To

The Chief Engineer,
P. W. Department.

Sir,

Enclosure 1 In forwarding an extract from the list of disallowances from the Salary Bill of the Westcoast Division for August 1885, I have the honor to request that, under the special circumstances therein explained by the Executive Engineer, you will be so good as to obtain orders of Government, authorising the Examiner to pass full pay to Draughtsman C. Rajagopaul Naidu, till the result of next examination in P. W. Code is declared.

I

I have the honor to be,
Sir,
Your most obed't. Servant.

R. W. Thompson Col. R.E.,

For remarks.

(sd) a. J. F
D.W.

I do not clearly understand this draft order.

If the draftsman fails to pass at next examination, what will be the result according to this draft.

I observe that the draftsman has already been a year in his present appt.

21.10.85

W

The effect of the order will be to exempt the draftsman from the P.W. Code exam: until the results of the examination of 1886 are published.

If he fails again next year, he will come under stoppage of pay in accordance with Code para 166.

The exemption is recommended on the ground that the man had not much time to devote to study, owing to heavy work in the division.

PROCEEDINGS OF THE MADRAS GOVERNMENT.

READ the following

From the Master Attendant, Madras, dated 8th October 1885 No. 8347.

I have the honor to submit, for the information of Government, copy of a letter addressed by me to the chairman, Coconada Harbour Groynes Committee, with reference to G.O. No. 391 Marine, dated September 17th 1885.

---

From the Master Attendant, Madras, dated 6th October 1885 No. 8324 to the Chairman Coconada Harbour Groynes Committee.

With reference to G.O. No. 391 Marine, dated September 17th 1885, directing me to arrange in communication with the Coconada Harbour Groyne Committee for the use of Terraupolem stone in carrying out the groyne extension work at that port, I have the honor to observe that the question is mainly one of cost as it affects the whole work.

77 A.

ccounts of the
ork. On examining the it is found
portion of work completed, count of estimate
that for one third of the an part of the work
expended only one seventh unexpected cs
has been executed, owing to that the weight of
sinking of the groyne throughere was a cs
the stone used, and thus the the quantity
considerable increase in thending increase
of material with a corresplem stone, as
of cost. By using Terrampte same subsi-
now suggested, there will be a considerable
dence of work to encounter, done will have
additional quantity of stone will be
to be used, and the expense the price of
largely increased, although objecti in cs
the stone is cheaper. My pete blocks is
advocating the use of concpenditure caused
to avoid the additional cs From Experience
by the sinking of the concrete blocks cs
it has been found that cont liable to sink
owing to their bulk, are now an therefore
as stone does, and the work cost not being
be carried out relying on the so

so greatly exceeded. Mr. Thorowgood is abou
introducing in his works here a system of
capping the concrete blocks by which they
would be well kept together, and this cs
might perhaps with advantage be adopted
in carrying out the Coconada work, also he
proposes for portions of his new protective
work aprons of concrete made of canvas,
it is probable that some modification
of this nature may prove more useful.
I would refer you to G.C. No 273 Mis:, dated
June 29th, 1885, a copy of which was communi
cated to you, in which a calculation of the
cost of concrete blocks is gone into, and as
I am anxious to save as much expenditure
as possible in completing the groynes cs
extension, I would therefore recommend
that, when Mr. Thorowgood's opinion and
advice are obtained, which will be forwarded
to you if possible by to morrow's steamer,
a reconsideration of the stone question be
entered upon, and the result communicated
to Government. The stones from Terrampolem,
when

been compared by a weight for bulk test,
must I imagine prove the dearer.

To,

The Executive Engineer,
West Coast Division,

Sir,

Encls: 1.
1 Copy of
Cross sections
taken in
May 1885.

I beg to forward herewith the cross sections of the Cruz Milagre Dam taken on the 15th and 16th May 1885 and for reference I have marked on the cross sections in dotted lines the levels taken by my predecessor last December but I don't think the latter are quite accurate for the following reason:-

The water in the Lagoon and backwater is always rising or falling according to the tide

tide; it takes a good half hour to take soundings carefully for one cross section of the lagoon, and unless a reading is taken of the water level for each cross section, the work would not be correct.

In cross sections taken in December last the beds of the back water and Lagoon are not reduced to the same datum as the Bench mark at starting point, and only one reading of the water in the Backwater and Lagoon appears to have been taken, from which the beds of the Lagoon and backwater have been plotted by marking the soundings.

When taking the soundings in May last a separate reading of the water was taken for every cross section, and all the readings on the dam and the soundings in Lagoon and backwater have been reduced to the same datum.

