Civil Works.

Read—the following letter from H. R. GRIMES, Esq., Inspector-General of Jails, to the Chief Secretary to Government, dated Cannanore, 28th November 1885, No. 339 :—

With reference to paragraph 4 of the order of Government, dated 13th July 1885, Mis. No. 1827, I have the honor to forward a plan and an estimate, amounting to Rs. 1,090, for constructing three condemned cells in the district jail, Kurnool, for the approval and sanction of Government.

2. The only suggestions I have to offer are—

First, that the slabs of stone for the flooring of the cells be united by cement and not by chunam.

Second, that the interior of the cells be plastered, as far as the spring of the arches, with cement and not lime-washed, the cement to be strong enough to allow of the walls being washed. This, as the superintendent and medical officer remark, would be sanitarily preferable to the use of lime-wash.

3. I request that, in the event of the work being sanctioned, funds may be allotted for it as none are available from the budget allotment of this department.

No. 2105, Judicial.

Approved, and transferred to the Public Works Department.

(Signed) W. WILSON,
Ag. Chief Secretary.

10th December 1885.

Order—dated 15th December 1885, No. 3008 W., Public Works.

The estimate, amounting to Rs. 1,090, for constructing three condemned cells in the district jail at Kurnool, is sanctioned for execution when funds are available.

2. The attention of the Superintending Engineer is drawn to the suggestions contained in paragraph 2 of the letter from the Inspector-General of Jails above recorded.

3. This sanction has been registered as Provincial, No. 182 W. of 1885-86, and classified as Civil Buildings, Original Works.

Para 4 - The buildings in the Kurnool Jail are ill adapted for their purpose, and the Jail in my opinion is one of those that ought to be abolished, and a new one built. But as funds are not available for this at present, I would request that the Public Works Department be called upon to submit plans and estimates for new condemned cells, which should be constructed with arched roof and the ventilation so arranged that the necessity for iron barred windows be obviated and the doors should be of vertical and not horizontal iron bars, it would then be impossible for a prisoner to commit suicide by hanging
