

GOVERNMENT OF MADRAS.
JUDICIAL DEPARTMENT.

READ—again the following papers:—

G.O., dated 10th December 1884, Mis. No. 3222, Judicial.
G.O., dated 18th December 1884, Mis. No. 3304, Judicial.

READ—also the following papers:—

From Lieutenant-Colonel J. L. L. MORANT, R.E., Officiating Consulting Architect to the Government of Madras, to the Chief Engineer, Public Works department, dated Chepâk, 15th January 1885, No. 1515.

I have the honor to acknowledge your Public Works department G.O., No. 3155-W, dated 23rd December 1884, with accompaniments herewith returned

on the subject of the type design for a Sub-Registrar's office.

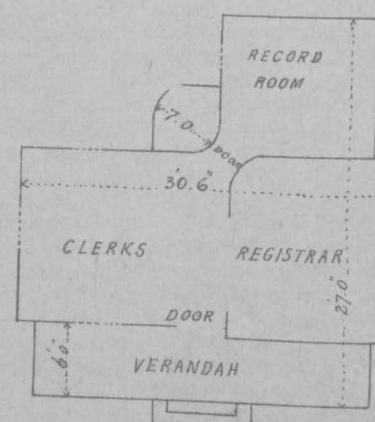

2. Government have lately from time to time approved of three type designs for a Sub-Registrar's office—one with a flat roof, one with a tiled roof, and the third with a tiled roof. The first two are on the same plan. The third is planned differently. Very many of the first two designs have been and are being built all over the Presidency and the Inspector-General informs me they answer their purpose well. Of the third design no building has as yet been erected. And to the plan of the third he objects on three chief grounds—one, that the record rooms are too small; secondly, that they do not open directly from the Sub-Registrar's own office; and, thirdly, that they are on different floors connected by a narrow staircase. The third design was drawn up by Mr. Chisholm (before proceeding on furlough) and was intended to be used only when registration offices are to be built in the same compound with cutcherries on the standard plan. It will cost Rs. 2,700 against Rs. 2,500 the cost of either of the two other designs. And this type design now under reference cannot be modified without enhancing this comparative increment in its cost. Moreover, as the other two type designs (both on the same plan) have been erected in large numbers and have proved to be satisfactory buildings suited to the requirements of the Registration department, I beg to suggest that a design be drawn up on that plan, so arranged in elevation as to harmonize with the taluk cutcherries alongside of which it may have to be built. This I shall be happy to do if required.

3. I have written the above remarks after an interview with the Registrar-General with whom I carefully discussed the whole subject.

4. I beg, in conclusion, to append a sketch of the two plans showing their differences:—

New plan objected to by the Registrar-General.

Old plan which the Registrar-General prefers.

No. 112-C.

MEMORANDUM.

Referred to the Judicial department, with advertence to orders in that department, Mis. Nos. 3222 and 3304, dated 10th and 18th December 1884.

2. If approved in the Judicial department, it is proposed to have a revised type design, as suggested at the end of paragraph 2 of Lieutenant-Colonel Morant's letter, drawn up and published in supersession of the design circulated with G.O., dated 14th January 1884, No. 100-W.

CHEPÂK,
19th January 1885.

(Signed)

C. BOWEN, Major, R.E.,
Under Secy. to Govt., P.W.D.

To the Judicial department, with C. Number in original.

From G. HAMNETT, Esq., Inspector-General of Registration, to the Chief Secretary to Government, dated Vizianagram, 10th Feb. 1885, T. No. 173.

In returning endorsement, No. 189, dated 28th January 1885, received by me this day, I have the honor to state that Colonel Morant's suggestion to draw up a design on the plan now generally adopted, "so arranged in elevation as to harmonize with taluk cutcherries," may be approved by the Government, if they have no objection to more money being spent upon a registration office than is now done.

ORDER—dated 27th February 1885, No. 543, Judicial.

The Government approve of the revised standard design referred to in the last two of the foregoing papers being substituted for that circulated with G.O., 14th January 1884, No. 100-W.