I beg &c,
Sgt R. W. MacAllister

Superintending Engineer's Office
2nd Circle, Camp Ellore
15th October 1885.

From

The Superintending Engineer,
2nd Circle.

To

The Chief Engineer,
Public Works Department.
Madras.

Sir,

I have the honor to forward the Correspondence noted in the margin relative to the Travelling allowance of Gunner Murphy who was sent to the Kistna Eastern Division as an Apprentice Overseer, and almost immediately afterwards transferred to the Red Hills Tank Division.

2. Actual expenses of his journey from Masulipatam to Bezwada were claimed, but the Examiner disallowed the claim, offering to pass either daily or mileage allowance, but this Gunner Murphy states will not cover his expenses.

Enclosures 6 (to be returned)

Kistna Eastern Division Office No. 1536 A dated 6th August 1885 to Gunner Murphy.

Gunner Murphy's letter to Eastern Divn. Officer dated 21st August 1885.

Red Hill Tank Divn. Officer's No. 851 dated 22nd August 1885 to Eastern Divn. Officer

Kistna Eastern Divn. Officer's letter No. 1974 A dated 9th September 85 to Supdt of works in charge of II Circle.

Letter No. 1185 dated 11th Sept/85 from Supdt of Works in charge II Circle to Examiner

Examiner's letter No. 228 dated 2nd October 1885 to Supdt Engineer II Circle.

I requested the Examiner to put me in the way of obtaining for Gunner Murphy the actual expenses incurred by him, and I now learn that the only ruling under which Officers below the 1st class can be allowed to draw the actual expenses incurred is Section 69 of the Civil Travelling Allowance Code, and the Examiner states that as the conditions of that Section have not been complied with it cannot be made applicable to him.

4. If by the use of the words "conditions of that Section" the Examiner means that the Executive Engineer should certify that the expenses incurred were unavoidable and the journey made on duty, Mr. Grant is prepared to give a certificate to that effect but if those words have some other meaning attached to them (which I think should have been clearly stated by the Examiner) as it is now too late to make a fresh reference to him, I trust that as a special case the Examiner may be authorised to pass the actual expenses incurred by Gunner Murphy in his journey from Masulipatam to

Bezwada.

I have the honor to be,
Sir,
Your most Obt. Servant
J. C. Morant
Lieut-Colonel R.E.
Superintendent of Works
in Charge of II Circle.

Encl 6

The rules do not admit actual expense being passed to Gunner, Murphy for the distance travelled from Masulapatam to Bezwada, as it is not supported by a certificate as required by Section 69 of the Civil Travelling allowance Code for the use of special means of conveyance.

Daily allowance or mileage will be admitted for the journey according as the distance travelled is 20 miles or less a day.

Charges incurred for personal luggage and for lodging at Masulapatam are inadmissible.

General.
Establishment

READ—the following papers:—

From the Superintending Engineer, Fifth Circle, dated 26th September 1883, No. 2342.
Office note from the Examiner, Public Works Accounts, dated 4th October 1883, No. 688.
Do. from the Acting Chief Engineer for Irrigation, dated 9th October 1883.

---

ORDER—dated 17th November 1883, No. 3291 W., Public Works.

Sanction is accorded to the formation of a new sub-division of the South Arcot division to be composed of the

Vriddháchalam taluk,
Kallakurchi taluk,
Pelandorai anicut.

The staff of the circle has recently been strengthened by the posting thereto of Assistant Engineer Ruthnasabapathy Pillay for the relief of Mr. Evans who has applied for examination leave. Sub-Engineer Keenan has also been transferred from the First Circle, and one of the new Cooper's Hill Engineers will, if practicable, be added.

2. The re-arrangement of the sanctioned staff of the department is now under contemplation, and the requirements of the South Arcot division will be kept in view in laying down the allotment of officers and subordinates to circles.

3. It must be remembered that the sanctioned scale of the department is fixed, and that the available numbers have to be assigned by Government with due regard to the relative claims of all the circles in the Presidency. The allotment to circles having been determined, it will rest with Superintending Engineers to distribute the staff according to actual requirements. The staff of one circle cannot be augmented without reduction of the staff of another circle.

