Read—the following papers:—

From the Collector of Nilgiris, dated 5th June 1886, No. 663.
Memorandum from Public Works Department, dated 16th June 1886, No. 255 D.

Order—dated 18th June 1886, No. 565-A (M.), Financial.

On further consideration, the Government resolve to carry out from Provincial Funds so much of the Ootacamund water-supply scheme as relates to the northern side of Ootacamund, and to leave the portion relating to the southern side, the estimated cost of which is Rs. 75,000, to be dealt with by the municipality.

2. The estimate for the northern portion amounts to Rs. 1,70,000, of which the sum of one lakh, already provided in the Provincial Public Works budget, can, it is believed, be spent within the year.

3. The execution of the southern portion of the scheme by the municipality may be postponed pending the completion of the northern portion. The necessary action on these proceedings will now be taken in the Public Works Department.

(True Extract.)

(Signed) E. S. LAFFAN,
Acting Under Secretary.

From the Executive Engineer, Nilgiri division, dated 18th June 1886, No. 804.

ORDER—dated 18th June 1886, No. $\frac{1545 W.}{A}$, Public Works.

The estimate, amounting to Rs. 1,70,000, for improving the water-supply of that portion of Ootacamund lying to the north of the lake, is sanctioned.

2. A sum of Rs. 1,00,000 has been provided for the scheme in the final issue of the Provincial budget for 1886-87. The Superintending Engineer, IV Circle, will take immediate steps for commencing work, and will make such arrangements as may be necessary to utilise the full amount of the allotment without fail.

3. This sanction has been registered as Provincial, No. 52 W. of 1886-87, and classified as Miscellaneous Public Improvements, Original Works.

JUNE.

Ootacamund Water Supply.
Estimate of Rs. 1,70,000 for improving
the — sanctioned with remarks.

1525/3
Extract from the Proceedings of an
Extraordinary meeting of the Municipal
Councillors of Ootacamund held on
Saturday the 5th June 1886.

II Read Proceedings of the Madras
Government on the letter from the
Collector of Nilgiris No. 28 dated 28th
ultimo regarding water supply for
the town of Ootacamund.

The following resolution was
carried unanimously:—

The council being desirous of
securing the liberal assistance of the
Government in carrying out the scheme
of distribution of the north and South
water supply are prepared in deference
to the suggestion of Government to raise
a loan of Rs. 50,000 in the current year
for the purpose of meeting a moiety
of the expenditure which, the Public
Works department are prepared to
incur.

They will provide a sum of
Rs. 4,000 in the Budget of 1887/88 for
payment of the Interest at 6 per cent
and

and 2 per cent for a sinking fund
for the extinction of the debt on
account of the above loan.

This sum can be provided
by the imposition of a water-tax of
2½ per cent. on the whole town, which
tax will have to be levied before
the completion of the works. As the
Council are of opinion that the im-
position of a water-tax before the
completion of the work will give
rise to dissatisfaction, they trust
that the Government will see their
way to guarantee the completion
of the works in 1887/88. in order that
the period during which taxation
is imposed without the corresponding
benefit of improved supply may be as
short as possible.

In the event of the Govern-
ment undertaking to complete the
works in the year 1887/88 (an under-
taking which the Council trust
will not be considered impossible,
the Council on their part undertake
to raise the balance of £45,000

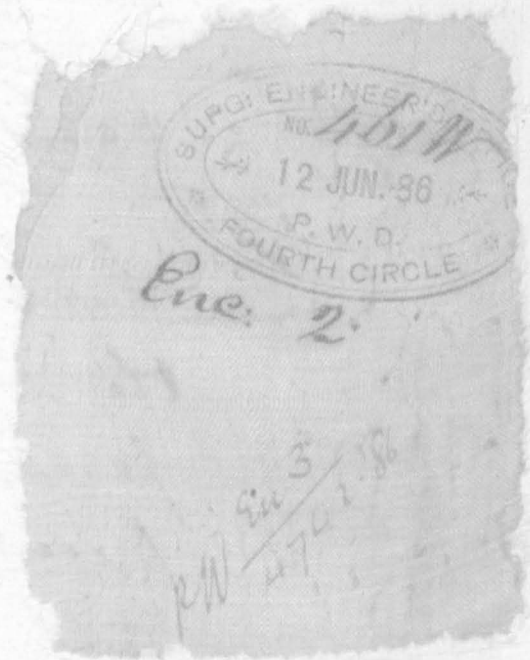

in the year 1887/88 and in subsequent
years to provide the funds for the
interest and sinking fund by
additional taxation.

The Council presume that
during the execution of the works
the present supply will not be
permanently interrupted. If the
present supply is cut off concurrently
with the imposition of taxation on
account of water, the situation will
be greatly aggravated. The Council
would feel obliged to Government
if some assurance is given them on
this point.

R. B. Smith
Collector

In charge of Chairman's office
ome.

No. 451

Cataramund
Municipal Councilors' Office
5th June 1886.

From

The Chairman
Cataramund Municipality

To

The Chief Secretary to Govt.
Financial Department

Thro' the Collector, Nilgiris.

Sir, With reference to the order of
Government dated ^{12th June 1886} No. — I have
the honor to submit extract from the
Proceedings of the Municipal Council
of Cataramund of this date. I trust
that the Government will be pleased
to accept the present proposals on the
subject of the water-supply works.
The intention of the Council is to call
in the loan of Rs 50,000 during the 2nd
half of the current year so as to meet
the necessity of providing funds for
interest and sinking fund in the current
year. The Council as representing the
tax-payers also place much importance
on the work being completed in good
time.

before the 31st March 1888, with the
view of curtailing as far as possible
the period during which it will be
necessary to impose a water-tax -
without compensation in the shape
of an improved supply.

2. The entire loan of Rs. 125,000
will necessitate the imposition of
a water-tax of 4 per cent to meet the
liability for Interest and Sinking
Fund. The tax on buildings and lands
at present in force is calculated at
 $7\frac{1}{2}$ per cent on the annual rental value.

3. I have to request that the Govt.
will kindly inform the Council -
whether and if so to what extent
the present supply will be interrupted
during the execution of the new works.

I have the honor to be
Sir,
Your most obedient servant

L. P. S. M. S.

Mr.

Superintending Engineer, Office of
Coimbatore, 15 June 1886.

From,

The Superintending Engineer,
Fourth Circle.

To,

The Chief Engineer,
P. W. Department.

Sir,

As directed in your memo.
2. Enclosure No. 234 D. of 11th instant I have
the honor to report that if the
Ootacamund Water supply project
be sanctioned at once for execution,
my answers to your questions are
as follow:-

I. The works of the project can
be completed by 31st March 1888, and

II. The existing water supply
will not be interrupted during
the progress of the work.

2. In anticipation of sanction
I have requested the Executive
Engineer, Nilgiris, to advertise
for tenders for carrying out the

the work. I presume that no
Contractors who may be selected,
will be at liberty to supply
all materials; including the iron
work.

3. As it is evidently of the first
importance that the estimate for
the works required for the portion
of the Station of Ootacamund lying
to the south of the lake should
be submitted without delay, I
have asked the Executive Engineer
to report definitely when he will
be able to furnish that estimate,
and this information will be com-
municated to you as soon as it
is received.

I have the honor to be,
Sir,

Yours most obdt. Servt.

J. Beatty. Colonel. I. E.
