No. 89 W a/ 10, P. W. Department
January 1st

To,

The Secretary to the Govt. of India.
P. W. Department.

Sir,

I have the honour to report, for the information of the Government of India, that His Excellency the Governor in Council proposes to appoint as Assistant Engineer 1st grade, permanent, Lieut: W. D. Lindley, R.E., Queen's Own Sappers and Miners, to fill the vacancy in the Madras scale caused by the recent death of Captn. Hamilton, R.E., Executive Engineer, 4th grade. This nomination is desirable, as it is neceſsary to post an officer of the Royal Engineers to that sub-division of the Presidency Division which comprises the military works at Madras, and the services of the few other officers of the corps on the Madras P.W. list cannot conveniently be spared from the Divisions of which they hold charge.

2. In connection with this proposal, the question has arisen whether the Local Government have the power to appoint R.E. officers to fill vacancies in the sanctioned establishment; and I am directed to submit the point for the decision of the Govt. of India.

3. According to para: 68 of the Madras P.W. Code, — revised and corrected up to 31st. March 1882, the first appointment of officers to the Engineer Establishment rested with the Governor in Council, the distribution of the young officers of the Royal Engineers, and of the Civil Engineers of the Royal Indian Civil Engineering College, resting with the Government of India.

Govt. of India Standing Order No. 210 of 9th. March 1883 modified para: 36

of the Govt of India Code, which related to such appointments in the Presidencies and Provinces governed by that Code, and the Standing Order in question, although not made applicable to Madras and Bombay, was at the time accepted by this Govt and embodied into the Madras Code, with the addition that — appointments might be "made by the Governor "in Council from the "Madras Civil Engineering "College within the limit "guaranteed from time "to time".

From this it might appear that the Governor in Council had waived the right previously exercised by him to appoint to the P.W. Dept Royal Engineer officers serving in this Presidency, and if the abandonment of that privilege must be inferred from the acceptance of the Standing Order quoted, His Excellency considers that that Standing Order should now be struck out of the Madras Code.

9.1.85

4. As the matter is one of urgency, I am to solicit

the favour of an early reply by telegraph.

Dev

Proposed appointmt of Lieut. Lindley.

Required draft submitted for appr

Paras 987-8 of the Army Regulations (quoted in para 76 P.W.D. Code) are merely counterparts of Code paras 75 & 76.

It seems clear that Lieut. Lindley will not be able to count his service with the Sappers as service in the Dept, he having overstayed twelve months, & not having passed the departmental standard.

There is however no rule against his being appointed to the dept. conditionally on his passing the examination within a reasonable period.

Ce
18.1.85

To

W.

The appointment of Lt. Lindley R. E., to the P.W.D. as Assist: Engineer, 1st. grade, to fill the post held by Capt. Hamilton, R. E., raises certain questions as regards his grading and as regards the effect it will have on the Assistant Engineers of the 2nd. grade.

In the ordinary course of things, the vacancy caused by Capt. Hamilton's death, would give a step of EE IV ~~A.E.~~ 1st. to ~~E.E~~ 2d 1st ~~4th.~~ grade, a step of A. E. 1st ~~2nd~~ to A. E. 2d ~~1st.~~ grade, & leave a vacancy in the A.E. 2nd. grade, to be filled from Cooper's Hill or the C.E. College, or by a junior R.E.

But it is absolutely necessary that the charge of the Military Sub-division at the Presidency should be held by an officer, R.E. None of the officers of the corps in the Dept were available, apart from the fact of their being all (with exception of Capt. Baddeley absent on furlough) too senior for the post, and hence it was decided to apply for the services of one of the R.Es doing duty with the Q.O. Sappers & Miners. Lt. (now Capt) Lindley accepted the nomination, which has the concurrence of the Govt. of India.

This will not interfere with the promotion of the senior A. E. 1st. grade, but the senior A.E. 2nd. grade, will lose the step he would otherwise get. The senior A.Es 2nd. grade (not counting Mr. Carless) were appointed to Dept. in Sept. 1879. Lt. Lindley, a Lieutenant of 1873, arrived in the country in Feby. 1878, and may then be considered as having a legitimate claim to supersede them. Nevertheless, the loss of the step will naturally be felt by the senior Civil A.Es 2nd. grade, and it will affect of course the juniors of the same grade, retarding their advancement.

Two alternatives suggest themselves as a remedy for this hardship.

1st. Lt. Lindley might be placed- for purposes of grading & promotion only-- on the "Military Works" List under the Govt. of India. He would be employed on purely Military Works in Madras, which are a charge against "Imperial", and as he would thus fill a sanctioned post, the Madras Scale should be reduced by one Assistant Engineer 2nd. grade. The "Military Works" list would of course have to be increased in the grade of 1st. Assistants. He would in fact occupy a position similar to Mr. Target's. No one would suffer by this arrangement, which would remove a hardship on our juniors, which will certainly be felt if not given open expression to.