4. The following is the scale of Assistant Engineers and Upper Subordinates allowed to the Presidency:—

| | |
|---|---|
| Assistant Engineers ... ... ... ... ... ... ... ... | 47 |
| Sub-Engineers ... ... ... ... ... ... ... ... ... | 35 |
| Supervisors ... ... ... ... ... ... ... ... ... | 58 |
| Overseers ... ... ... ... ... ... ... ... ... | 92 |

and Superintending Engineers will now, taking as a guide the allotment sanctioned in Appendix A to G.O., No. 1729 W., dated 14th July 1881, and having in view such change of circumstances as may have occurred in the interval, submit proposals as soon as possible, for a re-allotment of the staff. The proposals will be framed in the accompanying form, with brief remarks as to the necessity for departure from the scale previously laid down.

5. The existing staff of Upper Subordinates is, from temporary causes, somewhat in excess of the sanctioned scale, but this cannot be expected to continue. The circumstance will, however, be availed of to afford additional present aid to circles most in need of it.

6. Should the permanent staff of a circle be found insufficient to carry on the work of any one year, the Government will be prepared to consider proposals for such *temporary* establishment as may be shown to be needed.

SIR,

Enclosures.

I have the honor to report with reference to Rule 4 Section 106 and the proviso of Section 115 of the Civil Pension Code that C. Boologanatha Pillai temporary clerk IV class 3rd Grade in the South Arcot Division & who was brought on to the permanent Establishment on the 1st April 1885 was above 25 years of age on that date. The clerk was entertained on the 26th November 1881 upon the Sanction given in G.O. No. 2096 W dated 24th August 1881 in the Pelandorai Sub Division now amalgamated in the Virda

Superintendent of Works mechanical

Vindachellum Sub Division under
G.O. No. 3291 W dated 17th Novemb.
1883. Funds were allotted
for the Office Establishment of
the Sub Divn. under "temporary"
up to the 31st March 1885. In the
current year's Budget of Estab.
-lishments provision is made for the
Sub Divisional Office Estab.
-lishment, and the Clerk is thus
considered as brought on to
the permanent Establishment
from the 1st April 1885 - but at
the same time he becomes en-
-titled, under Rule 2 Section 74
of the Civil Pension Code to
count towards pension his pre-
-vious temporary service from
the 26th November 1881 on which
date his age did not exceed
25 years.

9TH OCTOBER 1885, No. 2392, PUBLIC.

GOVERNMENT OF MADRAS.

PUBLIC DEPARTMENT.

READ—the following paper :—

From E. C. BUCK, Esq., C.S., Secretary to the Government of India, Revenue and Agricultural department (Museums and Exhibitions), to the Chief Secretary to Government, dated Simla, 16th September 1885, Circular No. 41 Ex.—60-10.

Intimation has been received from the Royal Commissioners that a gallery will be set apart in the Colonial and Indian Exhibition for Administration of India exhibits, and the Governor-General in Council desires that measures may be taken to ensure a fitting representation of the various departments of Administration.

2. Action has been separately taken in the Department of Public Works in regard to subjects dealt with in that department, and I am now, with the concurrence of the Home department and the Department of Finance and Commerce, to address you in regard to the following branches of Administration :—

| | |
|---|---|
| Education. | Sanitation and Medical. |
| Law and Justice. | Salt Customs. |
| Police. | Excise. |
| Jails. | Government Printing. |

A series of memoranda showing the character of the exhibits suggested is enclosed for communication, with the permission of His Excellency the Governor in Council, to the heads of the departments concerned. The suggestions are not intended to be exhaustive, and it is hoped that they will be freely supplemented.

3. It will be observed that in the case of several of the departments mentioned above, a very brief note on their constitution and working has been asked for. This is intended for incorporation in a general Hand-book for the Indian Courts which is under preparation. A very brief popular account, including the latest statistics available, is all that is required, and its compilation ought not, if confined within the limits intended, to give much trouble. The note should be despatched in manuscript in time to reach this office by the 1st December at latest.

4. Arrangements are being made to obtain a set of the annual reports mentioned in the accompanying list * on loan from the India office, and it will not therefore be necessary to provide them from the province, but the heads of departments will be at liberty to include in their collection any reports or publications not mentioned in the list which, in their opinion, should be exhibited.

* Report on the Administration of the Salt department, Madras, for 1883-84.
Excise Administration Report, Madras, 1882-83.

5. Should funds be required for models, photographs, &c., a small sum can be placed at the disposal of the officers charged with their preparation. To avoid delay it is suggested that application should be made direct by telegraph for any funds required, and that all references on details should also be addressed directly to this department.

PUBLIC DEPARTMENT.

READ—the following paper :—

From E. C. BUCK, Esq., C.S., Secretary to the Government of India, Revenue and Agricultural department (Museums and Exhibitions), to the Chief Secretary to Government, dated Simla, 16th September 1885, Circular No. 41 Ex.—60-10.

