Extract from the Proceedings of a meeting of the Municipal Councillors of Ootacamund held on Saturday the 6th June 1885

I. Read G.O. No. $\frac{\text{53 M}}{\text{1-5-85}}$ forwarding with remarks, for the consideration of the Municipal Council, Ootacamund, Estimates and Plans for improving the water supply of the town.

The councillors accept with much satisfaction the liberal proposals of Government for supplying the town with water. They observe that the full amount annually required for payment of interest on 1¼ lakhs of Rupees at 4 per cent and providing a sinking fund at 2 per cent for extinguishing the loan, is Rupees 7,500 which can be met by imposing a water-tax on buildings and lands at 2½ per cent. This would in effect, raise the house and land tax to 10 per cent on the annual value from 7½ per cent, the rate at which it is now assessed. The councillors do not consider this is paying too dearly for the great benefit which will be secured for the inhabitants by the execution of the proposed water-supply scheme

On Jnl/6947/85

They would however beg to suggest that provision be made in the estimate for laying branch pipes along all the bye-streets and lanes of the bazaar, and other thickly populated quarters of the town.

They would further suggest that the tax be levied only upon completion of the work.

READ the following

letter from the Chairman, Municipal Council, Ootacamund, dated 12th June 1885 No 269:-

With reference to G. O Financial Department, No 53 M, dated 1st May 1885, I have the honor to forward copy of a Resolution passed at a meeting of the Municipal Councillors of Ootacamund on the 6th Instant from which it will be seen that the councillors accept with much satisfaction the liberal proposals of Government for improving the water-supply of the town. The council trust that the suggestions made in their Resolution will meet with the approval of Government.

Endorsement on the above

Mis: No 815.