2nd. Lt. Lindley to be borne as a supernumerary in his grade, and not to be absorbed until the 17 Asst. Engineers 2nd. grade, now on our scale, have been promoted to 1st. grade. As above, the A.E. 2nd. grade to be reduced by one, going back to 17 on Lt. Lindleys absorption.

Against the first alternative the Govt. of India may argue that, to obviate any grievance & avoid this complication,

Urgent

Desp'd. 6-1-85

E

Madras might have nominated a junior Lieutenant to the 2nd. grade of assistants. A sufficient reply would be that, even if we could first have "caught our hare"-- which we could not -- the charge of Fort St. George & the Mily. Works at Madras involves responsibilities and duties requiring an officer of several years standing.

The second alternative would somewhat throw back the attainment of the Executive Grade by our present Asst. Engineer, 2nd., but that contingent effect is so remote it need hardly be considered. It would be, perhaps, the better arrangement of the two, inasmuch as it would allow of Lt. Lindley being employed at any period of his connection with the Dept. on "Provincial Works", or Railways, &ca.

You may consider the question need not have been mooted at all, but I think there is a difficulty which had better be faced at once-- which India will, I think, recognise, if fairly put to them-- and for which it would be well to devise a remedy. Possibly some other remedy may be available, but just now I can think of none other, nor can I see any serious objections to the courses I propose. As there is, however, a financial side to the question, it might be well-- if you consider it necessary to go on with it at all-- to take the Examiner's view.

Civ/

P W Department

No. 272 W of 4th February/85

To

The Secretary to the
Government of India
P. W. Department.

Sir

Adverting to my letter No. 89 W dated 10th January/85, reporting the intention of His Excellency the Governor-in-Council to appoint Lieutt (now Captain) W.D. Lindley R.E., to the P. W. Department, as Assistant Engineer Ist Grade, and to the approval of the Governmt of India to the nomination; communicated in your telegram of the & 16th Idem, I am directed to bring to notice that further consideration shows that the appointment in question will raise some difficulty in respect to grading.

2. The vacancy caused by Captain Hamilton's death would, in ordinary course, have given a step of promotion to one Assistant Engineer in each of the 1st & 2nd grades, and have left an

open

open appointment to the 2nd grade; but the appointment of Captain Lindley allows of one step only of promotion being given, viz, from Assistant Engineer 1st grade to Executive Engineer IV grade. It is, however, ~~absolutely~~ considered necessary that the Military works Sub-division at the Presidency should be held by a Royal Engineer Officer, ~~while~~ and the Department contains no available officer of that class of suitable standing. In these circumstances, the nomination of Captain Lindley seems unavoidable, but His Excellency the Governor in Council would wish the appointment to be made without, if possible, affecting injuriously the present position or prospects of officers already on the establishment. This would, it is thought, be effected by placing Captain Lindley for purposes of promotion, on the "Military Works" List of the Government of India; a corresponding reduction being made from the Madras Provincial Establishment in the 2nd grade of Assistant Engineers. There will probably be the less objection to this course, seeing that Captain Lindley will be employed exclusively on Imperial Military works.

3. I am accordingly to submit the case for the favorable consideration of the Government of India.

GOVERNMENT OF MADRAS.

PUBLIC WORKS DEPARTMENT.

General.
Establishment.

Read—the following letter from Colonel W. S. TREVOR, R.E., Secretary to the Government of India, Public Works Department (General), to the Secretary to the Government of Madras, Public Works Department, dated Fort William, 19th March 1885, No. 428 G.:—

I am directed to reply to the general question raised in your letter No. 89 W., dated 10th January, to which attention is drawn in your later letter No. 539 W., dated 7th instant, regarding the power of the Government of Madras to appoint to the Public Works Department officers of Royal Engineer without reference to the Government of India.

2. I am to state, for the information of His Excellency the Governor in Council, that the Secretary of State has limited the recruitment of the engineering establishment to 30 annually, viz.:—

From the corps of Royal Engineer	6
From Cooper's Hill	15
From Indian Civil Engineering Colleges	9

It is therefore impracticable to allow the Governments of Madras and Bombay to appoint officers of Royal Engineers without restriction.

3. The whole question, however, of the strength of Royal Engineers in India, and their distribution, is now under consideration, and the wishes of the Madras Government for liberty of action, within certain prescribed limits, will be borne in mind.

further information received

4. Meanwhile, no appointments of Royal Engineer officers to the engineering establishment can be made either in Madras or Bombay without reference to the Government of India.

Order—dated 26th March 1885, No. 755 W., Public Works.

Letter from the Government of India stating that the question of the strength of — in India is under consideration, and that no appointments can be made without reference to the Government of India, recorded.

Madras.
9th March 1885

From
Capt W D Lindley. RE
Asst Engr Milt Works.