Intimation has been received from the Royal Commissioners that a gallery will be set apart in the Colonial and Indian Exhibition for Administration of India exhibits, and the Governor-General in Council desires that measures may be taken to ensure a fitting representation of the various departments of Administration.

2. Action has been separately taken in the Department of Public Works in regard to subjects dealt with in that department, and I am now, with the concurrence of the Home department and the Department of Finance and Commerce, to address you in regard to the following branches of Administration :—

| | |
|---|---|
| Education. | Sanitation and Medical. |
| Law and Justice. | Salt Customs. |
| Police. | Excise. |
| Jails. | Government Printing. |

A series of memoranda showing the character of the exhibits suggested is enclosed for communication, with the permission of His Excellency the Governor in Council, to the heads of the departments concerned. The suggestions are not intended to be exhaustive, and it is hoped that they will be freely supplemented.

3. It will be observed that in the case of several of the departments mentioned above, a very brief note on their constitution and working has been asked for. This is intended for incorporation in a general Hand-book for the Indian Courts which is under preparation. A very brief popular account, including the latest statistics available, is all that is required, and its compilation ought not, if confined within the limits intended, to give much trouble. The note should be despatched in manuscript in time to reach this office by the 1st December at latest.

4. Arrangements are being made to obtain a set of the annual reports mentioned in the accompanying list * on loan from the India office, and it will not therefore be necessary to provide them from the province, but the heads of departments will be at liberty to include in their collection any reports or publications not mentioned in the list which, in their opinion, should be exhibited.

* Report on the Administration of the Salt department, Madras, for 1883-84.
Excise Administration Report, Madras, 1882-83.

5. Should funds be required for models, photographs, &c., a small sum can be placed at the disposal of the officers charged with their preparation. To avoid delay it is suggested that application should be made direct by telegraph for any funds required, and that all references on details should also be addressed directly to this department.

6. It will be convenient if, on completing its collection, each department will forward it with a list to the officer or committee in charge of Exhibition work in the province * (to whom a copy of this communication has been sent) for despatch to London. A copy of the list should be supplied to the Revenue and Agricultural department by the 15th of December by which time all exhibits should be ready for despatch.

* Except in the case of exhibits for the Product Court, regarding which special instructions are given in the memoranda.

7. Exhibits for the Postal department will be provided by the Director-General of the Post office.

---

Enclosure.

*I.—Education.*

(1) A note giving very briefly statistics of Universities, Colleges and Schools, English and Vernacular, and explaining in the very briefest terms possible the general system of education and inspection adopted in the province.
(2) A separate collection of books and maps used for instruction, calendars, &c., from the University.
(3) Special appliances connected with primary and indigenous education, *e.g.*, pens, ink, paper, abacus, styles, &c.
(4) Models, pictures or photographs of the principal Colleges and Universities and of typical village schools.

*II.—Law and Justice.*

(1) A note giving statistics, &c., regarding Judicial officers, their number, rank and salary.
(2) Reports and publications.
(3) Photographs of High Courts and other judicial buildings, &c., *e.g.*, photographs or models of the exterior of a typical cutcherry.

*III.—Police.*

(1) A very brief note on the constitution and working of the Police.

B.—Administration Court.
C.—Court of Products, &c.

For the first (B) Court the following exhibits would be acceptable:—
(1) A note explaining very briefly indeed the administration of the Salt department, the number, &c., of officers composing it, the places of salt manufacture or other sources of supply, the methods of manufacture, the distribution of different classes of salt, the method of levying duty, the income derived from it, &c.
(2) Maps to illustrate the above note, showing places of manufacture and areas of distribution, &c. (Provision has been made for these by the Financial department).
(3) Copies of recent reports and other publications.
(4) Photographs of stores, factories, machinery, or appliances.

In the second (C) Court might be exhibited a complete set of samples, raw and refined. It will be convenient if the character and size of the samples can be arranged in communication with Dr. Watt, who is on special duty in this department at Calcutta, and who will be the officer in charge of the Economic Court, in the "Food—Mineral" division of which salt will be exhibited. Dr. Watt will be glad to explain the position and size of the section set apart for this class of exhibits, or to afford any information required. He will also explain how these exhibits should be ticketed and the channel through which they should be despatched.

---

*Exhibits suggested for the Excise department.*

(1) A very brief note explaining the excise system in force, and showing statistics of consumption, revenue, &c.
(2) Models or diagrams of stills and native appliances used in distilling.
(3) Specimens of native liquor and drugs.

