PUBLIC WORKS DEPARTMENT

READ—the following papers:—

In submitting a statement of proposition for revision of the irrigation conservancy establishment of the Pálár anicut system, in form No. 184, I have the honor to inform you that the pay of Rs. 4-8-0 per mensem which is given to the lascars of the Pálár establishment is less than what lascars employed at Poincy and Cheyaur anicuts receive.

3. I consider, and so did my predecessor, that the request of the lascars is very reasonable. I accordingly beg to recommend the increase which the lascars have applied for.

5. The three lascars attached to the southern section have got to look after the Dusi tank and channel in addition to the ancient head works and their channels.

7. If this arrangement be not carried out, I fear the anicut head works and their channels from the first 2 miles on the southern side will not be looked after as carefully as they should be.

9. The following is a list showing the distribution of the fifteen lascars of the system :—

No.	4	3	3	2	3	—	15
-----	---	---	---	---	---	---	----

No. 4490.

Endorsement on the above.

One copy of statement of proposition.

Submitted to the Chief Engineer for Irrigation.

2. I recommend that the proposed increase may be sanctioned for the reasons given by the Executive Engineer.

3. The establishment on the southern side is manifestly insufficient, the Dusi-Mamundur tank being 27 miles distant from the head works.

9th March 1885.

(Signed) H. L. PRENDERGAST, Colonel, R.E.,
Superintending Engineer, V Circle.ENCLOSURE.

Sd.

In submitting a statement
of Proposition for revision of the
Conservancy Establishment
of the Palar Ancient System, in
form N^o. 184, I have the honor
to inform you, that the pay of Rs. 4-8-
per mensem which is given to the
Lascars of the Palar. —
Establishment is less than what lascars
employed at Poiney and Cheyaur
Ancient receive.

2. The Palar Lascars represent
that the sum of Rs. 4-8- is insuffi-
cient, and request that the rate
of Rs. 5 allowed to the Lascars at
the Poiney & Cheyaur Ancient be ex-
tended to them also.

3. I consider, and so did my predecessor, that the Request of the Lascars is very reasonable. I accordingly beg to recommend the increase which the Lascars have applied for.

4. 15 Lascars per Section. 12 of these Lascars are attached to the Northern Section of the System; and the remaining 3 to the Southern Section.

5. The 3 Lascars attached to the Southern Section, have got to look after the Dusi Sant and channel, in addition to the penicent Head Works and their channels.

6. It is considered very desirable to have 2 Lascars always attached to the penicent Head Works and their channels for a distance of 2 miles from the Head on the Southern Side, and I therefore request sanction for 2 new men, who together with the third man look after

after the Conservancy of the channels from the 2 miles downwards, and the Dusi Main and Sant and channel.

7. If this arrangement be not carried out, I fear the penicent Head Works and their channels from the first 2 miles on the Southern Side, will not be looked after as carefully as they should be.

8. The Statement of proposition now submitted, therefore includes 2 new men on Rs. 5 each, and an increase of pay of 8 for each of the 15 men already borne on the Conservancy Establishment of the Palat Ancient System.

9. The following is a list showing the distribution of the 15 Lascars of the System.

Northern Section	
Palat Ancient Head Works....	4.
Mahendrawady Channel....	3.
Govindawady Channel....	3.
Kawmispant Sant and channel....	2.
Southern Section	
Palat Ancient Head Works	
Dusimamundrot Sant and channel, 3.	

I have the

Hon. H. S. Nordmann.
