READ—the following letter from H. B. GRIGG, Esq., M.A., Director of Public Instruction, to the Chief Secretary to Government, dated Madras, 25th February 1885, No. 1191:—

I have the honor to submit a letter* from the Principal, Civil Engineering College, forwarding plans and estimates, amounting to Rs. 4,298, prepared by the Consulting Architect to Government, for certain repairs and improvements to the principal's quarters and to the college family quarters, and recommend that the plans and estimates be sanctioned, as the repairs and improvements are stated to be very necessary for the convenience and health of the occupants of the buildings.

ENCLOSURE.

From Captain H. D. LOVE, R.E., Principal, Civil Engineering College, to the Director of Public Instruction, dated Madras, 12th February 1885, No. 710 C. :—

I have the honor to request your sanction to the following estimates prepared by the Consulting Architect to Government:—

	RS.
(a) Repairs to the family quarters	216
(b) Repairs to principal's quarters	210
(c) Alterations to family quarters	3,872

2. Item (a) includes shifting tiles, repairing chimneys, &c.

Item (b) provides for the repair of floors, pillars, fencing, drains, &c., where required.

Item (c) allows for the construction of a verandah on the west side of the quarters, the enlargement of the present cook-room, and the fencing off of a plot of ground to be used as soldiers' gardens. The accompanying plans and specifications explain at length the nature of the improvements proposed.

3. The greater part of the expenditure is due to the new verandah. The quarters face east and west, and the rooms on the west side, being unprovided with any protection from the sun, are almost uninhabitable for Europeans during the hot weather.

4. The extension of the cook-room is indispensable, as the present accommodation is quite insufficient for six families.

5. I have inspected the quarters in company with the Consulting Architect, and you will see from his original letter enclosed that he agrees with me in deeming the repairs and alterations estimated for essential to the convenience and health of the occupants of the buildings.
