READ—the following paper :—

No. 72 E.W.

Note by the Chief Engineer for Irrigation.

In reply to paragraph 2 of G.O., No. 1914 W., dated 7th August 1884, the Superintending Engineer, VI Circle, has, with his letter, No. 749 T.J., dated 16th August 1884, submitted an estimate, amounting to Rs. 2,300, for the temporary establishment and preliminary expenses required for investigating the Lower Coleroon Anicut Irrigation Project, by forming a new Project division to work under Executive Engineer Mr. Lobb. The work to be taken up is partly in the Tanjore and partly in the South Arcot district. Mr. Lobb has therefore been directed to consider himself directly under the orders of this office, and the Superintending Engineers concerned have been requested to furnish, through this office, instructions as to work to be done.

2. The estimate received from the Superintending Engineer, VI Circle, provides only for the work to be taken up in the Tanjore district, and not for the entire project. The following temporary establishment for six months is therefore recommended for the sanction of Government :—

	Monthly Salary.
	RS.
1 Draughtsman	50
1 Do.	35
1 Clerk	30
1 Do.	20
2 Lascars at Rs. 7 each	14
4 Do. at " 6 "	24
2 Overseers at Rs. 100 each	200
2 Do. at " 80 "	160
24 Lascars at " 6 "	144
Contingencies	677
	23
Total	700

3. Four overseers with six lascars for each have been proposed for taking surveys and levels, one for the South Rajen Voikal channel in the Tanjore district, one for the river on both sides, and two for the channels in the South Arcot district. To enable Mr. Lobb to start work without delay, he has, in anticipation of sanction, been provided with a clerk on Rs. 30 and two lascars on Rs. 7, and arrangements are being made to appoint one overseer on Rs. 100. It is suggested that three overseers of practical experience in surveying and levelling may be selected from the ordinary permanent establishment and detached for duty under Mr. Lobb, their places being filled up by temporary men.

4. The Superintending Engineer, V Circle, should sanction estimates for preliminary expenses required for the investigation of the project, the expenditure being met from the grant for minor original works in the South Arcot division.

5. Mr. Lobb has been directed to proceed forthwith to Cuddalore, to obtain from the Executive Engineer of the South Arcot division such information as he may be able to afford, and to report, after reference to the Superintending Engineer, V Circle, at what place his head-quarters should be fixed.

CHEPÂK,
28th August 1884.

(Signed) A. S. RUSSELL,
for Chief Engineer for Irrigation.

To the Chief Engineer, Public Works Department.

ORDER—dated 3rd September 1884, No. 2167 W., Public Works.

The proposals of the Chief Engineer for Irrigation are approved, and the estimate, amounting to Rs. 4,200, for temporary establishment to be employed under Mr. Lobb, is sanctioned as a charge against the budget grant for temporary establishment.

2. The latter part of paragraph 3 of the Chief Engineer's note will be dealt with by the Chief Engineer, Public Works Department.

3. The sanction accorded in paragraph 1 has been registered as Provincial No. 40 W. of 1884-85, and classified as Establishment, Temporary.

17TH JULY 1885, No. 1666 W., PUBLIC WORKS.

GOVERNMENT OF MADRAS.

PUBLIC WORKS DEPARTMENT.

General.
Establishment.

READ—the following papers :—

From Colonel J. BEATTY, R.E., Superintending Engineer, IV Circle, to the Chief Engineer for Irrigation, dated Wellington, 16th June 1885, No. 62 E.I.

With reference to your memorandum, No. IV/5 C.I., of 28th ultimo, I have the honor to forward, herewith, two statements, furnished by the Executive Engineer, "B" Project division, of the funds required for investigating projects in that division during 1885-86.

2. No orders have been passed as to whether the "B" Project division is to be abolished on the completion of the Calingaroyen extension project estimates, or is to be carried on afterwards to complete the investigation of the Krishnagiri and Bhavani projects.

3. Statement No. I, therefore, provides for going on with the Krishnagiri surveys after the Calingaroyen surveys are finished. This statement shows a probable outlay of Rs. 10,534.

4. Statement No. II, showing a probable outlay of only Rs. 3,240, assumes that the division will be abolished when the Calingaroyen estimates are completed.

5. As the Krishnagiri and Bhavani projects are very promising ones, and a large amount of survey and levelling has been already done upon them, it is very desirable that, if possible, funds should be found for completing the surveys and estimates.

6. The amount applied for does not include office establishment, as this is provided for under "Permanent" in the Provincial budget.

7. I forward the Executive Engineer's covering letters, as they give some explanation of the circumstances under which the statements were framed.

