

P . W . D E P A R T M E N T :

No. 1014 C dated 15th. May 1884.

M E M O R A N D U M .

From the Supg. Engr. IV Circle No. 197 E.W. dated 25th. April 1884

At the request of the Collector of North Arcot, an estimate of Rs. 830 was framed for constructing servants' quarters to the Sub Collector's Bungalow, Vellore, and an estimate of Rs. 315 for repairs to the same bungalow.

2. As both these works were below Rs. 1000 it was assumed the Department concerned would carry them out from funds provided in the Civil Budget under G.O. No. 2522 W of 7th. October 1879 para 10.

3. The Board of Revenue however consider that under section 1227 of the P.W. Code these works should be carried out by the Executive Engineer from funds provided in the P.W. Budget.

4. My impression is that the order quoted above at para 2 was passed subsequently to the rule in the Code and I therefore request your instructions before requesting the Executive Engineer to undertake the work.

5. So far as I am aware the order of 1879 has never been cancelled except in the case of buildings on the Nilgiris; and in the present reduced state of the Department it is necessary to object to any work for which it is not properly responsible.

From the Examiner P.W.Accounts No.80 dated 7th.May 1884.

With reference to letter from the Superintending Engineer IV Circle No.107 E.W.dated 25th.April,1884, the undersigned has the honor to state that buildings in charge of the P.W. Department, which include all buildings the rent of which is collected by the Executive Engineer, should be kept in repair by the P.W.Department. Other public buildings, not in charge of the Executive Engineer, are repaired by the occupying Deptt. when the cost is below Rs. 1000. The Sub Collector's bungalow at Vellore is borne on the Executive Engineer's return of buildings rented and available for rent, and the Executive Engineer is therefore responsible for its repairs, &c.

2. The cases reported by the Superintending Engineer should be disposed of accordingly.

(By Order)

No 2494 Rs

Superintending Engineer's Office

2nd Circle, Madras Port Canal

28th January 1885.

From

Superintending Engineer,
2nd Circle

The Chief Engineer,
Public Works Department.

Sir,

I have the honor to bring to your notice, that the Superintendent of Post Offices, Coimbatore Division having called on the Executive Engineer, Kistna Eastern Division to repair the Post Office at Bezamada, the Executive Engineer replied it should be done by the Post Office, the occupying Department, under the terms of your Circular No.1014 C. of the 14th May 1884.

2

In reply, the Superintendent of Post Offices, quotes G.O. No.17 W of the 7th January 1881, and claims that, under this G.O., the repairs to the Post Office Building at Bezamada to cost Rs 190 should be executed by the Public Works Department.

3

As your Circulars the above G.O.

appear to contradict one another, I request
the favor of your informing me, whether the
repairs should be carried out by the Executive
Engineers.

4. Believing that the work would not
be carried out by us, I surrendered the
current year's grant for this service, in my
No. 2062 dated 12th November 1884. If we have
to do the work, Rs 190 should be reallocated.

I have the honor to be,

Sir,

Your most Obedt Servant.

J. W. Rimsall
Superintending Engineer,
2nd Circle.
