Read—the following papers:—

No. 615 T.N.

Note by the Superintending Engineer, VI Circle, on estimates for constructing a record-room for the District Court and for improving the District Court at Kokarakulam, amounting to Rs. 17,875.

- 2 Estimates.
- 2 Duplicate abstract estimates.
- 2 Plans.
- 1 Site plan.

The buildings of the Tinnevelly district court at Kokarakulam have for a long time been in a most unsatisfactory state, and there has been much correspondence regarding them. The following works now proposed at an estimated cost of Rs. 17,875 will, it is believed, provide for all requirements and also place the existing buildings in fair order.

2. The buildings at present consist of the following separate buildings:—

(1) A court-room.
(2) Judge's chamber and bar library.
(3) A sub-court.
(4) A large building 107 × 76 feet utilised as record-room and clerks' room.

3. It is proposed to leave the first three buildings as they are, to build a new record-room for the records of the district court at a cost of Rs. 8,140, to alter No. 4, the roof of which is in very bad order and requires renewal and adopt it for the office establishment which has been or is to be largely increased.

4. The alteration will give six rooms as follows:—

| | SQ. FT. |
|---|---|
| 1 of 37½ × 18 feet ... ... ... ... ... ... ... = | 675 |
| 1 of 28 × 18 „ ... ... ... ... ... ... ... = | 504 |
| 1 of 29 × 14 „ ... ... ... ... ... ... ... = | 406 |
| 1 of 28 × 14 „ ... ... ... ... ... ... ... = | 392 |
| 1 of 29 × 23 „ ... ... ... ... ... ... ... = | 667 |
| 1 of 28 × 23 „ ... ... ... ... ... ... ... = | 644 |
| Total area ... | 3,288 |

with an arcaded verandah 8 feet in width round all four sides. This building will give complete accommodation for the increased court establishment. The estimated cost of the alteration and improvements are Rs. 9,735.

5. The plans and estimates have been prepared in communication with the District Judge through whom they are sent for submission to Government through the High Court.

*Read*—the following letter from J. A. DAVIES, Esq., Acting Registrar of the High Court of Judicature at Madras, Appellate Side, to the Chief Secretary to Government, dated Madras, 4th February 1885, No. 333:—

I am directed to forward the accompanying letter No. 38, dated the 16th instant, with its enclosures, from the District Judge of Tinnevelly, giving cover to two estimates, amounting to Rs. 17,875, for additions and repairs to the district court building, and to request that early action may be taken in the Public Works Department in the matter.

2. Though the cost proposed is considerable, the High Court is of opinion that the works are necessary, and that it is desirable that the record-room should be built as soon as possible, the improvement of the office-rooms being taken up immediately afterwards.

3. As a partial provision towards the said cost, I am to suggest that the grant of Rs. 4,000 allotted to the district munsif's court of Paramakudi and shown as item No. 51 in Part I, Class A works, at pages 8 and 9 of the Preliminary issue of the Public Works budget estimates for 1885-86 may be transferred to Tinnevelly towards the construction of the record-room.

4. It is assumed that the amounts of the estimates, Rs. 1,180 and Rs. 1,960, sanctioned in G.Os., No. 180 W., dated 21st January 1884, and No. 2311 W., dated 19th September 1884, for additions and repairs to the district munsif's court-houses at Narayanadevirkiri and Vayitri, respectively, will be provided for out of the lump grant for "repairs" in the Public Works Department budget, either of the current official year or of 1885-86.

Enclosure.

From J. C. HUGHESDON, Esq., District Judge, Tinnevelly, to the Acting Registrar of the High Court of Judicature, Appellate Side, Madras, dated Tinnevelly, 16th January 1885, No. 38.

I have the honor to forward, for submission to Government, an estimate, amounting to Rs. 8,140, for the construction of a record-room for the Tinnevelly district court situated at Kokarakulam, and an estimate, amounting to Rs. 9,735, for a new roof, &c., to the existing main building—total Rs. 17,875.

2. The matter has in one shape or another been before the Government and the High Court since 1875, and I enclose a memorandum of the correspondence that has passed in connection therewith up to the present time.

3. It will be observed that the last suggestion was that a new record-room, &c., be constructed for the sub-court. The sub-court records and copying establishment having, however, since been made over to the district court, the former proposals are necessarily superseded and additional accommodation has instead to be provided for the district court. It is considered that this may best be done by the construction of a new building for the amalgamated records. The rooms thus vacated in the district court-house will be available for the increased establishment of copyists. Along with the estimate for the construction of record-rooms is submitted an estimate for improvements to the main court building, the roof of which is in very bad order.

