Letter from the Superintending Engineer 111 Circle No 89 dated 12th April 1886

With reference to your Memorandum No 2. 111 dated 1st April 1886 I have the honor to report, that the C Project Division can be closed from end of June 1886.

2. There is a first Class Draftsman in the Project Division whose services were transferred from the Bengal Presidency; and there is a Clerk who has about 10 years service. If the services of these men are to be dispensed with, Pension or Gratuity as the case may be, will have to be given to them.

3. I would therefore solicit your instructions whether these men ought to be retained until they can be provided for on the occurrence of vacancies on the Permanent Establishment; or should their services also be dispensed with.

Order thereon No 1157 W dated 8th May 1886.

Communicated to Superintending Engineers, for early report whether the services of either the draftsman or clerk are required in their respective Circles. Meanwhile the men will be retained.

2. It is observed that provision has been made for carrying on the Project Division to the end of August 1886.

With reference to your Memorandum No 2. 111 dated 1st April 1886 I have the honor to report, that the C Project Division can be closed from end of June 1886.

2. There is a first Class Draftsman in the Project Division whose services were transferred from the Bengal Presidency; and there is a Clerk who has about 10 years service. If the services of these men are to be dispensed with, Pension or Gratuity as the case may be, will have to be given to them.

3. I would therefore solicit your instructions whether these men ought to be retained until they can be provided for on the occurrence of vacancies on the Permanent Establishment; or should their services also be dispensed with.

Order thereon No 1157 W dated 8th May 1886.

Communicated to Superintending Engineers, for early report whether the services of either the draftsman or clerk are required in their respective Circles. Meanwhile the men will be retained.
