READ—the following letter from Lieutenant-Colonel H. M. VIBART, R.E., Superintending Engineer, III Circle, to the Chief Engineer, Public Works Department, dated Bellary, 9th February 1885, No. 2226 :—

I have the honor to report that two men of the party of Sappers and Miners, employed on boring operations at Gooty, were lately attacked with cholera, but are sufficiently recovered now to be removed in carts to Anantapur, to which station the detachment has been ordered to proceed.

2. I beg to bring to your notice that both the Sappers owe their lives being spared to the strenuous exertions and intrepid conduct displayed by Sub-Engineer Mr. Frankland and the apothecary stationed at Gooty. The former more especially deserves every praise for his devotion to the sick men during a most trying time, for the epidemic has been and is still very severe at Gooty.

ORDER—dated 16th February 1885, No. 378 W., Public Works.

The Right Honorable the Governor in Council has received with great pleasure this testimony to the excellent service rendered by Mr. Sub-Engineer Frankland and by the apothecary stationed at Gooty.

2. The name of the apothecary should be reported.
