6,300" was one of the Budget Works I
was to have carried out when at Mangalore
in 1862 are offered for what they are worth.

2. Mangalore lagoon is formed by the
junction of two rivers, which it appears
in 1827 discharged through a single mouth

at the extreme south of the lagoon.

3. It is not known if this had any tendency to travel.

4. On the villagers making the Goorpur Gap at what is relatively the extreme north of the lagoon, the Harbour Mouth began to move northwards at the rate of about 300 yards a year and the Goorpur Gap to move slightly southward, till they both met in 1876 and there has since been only a single mouth situated at the Northern end of the lagoon.

5. It is not known, and seems critically important to know, whether the present mouth is travelling in any direction north or south.

6. If it is travelling north there is the possibility of the Naitiravathy River, breaching the narrow sand spit and the harbour shoaling.

7. Again should the mouth be travelling south the cycle of events up to 1827 would, it is to be expected, be repeated and a high flood might reopen the Goorpur Gap.

8. The existing mouth is inconveniently far

far north of the Quay.

9. The object of the cut in the sand spit made last year may be stated to have been directing the current so as to form a breach opposite the Custom House in hopes that this would remain open after the rains, and that the present Harbour Mouth would gradually close of itself.

10. As an experiment the work on last year's Estimate temporarily succeeded.

11. On the 6th of August there was flood in the river, the cut was opened at high tide and widened out to a gap of 100 yards in width.

12. This kept open for 20 days but was filled with sand immediately the monsoon was over.

13. I have made some rough calculations from the Chart of 1858 and find that the tideway of the Harbour Mouth may be represented at low water by the segment of a circle whose chord is 300 yards and depth 23 feet.

14. Without regular tidal observations

it would be difficult to arrive at any conclusion, further than, that, 360 yards are the width that the mouth requires to be in order to be in equilibrium with the Harbour basin.

15. If this is the case though there will be no great difficulty in forming a Gap this year, it would have to be very much wider than half of 360 yards to keep open permanently.

16. The scour of the tides can alone keep the gap open during the fine weather and it will be strongest in the wider opening. Besides this, the wash of the sea being northward, the principal body of sand will turn in, it may be supposed, at the new Gap and fill it up faster than the present mouth.

17. I would therefore recommend that the Estimate now forwarded may be sanctioned if it is considered that the Gap is likely to widen much beyond say (200) two hundred yards, or any better ascertained limit.

18. Otherwise it might be necessary to consider a very much more expensive plan of almost closing the present mouth
just

just before the monsoon, and at the first burst opening the Gap opposite the Custom House.

19. I enclose an alternative Estimate for Rs 2300 prepared by the Assistant Engineer for opening a new Mouth, should his proposition of making the Cut 500 feet south of the old site be approved.

I have &c

22ND OCTOBER 1885, No. 2828, JUDICIAL.

GOVERNMENT OF MADRAS.

JUDICIAL DEPARTMENT.

READ—the following paper:—

Proceedings of the High Court of Judicature at Madras, dated 9th October 1885, No. 2740.

Read letter, dated the 10th instant, No. 135, from the Officiating District Judge, Cuddapah, requesting to be informed whether, in computing the period of limitation prescribed for an appeal, the day on which stamps are called for should be excluded, also whether the day on which the copy is applied for and that on which the copy is furnished are likewise to be excluded.

The practice in the High Court is that neither the day on which stamped papers are called for nor the day on which they are supplied is reckoned against the appellant. The day on which copy is applied for and that on which it is ready for delivery are excluded in appellant's favor.

2. "The time requisite for obtaining a copy" is to be excluded (section 12 of the Limitation Act, 1877). To obtain a copy, it is necessary to apply; therefore the day of applying should be excluded. It cannot be obtained till it is ready, so that the day on which it is ready cannot be reckoned. And for the very same reasons, the practice of the High Court in excluding the days on which the necessary stamps are fixed and paid, seems to be reasonable and correct. In some few cases possibly the number of stamp papers required may be made known at so early an hour that they ought to be supplied on the same day, but it would be impossible to go into such minute details, and the most reasonable rule is that which is adopted in the High Court.

READ—the following paper:—

Despatch from the Right Honorable Lord RANDOLPH CHURCHILL, Her Majesty's Secretary of State for India, to His Excellency the Right Honorable the Governor in Council, Fort St. George, dated India office, London, 10th September 1885, No. 15—Financial (Stores).

In his despatch, No. 8, dated 28th July 1881, Lord Hartington invited the attention of your Government to the importance of returning, as soon as possible, the duplicate packing accounts for the information and guidance of the Store department and for audit purposes.

2. The Auditor of the Home accounts has again raised the question, and I forward a list of the duplicate packing accounts for the year 1883-84, which have not been returned. I have to request that directions may be given for their early transmission to this country, and that the attention of the responsible officers may be again drawn to the importance of returning all duplicate packing accounts with as little delay as possible.

Packing Accounts of Stores.

Read the following paper:—

Despatch from the Most Honorable the Secretary of State for India.

Financial (Stores).
No. 8 [Current No. 2202]

INDIA OFFICE, LONDON,
28th July 1881.

SIR,—In a Financial Despatch, No. 99, dated 12th August 1875, the attention of your Government was drawn to the importance of returning, as soon as possible, the Duplicate Packing Accounts, for the information and guidance of the Store Department, and for audit purposes.

