GOVERNMENT OF MADRAS.

PUBLIC WORKS DEPARTMENT.

Buildings and Roads.
Civil Works.

Read—the following letter from Colonel ROSS THOMPSON, R.E. Officiating, Superintending Engineer, IV Circle, to the Chief Engineer, Public Works Department, dated Ootacamund, 28th September 1885, No. 391 E.W.:—

I have the honor to forward, for sanction, two estimates, amounting to Rs. 10,565—one for widening and improving the ghât road two miles below the Craigmore toll-bar (Rs. 2,050) and the other estimate for remetalling two miles of road below Coonoor and protecting by parapets the dangerous places where land-slips had recently occurred (Rs. 8,515) on the Kullar-Gúdalúr road—together with two reports.

2. These works are actually necessary for the safety of the passengers and vehicles, and as the large amount of these estimates cannot be met from the maintenance grant of the road, I have to request a special sanction and provision of funds, if practicable, by transfer from other divisions.

3. Statements of savings and demands have been called for from all the divisions in the circle, and they are expected early in October. Until these are received in this office, it will not be possible to say whether any transfer can be made to meet the cost of these works from other divisions.

Order—dated 9th November 1885, No. 2660 W., Public Works.

The undermentioned estimates are sanctioned for immediate execution :—

The S. E. considers that the accompanying estimates should be undertaken as early as practicable for the safety of passengers and vehicles and requests that funds may be specially provided, the maintenance grant of the road being insufficient.

No funds are available from the reserve with Govt, the available balance under that head being Rs 413 only. As the S. E. states that no transfer of funds can now be proposed by him, the estimate may be sanctioned for immediate execution, funds being provided on application later in the year.

Draft order is submitted for approval.