(2) and (3) will be displayed in the Court devoted to products and primary manufactures, and Dr. Watt, on special duty with the Revenue and Agricultural department at Calcutta, will explain how they should be arranged, ticketed, and despatched.

---

*Exhibits suggested for the department of Government Printing.*

(1) A very brief note on the administration of the department showing outturn of work, cost, extent to which native agency is employed, &c.
(2) Specimens of printing, &c.

No specimens of appliances familiar to English Printers would be required.

---

Order—dated 9th October 1885, No. 2392, Public.

Communicated to the heads of departments concerned for information and guidance. The notes will be despatched in manuscript by the departments concerned direct to the Government of India, copies being submitted for the information of Government.

2. In reference to paragraph 5 requisitions for funds will be submitted by the departments concerned direct to the Government of India, copies of the applications being submitted for the information of Government.

(True Extract.)

To the Public Works Dept.

Exd. T. O'Connor.

6. It will be convenient if, on completing its collection, each department will forward it with a list to the officer or committee in charge of Exhibition work in the province * (to whom a copy of this communication has been sent) for despatch to London. A copy of the list should be supplied to the Revenue and Agricultural department by the 15th of December by which time all exhibits should be ready for despatch.

* Except in the case of exhibits for the Product Court, regarding which special instructions are given in the memoranda.

7. Exhibits for the Postal department will be provided by the Director-General of the Post office.

---

Enclosure.

*I.—Education.*

(1) A note giving very briefly statistics of Universities, Colleges and Schools, English and Vernacular, and explaining in the very briefest terms possible the general system of education and inspection adopted in the province.
(2) A separate collection of books and maps used for instruction, calendars, &c., from the University.
(3) Special appliances connected with primary and indigenous education, *e.g.*, pens, ink, paper, abacus, styles, &c.
(4) Models, pictures or photographs of the principal Colleges and Universities and of typical village schools.

*II.—Law and Justice.*

(1) A note giving statistics, &c., regarding Judicial officers, their number, rank and salary.
(2) Reports and publications.
(3) Photographs of High Courts and other judicial buildings, &c., *e.g.*, photographs or models of the exterior of a typical cutcherry.

*III.—Police.*

(1) A very brief note on the constitution and working of the Police.
(2) Reports and statistics.

*IV.—Jails.*

(1) A very brief note on the statistics and working of Jails.
(2) Reports and statistics.

---

*Exhibits suggested for the Sanitary and Medical departments.*

The following exhibits might be shown in the B (Administration) Court:—
(1) Reports, statistical statements, medical publications, &c.
(2) A very brief note showing the general system of departmental administration.
(3) Photographs of principal hospitals, &c., and of typical buildings, such as a district dispensary.
(4) Any medical appliances peculiar to India.

---

*Exhibits suggested for the Inland Customs (Salt department).*

It will be observed from the classified list * that the Salt department is invited to exhibit in two Courts, viz.:—

* See *India Gazette* of 21st March 1885.

District Board's Office,
Ootacamund 1st July 1885.

From,
The President,
District Board - Nilgiris,

To,
The Superintending Engineer,
4th Circle - Coimbatore.

Sir,

With reference to your letter No 8 L.F. / n.f. dated 16th April last, I have the honor to state that the building referred to therein is the Public Works Inspection Bungalow for South East Wynaad, of which Gudalur is the Head Quarters.

2. It was handed over to the Local Fund Department on the transfer of all the District Roads, and has ever since remained in Local Fund charge.

3. No formal record of the transfer is to be found; but that it

No 92.

District Board's Office,
Ootacamund 1st July 1885.

From,
The Presidents,
District Board - Nilgiris,

To,
The Superintending Engineer,
4th Circle - Coimbatore.

Sir,

With reference to your letter No 8 L.F. / n.f. dated 16th April last, I have the honor to state that the building referred to therein is the Public Works Inspection Bungalow for South East Wynaad, of which Gudalur is the Head Quarters.

2. It was handed over to the Local Fund Department on the transfer of all the District Roads, and has ever since remained in Local Fund charge.