No. 65 E.W.

Transferred to the Chief Engineer, Public Works Department, with a recommendation that the "B" Project division should be continued throughout the year.

2. The estimate submitted by the Superintending Engineer supposes that the services of a temporary Assistant Engineer are required, the projects being prepared in a sub-division of the Coimbatore division. If, however, the services of a permanent Assistant or Executive Engineer are available, the estimate will be reduced by the pay of the Assistant Engineer.

3. It seems very desirable that the projects, which are so far advanced, should be worked out completely, and it is hoped that there may be no difficulty in providing the funds required for expenditure in this year. If the Project division is abolished, a great deal of the expenditure already incurred in investigation at Krishnagiri and Bhavani will necessarily be a dead loss.

OOTACAMUND,
24th June 1885.

(Signed)

J. O. HASTED, Colonel, R.E.,
Chief Engineer for Irrigation.

To the Chief Engineer, Public Works Department.

No. 66 E.W.

Note by the Chief Engineer for Irrigation.

No provision having been made in the current year's budget estimate of expenditure on irrigation works for funds required for the "B," "C," and the Lower Coleroon Irrigation Project divisions, the Superintending Engineers concerned were requested to report the amounts required to be provided for the purpose. The following statement, prepared from the replies received from the Superintending Engineers, III and VI Circles, shows the amounts required for expenditure in the "C" and the Lower Coleroon Irrigation Project divisions:—

	Works.	Establishment.	Tools and Plant.	Total.
	RS.	RS.	RS.	RS.
"C" Project Division.				
Tungabhadra project	500	6,333	80	6,913
Hagari-Mylapore reservoir project	1,750	3,800	50	5,600
Hagari-Rayadrug project	1,750	3,800	50	5,600
Pootlacoonta project	600	1,267	20	1,887
Total ...	4,600	15,200	200	20,000
Lower Coleroon Irrigation Project Division.				
Lower Coleroon irrigation project	5,000	18,000	2,000	25,000
Grand Total ...	9,600	33,200	2,200	45,000

2. The amounts entered under Works are required for clearing jungle, fixing bench marks, and other preliminary expenses.

3. The particulars of the amounts entered under Establishment are as shown below:—

	"C" PROJECT DIVISION.		LOWER COLOERON IRRIGATION PROJECT DIVISION.	
	Number.	Amount.	Number.	Amount.
		RS.		RS.
Executive Engineer	1	700	1	700
Overseers	...	...	4	320
Surveyors	2	200	...	...
Draftsmen	2	103	2	80
Clerks	1	18	2	50
Messengers	2	12	2	14
Lascars	3	18	30	180
Total per mensem ...	...	1,051	...	1,344
Total per annum ...	...	12,612	...	13,440
Travelling allowance and contingencies ...	...	2,588	...	4,560
Total ...	...	15,200	...	18,000

The "C" Project division establishment will continue throughout the year, while the Lower Coleroon Irrigation Project division establishment will continue only for ten months.

4. For the "C" Project division Rs. 3,246 for office establishment and Rs. 600 for contingencies are provided at pages 39 and 42 of the current year's budget estimate of expenditure from Provincial funds in the Roads and Buildings branch. It is therefore requested that Rs. 11,354 for the "C" Project division and Rs. 18,000

for the Lower Coleroon Irrigation Project division may be appropriated from the provision for temporary establishment in the Provincial budget, Roads and Buildings, and the amounts required for both the divisions under Works and Tools and Plant may be appropriated from the balance of the reserve at the disposal of Government under Provincial, Roads and Buildings, the total estimate of expenditure in the two divisions, viz., Rs. 45,000, being transferred from Roads and Buildings to Irrigation and Navigation.

OOTACAMUND,
27th June 1885.

(Signed) J. O. HASTED, Colonel, R.E.,
Chief Engineer for Irrigation.

To the Chief Engineer, Public Works Department.

ORDER—dated 17th July 1885, No. 1666 W., Public Works.

The Government approve the continued employment of the establishment for the "B" Project division to the end of the current official year, as recommended by the Chief Engineer for Irrigation.

