No. 207 T.J.

Report by the Superintending Engineer, VI Circle, on the revised estimate for improving the district munsif's court at Tiruturaipundi, in the Tanjore district, Rs. 2520

In G.O., No. 1673 W., dated 16th November 1877, an estimate, amounting to Rs. 2,000, was sanctioned, but the work was not begun, for want of funds, until November 1882. As more than five years have elapsed between the preparation of the estimate and the commencement of the work, some more additional work was found necessary than estimated for; hence the necessity for the revised estimate.

2 The excess over the original estimate is Rs. 520, which may be accounted for as follows—

Extra work found necessary	Rs
Additional works required by the Judicial Department	364
	156
Total	520

Explanation for the differences is attached to the estimate.

3 The estimate is forwarded to Government for sanction and allotment of funds through the District Judge of Tanjore

READ—the following papers—

From Lieutenant-Colonel H. R. MEAD, R.E., Superintending Engineer, VI Circle, to the Chief Engineer, Public Works Department, dated Trichinopoly, 18th March 1884, No 2520 T J

I have the honor to inform you that, on receipt of a petition by me from the members of Panchayat of Sriavooshtheeswarasami temple at Tiruturaipundi, in the Tanjore district, bringing to notice that this department took possession of the Sarvamaniam tope, belonging to the temple, for building the district munsif's court, without the consent of the Davastanam committee, I referred it to the Executive Engineer for inquiry and report.

2. The Executive Engineer not being able to trace out any correspondence on the subject, I requested the Collector to inquire into the matter and to inform me of the result. The Collector, in reply, forwarded the Deputy Collector's letter, in which it is stated that the premises on which the munsif's court stands belong to the temple, and that the trustees pay the inam road-cess due on the site to Government.

3. The Deputy Collector further states that no arrangements were made for any rent or compensation since the building was erected, nor are there any records in the munsif's court on the subject.

4. The Collector is of opinion that, as the trustees have no power either to sell the land or give it out on a permanent lease, the land must be taken up under the provisions of the Land Acquisition Act on payment of compensation at Rs. 2 per guli, or about Rs 260.

5. I therefore request that orders may be issued authorising the Collector to acquire the land under the Act, provided Government consider that the fact of the site having been occupied for years gives no claim to the land. The building was built about thirty-three years ago, fifteen years ago the compound-wall was put up and a ryots' shed erected. I should think that this long occupancy gave Government a right to the land, but of course no right to levy road-cess on the trustees of the pagoda. This irregularity has probably caused the claim now brought forward to be made.
