Cy

# PROCEEDINGS OF THE MADRAS GOVERNMENT.

Read Proceedings of Govt. Public Works Department dated 5th September 1885 No. 2078 M, forwarding a list of works available for famine relief in the Bellary and Anantapur Districts.

---

Order thereon 28th September 1885 No. 5236

The list will be returned to the Public Works Department for revision with reference to the following remarks.

2 Of the works entered in the list, Nos. 1 to 3, 5, and 7 to 10, appear to be minor Irrigation Works for which estimates have been sanctioned by this Department, and would therefore fall under the category of Civil Agency works; No. 4 is repeated being the same as No. 2 apparently; the correct estimated cost of Nos. 2 and 10 would appear to be Rs. 5,620 and 1330 respectively; and No. 19 appears to have been

No. 2426 Dated 24th October 1885

been abandoned as a famine relief work (vide G.O. 108 26-1-85 and 125 30-1-85 Revenue Department).

SUPERINTENDING ENGINEER'S OFFICE,

~~MADRAS,~~

No. 1550 Bellary ~~Chepauk~~, 22 October 1885.

From Lieut Col H. M. Sibbald R.E

~~THE~~ SUPERINTENDING ENGINEER,

3rd ~~1ST~~ CIRCLE,

To

THE Chief Engineer

P.W.D

Madras

SIR,

Enclosures.

2 Lists

With reference to your endorsement No. 702 E dated 5th October 85, I have the honor to submit revised Lists of Relief Works showing only those works which are likely to be carried out by "Professional Agency."

2. These works cannot be strictly called "Class A" Works as defined in Section 18 of the Famine Code, for neither have the Estimates been sanctioned nor do the works appear in the Budgets.

3. List 1 shews estimates lately prepared for removing silt from beds of Imperial Tanks in the Anantapur District agreeably to G.O. No. 126 I dated 10th February 85. The Collector has been requested to submit them for the orders of Government. The outlay proposed is heavy and it seems to me that the Estimates

must be sanctioned by me.

4. List II shews works alluded to in G.O. noted in the margin. These Works are considered suitable in case of necessity arising for relief measures on a large scale, but no estimate for any of them has yet been sanctioned. In fact the Projects need reinvestigation and revision.

× G. Dis. 302 of 29th Sept. 77 in the Revd. Department. Irrign. Chief Engineer's printed List shewing Irrigation & connected works available for employment of Famine Labor in each District.

5. The "Toongabudra Project" entered in the List is the modified Project now under investigation by the C. Project Division to bring a supply of water into Bellary at a considerably reduced cost. It is thought that this Project would be useful as a Relief Work. hence it has been included in the List.

I have the honor to be
