Bangalore Division.	Bangalore	Transport Department. I. Accommodation for 209 mule saddles and 35 sets of harness. II. Sheds for 56 carts, 12 trollies and 12 light carts. III. Sheds for 50 sick carts. IV. A room for veterinary medicines and instruments.	Rs. 1,545	Urgently required, as the whole of the sick carts, dhoolies, &c., are now in charge of the department.	A very necessary requirement; the present harness room altogether insufficient; the harness cannot, without difficulty, be properly overhauled. The carts, dhoolies, undoubtedly deteriorate by being kept in the open.	Very necessary.
	Do.	Royal Artillery. A new latrine for the Staff Sergeant's quarters for Horse Artillery, the present one being old and condemned on sanitary grounds.	2,100	Required on sanitary grounds	Urgently required on sanitary grounds as reported by the committee in 1882.	Very necessary.
	Do.	Quarters for a Battery Quartermaster Sergeant, Royal Horse Artillery.	1,100		Conversion recommended as approved by His Excellency the Commander-in-Chief last year.	Approved.
	Do.	Cook-house for Sergeant's Mess of two field batteries.	1,470	Very necessary	A very necessary requirement.	Necessary.

	Do.	Stone drains to forage yard and lines, Royal Horse Artillery.	1,440	Sanctioned when funds are available. Considered desirable.	I consider that surface drains would meet the requirements in this case and could be executed by the Sappers at less than half the cost.	The suggestion of the General Officer Commanding approved of.

Do.	...	<i>Camp Equipage Godowns.</i> Laying down one-inch water-pipe from main pipe to Camp Equipage stores, length 830 feet.	1,170	Considered it necessary in case of fire, damp, or other accident, as the building is isolated from the barracks and contains nearly the whole of the camp equipage of the station (brought forward for the first time).	Very necessary, the original pipes (<i>sic</i>) when these buildings ceased to be barracks. I consider the estimate greatly over drawn.	Desirable, but cost seems excessive.

PUBLIC WORKS DEPARTMENT.

General.
Account.

READ—the following papers :—

From Brigadier-General R. C. STEWART, Quartermaster-General, to the Secretary to Government, Public Works Department, dated Ootacamund, 3rd October 1884, No. 1487-A.

I have the honor, by order, to forward, herewith, the schedules of military works, major and minor, required to be provided for in the budget list of 1885-86, together with a list of the more important major works, classified as per margin and entered in the order of their urgency, which His Excellency the Commander-in-Chief would wish submitted for the special consideration of Government, with the following observations :—

Class A.—Works actually in progress to complete which grants are wanted.

Class B.—Urgent works not yet commenced for which grants are required.

Class A.—The works under this classification being actually in progress, the necessity of suitable grants being allotted for their completion needs no comment.

Class B. I.—Last year it was hoped that the first two items in this class, viz., “Gymnasium, British infantry, Fort St. George,” and “Accommodation, native cavalry regiment, Bangalore,” would, by the opening of the current year, belong to class A; but this hope has not yet been realised. His Excellency would therefore urge upon Government the necessity of providing funds at an early date for the commencement of these important works.

II. *Item No. 3.*—“Bakery at Wellington” was also expected to belong to class A this year, but this has not been the case up to date; and as, in His Excellency's opinion, the work is one of special urgency, he hopes Government will allot funds at an early date for its commencement.

III. *Item No. 4.*—“Accommodation for a native infantry regiment, Bangalore.” The 14th regiment, native infantry, for whom these buildings are required, have arrived at Bangalore and are now engaged in building their lines at that station, and it is very desirable that funds should be allotted as soon as possible, so that a commencement may be made for providing the necessary subsidiary buildings.

IV. *Item No. 5.*—“Military prison at Bangalore.” This work is, in His Excellency's opinion, of great importance and very urgent, and he therefore hopes funds will be provided for it next year.

V. *Item No. 6.*—“Water-supply to barracks, Royal artillery and British infantry, Bellary.” This is a work the importance of which is strongly urged by the medical authorities.

VI. *Item No. 7.*—“Armourer's shop, 2nd Light cavalry, Bellary.” This is a work very much needed and of real importance, and should not be delayed.

VII. *Item No. 8.*—“Store-rooms and workshops for the Pioneer regiment at Bangalore.” It having been decided that a Pioneer regiment shall be always located at Bangalore, and as the 1st Madras Pioneers may be expected to arrive there in the course of a few months, it is very desirable that these buildings should be furnished for their equipment, &c., as soon as possible.

VIII. *Item No. 9.*—“Stabling for Royal artillery, two batteries, Saint Thomas Mount.” The Commander-in-Chief would again urge upon Government the great importance of having their horses properly sheltered, and accordingly recommends an early allotment of funds for the commencement of this work.

IX. *Items Nos. 10 and 11.*—"Additional hospital accommodation for women and children" and a "church" at Wellington. These are urgent requirements and should therefore not be delayed.

X. *Item No. 12.*—"Coffee shops, Royal artillery, Saint Thomas' Mount." These are, in His Excellency's opinion, urgently required for the two field batteries at Saint Thomas' Mount.

2. The other works in the schedule, although not entered in class B, are nevertheless considered to be really necessary, and it is only because an undue demand for funds would have to be made in connection with them that they are omitted therefrom.

3. In conclusion, His Excellency would strongly urge upon Government the necessity, from the foregoing remarks, of appealing to the Government of India for a large and liberal grant for military works in the coming year, so that none of the many important original works included in class B may be allowed to stand over any longer.

The grant of hutting money by the State is to be viewed only as an assistance conceded by the Government to aid native soldiers in the building and repair of their lines. It is in no way contemplated to relieve them altogether from the obligation of providing their own shelter, the liability to this having always been one of the conditions of service in the native Army. The only circumstances under which the Government will take upon itself the whole expense of providing quarters for native troops are when such troops may be quartered within fortified posts, or at places where details are only temporarily detached and often relieved; but all such cases must be referred to Government to be decided on their own merits.
