Proceedings of the Board of Revenue, dated 4th March 1886, No. 561.

Read—the following letter from W. A. WILLOCK, Esq., Acting Collector of Vizagapatam, to the Secretary to the Board of Revenue, dated 8th February 1886, No. 140 :—

In their order, No. 1293 W., Public Works, dated the 23rd May 1884, the Government sanctioned the construction of a third-class taluk cutcherry at Sálúr at a cost of Rs. 8,660.

2. The accommodation provided in the plan and estimate sanctioned in the above Government order was found insufficient, inasmuch as no treasury was provided. Certain modifications were consequently found necessary to suit the building to local requirements and were communicated to the Executive Engineer in view to the preparation of revised plans and estimates.

3. The Superintending Engineer in charge of the I Circle has now sent me revised plan and estimates, which I submit herewith as per description in the margin.

3 Plans.
1 Detailed estimate.
1 Abstract do.
1 General abstract.
1 Specification and report.

4. The modifications proposed are fully described in the Executive Engineer's report accompanying the estimate and I need not recapitulate them here.

5. The cost of the building as now estimated is Rs. 10,230.

6. I request that the Board may be pleased to obtain the sanction of Government for its construction as now proposed.

Resolution—dated 4th March 1886, No. 561.

The revised plan and estimate for Rs. 10,230, for constructing a third-class taluk cutcherry at Sálúr, are herewith submitted for the sanction of Government.

2. The increase over the original estimate is only Rs. 1,570, and is due to the necessity for providing for a treasury-room and for raising a wall round the compound in lieu of a hedge, as originally proposed.

Read—the following letter from H. G. TURNER, Esq., Acting Collector of Vizagapatam, to the Secretary to the Board of Revenue, dated 16th March 1882, No. 267 :—

I have the honor to report that I have personally inspected the Government building in which the deputy tahsildar of Sálúr has been hitherto holding his office. It is not only incommodious and unfit for use, but is also in such a state of disrepair that the deputy tahsildar and his establishment can sit in it only at a considerable risk of their lives. I have, therefore, directed the deputy tahsildar to remove his office at once into a rented building in the heart of the town; and he did so on the 1st January last. The rent of the building is fixed at Rs. 10 per mensem.

2. I therefore request that you will be good enough to obtain the sanction of the Board of Revenue for the disbursement of the rent from 1st January till a new building is erected, for the construction of which measures are set on foot.

Resolution—dated 28th April 1882, Mis. No. 3160.

Sanctioned.

2. Further report regarding the erection of a new building is awaited.

1 Explanatory memorandum.
2 Reports.

I have the honor to forward herewith a revised estimate for the Kandukúr sub-jail, amounting to Rs. 12,325, together with a comparative statement and explanatory memorandum by the Executive Engineer and two reports.

2. If the Executive Engineer's proposition be accepted, and the unfinished latrine be converted into a ryots' shed, only Rs. 350 more than the present sanction will be required to complete the building.

3. As far as my experience goes numerous latrines have been constructed throughout the Presidency in connection with these Cutcherries which are never used, nor can they be used unless an establishment is maintained to keep them clean. There are still many Cutcherries on the standard plan to be built in various districts, and I would suggest district officers being called on to report whether it is necessary to continue building latrines which are never used.

No. 608 E.

Referred to the Judicial Department for approval, and for consideration whether the ryots' shed may be omitted as suggested; the latrine being finished off to serve as such.

Resolution—dated 2nd September 1882, Mis. No. 6818.

The Board agree with the Superintending Engineer. The construction of latrines is generally unnecessary considering the small number of prisoners usually confined in sub-jails, and it is believed that such buildings are but rarely used for the purpose for which they are intended.

ORDER—dated 20th September 1882, No. 2440 W., Public Works.

The proposal to finish off the partly built latrine at the Kandukúr sub-jail, Nellore District, to serve as a ryots' shed, having been approved in the Judicial Department, the building provided for in the estimate for the latter purpose need not be constructed. The excess over the original estimate, sanctioned in G.O., Judicial Department, No. 1488, dated 11th August 1874, will thus be only Rs. 350, and this can be dealt with by the Superintending Engineer under paragraph 293, clause (*e*) of the Public Works Code.

2. The Proceedings of the Board of Revenue, communicated with the foregoing endorsement from the Judicial Department, will be communicated to all Superintending Engineers for information and guidance.

NOTE OF REMARKS.

1. The accompanying revised plan and estimate provide for constructing a third-class taluk office at Salur in the Vizagapatam district. The revised estimate which exceeds the original estimate, Rs.8,660, sanctioned in G.O. No.1293 W. of the 23rd May/84, by Rs.1570, amounts to Rs.10,230 and is divided as follows:— Main building—Rs.7,186; ryots shed—Rs.666; kitchen—Rs.383; gate—Rs.55; boundary wall—Rs.1,696; cartage—Rs.150; arm-racks—Rs.50; chubbs padlock—Rs.29; and compensation for land—Rs.15.

2. The revision of the original design is due to the necessity for providing for a treasury room and for raising a wall round the compound in lieu of a hedge, as originally proposed." — The

standard design sanctioned in G.O. No 786 of the 7th March/77 is to be modified as follows:— The Record room is to be converted into a Treasury room;— the walls dividing it from the Police and Clerks rooms receiving arched openings with iron rails and an iron barred door; and the Post-office and Registrars office are to be converted into a large Record room by the wall now intervening between the two offices being omitted.— The proposed boundary wall is to receive a foundation of rough stone-in-mortar 3 feet deep and a superstructure of brick-in-mortar, plastered, 5 feet high.

3. A comparative statement has not been submitted, though particularly desirable in the present instance.— The report states that "An iron strong room is not provided as three iron safes have already been supplied to the Treasury"— The iron strong room provided in the original estimate was priced Rs. 930.— The amount set down in the original estimate for "compensation for land" was Rs. 415; in the revised estimate this item is Rs. 15.

4. The scantlings of the various timbers are correct.— The rates are fair.— The revised plan and estimate have been countersigned by the Collector of the district, and have been approved in the Revenue Dept.