3. No formal record of the transfer is to be found; but that it

it was made, and that the build-
ing was considered as belonging
to the Local Fund Board so far
back as 1876, is shewn by the fact,
that it is not included in the
list of Inspection Bungalows &c.
belonging to the Public Works De-
partment, submitted by the Chief
Engineer, at the request of Govern-
ment and embodied in G. O.
dated 5th December 1876, No. 2195.
This list of Inspection Bungalows
was called for by Government
in Connection with proposed
transfers to Local Funds; and
in regard to the Buildings in
the list, Government in para
3 of the G. O. quoted, state that
they "would have no hesitation
in sanctioning the transfer in
all cases in which Local Fund
Boards may desire such trans-
fer", and Presidents were invited
to

to ask for such buildings as they
needed.

4. The Presidents reply No. 24 of
19th December 1877 is not on record,
but if the Gudalur Bungalow
was not applied for them, it was
simply because the building was
already in the hands of the Local
Fund Department.

5. In G. O. of 29th September 1879,
No. 1873, which is the final order
on this subject of transfers, among
buildings not included in the
Chief Engineer's list one belonging
to this District is sanctioned as
to be taken charge of by the Local
Fund Board (vide para 7 of G. O.).

6. It seems certain this Gudalur
Bungalow is the building thus re-
ferred to, it having been the only
building in the District not in-
cluded in the list.

7. In 1882 some misapprehension
occurred.

it was made, and that the build=
ing was considered as belonging
to the Local Fund Board so far
back as 1876, is shewn by the fact,
that it is not included in the
list of Inspection Bungalows &c.
belonging to the Public Works De=
partment, submitted by the Chief
Engineer, at the request of Govern=
ment and embodied in G. O.
dated 5th December 1876, No. 2195.
This list of Inspection Bungalows
was called for by Government
in Connection with proposed
transfers to Local Funds; and

the list, Government in para
3 of the G. O. quoted, state that
they "would have no hesitation
in sanctioning the transfer in
all cases in which Local Fund
Boards may desire such trans=
fer", and Presidents were invited
to

to ask for such buildings as they
needed.

4. The Presidents reply No. 24 of
19th December 1877 is not on record,
but if the Gudalur Bungalow
was not applied for them, it was
simply because the building was
already in the hands of the Local
Fund Department.

5. In G. O. of 29th September 1879,
No. 1873, which is the final order
on this subject of transfers, among
buildings not included in the
Chief Engineer's list one belonging
to this District is sanctioned as
to be taken charge of by the Local
Fund Board (vide para 7 of G. O.).

6. It seems certain this Gudalur
Bungalow is the building thus re=
ferred to, it having been the only
building in the District not in=
cluded in the list.

7. In 1882 some misapprehension
occurred.

occurred regarding certain buildings needed by the Irrigation Department, and claimed under the G. Os above referred to, by the Local Fund Board in the Kistna District.

8. The matter being sent up, Government in G. O. dated 10th June 1882 No. 454 I Public Works, decided that their previous orders were not meant to apply to Buildings required by the D. P. W. and Superintending Engineers were requested to furnish lists of such Buildings.

9. On this order the Board of Revenue called upon Presidents for a Statement of Buildings transferred from the D. P. W. and (at the time) in charge of Local Fund Boards. vide Revenue Board Proceedings dated 4th July 1882 No. 1711.

10. The Presidents reply No. 19 of 5th September 1883 (1882 more prabably) is not on record - but it evidently included the Gudalur Building in its statement, as the Local Fund Engineer who furnished the information required, gives this Bungalow in his list. Vide Engineer's letter No. 84 dated 14th August 1882.

11. The Gudalur Bungalow has thus been in our charge for over 8 years. It was handed over with the district roads, and as these roads remain in our hands, it seems that the Local Fund Board have a clear right to retain the place.

12. The short bit of Road 9 miles from Neddivuttum to Gudalur recently transferred to the D. P. W. is hardly in Wynaad at all - the greater portion belonging to the Nilgiri plateau.

13. If the Bungalow is given up, a new building will have to be

Constructed

occurred regarding certain buildings needed by the Irrigation Department, and claimed under the G. Os above referred to, by the Local Fund Board in the Kistna District.

## GENERAL ORDERS.

ADJUTANT GENERAL'S OFFICE,
*Simla, 10th July 1885.*

**G. O. 59.—Barrack Regulations.** (Quarter Master General.)

With the sanction of the Government of India, the following addition is made to Bengal Barrack Regulations:—

Mily. Dept. No. 590 M. W., dated 19th June 1885.

"Para. 263C. Renewal of floors of infirmary outstandings will be carried out by the Military Works Department."

With the sanction of the Government of India, the following corrections are made in the Bengal Barrack Regulations:—

Mily. Dept. No. 502 M. W., dated 27th May 1885.

