

1ST SEPTEMBER 1885, No. 523, EDUCATIONAL.

GOVERNMENT OF MADRAS.
EDUCATIONAL DEPARTMENT.

READ—the following paper:—

From H. B. GRIGG, Esq., Director of Public Instruction, to the Chief Engineer,
Public Works department, dated Ootacamund, 19th August 1885,
No. O.-108.

With reference to the omission of the word "not" in article V (1) (d) and (2) (d) in the notification sanctioned by Government in their order, dated 16th July 1885, No. 443, Educational, and our conversation on the subject of not allowing class marks to count in the final examinations, I have the honor to state that I consider the objects which I had in view, viz., securing to the Board of Examiners absolute powers in passing students and also preventing such class marks from obtaining excessive weight in the final examinations, may be sufficiently met by laying down the following direction to the Board of Examiners, thus avoiding any amendment of the notification. This arrangement will also provide for another point which is not touched on in the notification, but which, I think, it might be well to settle at the same time—the power of the Board to fix the maximum marks for each subject in all examinations:—

With reference to article II of the notification the Board of Examiners will, on appointment, be informed that they have entire power to fix the maximum number of marks which shall be assigned to each subject in each examination, and further, as regards rules (1) (d) and (2) (d) of article V, to fix the proportion of the total marks for all subjects which shall be assigned to marks for class and field work under these rules.

No. 493 E.

Forwarded to the Educational department for disposal.

2. The undersigned recommends the adoption of the Director's suggestion.

OOTACAMUND,
21st August 1885.

Report of a Committee convened in
accordance with Chief Engineer's Memo No.
1445 C of the 1st September 1885 to examine
Memos. J. Inglis

" P. Roscoe Allen

both Assistant Engineers 2nd grade
under Code paras 91-93.

President

Lieut. Col. J. L. L. Morant R.E.

Members

G. D. Wybrow Esquire } Executive Engineers
W. C. De Morgan Esquire }

The Committee examined both
these gentlemen on the constructive details
of Canals, Locks, Shutters with screw lifting
-gear, and Roofs, obtaining from them figured
sketches of the manner in which they would
-design works to suit given circumstances,
and they find that both these gentlemen
are practically acquainted with the necessary
-details, and are able to prepare satisfactory
-designs.

They were also questioned as to the
-duty of water for irrigation and the principles

on which Main Canals and distributaries should be designed, and their replies were satisfactory.

They were questioned as to the local price of various materials, and the quantities of materials required for different kinds of work.

On all these points the Committee are of opinion, that Mr. Inglis and Mr. Roscoe Allen possess satisfactory knowledge.

They beg particularly to note, that Mr. Inglis shewed an exceptional familiarity with the details of his profession, which redounded greatly to his credit.

J. H. Morant.

Madras.

Sir,

I have the honor to forward herewith the Report of the Committee convened to examine Messrs Inglis and Roscoe Allen Assistant Engineers under Code paras 91-93.

2. I nominated Messrs Wyllow and De Morgan Executive Engineers to be members of the Committee, as I found their services could be spared for the purpose.

I have the honor to be,

Sir,

Your most obedient servant,

J. H. Morant

Lieut. Col. R. E.
Superintendent of Works in charge
2nd Circle.
