Consulting Architect's Office,
Chepauk, Madras,
22d September 1885.

No. 935

From

The Consulting Architect to the Government of Madras,

To

The Chief Engineer P. W. D.
Roads and Buildings branch.

Sir,

I have the honor to acknowledge the
receipt of G. O. No. 2296 dated the 21st of Sept.
on the subject of providing a Floating Latrine
for the Senate House.

Enclosure.

2. With reference to para 1 I must explain
that the Grant of Rs. 6910 (G. O. No. 1824 W dated
the 28th July 1884) was subsequently supple-
mented by a further Grant of Rs. 2,275
(G. O. No. 1340 M dated the 9th June 1885) making
a total of Rs. 9,185 for one boat only.
My Estimate amounting to Rs. 9225 was
for one boat only, the difference of Rs. 40 between
this sum and the actual cost of the boat now
in use being due to some trifling additions
proposed as improvements by the Vice
President of the Municipality.

3. I may mention that although the Sergeant in charge takes the greatest pains to keep the boat clean, the smell is reported to be as offensive, if not more so, than that arising from the ordinary form of Latrine. hence I am of opinion that a Latrine of ordinary construction on the banks of the Canal with a small boat for receiving the poudrette daily, will be equally efficient and much cheaper than the pantoon Latrine.

I have the honor to be
sir

P. W. Dept.
To be returned with reply.

No. 1547C dt. 24th September 1885.

Referred to the Registrar, Madras University, for early opinion whether, in the circumstances reported, a latrine of ordinary construction, with a small boat, as suggested by the Consulting Architect, will be sufficient.

If the proposal is approved, the Consulting Architect will be directed to submit a detailed estimate of the cost.

It is requested that the Registrar will furnish the information asked for in para 2 of G. O. No. 2206. W. & 21. Sep. 85.

UNIVERSITY OF MADRAS.

To

The Secretary to Government of Fort St. George,
Public Works Department.

SIR,

With reference to Proceedings of Government No. 2206. W. dated the 21st September 1885 and the Acting Under Secretary Mr. Fraser's Endorsement No. 1547. C. dated 24th September 1885 on the Consulting Architect's letter to the Chief Engineer No. 935 of the 22nd September 1885, herewith returned, I am directed by the Syndicate to inform you that they recommend the construction of a floating latrine for the Senate House, the University bearing half its cost.

On due enquiry the Syndicate are satisfied as to the general arrangement of the latrine adjacent to the Civil Engineering College and consider it preferable to stationary latrine of ordinary type. The superstructure is a little too low and the compartments are inconveniently small: but these defects need not of course exist in the new latrine.

I have the honour to be