Para. 177. Add an asterisk in column "servants' houses" and opposite entry, "Assistant Apothecary" in table of authorized accommodation "in the plains" and "in the hills" and add a note at foot of table "where there is only one Assistant Apothecary, two servants' houses should be provided, but where there are more than one, servants' houses should be provided as nearly as possible on the scale of three houses to every two Assistant Apothecaries."

Paras. 223, 225, 231, 236 are reconstructed as follows:—

223. As the Quartermaster or deputed officer enters each barrack room, out-house, family or other quarter, two inventory boards, one of the furniture, the other of the fixtures, contained in each of the above, will be handed to him by the Military Works officer. The former officer will satisfy himself that each inventory board is correct, and that it corresponds with a duplicate copy, which will also be handed to him. On the completion of the taking over, a general statement or inventory of all the furniture and fixtures taken over, prepared in duplicate, by the Executive Engineer, from the inventory boards, will be handed to the Quartermaster or deputed officer, together with the duplicate copies of the inventory boards. The latter officer will then satisfy himself that the general inventory has been correctly compiled. The general inventory will be signed by the Executive Engineer, the Quartermaster or deputed officer and the officer commanding the corps. It shall be considered as the receipt of the latter for the number and condition of the items contained in it, which are in the possession of his corps. One copy will be kept by the Executive Engineer, the other by the Quartermaster.

## GENERAL ORDERS.

ADJUTANT GENERAL'S OFFICE,
*Simla, 10th July 1885.*

**G. O. 59.—Barrack Regulations.** (Quarter Master General.)

With the sanction of the Government of India, the following addition is made to Bengal Barrack Regulations:—

Mily. Dept. No. 590 M. W., dated 19th June 1885.

"Para. 263C. Renewal of doors of infirmary outstandings will be carried out by the Military Works Department."

With the sanction of the Government of India, the following corrections are made in the Bengal Barrack Regulations:—

Mily. Dept. No. 502 M. W., dated 27th May 1885.

Para. 177. Add an asterisk in column "servants' houses" and opposite entry, "Assistant Apothecary" in table of authorized accommodation "in the plains" and "in the hills" and add a note at foot of table "where there is only one Assistant Apothecary, two servants' houses should be provided, but where there are more than one, servants' houses should be provided as nearly as possible on the scale of three houses to every two Assistant Apothecaries."

Paras. 223, 225, 231, 236 are reconstructed as follows:—

223. As the Quartermaster or deputed officer enters each barrack room, out-house, family or other quarter, two inventory boards, one of the furniture, the other of the fixtures, contained in each of the above, will be handed to him by the Military Works officer. The former officer will satisfy himself that each inventory board is correct, and that it corresponds with a duplicate copy, which will also be handed to him. On the completion of the taking over, a general statement or inventory of all the furniture and fixtures taken over, prepared in duplicate, by the Executive Engineer, from the inventory boards, will be handed to the Quartermaster or deputed officer, together with the duplicate copies of the inventory boards. The latter officer will then satisfy himself that the general inventory has been correctly compiled. The general inventory will be signed by the Executive Engineer, the Quartermaster or deputed officer and the officer commanding the corps. It shall be considered as the receipt of the latter for the number and condition of the items contained in it, which are in the possession of his corps. One copy will be kept by the Executive Engineer, the other by the Quartermaster.

Barrack Master
Barrack Master
Barrack Master
Barrack Master

G. O. 59.—*contd.*

225. In order that there may be no misunderstanding as to the nature of the articles for which troops are accountable, a precise inventory board of the fixtures and another of the furniture shall be hung up in every barrack room, out-house, family or other quarter, by the Military Works Department, before the buildings are handed over to the in-coming corps. The cost of every description of article referred to shall be entered on each inventory board.

231. Once during each month the officer commanding a regiment or battery, or an officer deputed by him, will make a general inspection of the barrack buildings, fixtures and furniture in the possession of the corps.

The exact date of such inspections will be specified in station orders, and the Executive Engineer will detail a subordinate to accompany the officer conducting the inspection.

At this inspection all furniture requiring repairs and barrack damages will be noted. At the end of the inspection, the Military Works subordinate will hand a monthly return of barrack furniture, to the Military officer conducting the inspection. This return, which will be in duplicate, will show the receipts and issues of furniture during the past month, and the balance of furniture remaining in the possession of the corps.