2. In his report for the year 1879-80, the Auditor of the Indian Home Accounts again observes that, owing to the absence of a number of these documents, he is unable to certify to the correctness of the Stores Accounts.

3. I have, therefore, to request that, in order to secure the early and regular return of these documents, the special attention of the different Departments to which stores are consigned may be drawn to the instructions printed at the head of each Duplicate Packing Account (form enclosed).

4. I forward a list of the Duplicate Packing Accounts for the year 1879-80 which have not yet been returned, in order that directions may be issued for their early transmission to this country.

5. It will be seen that many of these documents are dated two years ago, and it appears impossible that the delay in such cases can be accounted for otherwise than by the neglect of the responsible officers, it is therefore important that such orders shall be issued on the subject as will at once remedy this state of things.

I have, &c.,
(Signed) HARTINGTON.

His Excellency the Honorable
The Governor in Council, Fort St. George.

Administrative Department,

No. 8874

MADRAS,
Marine Office,
23 October 1885,

From

J. H. TAYLOR, Esq., Lieut., R.N.R.,
Master Attendant,
Administrative Department,
Madras,

To

The Honble W. Wilson

Acting Chief Secretary to Government,
Marine Department,
Fort Saint George.

SIR,

With reference to G.O. No. 430
Miscellaneous, dated 8th October 1885, I have
the honor to submit the following remarks,
in order to remove the misunderstanding as
that seems to exist on the part of the
General Superintendent Public Works Stores.

2 Referring to his statement that
the 2^d Assistant Master Attendant does
not allow the rails to be removed until
he has counted them, I beg to observe that
in doing so he simply performs a course incumbent
on him as the Landing Agent for
Government consignments, who ought to
know all about the landings on account
of Government, in order to discharge the
Bill of Lading of the vessel, and to be in

a position to furnish any information that
b. may be required about them.

3 Mr. O'Connell is under a wrong
impression when he says that, rule 3 of G.O.
N^o 297, dated August 7th 1876, requires
that the subordinate shall take charge
of stores at the inner end of the pier,
and not as they are discharged from the
boats. The words at the inner end of the
pier are used in rule 3, because Government
stores brought by boats to the pier are
transferred from the boats to the pier trucks
and taken to the inner end of the pier,
where they pass into the custody of the
subordinate of the Department. But it
would be absurd to expect that stores
landed on the beach should be brought
all the way up to the inner end of the pier,
and there delivered to the subordinate. Rules
2 and 5 of the G.O. in question are very
clear on the point. By the former the
2^d Assistant Master Attendant is required
to give notice to Departments when stores
are

page 6
p. 6. line 78,
15-9-76

are likely to reach the pier or shore, in
order that a subordinate may be sent to
take charge of them; and under the latter,
on the boat reaching the pier or shore, the
subordinate to receive the stores is required at
once to compare them with the boat notes.
It is evident therefore that stores landed on
the beach are to be taken charge of by the
subordinate as they are discharged from the
boats.

4 Now is rule 5 obsolete. The boat
notes are readily available, and it depends
entirely on the subordinate sent to receive
stores to act in accordance with the said
rule. If the Public Works Department
subordinate neglects to do so, it does not follow
that the rule is obsolete. The boat notes
are not intended to be handed to the
subordinate, but filed in the 2^d Assistant
Master Attendants' office.

5 It is hoped that, after the
above remarks, there will be no further
misapprehension

misapprehension as regards the rules in
question.

I have the honor to be

Sir

your most Obedt Servant

W. Langton

Master Attendant

16TH MARCH 1885, No. 640 W., PUBLIC WORKS.

GOVERNMENT OF MADRAS.

PUBLIC WORKS DEPARTMENT.

Buildings and Roads.
Civil Works.

READ—the following papers:—

From Lient.-Colonel J. L. L. MORANT, R.E., Officiating Consulting Architect to Government, to the Secretary to Government, Public Works Department, dated Chépák, 4th March 1885, No. 1768.

In reply to your office note No. 256 D., dated 3rd February 1885, I have the honor to submit a plan, report, specification and estimate for the extension of the beach promenade, ride, &c., from Ice-house road southwards as far as Elliot's road.

2. The length is $833\frac{1}{2}$ yards and the estimate amounts to Rs 26,393.

From the same officer, dated Chépák, 6th March 1885, No. 1779.

With reference to this office letter No. 1768, dated 4th March 1885, submitting, for sanction, an estimate, amounting to Rs. 26,393, for the extension of the south beach promenade and ride from Ice-house road southward as far as Elliot's road, I have the honor to request that you will be so good as to place a sum of Rs. 5,000 at my disposal for expenditure during the current official year, if funds are available. This amount can be laid out with advantage at the present time as a large part of the work consists of cutstone, which takes long to prepare.

ORDER—dated 16th March 1885, No. 640 W., Public Works.

The estimate, amounting to Rs. 26,393, for extending the beach promenade and ride at Madras from the Ice-house road to Elliot's road, is sanctioned as supplemental to the estimate referred to in G.O., No. 2115 W., dated 27th August 1884. The total sanction for improvements to the south beach will now amount to Rs. 1,04,618.

2. A sum of Rs. 5,000 is allotted to the work from the Provincial reserve with Government.

3. This sanction has been registered as Provincial No. 277 W. of 1884-85, and classified as Miscellaneous Public Improvements, Original Works.