To
Executive Engineer
Presidency Divn

Sir

I have the honor to request the favor of your forwarding and recommending the application which I now make to be appointed an Executive Engineer 4th Grade, because I find that owing to regulations of which I was not aware when I accepted my present appointment as an Asst Engr 1st Grade, my position as regards pay and prospect of promotion is not nearly so good as I expected it to be.

With regard to pay: Instead of receiving Rs 300/. the Staff pay of a 1st g Asst Engr. in addition to my pay and allowances as a Captain RE, I am informed that the maximum to be drawn in PWD is Rs 500/. plus the pay proper of a captain (Rs 140/.).

With regard to promotion: I depended upon being able to pass in Hindustani the lingual test necessary for promotion to Ex Engr 4th grade. but I now learn that it is necessary for me to pass in a vernacular of which I at present have no knowledge, and to acquire which will need a period

to

1st grade pay

433

650
140
790

for study longer in proportion as I devote myself to the duties of my present appointment.

Further I venture to remark that it appears usual for Captains RE coming to India for the first time and joining the PWD to be appointed as Executive Engrs, and I beg that when this application is considered it may not be overlooked that I have had experience as a SubDivl and Executive officer on District work at home, on public works in Cyprus, as an Asst Field Engineer in Afghanistan and Egypt, in charge of buildings erected for the DPW by Sappers at Bangalore, and for the last 2 years in charge of work at Sitabaldi Fort where I was immediately under the orders of the Chief Engineer and in receipt of pay from the PWD.

I have the honor to be
Sir
Your Obedient Servant
W. D. Lindley

Letter from Assistant Engineer Captain W. D. Lindley R.E., dated 9th March 1885.-

Submitted to the Chief Engineer P. W. Dept.

I rather think it was contemplated that Capt. Lindley should come to the Presidency Division, before he was promoted to the rank of Captain; and the P. W. Grade of Assistant Engineer 1st Grade was assigned as for a Lieutenant of Royal Engineers. I believe Captain Lindley is correct in supposing that a Captain joining the Department for the first time, is usually appointed as an Executive Engineer.

Cic: 24/3/85 R 20/3/85

To W.

Captn. Lindley R.E. asks to be made an Exr. Engineer, 4th grade. His pay & prospects – as an Asstt. Engr. 1st grade – he finds to be not nearly as good as he expected when he accepted the appointment.

He gives the maximum which he can draw as 500 – plus pay proper. This is incorrect the maximum being Rs 550 under a recent Resolution. Further he makes no mention of Presidency House rent and Presidency allowance, important items.

I think he is wrong too in assuming that Captains R.E. coming to India for the first time and joining the P.W.D. are appointed Exr. Engineers, 4th grade. They may be, but are not necessarily so.

The Bengal Classified List up to June 84, has 3 Captains (Rich, Olivier, & Davidson) senior to Lindley, who are A.E's. And in the R.E. Journal of 1st Decr. 84, I see 5 Captains who rank as A.Es, 1st grade. —

It is needless to say there would be a great outcry if we brought Captn. Lindley in over the heads of all our A.E's, 1st grade. India would not consent to his being attached to the Military Works Branch, and I presume it would be useless to ask for sanction to his being borne on our list as a supernumerary.

C.S.
20.3.85

Yes. A note for orders should be prepared on above lines.

P. W. Deptt.

For Orders.

Letter from Captain W. D. Lindley R.E. dated 9th March 1885.

Captain Lindley R.E., recently appointed Assistant Engineer I grade, asks to be made an Executive Engineer 4th grade.

His pay and prospects as Assistant Engineer I grade are not, he finds, nearly so good as he expected when he accepted his appointment to the P. W. Department.

He gives the maximum which he can draw as Rs 500 plus pay proper. This is incorrect; the maximum being Rs 550 under a recent Resolution of the Govt. of India. In addition to this, he draws Presidency House× rent; and Presidency allowance.o

× Rs 60
o Rs 50.

His assumption that R. E. Captains coming out to India for the first time, and joining the P. W. Department, are appointed Executive Engrs: 4th grade, does not seem to be borne out by facts; judging from the lists of the other Presidencies. The Bengal Classified List up to June 1884 has 3 Captains (Rich, Olivier, and Davidson,) senior to Captain Lindley, who are Assistant Engineers; and in the R. E. Journal, (corrected up to the 1st December 1884) there are found to be 5 Captains who rank as Assistant Engineers I grade.

There would probably be much discontent if Captain Lindley were brought in, above all the Asst Engineers I grade already on the Madras list.

The Govt. of India have recently declined to allow Captain Lindley to be attached to the Military Works Branch, and it would apparently be useless to ask for sanction

[illegible] be told
[illegible] warrant
not Govt
be [illegible]

to his being borne on the Madras list of Executive Engineers 4th grade as a *supernumerary*.