It will be signed by the Executive Engineer and the officer commanding the corps, one copy being kept by the Executive Engineer and the other by the Quartermaster. Commanding officers are bound to sign or question this return within one week from the date of the inspection. If no objection be recorded within this time, the return may be considered as correct, by the Executive Engineer, and no after representation as to its incorrectness will be accepted. It will further be the duty of the Military Works Subordinate to bring to the notice of the Executive Engineer such points as the officer conducting the inspection may require, or any special feature in connection with the state of the buildings which may come under his notice.

Add as paras. 232 *a*, *b*, and *c*—

232 (*a*). A Deputy Surgeon General will inspect all stations and camps, where troops are quartered, once a year.

232 (*b*). The officer commanding the station will detail an European commissioned officer (if available) to attend the inspection of the barracks, camps, or huts of British and Native troops, and to represent him; the officer deputed will not ordinarily be below the rank of captain. He will also detail, when considered necessary, an officer of the Public Works Department to attend the Deputy Surgeon General in his

G. O. 59.—*contd.*

inspection for the purpose of giving information regarding flues, ventilators, sewage, traps, drains, &c., as may be required. The medical officer in charge of the Station Hospital or of the corps in the case of Native troops, and the Quartermaster of the corps, or officer acting as such, will likewise attend.

232 (*c*). The keys of any locked buildings or places are to be in readiness, and produced, if necessary, by the person in charge of them.

236. In lieu of the ordinary monthly inspection described in para. 231, a verification by actual counting of each fixture and article of furniture in the possession of a corps will take place as soon after the 1st January and 1st July of each year as convenient. This verification will be carried out by the officers, who make the ordinary monthly inspections. For the purpose of this verification, any furniture, which may have been removed, must be replaced in the rooms or out-offices to which it belongs. The inventory boards and the actual articles of furniture in the rooms will be compared, discrepancies noted, and inventory boards corrected by the Military Works officer, in accordance with any deviations authorized during the past six months. A statement will be compiled from the corrected inventory boards, showing the total amount of fixtures and furniture actually in possession of the corps, and the inspecting officer will certify that he has actually counted each article, and that the statement is correct. Any deficiency in the fixtures and furniture shown on this statement, as compared with that shown on the monthly return as being properly in the possession of the corps, will be at once made good by the Military Works Department, and the cost adjusted according to the nature of the deficiency.

Para. 410. Allowance of charcoal or coal smithy for armourer's shop of hill depôt to be altered to "one and a half cwt."

Para. 601, Clause B. Expunge reference to para. 616.

*By order of His Excellency the Commander-in-Chief in India,*

T. D. BAKER, *Major General,*

*Adjutant General in India.*

Govt. C. B. Press, Simla,—No. 420, A. G.,—12-7-85.—950.

G. O. 59.—*contd.*

225. In order that there may be no misunderstanding as to the nature of the articles for which troops are accountable, a precise inventory board of the fixtures and another of the furniture shall be hung up in every barrack room, out-house, family or other quarter, by the Military Works Department, before the buildings are handed over to the in-coming corps. The cost of every description of article referred to shall be entered on each inventory board.

231. Once during each month the officer commanding a regiment or battery, or an officer deputed by him, will make a general inspection of the barrack buildings, fixtures and furniture in the possession of the corps.

The exact date of such inspections will be specified in station orders, and the Executive Engineer will detail a subordinate to accompany the officer conducting the inspection.

At this inspection all furniture requiring repairs and barrack damages will be noted. At the end of the inspection, the Military Works subordinate will hand a monthly return of barrack furniture, to the Military officer conducting the inspection. This return, which will be in duplicate, will show the receipts and issues of furniture during the past month, and the balance of furniture remaining in the possession of the corps.

It will be signed by the Executive Engineer and the officer commanding the corps, one copy being kept by the Executive Engineer and the other by the Quartermaster. Commanding officers are bound to sign or question this return within one week from the date of the inspection. If no objection be recorded within this time, the return may be considered as correct, by the Executive Engineer, and no after representation as to its incorrectness will be accepted. It will further be the duty of the Military Works Subordinate to bring to the notice of the Executive Engineer such points as the officer conducting the inspection may require, or any special feature in connection with the state of the buildings which may come under his notice.

Add as paras. 232 *a*, *b*, and *c*—

232 (*a*). A Deputy Surgeon General will inspect all stations and camps, where troops are quartered, once a year.

232 (*b*). The officer commanding the station will detail an European commissioned officer (if available) to attend the inspection of the barracks, camps, or huts of British and Native troops, and to represent him; the officer deputed will not ordinarily be below the rank of captain. He will also detail, when considered necessary, an officer of the Public Works Department to attend the Deputy Surgeon General in his