2. In the papers recorded above, the Chief Engineer for Irrigation recommends the transfer of the following funds from Provincial, Buildings and Roads, to Provincial, Irrigation and Navigation, to meet expenditure in the "B," "C," and Lower Coleroon irrigation projects:—

"B" Project division—							RS.
Works and tools and plant	...	...	...	...	...	...	1,534
Establishment	...	...	...	...	...	...	9,000
							10,534

"C" Project division—							RS.
Works and tools and plant	...	...	...	...	...	...	4,800
Establishment	...	...	...	...	...	...	15,200
							20,000

Lower Coleroon Irrigation Project division—							RS.
Works and tools and plant	...	...	...	...	...	...	7,000
Establishment	...	...	...	...	...	...	18,000
							25,000

Grand Total for three divisions—							RS.
Works and tools and plant	...	...	...	...	...	...	13,334
Establishment	...	...	...	...	...	...	42,200

Total ... 55,534

3. To provide for the cost of establishment, a sum of Rs. 42,200 is transferred from the grant for establishment under Provincial, Roads and Buildings, which is set free by the grant under Provincial, Irrigation and Navigation, being treated as a contribution.

4. The balance available from the Public Works reserve being small, the question of allotting, if possible, a special grant of Rs. 13,334 under Provincial, Irrigation and Navigation, to provide for the cost of works and tools and plant in the Project divisions during 1885-86, will be considered in the Financial Department. The Government, in the Public Works Department, agree with the Chief Engineer for Irrigation that it is most desirable that the projects, which are so far advanced, should be worked out completely.

5. The Superintending Engineer, IV Circle, will submit, for sanction of Government, a proposition statement in prescribed form for the temporary surveyors and gaugers required in the "B" Project division.

No. 386 of 1885. Dated 30th }
Sept 30th } June 1885.

Sir,

I have the honor to request
Sanction to the Entertainment of another
Draughtsman for this office for the follow-
ing reasons:—

2. Owing to the difficulty in ob-
taining men suitable for the work, I
had no Draughtsman under me till the
End of last February & the Head Draughtsman
did not arrive till the 30th March last.

3. When the draughtsman did join
I had to plot a deal of work that should
have been done by the overseers. This I
was

was obliged to do owing to the slow progress they were making and to enable me to get the most important part of the work completed before the commencement of the present monsoons

4. In consequence of these delays I find it impossible to get the fair copies "of the work done" finished up to date

5. Under these circumstances, I beg to recommend the entertainment of a first class Draughtsman on Rs 80 per mensem which in the end will be a saving, as I can easily supervise a larger Establishment, thereby reducing the length of the period for which my services will otherwise be required.

6. This arrangement will not cause any excess over the present sanctioned Estimate as there has been a saving of Rs 85 per mensem on the pay of Draughtsmen for a period of more than six months

I have etc
150/ J. Lobb
Ex: Engr L. C. I. P. D.

No 585 T. J

True Copy / Forwarded to the Chief Engineer for Irrigation with a request that the sanction asked should be granted as it is important that the work of Survey & levels should be properly plotted without delay.

2. As the sanction given in G.O. No 2167. W. dated 3rd Sept. /84 is for 2 draughtsmen, it is believed that sanction will be required for the entertainment of a 3rd one notwithstanding that the cost can be met from the amount Sanctioned

No. 481. TC

From

The Superintending Engineer,

6th Circle.

To

The Chief Engineer
for Irrigation

Sir,

ENCLOSURE.

I have the honor to
inform you that on receipt of G. O. No.
1767. W. & S. of 27th July 1885, sanctioning the
retentainment of a temporary draftsman
on Rs. 80 per mensem for Lower Column
Irrigation Project Division, the
Executive Engineer tried his best to
procure the services of an experienced
and first class man; but proving
unsuccessful, I was obliged to ap-
point my 2^d Draftsman to act
for Rs 80 and the 2^d Draftsman Govin-
dram Pillay of the Trichinopoly
Ga to act for him

The

The Examiner takes exception to this arrangement on the ground that Govindasawmy Pillay has only passed for 2^d Class and that he is not entitled to draw the minimum pay of a 1st Class Draughtsman. I am, however, of opinion that according to the Code rules he may draw up to Rs 50 being the maximum pay of a Second Class Draftsman. He will not be considered a first class Draftsman and will not be entitled to annual increments.

I made these arrangements for the benefit of public service and to avoid delay in the preparation of plans and estimates of the Project, as otherwise the services of experienced men could not be secured.

I, therefore, request that, as the acting appointments are only temporary, the sanction of Government may be obtained to enable the

the Examiner to pass Rs 50 pay per mensem to Govindasawmy Pillay from the date of his appointment to the acting post.

I have the honor to be,

Sir,

your most obed^t Servant

M. M. M. C. B. R.

Supty Engineer Circle

allowed to draw the minimum pay (Rs. 35 per mensem) of that class against the vacancy in the higher class.

2. The Supg. Engineer proposes that Govindasawmy Pillay may be allowed to draw Rs. 50 per mensem the maximum pay of draftsman 2nd. Class vide Section 43(b) Pay and Acting Allowance Code.
