From H. B. GRIGG, Esq., M.A., Director of Public Instruction and the Commissioner for the Uncovenanted Civil Service Examinations, to the Chief Secretary to Government, dated Ootacamund, 14th May 1884, No. O/154.

With reference to Reference No. 977, dated 5th May 1884, on G.O., No. 983 W., Public Works, dated 16th April 1884, I have the honor to inquire what the duties of an Irrigation Conservancy Superintendent are, and what pay is attached to the post.

To the Chief Engineer for Irrigation in original to be returned.

Memorandum from the Chief Engineer for Irrigation, dated 21st May 1884.

With reference to endorsement, No. 167 E., dated 21st May 1884, the undersigned has the honor to report that the duties of an Irrigation Conservancy Superintendent are to watch the river banks, the canals, and principal branches, and all masonry works ; to prevent damage by weather or water action ; to see that the canals, banks, and sluices, &c., are not tampered with or injured by ryots or others ; to see that the Executive Engineer's orders regarding the proper depths to be maintained at the regulating calingulahs or sluices within his charge are accurately carried out ; to keep the Executive Engineer informed of the condition of crops under irrigation, and the state of the water-supply ; to prepare estimates for, and superintend execution of, clearances and bank repairs which may often require levels to be taken.

2. The pay of a Conservancy Superintendent varies from 8 to 50 rupees and upwards according to the responsible nature of the duties devolving on him. The pay drawn by the Superintendents of the Tanjore district is shown below :—

Number.		Salary. RS.

To the Director of Public Instruction.

From H. B. GRIGG, Esq., M. A., Director of Public Instruction, Madras, to the Chief Secretary to Government, dated Ootacamund, 1st July 1884, No. O/417.

With reference to official memorandum, No. 977, dated 5th May 1884, I have the honor to state that, considering the duties and salary attached to the office of Conservancy Superintendents, I am of opinion that Irrigation Conservancy Superintendents on salaries of Rs. 20 and upwards should be required to pass the usual tests for admission to the public service, although the Government might exempt, in special cases, for long service and good work, men already in Government service who have been employed in the capacity of Superintendent for a considerable period—say ten years.

2. I think it undesirable to treat the servants of any department of the Government service exceptionally, as such exceptional treatment tends to create dissatisfaction among other servants of Government not similarly favored. The Government approved this view sometime since on an application of the Commissioner of Salt Revenue to exempt certain lower subordinates of the department from the general education tests, and I think the principle should be maintained in all departments without exception, leaving individual cases for special treatment.

Recorded, with reference to G.O., No. 983 W., dated 16th April 1884.

2. In the circumstances as represented by the Director of Public Instruction, the general educational qualifications required for admission to the public service must be maintained in the case of Irrigation Conservancy establishments of the Public Works Department.

SIR,

Enclosures.

In the Provincial Budget there are entries of Rs. 25 and Rs. 15 for two Superintendents, for the Madras Water Supply and Irrigation Extension Project: but at present, the Superintendents at the Tamarapauk Anicut, and at the Red Hills Tank, both draw Rs. 15.

2. The Executive Engineer of the Red Hills Tank Division has recommended that the Tank Superintendent, N. Somasoundrya Naicker, should receive the pay of Rs. 25 with effect from the 1st April 1885, and the recommendation

is

is supported by Colonel Pennycuick - Mr. Norris writes

"His services now and ever since
"I have been here have been worth
"the said salary, but he has
"only drawn Rs. 15. He is a
"passed Draughtsman of
"the 3d. Class, helps in the
"Office in that capacity a
"good deal, and is all
"round a valuable servant
"of Government."

3. The Executive Engineer of the Chinglepet Division, spoke very highly of the Tank Superintendent's activity on the night of the destructive storm last November. Colo. Smalley considered that he was instrumental in saving life and property in rousing the Village people at Tulukan Chattram, and thus enabling them to escape from the flood. I restrained from making any recommendation at the time: but as the Tank Superintendent has now for 6 months gained the approbation of other Officers with whom he had no previous service I propose, with your sanction that the higher pay of Rs. 25, as provided in the Budget be allowed from the 1st April 1885.
