No. 1069 T.J.

Report by Superintending Engineer, VI Circle, on revised estimate for sub-registrar's office at Velangaman.

The original estimate for Rs. 2,140 was sanctioned in G.O., No. 2103 W., dated 1st August 1883. The site proposed was approved of by the Inspector-General of Registration; it was on a piece of private land behind the pound which faced the main street.

2. The work was commenced this official year, and the foundations have been built nearly up to ground level.

3. The registrar of the district now objects to the site, on the ground that it does not face the main street, and that the backyards and garden on each side of it are used as latrines.

4. The Collector agrees to give up the pound site, provided a new pound is made in rear of the present site, or when the foundations of the registrar's office have been put down.

5. The extra cost of this is Rs. 542, Rs. 262 being the value of the work that has been done and which must be abandoned, and Rs. 280 for building a new pound, and sanction is recommended, as there is no doubt the site facing the main street is the best. A sketch of the sites is enclosed.

Submitted and recommended for sanction.

2. It was not known when the site plan was approved of that the building, when constructed, would "face unenclosed backyards resorted to as latrines." The sub-registrar of Valangaman reported the circumstance on the 13th June last, and on the 19th idem his letter was sent to the Executive Engineer, Tanjore, for consideration.
