PUBLIC WORKS DEPARTMENT.

General.
Account.

Read—the following papers:—

From the Consulting Architect to Government, to the Chief Engineer, Public Works Department, dated Chepâk, 14th April 1886, No. 64.

I have the honor to submit, for your approval and transfer to the General Superintendent, Public Works Workshops, an indent for 2,370 yards Willesden paper. The paper is urgently required for laying under the tiled roofing of the Lying-in Hospital at Madras. The roofing of these buildings are covered with the ordinary flat and pan tiles which are not quite water-tight during very heavy rain accompanied with strong wind; a small portion of the roof was lined with the paper as an experiment, and the Superintendent of the hospital reports that it "has been a complete success."

2. Provision has been made for lining the entire roof in the estimate for special repairs to the Lying-in Hospital sanctioned in G.O., Public Works Department, No. 1846 W., dated 10th August 1885.

3. The paper is urgently required as the work of repairs has been already put in hand.
