16TH FEBRUARY 1885, No. 378 W., PUBLIC WORKS.

GOVERNMENT OF MADRAS.

PUBLIC WORKS DEPARTMENT.

General
Establishment.

Read—the following letter from Lieutenant-Colonel H. M. VIBART, R.E., Superintending Engineer, III Circle, to the Chief Engineer, Public Works Department, dated Bellary, 9th February 1885, No. 2226 :—

I have the honor to report that two men of the party of Sappers and Miners, employed on boring operations at Gooty, were lately attacked with cholera, but are sufficiently recovered now to be removed in carts to Anantapur, to which station the detachment has been ordered to proceed.

2. I beg to bring to your notice that both the Sappers owe their lives being spared to the strenuous exertions and intrepid conduct displayed by Sub-Engineer Mr. Frankland and the apothecary stationed at Gooty. The former more especially deserves every praise for his devotion to the sick men during a most trying time, for the epidemic has been and is still very severe at Gooty.

Order—dated 16th February 1885, No. 378 W., Public Works.

The Right Honorable the Governor in Council has received with great pleasure this testimony to the excellent service rendered by Mr. Sub-Engineer Frankland and by the apothecary stationed at Gooty.

2. The name of the apothecary should be reported.

(True Extract.)

Major, R.E.,
Under Secy. to Govt., P.W.D.

Mr. Sub-Engineer Frankland
and the Apothecary attached
to Govt.

Excellent service rendered by -- in connection with the cholera cases among the troops, noticed with satisfaction.

10th March 1885, No. 253 L, PUBLIC WORKS.

GOVERNMENT OF MADRAS.
PUBLIC WORKS DEPARTMENT.

Irrigation.
Account.

Read--the following papers:--

Telegram from the Executive Engineer, Godavari Central Division, to the Chief Engineer for Irrigation, Madras, dated 4th March 1885.

No credit granted this month for Gannaram aqueduct repairs sanctioned G.O. No. 911 L, 10th October 1884. Payment must be made to extent thirty thousand in current month, or work will stop. Please authorise Examiner to grant funds. Telegraph direct as Superintending Engineer on circuit.

Telegram to the Superintending Engineer, VI Circle, dated 4th March 1885.
" " " " " VI " " 6th " "

No. 52 L.

Submitted to Government.

2. The restoration and improvement of the Gannaram aqueduct which was damaged by floods during August 1884, as reported in the papers printed in proceedings of Madras Government, No. 911 L, dated 10th October 1884, must be completed before the canal reopens. The Superintending Engineer, I Circle, did not apply for the additional allotment required for the work until 9th February 1885, and his application for Rs. 50,000 was not recommended for sanction as it reached this office three days after the 20th February 1885, the date prescribed by the Government of India for obtaining their sanction by wire to modification of allotments. The Superintending Engineer should have applied for funds by letter before the 15th January as laid down in this office circular No. 14 G., dated 4th April 1884, failing which he ought to have applied by wire.

3. It has now been reported that payments to the extent of Rs. 30,000 must be made this month to carry out the work without interruption. As it is considered desirable that the work should be completed soon to prevent loss of revenue, it is recommended that Rs. 6,000, which the Superintending Engineer, VI Circle, reports can be spared from the grant for the Salvaikuntbam ament project under Maintenance and Repairs, or Rs. 7,380 including establishment charges, be transferred to the Godavari Central delta, and the Government of India may be requested by wire to grant an additional allotment under Productive Public Works, Revenue Account, of Rs. 24,000 for maintenance and repairs, or Rs. 29,380 including establishment charges being the balance still required.

CHEPAX,
7th March 1885.

Joint Secretary to Government,
Public Works Department, Irrigation Branch.

(Signal) J. O. HASTED, Colonel, R.E.,
Chief Engineer for Irrigation.

10th March 1887, No. 253 L, Public Works.

Order—dated 10th March 1887, No. 253 L, Public Works.

The Superintending Engineer, I Circle, will explain the cause of his omission to apply for funds required in proper time.

2. The following urgent telegram will be sent to the Government of India, as also a copy of these proceedings.

"Additional allotment Rs. 25,525 under Provisive Public Works Revenue Account, urgently wanted for restoring Godavari aqueduct, Godavari delta, to prevent loss of revenue. Superintending Engineer failed to apply in proper time. Also transfer Rs. 7,280 from Siwal-
kumbhari to Godavari under same head."