4. It is very desirable that the work should be commenced as soon as possible, for the roof in its present condition not being water-tight much inconvenience and some damage are caused by the heavy rains during the monsoon, and this evil increases yearly. Before, however, the main building is touched, the new structure will have to be completed in order to provide room for the establishment while the repairs are going on. In view of this state of affairs, and with reference to the time that has elapsed since it was first considered necessary to draw attention to the matter, I hope that the High Court will be pleased to class as "*emergent*" the estimates now forwarded.

*Order*—dated 19th February 1885, Mis. No. 470, Judicial.

The plans and estimates are approved and transferred to the Public Works Department for the issue of early orders.

Read—the following letter from J. A. DAVIES, Esq., Acting Registrar of the High Court of Judicature at Madras, Appellate side, to the Chief Secretary to Government, dated Madras, 11th January 1884, No. 103 :—

The District Judge of Bellary inspected the Court of the District Munsif of Narayandeverkeri in November last and submitted a report with the following remarks as to the state of the Court-house :—

> "The Court-house is a comfortable building, but very small. It requires badly a room in which to keep attached property, and it will be necessary to add another separate room for the Deputy Nazir under the system proposed to be inaugurated on 1st January 1884. In fact there are only three tiny rooms beside the Court-room. One of them is the Judge's private room, the centre one is the record-room, and in the other the Head Gumastah, who superintends the Process Department, sits with his assistant. Excepting the clerk in charge of the records, the rest of the establishment and the copyists sit round the Court-room, which must be very distracting when business is going on. It will therefore be absolutely necessary to build a room for the Deputy Nazir."

The High Court requested the District Judge to submit his proposals for the enlargement of the Court-house, and he has now forwarded a plan and estimate for the same, amounting to Rs. 1,180, prepared and signed by the Superintending Engineer and countersigned by himself. I am directed to submit these for the approval and sanction of Government, and to request that an early allotment of funds may be granted for carrying out the work, it being urgent, and there being no budget provision for it.

Approved and transferred to the Financial Department for the necessary allotment.

Order—dated 23rd August 1884, No. 2082 W., Public Works.

In the papers above recorded, the Superintending Engineer, III Circle, proposes certain re-appropriations of Provincial funds, among which is a surrender of a sum of Rs. 8,000 from the allotment of Rs. 19,000 for the Collector's residence at Anantapur. This is a work which the Government are anxious should be pushed on as rapidly as possible, and they are disappointed to find that the moderate allotment made for it in the Public Works budget cannot be fully utilised within the current official year. The Superintending Engineer will explain the circumstances which prevent the grant being expended.

2. He will also report whether he can arrange to utilise a further sum, in addition to budget allotment, on any of the other public buildings at Anantapur.

3. Pending receipt of the reports now called for, the following sums are resumed, and credited to the Provincial Reserve :—

I think the verandahs with their low piers or pillars (not 6 ft. high) & broad semicircular arches, will present a squat & ugly appearance. No lead or ventilating gutters to make roof level & no proper connection — altogether ineffective in my opinion. However, it is a matter of taste & work, which constructionally appears sound, is within power of S.E. — I presume the central trusses will have a good slope, & that proper gutters are provided. —

NOTE OF REMARKS.

1. The accompanying estimates, with plans, provide for constructing a Record Room, and for improving the office of the District Court at Kokkaraculam, Tinnevelly District. The estimates amount to Rs. 17,875 which are thus divided: —

Record room — Rs. 8,140;

Office — Rs. 9,735.

A general abstract has not been submitted.

2. The Record room is an upper storied room on building with a tiled roof on trusses. Both lower and upper room measure horizontally, 45¾ ft. × 22½ ft. — the height of the enclosing

walls in each case, is 13 ft. Arches and piers are to be erected to strengthen the floor of the upper room for the better support of the record racks – The building in all details appears well suited for a Record room. The scantlings of beams, joists, and roof timbers (truss) are in exact accordance with those laid down in the Standard Specifications. The floor, ground, of the Recd room as but 1 foot above the M.F.L. of the Tambrapurnie river for Dec/77, appears low, but from the section at site it may be learnt that level of Court floor is 120.85 ft. while that of Recd room floor is 122.20 or 1.35 ft. higher – The levels being reduced to a common datum.

3. It is intended to remove the existing roof of the office which is composed of flat and pan tiles on palmyrah couples, running in three rows, and to re-roof the building with two lines of tiled* roofing on trusses, running parallel from side to side of the main building with a terraced breadth of 14 ft. between them throughout their length. The present outer walls of the office are to be knocked down and an arcaded verandah, 8 ft. wide and with a terraced roof, is to be constructed around the building, on the four sides. – The scantlings of all the roof timbers, tiled and terraced, accord exactly with those of the standard Specifications.

* Would not entire terracing of the whole building be better? – Preferable at least for roof drainage?

4. The estimates and plans have been approved in the Judicial Dept.
