" Commissioner of Salt and Abkari Revenue, " 13th " " 9315.

ORDER—dated 24th September 1885, No. 2232 W., Public Works.

Ordered that the accompanying schedule, showing the probable requirements on account of Imperial Civil Buildings, Roads and Services for 1886-87, be forwarded to the Government of India.

2. The Superintending Engineers, III and IV Circles, will submit, at the earliest possible date, plans and estimates for the unsanctioned works included in the schedule.

3. The budget provision of Rs. 3,000 for the current official year under "Telegraph repairs" has been found inadequate, and in many instances Superintending Engineers have been asked to propose transfers of funds to meet urgent demands made under that head. An increased provision of Rs. 5,000 has therefore been made in the schedule for 1886-87.
