The Chief Engineer desires to call the attention of  
Officers of the department to the necessity for adverting  
fully to the previous history of works when submitting Esti-  
mates for sanction. This may be most conveniently done on the  
wrapper or outer sheet of the estimate form, under the head  
"References", where the entries should show whether the work  
has been included in any schedule of demands, has been brought  
forward in budgets for allotment of funds, or has been spe-  
cially noticed in any Proceedings of Government.

2. Attention to these instructions will insure proper con-  
sideration to any claims which works may possess to early pro-  
vision of funds.

There is this objection to the insufficient scattering of pyrametric apparatus may be heavy for the beams, the staining of the laterite bays between open the work, to support the beams, and two openings in the lower story also seem objectionable. I presume the chisels with themselves will be strong enough to bear the staining. There is always some doubt about the material.
