GOVERNMENT OF MADRAS.

PUBLIC WORKS DEPARTMENT.

General.
Account.

Read—the following papers:—

From Colonel H. L. PRENDERGAST, R.E., Superintending Engineer, V Circle, to the Chief Engineer, Public Works Department (through the Examiner, Public Works Accounts), dated Chepâk, 23rd March 1886, No. 5233.

I have the honor to forward an indent, in triplicate, on the Home Government, with specification, for a wrought iron girder bridge of two spans of fifty feet each, required by the Superintending Engineer of the IV Circle for the Sholadi bridge on the Vayitri-Gúdalúr road. The girders are to be precisely similar to those required for the Kundagam Poya bridge on the Calicut-Vayitri road as entered in the indent sent with Colonel Burton's letter, No. 3695, dated 27th November 1885. For this reason drawings have not been furnished by the Superintending Engineer of the IV Circle to accompany the present indent; but the drawings accompanied the indent sent in November 1885.

Endorsement on the above.

No. 741-S.E.V.

Forwarded to the Secretary to Government, Public Works Department, with the remark that no specific grant appears to be provided for the Sholadi bridge in the preliminary issue of the provincial budget for 1886-87, unless it is included in the grant of Rs. 1,00,000 for improving the road from Calicut to Vayitri, item No. 139. It is also necessary to point out that the value of the stores indented for is not mentioned in the indent.

(Signed) D. C. GORDON,
Examiner, Public Works Accounts.

29th March 1886.

Office note to the Superintending Engineer, V Circle, dated 31st March 1886, No. 1298 C.

Cannot the approximate value of the stores included in the enclosed indent be given by the General Superintendent, Public Works Stores?

The bridge has been estimated for by the Superintending Engineer, IV Circle, and that officer should be communicated with by wire if necessary.

From Colonel H. L. PRENDERGAST, R.E., Superintending Engineer, V Circle, to the Chief Engineer, Public Works Department, dated Chepâk, 7th April 1886, No. 116.

In returning the enclosures of your office note, No. 1298 C., dated the 31st ultimo, I have the honor to report that the General Superintendent, Public Works Stores, has ascertained from the Superintending Engineer, IV Circle, that the total estimated amount for the girders, &c., including freight, carriage to site and placing in position is Rs. 8,470. Allowing Rs. 1,470 as the probable cost of freight, carriage and construction, Rs. 7,000 are considered to be the approximate value of the wrought iron girder bridge.

Office note to the Examiner, Public Works Accounts, dated 10th April 1886, No. 1465 C.

The estimate sanctioned in G.O., No. 2412 W., dated 15th October 1885, for improvements to the road from Vayitri to Gúdalúr, includes the proposed bridge over the Sholadi river.

2. The estimate for this bridge and its approaches amounts to Rs. 20,551, and a sum of Rs. 3,000 was allotted for commencement of the work in G.O., No. 152 W., dated 18th January 1886. The balance, Rs. 17,551, will be appropriated from the provincial reserve of 1886-87.

3. You will now perhaps be able to furnish the necessary certificate.
