GOVERNMENT OF MADRAS.

PUBLIC WORKS DEPARTMENT.

General Establishment.

READ—the following papers:—

From Colonel W. H. BURTON, R.E., Officiating Superintending Engineer, V Circle, to the Chief Engineer for Irrigation, dated Bangalore, 22nd December 1885, No. 4091:—

I have the honor to bring to your notice that the Executive Engineer, North Arcot division, reports that the establishment at present allowed for the Govindavadi channel, viz., one superintendent and three lascars, is too small for the work required.

2. These men have charge of the division sluices at the place where the Govindavadi branches from the Kávéripák tank supply and also the first 8½ miles below these sluices.

3. The channel has this year been considerably improved, and bank work is being carried out in the lower parts of the channel; these new embankments are very much injured by cattle.

4. The superintendent and three lascars have quite as much as they can do in attending to the division sluices and the first few miles of the channel, and it is, Mr. Davidson reports, quite impossible for them to look after the lower reaches of the channel without neglecting their work at the sluices.

5. In paragraph 32 of Mr. Rundall's report, printed with G.O., No. 1706 F.R., of 5th September 1878, it is stated that six lascars are necessary for the proper conservancy of this channel, to which the Executive Engineer adds that they are still necessary now.

6. I therefore request that sanction may be obtained to the entertainment of three additional lascars on the permanent establishment of the Govindavadi channel.

7. A statement of proposition for the increase of establishment is enclosed.

GOVERNMENT OF MADRAS.

PUBLIC WORKS DEPARTMENT.

General.
Establishment.

READ—the following papers:—

From K. F. NORDMANN, Esq., Executive Engineer, North Arcot division, to the Superintending Engineer, V Circle, dated Pálár, 18th February 1885, No. 467 S.E.

In submitting a statement of proposition for revision of the irrigation conservancy establishment of the Pálár anicut system, in form No. 184, I have the honor to inform you that the pay of Rs. 4-8-0 per mensem which is given to the lascars of the Pálár establishment is less than what lascars employed at Poiney and Cheyaur anicuts receive.

2. The Pálár lascars represent that the sum of Rs. 4-8-0 is insufficient and request that the rate of Rs. 5 allowed to the lascars at the Poiney and Cheyaur anicuts be extended to them also.

3. I consider, and so did my predecessor, that the request of the lascars is very reasonable. I accordingly beg to recommend the increase which the lascars have applied for.

4. Fifteen lascars are sanctioned for the Pálár anicut system, twelve of these lascars are attached to the northern section of the system, and the remaining three to the southern section.

5. The three lascars attached to the southern section have got to look after the Dusi tank and channel in addition to the anicut head works and their channels.

6. It is considered very desirable to have two lascars always attached to the anicut head works and their channels for a distance of 2 miles from the head on the southern side, and I therefore request sanction for two new men, who together with the third can look after the conservancy of the channels from the 2nd mile downwards and the Dusi-Mamundur tank and channel.

7. If this arrangement be not carried out, I fear the anicut head works and their channels from the first 2 miles on the southern side will not be looked after as carefully as they should be.

8. The statement of proposition now submitted therefore includes two new men on Rs. 5 each and an increase of annas 8 for each of the fifteen men already borne on the conservancy establishment of the Pálár anicut system.

9. The following is a list showing the distribution of the fifteen lascars of the system:—

	NO.
Northern Section.	
Pálár anicut head works	4
Mahindravady channel	3
Govindavady channel	3
Cauvaripauk tank and channel	2
Southern Section.	
Pálár anicut head works—Dusi-Mamundur tank and channel	3
	15

No. 1499.

Endorsement on the above.

Submitted to the Chief Engineer for Irrigation.

2. I recommend that the proposed increase may be sanctioned for the reasons given by the Executive Engineer.

3. The establishment on the southern side is considerably insufficient, the Dastmamoor tank being 20 miles distant from the head works.

(Signed) H. L. PRENDERGAST, Colonel, R.E.,
Superintending Engineer, V Circle.

Dated March 1885.

SUPERINTENDING ENGINEER'S OFFICE,
V CIRCLE, [redacted]
Bangalore 22nd December 1883

From

THE SUPERINTENDING ENGINEER,
V CIRCLE,

To

THE Chief Engineer
for Irrigation.

SIR,

I have the honor to bring to your notice that the Executive Engineer North Circle Division reports that the Establishment at present allowed for the Gowrindavady channel viz one Superintendent and 3 Kaseards is too small for the work required.

2. These men have charge of the Division Sluices at the place where the Gowrindavady branches from the Kaveripoorka Sp to supply and also the first 8½ miles below these sluices.

3. The channel has this year been considerably improved and much work is being carried on in the lower parts of the channel; these new embankments are very much injured by cattle.

4. The Superintendent and 3 Kaseards have quite as much as they can do in attending

Enclosures.
Statement

to

to the Diversion Sluices and the first few miles of the Channel, and it is Mr Dyer's opinion quite impossible for them to look after the lower reaches of the Channel without neglecting their work at the Sluices.

5. In para 32 of Mr Randall's report printed with G.O. No 1706 P.R. of 5th Sept 1899 it is stated that five lascars are necessary for the proper conservancy of this Channel & which Commission the Executive Engineer adds that they are still necessary now.

6. I therefore request that sanction may be obtained to the entertainment of 3 additional lascars per the permanent establishment of the Govindwaddy Channel.

7. A Statement of proposals for the increase of establishment is enclosed.
