Read—the following despatch from the Right Honorable the Secretary of State for India, to His Excellency the Right Honorable the Governor in Council, Fort St. George, dated India Office, London, 29th January 1885, No. 1 :—

I have considered in council your letter, in the Public Works Department, No. 3795 W., dated 8th November 1884, forwarding an indent for stores required for the reconstruction of the damaged portion of the Madras harbour works, and I have sanctioned compliance with the indent, with the exception of the cranes referred to in the margin, which are already under

LETTER—to

THE RIGHT HONORABLE THE SECRETARY OF STATE FOR INDIA.

MY LORD,

We have the honor to forward, for compliance, an indent for special plant and stores required for the reconstruction of the damaged portion of the Madras Harbour Works.

2. This demand supersedes the unfulfilled portions of the indents for Harbour Works stores dated 25th May and 27th October 1882.

We have the honor to be,

My Lord,

Your Lordship's most obedient, humble servants,

PUBLIC WORKS DEPARTMENT.

General.
Account.

READ—the following letter from Captain W. L. C. BADDELEY, R.E., General Superintendent, Public Works Stores, &c., to the Superintending Engineer, V Circle, dated Madras, 23rd October 1884, No. 907 S.:—

I have the honor to forward, for submission to Government, indent in triplicate, for stores required from England for the Madras Harbour Works, together with copy of letter from the Superintendent explaining the reason why the machines included in this indent are required. None of the machines are in stock, nor can any be spared by the workshops.

2. I beg to invite attention to paragraph 4 of the Superintendent's letter, as it is possible that the indents alluded to may be under provision by the India Store Department.

ENCLOSURE.

From F. N. THOROWGOOD, Esq., M. Inst., C.E., Superintendent, Madras Harbour Works, to the General Superintendent, Public Works Stores, dated Madras, 21st October 1884, No. 2 S.

I have the honor to submit, herewith, three copies of a very heavy indent for special plant and stores required from England for the reconstruction of the damaged portion of this harbour.

2. You will observe that in the list I have included a lathe, a drilling machine and a slotting machine. This has been done after much deliberation and consultation with Mr. Parkes, and with the object of being able to execute small pieces of work in repairs or manufacture *on the spot* at once. The saving in time occasioned by having three such machines in the yard instead of having to send every slight article requiring a machine to the Public Works shops (nearly 1½ miles away) will be enormous; but for heavier pieces of work, I shall of course take advantage of your workshops as heretofore.

3. Possibly you have three suitable machines which you are willing to dispose of; and if this be the case, you will no doubt note the fact on the indent.

4. I should inform you that this indent supersedes unfulfilled portions of this office indents of 25th May and 27th October 1882, in which railway material and other stores were asked for.

5. No provision of funds is, I believe, made as yet to meet this heavy indent; but I think I am right in submitting as promptly as I am able, and shall be glad if you will in due course forward it to the proper authorities.
