Waltair 14th February 1885.

From

The Executive Engineer
Vizagapatam Division

To

The Superintending Engineer
First Circle
Dowlaisheram

Sir,

Referring to your endorsement
N^o 344 V.L. dated the 4th Instant on the
Chief Engineer's Memo N^o 126 C. dated
the 21st January 1885, herewith returned,
I have the honor to inform you that
the messengers and lascars for whom
warm clothing is necessary, are required
frequently to travel on the Ghat with
the Divisional and Sub-Divisional
Officers and Quereers, so as to assist
them in taking measurements of works
executed and procuring supplies &c &c
besides other miscellaneous duties.

The men employed in the Vizianagram
Sub-Division are required continually.

...on the Ghat, and the subordi-
nariat Officer, and Amascers, and
those attached to this Office are also
required to travel with me there for
weeks together.

2. The Cold on the Ghat is very extreme
and unless these men properly cover
themselves, they cannot stand there and
so it is therefore absolutely necessary
that they should be supplied with
warm clothing in as much as they
cannot afford to provide themselves
with such.

3. Although the Ghat line was declared
open to traffic, yet the construction of
buildings and Cooly lines &c. are still
in progress.

4. After the Ghat ^{work} has been fully com-
pleted, I think it will be necessary
to supply warm clothing every year
only to those men who are attached
to the subordinates who stop on the Ghat
and at Sympore and biennially to those
who accompany the Divisional and
Divisional Officers on their tours

of inspection may add also
all officers travelling on the Ghat even
for short periods in the Cold season
are obliged to supply their private ser-
vants with warm clothing.

I have the
Honble J. D. Harris
Executive Engineer
Vizagapatam Division
