GOVERNMENT OF MADRAS.

PUBLIC WORKS DEPARTMENT.

General.
Establishment.

READ—the following papers:—

From J. W. RUNDALL, Esq., Superintending Engineer, II Circle, to the Chief Engineer for Irrigation, dated Masulipatam, 23rd March 1885, No. 1039 S.G.

The Executive Engineer, Sangam project division, has applied for sanction to the employment of an additional surveyor and two additional draftsmen to get out the designs and estimates for distributaries.

2. If the necessary men can be got, it would, in my opinion, be better to employ them now, while the engineering staff at Sangam is at its full strength, than to leave these minor channels to be worked out hereafter, when the staff has been reduced. Even if the minor channels are not carried out at once it would be better to have them investigated now and the estimates completed, but it is probable that it will be advisable, in many cases, to carry out these branch channels before the next irrigation season.

3. The work involved in getting out the estimates is much more than was originally supposed; the Executive Engineer reports that unless they are investigated much more quickly than hitherto he will not be able to get the channels ready by next irrigation season.

4. I therefore request that the accompanying estimate for the extra temporary establishment may be sanctioned at an early date. Please wire the fact of sanction, as the Executive Engineer has to look out for men.

ENCLOSURE.

ESTIMATE for extra temporary establishment required for Sangam project division in 1885-86.

Establishment required.	Work on which to be employed.	Period for which required.	Proposed salary.

Enclosure. one. Sir,

The Executive Engineer, Sangam
Project Division, has applied for sanction
to the employment of an additional
Surveyor and 2 additional Draftsmen
to get out the designs and Estimates for
distributaries.

2. If the necessary men can be got,
it would in my opinion be better to employ
them now, while the Engineering Staff at
Sangam is at its full strength, than to
leave these minor Channels to be worked
out hereafter, when the staff has been
reduced. Even if the minor channels are
not carried out at once, it would be
better to have them investigated ^{now} and
the Estimates Completed, but it is probable

that it will be advisable in many cases to carry out these branch Channels before the next irrigation season.

3. The work involved in getting out the Estimates is much more than was originally supposed, the Executive Engineer reports, that unless they are investigated much more quickly than hitherto, he will not be able to get the Channels ready by next irrigation season.

4. I therefore request that the accompanying Estimates for the extra temporary Establishment may be sanctioned at an early date. Please advise the fact of sanction, as the Executive Engineer has to look out for men.

I have the honor to be,

Sir,

Yours most obedt servant.

L. W. Rumsall
Superintending Engineer,
