Not to be folded or roughly handled

13TH MARCH 1885, No. 607 W., PUBLIC WORKS.

GOVERNMENT OF MADRAS.

PUBLIC WORKS DEPARTMENT.

Buildings and Roads.
Civil Works.

READ—the following papers:—

From Major J. L. L. MORANT, R.E., Officiating Consulting Architect to Government, to the Chief Engineer, Public Works Department, dated Chepāk, 7th January 1884, No. 1338.

In compliance with G.O. No. 3457 W., dated 3rd December 1883, Public Works Department, I have the honor to submit detailed plans and estimates for constructing a Collector's cutcherry at Nellore.

2. The estimated cost, according to current rates at Madras, will be Rs. 39,484. The approximate estimate given in Mr. Vincent's letter No. 210, dated 22nd May 1883, was Rs. 30,200. The difference is caused by the enlargement of the Collector's court, which has necessitated wrought-iron girders of great span, and by the addition of a bigger retiring-room for the Collector. Additional ventilation has also been provided in some of the larger rooms.

3. The specification has been drawn up as fully as possible, but is necessarily of a suggestive nature as the officer on the spot can alone be the best judge of what is usually done. It should be carefully perused by the Executive Engineer, Nellore, before submitting his final estimate for the work, in order that he may fully realise what the design proposes to effect.

No. 108 C., Public Works.

Forwarded to the Superintending Engineer, II Circle, who will revise the estimate to accord with rates prevailing at Nellore.

2. Attention should be paid to the remarks in paragraph 3 of the Consulting Architect's letter, as regards the specification.

3. Provision should also be made for such out-offices as the Collector may consider absolutely necessary.

4. The return of the papers now transmitted is requested.

10th January 1884.

(Signed) C. BOWEN, Major, R.E.,
Under Secy. to Govt., P.W.D.

From J. W. RUNDALL, Esq., Superintending Engineer, II Circle, to the Chief Engineer, Public Works Department, dated Masulipatam, 10th October 1884, No. 605 N.L.:—

I have the honor to forward, herewith, an estimate, amounting to Rs. 43,820, for constructing a new Collector's cutcherry at Nellore, based on the designs and list of quantities received with your memorandum, No. 108 C., of the 15th January last.

2. It would be advisable to indent for and get the rolled girders direct from England.

13TH MARCH 1885, No. 607 W., PUBLIC WORKS.

3. The Consulting Architect should be requested to furnish complete working drawings for the stair cases. As far as I am able to judge, the estimate rate will suffice for their construction, but complete drawings are necessary. I cannot quite make out how the back (called angle) stair case is worked in, as they are merely sketched in plan in the design.

4. I have allowed a high rate for mouldings and similar works, as we shall have to obtain workmen from Madras trained to do the work.

5. The outcherry has been entered in the budget for 1885-86 recently sent to you, and Rs. 15,000 have been asked for.

P.S.—The Consulting Architect's letter received with your memorandum under reply was not received back from the Nellore division, but will be obtained and forwarded shortly.

From J. W. RUNDALL, Esq., Superintending Engineer, II Circle, to the Chief Engineer, Public Works Department, dated Masulipatam, 29th January 1885, No. 842 N.L.

I have the honor to forward, herewith, an estimate, amounting to Rs. 50,250, for the Collector's new outcherry at Nellore, in supersession of that for Rs. 43,820 transmitted with my No. 605 N.L. of the 10th October.

1 Superintending Engineer's original letter, No. 605 N.L., dated 10th October 1884.

2. Provision for the removal of the existing building, for a compound-wall, and for new stables, has now been made.

3. The design is the Consulting Architect's, and the details of the estimate are explained in the accompanying reports by the Executive Engineer and myself.

4. The estimate has been signed by the Collector; the rates are suitable, and I beg to recommend its sanction.

ORDER—dated 13th March 1885, No. 607 W., Public Works.

The estimate, amounting to Rs. 50,250, for constructing a outcherry for the collector at Nellore, is sanctioned.

2. A sum of Rs. 15,000 has been provided for the work in the Provincial budget for 1885-86.

3. This sanction has been registered as Provincial No. 270 W. of 1884-85, and classified as Civil Buildings, Original Works.

Estimate for —, sanctioned.

No 629 NL

Superintending Engineer's office
II Circle, Masulipetam

24 October 1884

From

The Superintending Engineer
Second Circle

To

The Chief Engineer
Public Works Department

Sir

Captain Henderson R.E., Execu-
tive Engineer ^{Nellore} having returned from
leave, has brought to my notice, that
the estimate for the Collector's Bacheri,
which was forwarded with my No 605 NL
of the 10th Instant, contains no provision
for the removal of the old Building,
and also that it is not desirable to
put down brick floors as allowed
for by the Consulting Architect,
in his design, I have the honor
therefore to request that you will be good enough
to return the estimate to me for cor-
rection, together with the site plan.

2.

The design for the Building

The design was sent

No. 1338

Dated 7th January 1884
Received

No. of ENCLOSURES. 4

Subject.

Submit detailed plans
and Estimates for constructing
a Collector's Quarters at Bellary.

Public Works Department, 1883-84.

Current No. 107
Letter No. 1338
Dated the 7th Jan 1884
From the Chief Engineer, P. W. D.

NOTE OF REMARKS.

1. The plan and estimate to
be submitted for the
construction of the
Collector's Quarters at Bellary
in accordance with the
3rd Dec 83, are
submitted for the
approval of the
Chief Engineer, P. W. D.
The plan shows the
arrangement of rooms
and the construction
of the building. The
estimate shows the
cost of the building.
The amount of the
cost is Rs. 39,400.
The estimate is
submitted for the
approval of the
Chief Engineer, P. W. D.
The plan and estimate
are submitted for the
approval of the
Chief Engineer, P. W. D.

3. Should any out-offices
be required the E.E. will
doubtless supply the
necessary plans and estimates
for them.

4. Subject to approval
it may not be amiss to
suggest to be in the ad.
for this purpose of sizes
of typing cloth better
allowing of examination
of designs, and better suit
for reference than that
bearing the design under
consideration, whose length
13 ft. does not easily be divided
into two or three pieces. -
This is not a collaring
of unnecessary lengths of cloth being
employed for designs.
